ADMINISTRATION, COLLECTION,
AND INSPECTION**

GENERAL TAX ORDINANCE OF ADMINISTRATION, COLLECTION, AND INSPECTION

Current wording in accordance with the modifications approved by
agreement of the Plenary Session of the City Council of 29th December
2016

TABLE OF CONTENTS

TITLE I. GENERAL TAX RULES

- Article 1. Nature of the ordinance
- Article 2. Territorial scope of application
- Article 3. Municipal tax Administration
- Article 4. Timeframe of tax regulations
- Article 5. Prohibition of the analogy
- Article 6. Instructions and circulars

TITLE II. TAXES

CHAPTER I. MUNICIPAL TAXES

- Article 7. Concept, aims, and tax types
- Article 8. Rates
- Article 9. Special contributions
- Article 10. Taxes proper

CHAPTER II. THE LEGAL-TAXATION RELATIONSHIP

- Article 11 The legal-taxation relationship

CHAPTER III. THE MAIN TAX OBLIGATION

- Article 12. The main tax obligation
- Article 13. Liability
- Article 14. Accrual and demandability
- Article 15. Tax inducements

CHAPTER IV. ACCESSORY TAX OBLIGATIONS

- Article 16. Accessory tax obligations
- Article 17. Interest in arrears
- Article 18. Surcharges for late declaration without a prior summons
- Article 19. Surcharges of the enforcement period

CHAPTER V. TAXPAYERS

SECTION 1. TYPES OF TAXPAYERS

Article 20. Taxpayers

Article 21. Taxpayers: ratepayers and replacement ratepayers

SECTION 2. SUCCESSORS

Article 22. Successors of natural persons

Article 23. Successors of corporate persons and entities without personality

SECTION 3. TAX RESPONSIBILITY

Article 24. Tax responsibility

Article 25. Those jointly and severally responsible

Article 26. Those subsidiarily responsible

SECTION 4. TAX ADDRESS

Article 27. Tax address

CHAPTER VI. TAX DEBT

SECTION 1. GENERAL PRECEPT

Article 28. Tax debt

SECTION 2. THE PAYMENT

SUBSECTION 1. GENERAL REGULATIONS

Article 29. Legitimacy, place of payment, and form of payment

Article 30. Means and time of paying in cash

Article 31. Payment by cheque

Article 32. Payment by credit or debit card

Article 33. Payment by bank transfer

Article 34. Payment by direct debiting

Article 35. Payment by money order

Article 36. Proof and certificates of payment

SUBSECTION 2. POSTPONING AND SPLITTING PAYMENTS

Article 37. Postponable debts

Article 38. Application

Article 39. Guarantees

Article 40. Processing

GENERAL TAX ORDINANCE OF ADMINISTRATION, COLLECTION, AND INSPECTION

- Article 41. Interest
- Article 42. Effects of failure to pay

SUBSECTION 3. "A LA CARTE PAYMENT"

- Article 43. Concept
- Article 44. Requirements
- Article 45. Application
- Article 46. Determination of the amount for its distribution in instalments
- Article 47. Methods of "a la carte payment"
- Article 48. Rebate
- Article 49. Modifications at the request of the interested party
- Article 50. Automatic modifications
- Article 51. Control of surpluses
- Article 52. Cancelling "a la carte payment"
- Article 53. Imputation of advance payment
- Article 54. Receipts and settlements
- Article 55. Refund of surplus
- Article 56. Notifications
- Article 57. Failure to pay

SECTION 3. LAPSING

- Article 58. Expiry periods and calculation and interruption of the deadlines
- Article 59. Extension and effects of the lapsing

SECTION 4. OTHER WAYS OF PAYING THE TAX DEBT

- Article 60. Compensation
- Article 61. Official compensation for debts to the Municipal Treasury
- Article 62. Compensation at the request of the taxpayer
- Article 63. Automatic compensation of debts between Public Entities
- Article 64. Abatement
- Article 65. Temporary cancellation owing to insolvency
- Article 66. Low-amount economic rights

SECTION 5. GUARANTEES OF THE TAX DEBT

- Article 67. Right of priority
- Article 68. Tacit legal mortgage
- Article 69. Affect on assets
- Article 70. Precautionary measures

TITLE III. THE APPLICATION OF TAXES

CHAPTER I. GENERAL PRINCIPLES

- Article 71. Scope of application of taxes
- Article 72. Duty of information and assistance to taxpayers
- Article 73. Written tax enquiries

CHAPTER II. RULES COMMON TO TAX ACTION AND PROCEDURES

- Article 74. Regulation of tax action and procedures

SECTION 1. STAGES OF TAX PROCEDURES

- Article 75. Initiation
- Article 76. Carrying out of tax action and procedures
- Article 77. Proof in tax procedures
- Article 78. Means and assessment of proof

- Article 156. Content of the right to the refunding of undue payments
- Article 157. Initiation
- Article 158. Development
- Article 159. Resolution
- Article 160. Making the refund

CHAPTER III. APPEAL FOR REVERSAL

- Article 161. Objective and nature
- Article 162. Competence for resolving
- Article 163. Period for lodging the appeal
- Article 164. Legitimacy
- Article 165. Representation and technical management
- Article 166. Initiation
- Article 167. Access to the record
- Article 168. Presentation of the appeal
- Article 169. Suspension of the ruling challenged
- Article 170. Other interested parties
- Article 171. Extension of the revision
- Article 172. Resolution of the appeal
- Article 173. Form and content of the resolution
- Article 174. Notification of the resolution

GENERAL TAX ORDINANCE OF ADMINISTRATION, COLLECTION, AND INSPECTION

- Article 175. Challenging of the resolution
Article 176. System for challenging the rulings and normative local precepts

CHAPTER IV. SPECIAL PRECEPTS

SECTION 1. SPECIAL RULES FOR THE ENFORCING OF ECONOMIC-ADMINISTRATIVE RESOLUTIONS AND SENTENCES

- Article 177. Compliance with the economic-administrative resolution
Article 178. Enforcement of sentences

SECTION 2. REIMBURSEMENT OF THE COST OF THE GUARANTEES

- Article 179. Reimbursement of the cost of the guarantees
Article 180. Initiation
Article 181. Development
Article 182. Resolution

SECTION 3. EXTRAORDINARY APPEAL OF REVISION

- Article 183. Objective and regulation

ADDITIONAL PRECEPT

- One. Collection of other public law payments
Two. System of "a la carte payment"
Three. No sex discrimination

ABROGATIVE PRECEPT

- One and only. Repeal of the previous General Tax Ordinance

FINAL PRECEPTS

- One. Street Tax Index
Two. Coming into effect
Three.

TITLE I

General tax rules

Article 1. *Nature of the ordinance.* 1. This ordinance is issued in accordance with that set down in Article 106.2 of Law 7/1985 of 2nd April regulating the Local System Conditions as a development of that established in Royal Legislative Decree 2/2004 of 5th March, approving the revised text of the Law regulating Local Properties and equally as a development of point e) of Article 7 and the Fourth Additional Precept of Law 58/2003 of 17th December on General Taxation and the remaining concordant rules.

2. It contains the rules applicable to the exercising of the powers of the Municipality in the matters of administration, settlement, inspection, collection, and revision of municipal tax rulings insofar as these duties are carried out directly by the same.

Article 2. *Territorial scope of application.* This ordinance will be applicable in the whole of the municipal district of Madrid.

Article 3. *Municipal tax Administration.* 1. To the effects of this ordinance the municipal tax Administration will consist of the bodies of public law which in the scope of their responsibilities will carry out the duties regulated in Titles III to VII of the same.

2. The application of the taxes and the exercising of penalising powers corresponds to the Area of competence regarding the Treasury insofar as they have not been expressly entrusted to another body of public law and without detriment to the powers attributed to the Mayor in letters b), c), and k) of Article 124.4 of Law 7/1985 of 2nd April regulating the Local System Conditions.

In the terms contemplated in its regulations, said powers correspond to the "Madrid Tax Office".

Article 4. *Timeframe of tax regulations.* Unless stated to the contrary, tax regulations will not be retroactive and will be applied to taxes without an assessable period accrued as from their coming into effect and to the remaining taxes with an assessable period that is initiated from that moment.

Nevertheless, the rules regulating the system of tax offences and penalties and that of surcharges will be retroactive regarding rulings that

are not definitive when their application is more advantageous for the interested party.

Article 5. *Prohibition of the analogy.* The analogy will not be accepted to extend beyond its strict terms the scope of the liability, of exemptions, and other tax inducements or incentives.

Article 6. *Instructions and circulars.* Within the scope of the powers of the City Council, that of issuing instructions and circulars interpreting or clarifying tax regulations corresponds exclusively to the holder of the competent Area regarding the Treasury.

TITLE II

Taxes

CHAPTER I

Municipal taxes

Article 7. *Concept, aims, and tax types.* 1. Municipal taxes themselves are the public revenues consisting of cash benefits demandable by the City Council of Madrid as a consequence of the carrying out of the assumption to which the law binds the duty to contribute, with the essential aim of obtaining the necessary income for sustaining public expenses.

2. Whatever their denomination, taxes will be classified as rates, special contributions, and taxes properly speaking.

Article 8. *Rates.* The City Council of Madrid may establish and demand rates for the providing of services or the carrying out of activities of its competence and for the exclusive use or special exploitation of the assets of municipal public domain, according to the rules contained in the revised text of the Law regulating Local Properties.

Article 9. *Special contributions.* The City Council of Madrid may establish and demand special contributions for carrying out works or for the establishing or expanding of municipal services, according to the rules contained in the revised text of the Law regulating Local Properties.

Article 10. *Taxes proper.* 1. In accordance with the revised text of the Law regulating Local Properties, the precepts developing it, and the corresponding tax ordinances, the City Council of Madrid will demand the following taxes:

- a) Property Tax.
- b) Business Tax.
- c) Motor Vehicle Tax.

2. The City Council of Madrid may likewise establish and demand the Tax on Constructions, Installations, and Works and the Tax on the Increase in Value of Urban Land, in accordance with the revised text of the Law regulating Local Properties, the precepts developing it, and the respective tax ordinances.

CHAPTER II

The legal-taxation relationship

Article 11. *The legal-taxation relationship.* 1. The legal-taxation relationship is understood to constitute the obligations and duties, rights, and powers originated by the application of the taxes as a whole.

2. Material and formal obligations for the taxpayer and for the Administration may derive from the legal-taxation relationship, in addition to the imposing of tax penalties in the event of non compliance.

3. Material tax obligations are those of a major nature, those of making payments on account, and those established between private individuals resulting from the tax and the accessories. Formal tax obligations are those defined in Article 29 of the General Law on Taxation.

4. The elements of tax obligation may not be altered by rulings or agreements of private individuals, which will not have any effect regarding the Administration, without detriment to their legal and private consequences.

CHAPTER III

The main tax obligation

Article 12. *The main tax obligation.* The objective of the main tax obligation is the payment of tax charges.

Article 13. *Liability.* 1. The liability is the budget fixed by law to shape each tax, the meeting of which is the origin of the main tax

obligation.

2. The law may complete the delimitation of the liability by means of the mentioning of cases not subject to it.

Article 14. *Accrual and demandability.* 1. Accrual is the moment when the liability is understood to be met and which is the origin of the main tax obligation.

The date of the accrual determines the relevant circumstances for the shaping of the tax obligation, unless the law of each tax should stipulate otherwise.

2. The specific law for each tax may establish the enforceability of the charge or amount to pay or of part of the same at a time other than that of the accrual of the tax.

Article 15. *Tax inducements.* 1. Other tax inducements in local taxation than those expressly contemplated in rules of legal standing or those deriving from the application of international treaties will not be recognised.

2. Nevertheless, the tax inducements established in the respective tax ordinances that will include substantive and formal elements in the regulation of the former may also be recognised, with the limits and in the cases specifically contemplated by law.

3. Without detriment to that established in the rules regulating each tax, in those cases in which the tax inducement is to be granted at the request of the interested party the application must be presented:

a) When it is a case of periodic taxes administered by means of a census or register, within the deadline established in the respective ordinance for the presentation of the mandatory declarations of registration or modification.

If it is not a case of registration on the corresponding census or register, the right to the tax inducement will come into effect as from the period following that when the application was presented.

Once it has been granted, the tax inducement will be applied in the successive settlements as long as the circumstances in practice or in law that determined its granting are not altered, in which case that established in Point 3 of Article 95 of this ordinance will be followed.

b) When it is a case of taxes in which the self-assessment system is

established, within the deadline for the presentation of the corresponding self-assessment.

c) In the remaining cases, within the deadlines for the presentation of the corresponding tax return or at the time of the presentation of the application for the permission or authorisation determining the origin of the tax obligation, as appropriate.

4. The onus for providing the proof of the combination of the requirements established by the regulations for each tax for the enjoyment of the tax inducements lies with the taxpayer.

CHAPTER IV

Accessory tax obligations

Article 16. Accessory tax obligations. These obligations are cash payments that must be made to the tax Administration and which are required in relation to another tax obligation, the obligations of paying interest in arrears, surcharges owing to late declarations, and the surcharges of the enforcement period together with any others imposed by law.

Article 17. Interest in arrears. 1. Interest in arrears is an accessory payment that will be demanded under the conditions contemplated in the General Law on Taxation and in this ordinance, among others in the following cases:

a) When the deadline expires for the voluntary payment of a debt resulting from a settlement or the amount of a penalty without the payment having been made.

b) When the deadline for the presentation of a self-assessment or tax return expires without it having been presented or when it has been presented incorrectly, with the exception of that set down in Article 18 of this ordinance relating to the presentation of late declarations without a prior summons.

c) When the enforcement of the ruling is suspended, except in the case of claims against penalties during the time that passes until the expiry of the voluntary payment period opened by the notification of the resolution that puts an end to administrative action.

d) When the enforcement period is initiated, except for that set down in Point 5 of Article 19 of this ordinance concerning interest in arrears when the enforcement surcharge or the reduced distraint surcharge is

demandable.

e) When the taxpayer has obtained an inadmissible refund.

f) In cases of postponement or payment by instalments.

2. The interest in arrears will be the legal interest on money valid throughout the period during which it is demandable, increased by 25 per cent unless the Law on General State budgets establishes a different rate.

Nevertheless, in the cases of postponement, payment by instalments, or the suspension of debts endorsed in their totality by means of a joint and several guarantee from a credit institution or a mutual guarantee company or by means of a surety insurance certificate, the interest in arrears demandable will be the legal interest.

3. When the tax ordinances contemplate this possibility, interest in arrears will not be demanded in those agreements of postponement or payment in instalments that have been requested during the voluntary payment period, under the conditions and terms contemplated in the respective ordinance, provided that these refer to debts of a periodic expiry and collective notification and that the total payment of these occurs during the same accounting period as that of its accrual.

Article 18. Surcharges for late declaration without a prior summons. 1. Surcharges for late declaration are accessory payments that must be made by taxpayers as a consequence of the presentation of self-assessments or tax returns after the deadline without the prior summons of the tax Administration.

To the effects of this article a prior summons will be considered to be any administrative action carried out with the formal knowledge of the taxpayer leading to the recognition, regularisation, checking, inspection, guaranteeing, or settlement of the tax debt.

2. If the self-assessment or tax return is presented within the 3, 6, or 12 months following the expiry of the deadline established for the presentation and payment, the surcharge will be 5, 10, or 15 per cent respectively. Said surcharge will be calculated on the amount to be paid resulting from the self-assessments or on the amount of the settlement deriving from late returns and will exclude the penalties that could have been required and the interest in arrears accrued until the presentation of the self-assessment or tax return.

If the self-assessment or settlement is presented once 12 months have passed since the expiry of the deadline established for presentation, the surcharge will be 20 per cent and will exclude the penalties that could have been demanded. In these cases the interest in arrears will be demanded for the period running from the day following the end of the 12 months subsequent to the end of the deadline established for the presentation up until the time when the self-assessment or the tax return has been presented.

In settlements deriving from tax returns presented after the deadline without a prior summons interest in arrears will not be demanded for the time that has passed from the presentation of the return to the end of the deadline for payment within the voluntary period corresponding to the settlement made, without detriment to the surcharges and interest that correspond to late presentation.

3. When taxpayers neither make the payment nor present an application for postponement, payment by instalments, or compensation at the time of the presentation of the late self-assessment, the administrative settlement that is appropriate in the form of surcharges and interest in arrears deriving from late presentation according to that set down in the previous point will not prevent the demand for the corresponding surcharges and interest of the enforcement period on the amount of the self-assessment.

Article 19. Surcharges of the enforcement period. 1. The surcharges of the enforcement period are accrued with the initiation of said period.

The surcharges of the enforcement period are of three types: enforcement surcharge, reduced distraint surcharge, and ordinary distraint surcharge.

Said surcharges are incompatible between themselves and are calculated on the totality of the debt not honoured during the voluntary payment period.

2. The enforcement surcharge will be 5 per cent and will be applied when the totality of the debt not honoured during the voluntary payment period is paid before the notification of the distraint order.

3. The reduced distraint surcharge will be 10 per cent and will be applied when the totality of the debt not honoured during the voluntary payment period and the surcharge itself is paid before the end of the

deadline contemplated in Point 3 of Article 115 of this ordinance.

4. The ordinary distraint surcharge will be 20 per cent and will be applicable when the circumstances referred to in Points 2 and 3 of this Article occur.

5. The ordinary distraint surcharge is compatible with interest in arrears. When the enforcement surcharge or the reduced distraint charge are demandable, the interest in arrears that has accrued from the start of the enforcement period will not be demanded.

CHAPTER V

Taxpayers

SECTION 1. TYPES OF TAXPAYERS

Article 20. *Taxpayers.* 1. Taxpayers are those natural or corporate persons and entities on which tax regulations impose compliance with tax obligations.

2. Taxpayers are those indicated by the General Law on Taxation, among others:

- a) Ratepayers.
- b) Substitute ratepayers.
- c) Successors.
- d) The beneficiaries of cases of exemption, return, or tax rebates when they are not classed as taxpayers.

3. Taxpayers will also be considered to be those on whom the tax regulations impose compliance with formal tax obligations.

4. In the laws establishing the same, taxpayers will also be considered to be unsettled estates, community estates, and other bodies which lack legal personality and constitute an economic unit or a separate estate liable to taxation.

5. Those responsible for the tax debt either jointly and severally or subsidiarily referred to in Article 24 of this ordinance will likewise be considered to be taxpayers.

6. The coming together of several taxpayers in the same budget of an obligation will determine that they are jointly and severally obliged to the municipal tax Administration to comply with all payments, unless otherwise expressly stipulated by law.

When the Municipal Administration only knows the identity of a holder it will apply and notify tax settlements in the name of the same, who will be obliged to pay them if it does not request their division. To this effect, for division to be appropriate it will be essential for the applicant to provide the personal details and the addresses of the remaining parties liable for tax, in addition to the proportion in which each of them participates in the domain or right transmitted.

Article 21. *Taxpayers: ratepayers and replacement ratepayers.* 1. The taxpayer is the party liable to tax which according to the ordinance for each tax and in accordance with the law must comply with the main tax obligation, together with the formal obligations inherent to the same, either as a ratepayer or as a replacement for the same.

2. The ratepayer is the taxpayer complying with the liability.

3. The replacement ratepayer is the taxpayer, by the imposition of the law and the tax ordinance regulating the tax and in place of the ratepayer, which is obliged to comply with the main tax obligation together with the formal obligations inherent to the same.

The replacement ratepayer may demand from the ratepayer the amount of the tax obligations paid, unless otherwise indicated by law.

SECTION 2. SUCCESSORS

Article 22. *Successors of natural persons.* 1. On the death of taxpayers their pending tax obligations will be transferred to their heirs, without detriment to that established by civil legislation as to the acquiring of the inheritance.

The aforementioned tax obligations will be transmitted to the legatees under the same conditions as those established for the heirs when the inheritance is distributed in the form of legacies and in the cases in which legacies are created as a proportional part.

Penalties will not be transferred under any circumstances. Neither will the obligation of the person responsible be transferred unless the agreement of the derivation of responsibility has been notified before the death.

2. The transfer to the successors of the tax obligations accrued will not be prevented by the fact that on the date of the death of the principal the tax debt has not been liquidated, in which case the actions will be understood to be with any of them; the settlement resulting from said actions must be notified to all the interested parties appearing in the proceedings.

3. While the inheritance is unsettled, compliance with the tax obligations of the principal will correspond to the representative of the unsettled inheritance or to whom should be considered as such according to Point 3 of Article 45 of the General Law on Taxation.

The administrative actions with the objective of the quantification, determination, and settlement of the tax obligations of the principal must be carried out or continued with the representative of the unsettled inheritance. If at the end of the procedure the heirs should not be known, the settlements will be applied in the name of the unsettled inheritance.

The tax obligations referred to in the previous paragraph and those transmissible owing to the death may be paid from the assets of the unsettled inheritance.

4. In these cases the collection procedure will be that established in Point 1 of Article 177 of the General Law on Taxation.

Article 23. Successors of corporate persons and entities without personality. 1. The pending tax obligations of the companies and entities with legal personality dissolved and settled in which the law limits the net worth responsibility of the members, stakeholders, or co-owners will be transmitted to the latter, which will be jointly and severally obliged up to the limit of the value of the charge of settlement corresponding to them.

The pending tax obligations of the companies and entities with legal personality dissolved and liquidated in which the law does not limit the net worth responsibility of the members, stakeholders, or co-owners will be transmitted in full to the latter, which will be jointly and severally obliged to comply with them.

2. The fact that the tax debt is not settled at the time of the cancellation of the legal personality of the company or entity will not prevent the transmission of the tax obligations accrued to its successors; actions with any of them can be understood.

3. In cases of the extinction or dissolution without settlement of

corporations, the tax obligations pending the same will be transmitted to the succeeding persons or entities or those which are the beneficiaries of the corresponding operations. This rule will also be applicable to any case of overall transfer of the assets and liabilities of a corporation.

4. In the case of the dissolution of the foundations or entities referred to in Point 4 of Article 35 of the General Law on Taxation, the tax obligations pending the same will be transmitted to the recipients of the assets and rights of the foundations or to the stakeholders or co-holders of said entities.

5. The penalties that may be appropriate for the offences committed by the companies and entities referred to in this article will be demandable to the successors of the same in the terms established in the above points, up to the limit of the value of the charge of settlement that corresponds to them.

6. In the cases contemplated in this article the collection procedure will be that regulated in Point 2 of Article 177 of the Law on General Taxation.

SECTION 3. TAX RESPONSIBILITY

Article 24. Tax responsibility. 1. In accordance with the law, tax ordinances may appear as being responsible for the tax debt, together with the main debtors and other persons and entities, either jointly and severally or subsidiarily. To these effects the main debtors will be considered to be the taxpayers indicated in Point 2 of Article 20 of this ordinance with the detriment of that set down by law.

2. Unless there is an express legal precept to the contrary, the responsibility will always be of a subsidiary nature.

3. When those jointly and severally or subsidiarily responsible for the same debt are two or more in number, said debt may be demanded of any of them in the terms stipulated in Article 20 of this ordinance.

4. The responsibility will extend to the totality of the tax debt demanded during the voluntary period of payment.

When the voluntary period granted to the party responsible for the payment has passed and the payment has not been made, the enforcement period will be initiated and the appropriate surcharges or interest will be demanded.

The responsibility will not extend to penalties except in the exceptions

established by law.

5. The derivation of administrative action in order to demand the payment of the tax debt from those responsible will require an administrative ruling in which, after hearing the interested party, the responsibility is declared and its scope and extent is determined in accordance with that contemplated in Articles 174 to 176 of the General Law on Taxation. Prior to this declaration the precautionary measures of Article 81 can be adopted and actions of investigation carried out with the powers contemplated in Articles 142 and 162, all of the General Law on Taxation.

6. The responsibility may be declared at any time subsequent to the applying of the settlement or the presentation of the self-assessment, unless the law provides otherwise.

In the case of administrative settlements, if the declaration of responsibility is made prior to the expiry of the voluntary period for payment, the power to issue the administrative ruling of the declaration of responsibility corresponds to the body that has the competence to issue the settlement. In the remaining cases said competence will correspond to the Director of the "Madrid Tax Office".

Article 25. Those jointly and severally responsible. 1. The following persons or entities will answer jointly and severally to tax obligations:

a) Those which are the principals of or collaborate actively in the committing of a tax offence; their responsibility will also extend to the penalty.

b) Without detriment to that set down in paragraph a) above, the stakeholders or co-holders of the entities referred to in Point 4 of Article 35 of the General Law on Taxation in proportion to their respective participations regarding the material tax obligations of said entities.

c) Those succeeding as a result of any concept in the ownership or the carrying out of exploitations or economic activities owing to the tax obligations contracted from the previous holder and deriving from carrying them out.

That set down in the previous paragraph will not be applicable to the acquirers of isolated elements, unless said purchases carried out by one or several persons or entities allow the continuation of the exploitation or activity.

The responsibility referred to in the first paragraph of this letter will not be applicable to the cases of succession owing to death.

That set down in the first paragraph of this letter will not be applicable to the acquirers of exploitations or economic activities belonging to a bankrupt debtor when the purchase takes place during insolvency proceedings.

2. The following persons or entities will likewise answer jointly and severally for the payment of the pending tax debt up to the amount of the value of the assets or rights that it has been possible to seize or dispose of:

a) Those which are principals or collaborate in the concealment or transmission of assets or rights of the taxpayer with the aim of preventing the action of the tax Administration.

b) Those which owing to guilt or negligence fail to comply with the orders of seizure.

c) Those which with knowledge of the attachment, precautionary measure, or the constitution of guarantee collaborate in or consent to the raising of the attachment on the assets or rights seized or of those assets and rights on which the precautionary measure or the guarantee has been constituted.

d) Those persons or entities, which are the depositories of the assets of the debtor which once the notification of the embargo has been received collaborate with or consent to the raising of the former.

3. In cases of joint and several responsibility when the main debtor has not paid the debt and without detriment to the responsibility of the latter, the Municipal Treasury can claim the former from those jointly and severally responsible if they exist.

Failure to pay the tax debt will be understood to have occurred once the voluntary period has passed without the payment having been made.

Article 26. Those subsidiarily responsible. 1. Apart from those indicated in the tax ordinance, those subsidiarily responsible for the tax obligations will be:

a) Without detriment to that set down in paragraph a) of Point 1 of Article 25 of this ordinance, the administrators in practice or in law of the corporate persons which, having committed these tax offences, have not carried out the necessary action of their incumbency in order to comply

with their tax obligations and duties and have consented non compliance by those depending on them or which have adopted agreements making the offences possible. Their responsibility will also extend to the penalties.

b) The administrators in practice or in law of those corporate persons who have ceased their activities owing to the tax obligations accrued from the latter that are pending at the time of the cessation, provided that they have not taken the necessary measures to ensure payment or have adopted agreements or taken measures causing non payment.

c) Those involved in insolvency proceedings and the liquidators of companies and entities in general that have not carried out the necessary procedures for full compliance with the tax obligations accrued prior to said situations and imputable to the respective taxpayers. They will answer as administrators for the tax obligations and penalties subsequent to said situations when they have been attributed duties of administration.

d) Those acquiring assets affected by law by the payment of the tax debt in the terms of Article 79 of the General Law on Taxation.

2. The derivation of administrative action to those subsidiarily responsible will require the prior declaration of the bankruptcy of the main debtor and of the remaining parties jointly and severally responsible.

SECTION 4. TAX ADDRESS

Article 27. Tax address. 1. The tax address is the place where the taxpayer can be located in its relationship with the tax Administration.

a) For natural persons it is their habitual place of residence. Nevertheless, in the case of natural persons carrying out mainly economic activities under the terms determined in the regulations, the municipal tax Administration may consider their tax address to be the place of the centralisation of their administrative management and the address of the activities they carry out. If said place cannot be established, that which will prevail is the location of the greatest value of the fixed assets at which their economic activities are carried out.

b) For corporate persons and the entities referred to in Point 4 of Article 20 of this ordinance, their business address, provided that this is where their administrative management and that of their business is centralised. Otherwise it will be the place where said administration or management is carried out.

When the location of the tax address cannot be determined in accordance with the above criteria, the location where the greater part of the value of the fixed assets is to be found will prevail.

2. Taxpayers must notify their tax address and any changes to the same to the tax Administration in the form of an express declaration for the purpose, without the change of address having any effect as far as the Administration is concerned until said duty of notification is complied with. The Administration may check and rectify the tax address declared by taxpayers.

Taxpayers residing outside the municipal district insofar as their relationship with the municipal tax Administration is concerned will be obliged to appoint a representative with an address in the municipal district of Madrid.

3. Failure to comply with the obligation established in the previous number will constitute a minor offence.

CHAPTER VI

Tax debt

SECTION 1. GENERAL PRECEPT

Article 28. Tax debt. 1. The tax debt will consist of the charge or amount to pay resulting from the main obligation or from the obligations to make payments on account, determined according to law and to the ordinances for each tax.

2. Moreover, the tax debt will include if appropriate the following:

- a) Interest in arrears.
- b) Surcharges for late declaration.
- c) The surcharges of the enforcement period.
- d) The surcharges legally demandable on the bases or charges.

3. Tax penalties will not form part of the tax debt, but in their collection the same regulations will be used as for any of the components of the tax debt.

SECTION 2. THE PAYMENT

SUBSECTION 1. GENERAL REGULATIONS

Article 29. Legitimacy, place of payment, and form of payment. 1.

Any person may make the payment, unless the competent body for the collection is aware in advance of the opposition of the debtor by means of a reliable source.

The opposition of the debtor will have no effect regarding any person obliged to make the payment by virtue of a legal or statutory precept.

The third party paying the debt will not be legitimated to enforce to the Administration the rights corresponding to the party obliged to pay. It may however exercise the rights in its favour exclusively as a result of the payment ruling.

2. The debts can be paid at the cash desks of the competent bodies at the entities which if appropriate provide the service of cash desk and collaborating entities, either directly or telematically, when this is established by the competent municipal body.

3. Payments made to bodies not competent to receive them or to persons unauthorised to do so will not relieve the debtor of its payment obligation, without detriment to the responsibilities of all kinds that will be incurred by the wrongful beneficiary.

4. In the administrative procedure of distraint, when the amount obtained is insufficient to settle fully the totality of the components of the same debt, in the first place the application will be made to the costs and subsequently and proportionally to the principal of the debt and to the surcharges of the enforcement period, cancelling finally the interest in arrears accrued.

Article 30. Means and time of paying in cash. 1. The payment of the debts and tax penalties that must be made in cash can always be made in legal tender.

It may likewise be made by any of the following means with the requirements and conditions that are established for each one of them in this ordinance and following the procedures set out in each case:

- a) Cheque.
- b) Credit and debit card.

- c) Bank transfer.
- d) Direct debiting.
- e) Money order.
- f) Any others authorised by the competent municipal body.

Payment by the means referred to in letters b), c), d), and e) will be acceptable in those cases in which this is established.

2. Non tax debts will be paid in cash by the means authorised by their own regulations. If no special rule has been established, the payment must be made by the means mentioned in the previous point.

3. A debt will be understood to have been paid in cash when its amount has been paid into the cash desks of the competent bodies, collaborating entities, or entities which if appropriate provide the service of cash desk or other persons or entities authorised to receive the payment.

4. Nevertheless, when the payment is made through deposit entities or other authorised persons, the receipt given to the debtor for the payment will free the latter as from the date recorded on the receipt and for the amount appearing on it, with the entity or financial intermediary being obliged to the municipal Treasury from that moment and for said amount, unless the incorrectness of the date or the amount appearing on the validation of the receipt can be reliably proven.

5. The warrants for payment given by the debtor to the deposit entities and other persons authorised to receive the payment will not in themselves have an effect on the municipal Treasury, without detriment to the actions corresponding to the principal regarding the entity or the person responsible for non compliance.

Article 31. Payment by check. 1. Payments that must be made at the municipal cash desks may be made by a cheque, which must comply with the general requirements of business legislation and also with the following:

- a) Being in the name of the City Council of Madrid.
- b) Whether a bank cheque or a current account cheque, it must be duly certified by the credit entity as to its date and form.
- c) The name or trade name of the issuer, which will be expressed very clearly below the signature.

The delivery of the cheque will free the taxpayer from payment for the amount transferred, which may be contracted to one or several debit entries for their simultaneous payment when it is cashed. In any case it will come into effect as from the date when it has entered the corresponding cash desk.

2. In the event of delivery at the collaborating entities or entities that may provide the service of cash desk, the acceptance of cheques as a means of payment must comply with the requirements of business legislation and also with the following:

- a) Being in the name of the City Council of Madrid and crossed.
- b) Being duly certified by the credit entity as to its date and form.

The acceptance of cheques failing to comply with any of the previous requirements will be at the risk of the entity accepting them, without detriment to the action corresponding to said entity against the taxpayer.

Nevertheless, when a cheque that has been certified in a valid manner cannot be cashed in full or in part, once the voluntary payment period has passed a distraint order will be issued by the party that has not been paid for its legal means of collection and this will be required of the entity that certified it.

The delivery of the cheque to the entity which if appropriate provides the service of cash desk will free the debtor for the amount paid when it is cashed. In this case it will come into effect from the date when it entered said entity. The latter will validate the corresponding proof of payment on which will be recorded the date and the amount of the payment, with the entity being obliged as from this moment to Public Finance.

The amount of the cheque may be contracted to a single debit entry or include several debit entries for their simultaneous payment.

Article 32. Payment by credit or debit card. 1. Payment by means of credit or debit cards will be acceptable provided that the card to be used is included among those admitted for the purpose by the municipal tax Administration.

2. The limit of the payments to be made will be determined by that allocated by the issuing entity individually to each card, which under no circumstances may exceed the amount established by the competent municipal body for each payment document; it is not possible to use any other of the means of payment admitted for the same payment document

at the same time.

3. The amounts paid in by taxpayers by means of credit or debit cards may not be reduced as a consequence of discounts in the use of such cards or for any other reason.

4. Payments made by credit or debit cards will be understood to have been made on the day when they enter the municipal current accounts.

Article 33. *Payment by bank transfer.* 1. Payment by bank transfer to any of the municipal current accounts will be acceptable only in those cases in which this notified to the taxpayer by the competent municipal authorities.

2. The amount of the transfer will be equal to that of the debt; the specific tax item to which the payment corresponds must be expressed and it must contain the appropriate breakdown when the payment refers to and is to be applied to several items.

3. At the same time as the transfer order the principal must notify the competent municipal bodies of the date, amount, and the financial institution receiving the transfer, together with the tax item or items to which it corresponds.

4. The time of the payment will be considered to be the date on which the corresponding amount entered the municipal current accounts, from which moment the taxpayer is freed from the payment by the municipal Treasury.

Article 34. *Payment by direct debiting.* 1. Payment by direct debiting will be carried out in accordance with the conditions detailed below:

a) Application to the Municipal Administration. The payment may be made from an account of which the taxpayer is not the holder provided that the holder of said account authorises the direct debiting.

b) Direct debiting with any financial institution in Spain.

2. Payment by direct debiting will be valid for an indefinite period and may be cancelled at any time. It may likewise be transferred to other deposit entities by notifying the Municipal Administration within the deadline referred to in the following point. Nevertheless, in the case of the repeated return of the receipt by the financial institution during two consecutive accounting periods for reasons imputable to the interested party, the direct debiting order will lose its validity for successive payments

corresponding to the same holder and objective.

3. The City Council will establish at all times the debts that may be subject to direct debiting, together with the deadline for the admission of requests for direct debiting and transfer and the period as from which they will come into effect.

4. Payments made by direct debiting will be understood to have been made on the date when said direct debiting is charged to the account, with proof of the payment being considered to be that issued for the purpose by the deposit entity with whom the direct debiting is carried out; it must include at least the details established by the competent municipal body.

Article 35. *Payment by money order.* When this is indicated as such in the notification, the cash payments of the tax debts that are to be made at municipal savings banks may be made by money order. Taxpayers will state succinctly on the “receipt for the recipient” of the imposition form the details of the sender and the address, the taxpayer, the tax or exaction in question, the assessable period, the receipt or liquidation number, the tax purpose, and if appropriate the situation of the same. Without detriment to the foregoing, at the same time as the money order is deposited they will send a copy of the tax return or notification as appropriate to the City Council of Madrid, recording on said copy the post office from which the money order has been sent, the date of sending, and the number that has been allocated to it by the former. Payment by this means will be understood to all effects to have been made on the day when the money order was sent.

Article 36. *Proof and certificates of payment.* 1. The person paying a debt will have the right to be given a receipt for the payment made.

The payment of tax debts will only be justified by showing the appropriate document of those listed in the following point.

2. Proof of payment in cash will be as follows according to the various cases:

- a) Receipts.
- b) Receipts signed or validated by competent bodies or by entities authorised to receive the payment.
- c) Certificates proving the payment made.
- d) Any other document expressly given the character of proof of

payment by the competent municipal body.

3. Proof of payment in cash must indicate at least the following circumstances:

- a) Full name or complete trade name, tax identity number if mentioned, and the address of the debtor.
- b) Concept, amount of the debt, and period to which it refers.
- c) Date of payment.
- d) Body, person, or entity issuing it.

4. When the proof of payment is made out by mechanical means, the circumstances of the previous point may be expressed in the form of a code or abbreviation sufficient to identify as a whole the debtor and the debt paid referred to.

5. The debtor may request from the Administration a certificate to justify the payment made; the former is obliged to issue one.

SUBSECTION 2. POSTPONING AND SPLITTING PAYMENTS

Article 37. Postponable debts. 1. The payment of tax debts and other public law debts may be postponed or divided into instalments in the terms contemplated in Articles 65 and 82 of the General Law on Taxation and in this ordinance.

2. The debtor must justify any cash difficulties such as, if appropriate, indebtedness or an imminent situation of insolvency. An imminent situation of insolvency will be considered to be one in which the debtor anticipates that it will not be able to comply with its obligations regularly and punctually.

3. Payment by instalments will be granted, if appropriate, for a maximum period of 24 months with the periodicity determined in each case by the Municipal Administration, which may deviate from the proposal formulated by the interested party in its application. Whatever the periodicity agreed, the various deadlines will expire on the 5th or the 20th of the corresponding month. In the case of postponements, the deadline will not exceed a year.

In very special and exceptional cases depending on the payment capacity of the taxpayer and the amount owed, postponements and payment by instalments may be granted for a periods of up to three and five years respectively. Nevertheless, postponements and payment by

instalments may not be granted for periods with payment deadlines exceeding that of the lapsing of each debt subject to postponement or payment by instalments.

Article 38. Application. 1. Postponements and payment by instalments will be granted by the Municipal Administration at the taxpayer's request. Applications regarding the following debts will not be accepted:

a) Those in the enforcement period at any time subsequent to that of the notification of the administrative ruling agreeing the disposal of the goods seized.

b) Those of an amount of less than 300 euros. Nevertheless, in very special and exceptional cases depending on the payment capacity of the taxpayer, which must be justified in the application itself, applications may be granted for debts referring to a smaller amount.

2. The application for postponement or payment by instalments will of necessity contain the following details:

a) Full name or complete trade name, tax identity number, and address of the taxpayer and if appropriate of the person representing it.

b) All debts included in a payment period of those established in Article 62 of the General Law on Taxation must be identified. Likewise those others must appear which having exceeded the payment period regulated in Article 62.5 of the General Law on Taxation still remain unpaid while not being suspended.

c) In order to identify the debts for which a postponement or payment by instalments is requested, the details given must include of necessity their amount and concept and the date of the end of the voluntary period for payment or its accounting reference. In cases of debts deriving from a self-assessment, together with the application the self-assessment itself must be presented.

If the taxpayer is affected by several proceedings or by only one with several debts, the applicant may seek from the competent body of the "Madrid Tax Office" the issuing of a document to include all the debts. This document will accompany the application and will replace the identification of the debts.

d) Reasons proving that its economic and financial situation temporarily prevents it from making the payment. In particular the burden affecting its

net worth must be listed.

e) An express and irrevocable commitment from the credit entity or mutual guarantee company to formalise a joint and several guarantee or a surety insurance certificate, except in the cases of points 2, 3, 6, and 7 of the following articles.

In cases of payment by instalments partial and independent guarantees may be established for one or several deadlines.

f) When the total or partial exemption of the guarantee is applied for it will be necessary to accompany it with a viability plan, which will be accompanied by the documentation mentioned in Points 2, 3, and 4 of the following article and any other information justifying the possibility of complying with the postponement or payment by instalments requested.

g) Deadlines and other conditions of the postponement or *fractionation requested*.

h) A direct debiting order indicating the client account code number and the identifying data of the credit or deposit entity that must debit the account; the taxpayer must be the holder of the account for this direct debiting.

i) The place, date, and signature of the taxpayer together with, if appropriate, that of its representative and that of the holder of the current account from which the payments will be made if this person is not the debtor.

3. If the applicant for the postponement or payment by instalments has the right to be refunded undue payments by the City Council, the latter will always be considered payment on account in the instalments and amounts compensated or seized which must be deducted from the amount owed in the postponements. If the application of the interested party should be refused said amounts will be compensated or if appropriate seized.

Article 39. Guarantees. 1. When it is justified that it is not possible to obtain a joint and several endorsement from a credit entity or mutual guarantee company or a surety insurance certificate, or that the providing of the same seriously jeopardises the economic viability of the taxpayer, the Administration may accept guarantees consisting of a chattel or real estate mortgage, a pledge with or without the transfer of the possession, an embargo, a personal and joint and several endorsement, or any other

that is considered sufficient by the Tax Office.

2. When the acceptance of a guarantee is sought that does not consist of an endorsement from a credit entity or mutual guarantee company or a surety insurance certificate, the following documentation will be provided together with the application for postponement or payment by instalments:

a) A declaration of responsibility and report justifying the impossibility of obtaining said endorsement or surety insurance certificate on which are recorded in duly documented form the measures taken in this respect. In this sense the impossibility of obtaining said endorsement or surety certificate must be justified with the refusal of at least three financial institutions or insurance companies.

b) An assessment of the assets offered as guarantee by specialised and independent professionals or companies. When a Register exists of companies or professionals specialising in the valuation of a certain type of assets, the Administration may require that the valuation be carried out by a company or professional inscribed on said Register.

3. If the taxpayer cannot present a guarantee or the amount of the debt means that it is not necessary, the applicant must present a viability plan accompanied by the documentation of economic-financial importance that is considered suitable by the department in charge of processing the application, and which justifies the possibility of complying with the postponement or payment by instalments requested.

4. Either spontaneously or according to the criterion of the aforementioned department, the debtor must provide the following as further documentary proof:

a) If it is an employee:

1st. That referring to income from personal work yields (wages, pensions, social benefits, or a negative certificate regarding the receiving of these subsidies, proof of being unemployed, a report from the social services from where he is resident, etc.)

2nd. Rights in rem on real estate (property, usufruct).

3rd. Vehicles he owns.

4th. List of other assets (shares, debentures, investment funds, etc.)

5th. Income tax returns and capital tax returns.

b) If the activities of the debtor are of a business or professional nature,

apart from that referring to numbers 2, 3, and 4 of the previous point it must specify the net returns of its business or professional activities.

In the case of businessmen or professionals obliged by law to maintain accounting records, a balance sheet, and a results account for the last three closed accounting periods and an audit report if such exists.

Likewise it must accompany any other relevant information to justify the existence of economic difficulties and the viability of compliance with the postponement or payment by instalments requested.

5. The guarantee will cover the amount of the principal and of the interest in arrears generated by the postponement and 25 per cent of the sum of both items.

6. No guarantee will be required when the applicant is a public Administration or when the amount of the debt for which postponement or payment by instalments is sought is less than 30,000 euros, without detriment to the fact that the debtor demonstrates that it can comply with the postponement or payment by instalments applied for by means of the presentation of the documentation specified in Point 4 of this article (which is required by the Administration) or by presenting a viability plan.

7. The presentation of the guarantees required may be waived either totally or partially when the taxpayer lacks the sufficient assets to guarantee the debt and the attachment of its net worth may affect the maintaining of the productive capacity and the level of employment of the respective economic activity, or if it may seriously damage the interests of the municipal Treasury.

8. If owing to economic-financial difficulties of a structural nature the debtor cannot present a viability plan to justify the possibility of complying with the postponement or payment by instalments requested or does not comply with the payments of the postponement or payment by instalments granted, the municipal Legal Advice Department will be notified so as to instigate if appropriate the corresponding bankruptcy proceedings, without detriment to its date of insolvency.

Article 40. Processing. 1. Once the application for postponement has been presented, if there should be any defect in the same or in the documentation provided the interested party will be granted a period of 10 days in order to correct it, with the admonition that if this is not done the application will be shelved with no further proceedings and it will be considered that it has not been presented, with the consequent

continuation of the collection process.

2. If the application for postponement or payment by instalments and the mandatory documentation shows no defects or omissions, or if these have been made good during the deadline, after the appropriate proceedings an express resolution will be issued without it being appropriate to issue a distraint order, even when the period for voluntary payment has passed, as long as the request has not been resolved. When the application is presented during the enforcement period, the Municipal Administration may initiate or if appropriate continue the distraint procedure. Nevertheless, the actions of the disposal of the assets seized must be suspended until the notification of the resolution rejecting the postponement or payment by instalments.

During the processing of the application the debtor must pay the instalment, fraction, or fractions proposed in the former.

If it considers that the resolution may be delayed as a consequence of the complexity of the record, the competent body for the processing of the application will assess the establishing of a provisional calendar of payments until the resolution is issued. Said calendar may include deadlines other than those proposed by the applicant and will replace it to all effects.

In the event of non compliance with any of these payments, whether those proposed by the interested party or those fixed by the Administration in the corresponding calendar, the application may be rejected owing to the existence of economic-financial difficulties of a structural nature.

The competent body for resolving requests for postponement and payment by instalments is the Director of the "Madrid Tax Office".

The resolution must be adopted within a deadline of six months to be counted from the day when the request for postponement entered the register of the body competent to issue the resolution.

If said deadline expires without a resolution having been issued, the interested parties may consider that the application has been dismissed so as to lodge the corresponding appeal against the alleged refusal or await the express resolution.

3. The resolution will be notified with the following precautions:

a) If it is approved, the guarantee must be provided within the thirty days following that of the notification of the agreement of the concession

which will be a condition of its being provided; it will include the calculation of the interest in arrears and will warn of the consequences of failure to pay according to that set down in Article 42; and that if said deadline should expire without the guarantee being formalised the enforcement period will be initiated or resumed for the totality of the unpaid debt. In general the deadlines will expire on the 5th or 20th of the month referred to and the first of them will be indicated in such a way that the corresponding guarantee can be formalised before its expiry.

In the case of self-assessments presented within the deadline together with the application for postponement or payment by instalments, the agreement of the concession will approve the corresponding settlement if the checking of the self-assessment presented reveals an amount to pay other than that recorded in the self-assessment. Likewise it must be warned that the sum to guarantee will be that of the totality of the amount settled and that if the corresponding guarantee is not formalised and the settlement is not paid within the period referred to in letter b) below, that set down in the previous paragraph will apply. In the event of late self-assessments with no prior summons, in addition to the above it will contain the approval of the surcharges and interest, if appropriate, referred to in Article 18 of this ordinance.

b) If it is rejected and the postponement or the payment by instalments was requested during the voluntary period, with the warning that the debt must be paid within the time remaining of the voluntary period.

If the voluntary period has passed the taxpayer must pay the debt together with the interest accrued within the period extending from the date of the reception of the notification until the 20th of said month or until the 5th of the following month, depending on whether said resolution is notified between the 1st and 15th or between the 16th and the end of the month respectively. Once the deadline has passed without the debt having been paid the enforcement period will be initiated.

In the case of self-assessments presented during the voluntary payment period together with the request for postponement or payment by instalments, the resolution of dismissal will likewise contain the approval of the corresponding settlement with the interest accrued since the end of the voluntary payment period. In the case of late self-assessments without a prior summons, the resolution of dismissal will approve the corresponding settlement with the consequences referred to in Article 18 of this ordinance together with the interest accrued since the day after the

presentation of the late self-assessment.

If it has been requested during the enforcement period, action will be resumed for the totality of the unpaid debt.

Article 41. *Interest.* The amounts with a postponed or split payment will accrue the interest in arrears referred to in Article 26.6 of the Law on General Taxation and Article 17 of the General Budget Law whether these are tax debts or non tax debts respectively.

Nevertheless, in cases of the postponing or splitting of debts guaranteed in their totality by a joint and several endorsement from a credit entity or a mutual guarantee company or by means of a surety insurance certificate, the interest in arrears demandable will be the legal interest.

If this is granted, the interest will be calculated on the debt with the time being reckoned from the expiry of the voluntary period to the expiry of the payment period granted for each instalment. The interest accrued for each instalment must be paid together with said instalment during the period for the payment of the latter.

If the postponing or payment by instalments has been requested during the enforcement period, the base for the calculation of interest will not include the surcharge of the corresponding enforcement period.

In the case of self-assessments without payment that have been presented late the interest in arrears will be calculated from the date of presentation of the request for postponement or payment by instalments.

Article 42. *Effects of failure to pay.* 1. In the postponements requested during the voluntary period, if on the expiry of the deadline granted the payment has not been made the enforcement period will be initiated which will include the postponed debt, the interest accrued, and the surcharge of the corresponding enforcement period. In postponements requested during the enforcement period, if appropriate the guarantee will be enforced or if this does not exist or is insufficient the distraint procedure will be followed for the pending debt.

2. In the payment by instalments sought during the voluntary period, if on the expiry of any of the deadlines the payment has not been made the enforcement period will be initiated exclusively for that instalment on the day after the deadline that has not been complied with and the distraint period must be initiated. The payment of the expired instalment, the

interest in arrears accrued, and the enforcement surcharge on the sum of both concepts will be demanded; the calendar approved for the remaining instalments will continue to be valid. If the payment of any of the following instalments does not occur, the pending instalments will also be considered to have expired.

If payment by instalments was requested during the enforcement period, in the same way the instalments pending will be considered to have expired in advance and that set down in the previous section is applicable.

SUBSECTION 3. "A LA CARTE PAYMENT" (PAC)

Article 43. Concept. In accordance with that set down in Article 9.1 of the revised text of the Law regulating Local Properties, "a la carte payment" (PAC) is a means of payment by which, according to the rules established in this subsection, it is possible to pay in advance and in instalments certain debts with a periodic expiry included in a payment plan of direct debiting in a financial institution, which will be rewarded by a rebate of up to 5 per cent of the charge of the settlements included in said plan.

Article 44. Requirements. In order to take advantage of this system the following will be necessary:

- a) Formulating the appropriate application on the form and by the means established for the purpose.
- b) Paying by direct debiting in a financial institution.
- c) The application must be made by the holder of the account from which the payment will be directly debited.

Article 45. Application. 1. The applications for the "a la carte payment" system presented by means of a form at the General Register of the City Council of Madrid, at the Electronic Register of the City Council of Madrid, or at the places indicated in the legislation on the common administrative procedure of the Public Administrations will come into effect two months after their inscription on the Municipal Register.

2. The applications presented, either by telecommunication techniques or telematically or in person at the municipal offices for attending citizens provided for the purpose by the City Council of Madrid up to 5th August of the current year, will be understood to be effective:

a) One month after that of their presentation if they are presented between the 1st and 5th of each month, both inclusive.

b) Two months after their presentation if they are presented between the 6th and the last day of each month, both inclusive.

3. Applications presented between 6th August and 10th December of the current year will come into effect as from the month of January of the following accounting period.

Applications presented between 11th and 31st December of the current year will be understood to come into effect as from the month of February of the following accounting period.

Article 46. Determination of the amount for its distribution in instalments or fractions. 1. The total amount of the debts using the PAC system, which will be taken into account in order to carry out the operations leading to the distribution of the partial amounts that will be collected in advance for each instalment or fraction, will be in general 90 per cent of the sum of the amounts of the settlements of the previous accounting period, without taking into account, if appropriate, the amount of the rebate corresponding to PAC. Nevertheless, if new inscriptions occur for registration during the coming year for which the “a la carte payment” system is also sought, with regard to these 90 per cent of the amounts corresponding to the current accounting period will be taken into account.

2. Each year the amounts of the deadlines are updated proportionally to the difference, if there is one, between the sum of the charges payable of the settlements included in PAC at the time of the definitive imputation of the early payments and the sum that served to determine the amount of the deadlines in the previous accounting period.

Article 47. Methods of “a la carte payment”. 1. *With regard to the payment periods.* The amounts that the applicant undertakes to bring forward of the tax debts included in the payment plan will be distributed in monthly, bimonthly, quarterly, or half-yearly instalments or fractions at the choice of the applicant. Monthly payments will be made every month from January to September, both inclusive; bimonthly ones in the months of January, March, May, July, and September; quarterly ones in January, April, and July; and half-yearly ones in the months of January and July.

These advance payments will be payments on account and will come into effect on the 5th or the working day immediately after the months

corresponding depending on the periodicity chosen by means of the appropriate direct debiting.

2. *With regard to advance amounts.* The applicant may choose between:

a) The amount proposed by the Administration for each instalment or fraction, which will be the result of dividing the total amount of the tax charges of all the debts included in the plan by the number of instalments. The minimum amount of each instalment is established at 6 euros, with the number of instalments being adjusted if they are lower than said amount and bringing forward the expected final date for the last early payment.

b) Proposing its own amount. The minimum amount of each instalment is established at 6 euros, and the maximum will be 90 per cent of the total amount of the debts included in PAC, as is defined in Article 46 of this ordinance. If the amount proposed makes it impossible to complete the number of instalments existing up until the end of the voluntary payment period, the end date of the last early payment will be brought forward.

3. In any case, on 15th December, or the working day immediately after this date, the amount resulting from the difference between the amount of the settlements of PAC corresponding to the current accounting period and the amounts delivered on account will be sent for collection, once the rebate has been applied.

Article 48. Rebate. 1. The rebate applicable will be determined by the effective deposit of amounts on account deriving from the use of PAC.

2. In the case of the method of letter a) of Point 2 of the previous article, if the calendar of payments initially proposed by the Municipal Administration for that year is complied with without any modifications, the rebate will reach 5 per cent of the charges of the settlements using this system when definitively imputing the early payments.

3. In the case of the method of letter b) of Point 2 of the previous article, if the calendar of payments initially proposed by the applicant for that year is complied with without any modifications, the rebate will attain 5 per cent of the amounts actually advanced.

4. For both methods, if the calendar of payments is not complied with or the interested party modifies the amount of the periodic payments during the accounting period, the rebate in the accounting period in which

such circumstances occur will be the result of applying, by means of the formula of the financial calculation of simple capitalisation, an interest rate of 5 per cent to the amounts actually advanced, taking into account the capital and the time anticipated at each moment.

5. Whatever the method used, under no circumstances may the rebate applicable to each settlement using PAC exceed 70 euros in Property Tax or 15 euros in the rate for providing the service of the urban waste management.

Article 49. Modifications at the request of the interested party. 1. By express application the party interested in PAC may request the modification of the current plan, both regarding the account from which payment is made by direct debiting or in the amounts of the instalments, in accordance with that set down in the following points; likewise it may include new settlements in the plan.

2. Requests for modification may be presented:

a) On a form at the General Register of the City Council of Madrid, at the Electronic Register of the City Council of Madrid, or at the places mentioned in the legislation on the common administrative procedure of the Public Administrations. They will come into effect as from the instalments or fractions that will expire two calendar months after the entry of the application on the Municipal Register.

b) Either by telecommunication techniques or telematically or in person at the municipal offices for attending citizens provided for the purpose by the City Council of Madrid. Applications for modification presented in this manner will come into effect as from the instalments or fractions which expire:

1st. One month after that of their presentation if they are presented between the 1st and the 5th of each month, both inclusive.

2nd. Two months after their presentation if they are presented between the 6th and the last day of each month, both inclusive.

3. Applications for changing the account from which the payment is directly debited which are presented in the manner set down in Point 2.b) of this article, between 6th October and 10th November, both inclusive, will come into effect if there is a final instalment to be settled on 15th December or the working day immediately after it. The applications will

come into effect for the following accounting period if they are presented after 10th November or if there is not a final instalment to be settled.

4. Applications for changing the amount of the instalments or fractions and the registrations of the settlements understood to use the payment plan which are presented, in the manner set down in Point 2.b) of this article, between 1st and 5th August, both inclusive, will come into effect, if appropriate, for the early payment corresponding to 5th September or the working day immediately after it and for the final instalment to be settled. If there are no instalments to be settled or if the applications are presented after 5th August, they will come into effect for the following accounting period.

In any case the application for liquidating settlements will come into effective for the following year.

5. Any modification of those expressed in this article, with the exception of the changing of the account from which payment is made by direct debiting, which must come into effect during the year in which it is requested, will determine the application of the rebate in the manner established in each case, in Points 3 and 4 of Article 48 of this ordinance when it comes into effect. Nevertheless, if for the following or successive years the interested party has taken advantage of its application for modifying the proposal of the Administration, the rebate applicable will be determined in the manner established in Article 48.2.

Article 50. Automatic modifications. When an inscription of the registration is cancelled owing to a change of ownership or for other reasons involving automatic suspension, it will be automatically excluded from said payment plan without said suspension necessarily affecting the amount of the installations that remain to be paid. Nevertheless, in order to avoid surpluses for which the consequence is the payment of amounts higher than the charges of associated inscriptions, the control regulated in the following article will come into operation.

Article 51. Control of surpluses. 1. In cases of the downward modification of the debts associated with “a la carte payment” plan, in order to prevent the amount of the split payments from exceeding the amount of the definitive liquidations using the payment plan, and consequently the corresponding refunds, a control is established which does not affect the amount of the instalments and consists of the suspension of the direct debiting charges necessary for the surplus not to occur. Direct debiting charges will be resumed if appropriate when owing

to a further modification or to the failure to pay some instalments, the anticipation of the surplus should disappear.

2. In any case, in the final early instalment it will be observed that the sum of the amounts of the previous instalments plus the amount that will be sent for collection at that time does not exceed 90 per cent of the total amount of the settlements associated with PAC before deducting the amount corresponding to the rebate.

Article 51. Cancelling “a la carte payment”. 1. In general the “a la carte payment” plan will be cancelled at the request of the applicant. The suspension requested will come into effect, depending on the instalment and the means used on the application, in the same terms established for initiating “a la carte payment” in Article 45 of this ordinance.

2. In the event of the cancellation of the registration of the sole inscription or of all inscriptions associated with the “a la carte payment” plan, PAC will be suspended automatically.

3. The cancellation of PAC will not involve the refunding of the payments made. The amount resulting from the difference between the definitive settlements and the amounts paid on account, once the rebates calculated in accordance with that set down in Article 48.4 of this ordinance have been applied, will be sent for collection on 15th December or the working day immediately after it by direct debiting, unless a prior application has been made for the forms for the payment of the settlements, using this payment system, for the amount that remains to be paid on that date, in which case that set down in Article 54 of this ordinance will be applicable.

Nevertheless, when PAC is cancelled as a consequence of the suspension of the inscription or of the inscriptions associated with the same, the amounts paid on account will be automatically refunded by means of a bank transfer to the same account from which the payments were made.

Article 53. Imputation of advance payments. The amounts paid in advance by ratepayers by means of this payment system will be imputed to the settlements associated with PAC based on the following criteria:

a) Firstly, according to the expiry date of the debts they will be applied to those expiring earlier.

b) In the case of debts with the same expiry date they will be applied first to those of a lower amount.

c) In the case of debts of the same amount, the sequential order of the inscription number of the registration of each one of them will be followed.

The part of the debts or the full amount, if appropriate, that remains to be paid will be sent for collection on 15th December or on the working day immediately after it; it will equally be paid by means of direct debiting.

Article 54. Receipts and settlements. All the payments deriving from using PAC, including that of the final settlement, will be made by direct debiting from the account provided for the purpose. Nevertheless, if once the voluntary period for payment of taxes using PAC has started the interested party requests the issuing of a receipt for its payment by this means, because among other reasons circumstances have arisen that do not allow waiting for the sending of the pending settlement, the procedure will be as follows, depending on the date of application, which in any case must be made at the municipal offices:

a) Since the date of the start of the voluntary period and before the date of the definitive imputation of the early payments, i.e. from 1st October to 15th November both inclusive, payment forms can only be provided if this is expressly requested, without applying payments or rebates, for their payment during the remainder of the deadline before the end of the voluntary payment period, without detriment to the refund that may be appropriate.

b) After the date of the definitive imputation of the early payments and until the final date of the voluntary payment period, i.e. from 16th to 30th November or the working day immediately after it, copies of the receipts or payment forms will be provided as applicable, in which will appear the imputation which is fitting from the early payments and the rebate applicable for its payment during the remainder of the deadline before the end of the voluntary payment period.

Article 55. Refund of surpluses. if the advance payments exceed the sum of the amounts of the settlements using the “a la carte payment” plan, the municipal Tax Administration will proceed to the automatic refunding of said surplus by means of a bank transfer to the same account from which the payments were made, within the deadline of the 6 months following the end of the voluntary period.

If after said deadline has passed the payment of the refund has not

been ordered for a reason imputable to the Tax Administration, the amount pending refund will be liable to the interest in arrears referred to in Article 26 of Law 58/2003 of 17th December on General Taxation, from the day following that of the end of said period and until the date when payment is ordered, without the need for the ratepayer to claim it.

Article 56. Notifications. 1. Before the expiry of the voluntary payment period the tax Administration will make available to the interested party and will notify the information on the result of the definitive imputation of the early payments of the settlements using PAC with the indication of the rebate applicable to each settlement and the settlements considered to have been paid as a result of the imputation, according to the rules of Article 53 of this ordinance, and will provide the corresponding proof of payment. The amounts pending that are to be sent for collection on the last day of the voluntary period for payment, or the detail of the payment surpluses if these exist, will also be notified if appropriate.

2. From 15th December or the working day immediately following it the interested party will have at its disposal and the municipal tax Administration will notify the contemplated updating of the “a la carte payment” plan for the following accounting period.

Article 57. Failure to pay. 1. The failure to pay any of the early instalments will determine in any case that the rebate is calculated according to that established in Article 48.4 of this ordinance.

2. On the expiry of the voluntary period for payment, if for reasons imputable to the interested party the amount pending on that date has not been paid, the enforcement period will be initiated for the amounts not paid of the corresponding settlements once the definitive imputation of the early payments has been carried out as established in Article 53 of this ordinance.

SECTION 3. LAPSING

Article 58. Expiry periods and calculation and interruption of the deadlines. 1. The following rights will lapse after four years:

a) The right of the Administration to determine the tax debt by means of the appropriate settlement.

The expiry period will begin to be counted from the day following that of the end of the statutory deadline for the presentation of the corresponding tax return or self-assessment.

The expiry period is interrupted:

- By any action of the tax Administration carried out with the formal knowledge of the taxpayer leading to the recognition, regularisation, checking, inspection, ensuring, and settlement of all or part of the elements of the tax obligation.

- By the making of claims or the lodging of appeals of any kind, owing to the actions carried out with the formal knowledge of the taxpayer during the course of said claims or appeals, by the remittal of the evidence of criminal liability to criminal jurisdiction, or owing to the making of a complaint to the Tax Ministry, together with the reception of the notification from a court ordering the suspension of the ongoing administrative procedure.

- By any reliable action of the taxpayer leading to the settlement or self-assessment of the tax debt.

b) The right of the Administration to demand the payment of the tax debts settled and self-assessed.

The expiry period will begin to be counted from the day following that on which the voluntary payment period ends, without detriment to that set down in Point 2 of this article.

The expiry period is interrupted:

- By any action of the tax Administration carried out with the formal knowledge of the taxpayer aimed to effect the collection of the tax debt.

- By the making of claims or the lodging of appeals of any kind, owing to the actions carried out with the formal knowledge of the taxpayer during the course of said claims or appeals, owing to the declaration of the bankruptcy of the debtor or owing to the bringing of civil or criminal action with the aim of the collection of the tax debt, together with the reception of the notification from a court ordering the suspension of the ongoing administrative procedure.

- By any reliable action of the taxpayer leading to the payment or cancellation of the tax debt.

c) The right to request the refunds deriving from the rules for each tax, the refunds of undue payments, and the reimbursement of the cost of the guarantees.

The expiry period will begin to be counted from the day following that of

the end of the deadline to request the corresponding refund deriving from the rules for each tax, or in the absence of a deadline from the day following that on which said refund could be requested; from the day following that of the undue payment or from the day following the end of the deadline for presenting the self-assessment if the undue payment is made within said deadline; or from the day following that on which the sentence or administrative resolution declaring the ruling challenged to be totally or partially inadmissible becomes definitive. In the case of taxes affecting the same operation and which are incompatible between themselves, the expiry period for requesting the refund of the undue payment of the inadmissible tax will begin to be counted from the resolution of the body specially qualified to establish which tax is appropriate.

The expiry period is interrupted:

- By any reliable action of the taxpayer with the aim of the refund, the reimbursement, or the rectification of its self-assessment.
- By the making, lodging, processing, and resolving of claims or appeals of any kind.

d) The right to obtain refunds deriving from the rules for each tax, the refunds of undue payments, and the reimbursement of the cost of the guarantees.

The expiry period will begin to be counted from the day following that of the end of the deadlines established to carry out the refunds deriving from the rules for each tax or from the day following the date of the notification of the agreement in which is recognised the right to receive the refund or the reimbursement of the cost of the guarantees.

The expiry period is interrupted:

- By any action of the tax Administration aimed at carrying out the refund or the reimbursement.
- By any reliable action of the taxpayer by which it demands the payment of the refund or the reimbursement.
- By the making, lodging, processing, and resolving of claims or appeals of any kind.

2. The expiry period for requiring the payment obligation of those joint and severally responsible will begin to be counted from the day following the end of the voluntary payment period of the main debtor.

Notwithstanding that set down in the paragraph above, in the case of those jointly and severally responsible contemplated in Point 2 of Article 25 of this ordinance, said expiry period will start at the time of the occurrence of the events constituting the presupposition of responsibility.

In the case of those jointly and severally responsible, the expiry period will begin to be counted from the notification of the last collection event applied to the main debtor or any of those jointly and severally responsible.

3. Once the interruption has occurred, the counting of the expiry period will be initiated anew except for that established in the following point.

4. When the expiry period has been interrupted by the lodging of an appeal to the contentious-administrative jurisdiction owing to the bringing of civil or criminal action, owing to the remittal of the evidence of criminal liability to the competent jurisdiction or owing to the making of a complaint to the Tax Ministry or owing to the reception of judicial notification of the suspension of the procedure, the calculation of the expiry period will be initiated anew when the tax Administration receives the notification of the definitive judgment putting an end to the judicial procedure or which lifts the suspension, or when notification is received from the Tax Ministry returning the proceedings.

When the expiry period has been suspended by the declaration of the bankruptcy of the debtor, the calculation of the expiry period will be initiated anew at the time of the approval of the bankruptcy agreement for the tax debts not subject to the same. As for the tax debts subject to the bankruptcy agreement, the calculation of the expiry period will be initiated anew once the former are demandable to the debtor. If the agreement is not approved, the deadline will be initiated anew when the definitive judicial judgment is received indicating said circumstance.

That set down in this point will not be applicable to the expiry date of the right of the tax Administration to demand payment when the suspension has not been agreed by contentious-administrative proceedings.

5. Once the expiry period has been interrupted for a taxpayer, said effect extends to all other taxpayers including those responsible. Nevertheless, if the obligation is a joint one and the part corresponding to it is only claimed from one of the taxpayers, the period is not interrupted for the remainder.

If several debts are settled by the same taxpayer, the interruption of the expiry will only affect the debt referred to.

Article 59. *Extension and effects of the expiry.* 1. The expiry gained applies equally to all those obliged to pay the tax debt with the exception of that set down in Point 5 of the previous article.

2. The expiry will be automatically applied, even in those cases in which the tax debt has been paid, without the need for it to be invoked or demurred by the taxpayer.

3. The expiry earned discharges the tax debt.

SECTION 4. OTHER WAYS OF DISCHARGING THE TAX DEBT

Article 60. *Compensation.* 1. The public law debts in favour of the Municipal Treasury, both during the voluntary period or the enforcement period, may be discharged either partially or totally by compensation with the credits recognised by the same by an administrative ruling in favour of the debtor.

2. The compensation will be agreed automatically or at the request of the debtor.

Article 61. *Automatic compensation of debts to the Municipal Treasury.* 1. When a debtor to the Municipal Treasury is at the same time a creditor of the same owing to a recognised credit, once the voluntary period has passed the debt and the appropriate surcharges of the enforcement period that are appropriate with the credit will be automatically compensated.

2. Nevertheless, the following will be compensated automatically during the voluntary payment period:

a) The amounts to pay or to refund from the same limited checking period or inspection.

b) The amounts to pay or to return from the carrying out of a new settlement owing to the cancellation of a previous one.

Article 62. *Compensation at the request of the taxpayer.* 1. The debtor instigating compensation, whether during the voluntary payment period or the enforcement period, must send the corresponding application to the municipal tax Administration for processing, which will contain the following requirements:

a) Full name or complete trade name, tax identity number, and tax

address of the taxpayer, and if appropriate of the person representing it.

b) Identification of the debt for which compensation is sought, indicating at least its amount, concept, and the date of expiry of the voluntary payment period.

c) Identification of the credit recognised by the Municipal Treasury in favour of the applicant for which compensation is offered, indicating its amount and concept. The debt and the credit must correspond to the same debtor.

d) An express declaration of not having transferred or endorsed the credit to another party.

The request for compensation will be accompanied by the following documents:

a) If the debt for which compensation is sought has been determined by means of self-assessment, an official self-assessment form duly filled in, unless the interested party is not obliged to present it because it is already in the possession of the Administration, in which case it will indicate the day and procedure during which it presented said form.

b) A certificate reflecting the existence of the recognised credit, pending payment, or proof of its application, and of the suspension at the request of the interested party of the formalities for its payment as long as the resolution of the compensation procedure is not notified.

If the credit offered in compensation derives from an undue payment owing to any tax, a copy of the ruling, resolution, or sentence recognising it instead of the above certificate.

2. When the request for compensation is presented during the voluntary period, if at the end of said deadline it is pending resolution the enforcement period for the amount concurrent between the debt and the credit offered will not be initiated, which will not prevent if appropriate the accrual of the interest in arrears that may be fitting until the date of the recognition of the credit, or if appropriate until the date of the negative resolution.

3. If the application was presented during the voluntary period and a negative resolution was issued, depending on whether said resolution is notified between the 1st and 15th of each month or between the 16th and the last day of each month, the taxpayer must pay the debt, together with the interest accrued up until the date of the resolution, from the date of

reception of the notification to the 20th of said month or to the 5th of the following month. Once said deadline has passed, if the debt and the interest are not paid the amount pending will be demanded by the distraint procedure.

If compensation has been requested during the enforcement period and is refused, the distraint procedure will continue.

4. The application for compensation will not prevent the application for the postponement or payment by instalments of the remaining debt.

5. The resolution must be adopted and notified within a deadline of six months counting from the day following that when the application entered the register of the administrative body competent for processing it.

Once said deadline has passed without a resolution having been issued, the interested parties may consider the application to have been dismissed to the effects of lodging the corresponding appeal or awaiting the express resolution.

6. The debt will be discharged to the effects of the presentation of the application or when the requirements for the debts and the credits are complied with, if this time is later than said presentation. Once the compensation agreement has been adopted the debts and credits in the concurrent amount will be declared to be discharged. Said agreement will be notified to the interested party and will serve as proof of the discharging of the debt.

Article 63. Automatic compensation of debts between Public Entities. 1. The expired, liquid, and demandable debts that the State, the autonomous regions, local entities, the Social Security, and other bodies of public law have with the Municipal Treasury will be liable to automatic compensation once the voluntary payment period has passed.

2. Compensation will be achieved with the tax credits recognised in favour of the entities mentioned and with the remaining credits recognised in their favour owing to the enforcement of the expenses budget of the City Council of Madrid or to its autonomous bodies and owing to refunds of budget payments.

3. The initiation of the compensation procedure will be notified to the corresponding entity indicating the debts and credits that will be subject to compensation in the concurrent amount, with the objective being that within 15 days to be counted from the day following that of the notification

it alleges whatever may be in its best interest and presents the documents and proof that it considers appropriate.

4. Once the deadline of six months counted from the notification of the initiation of the automatic compensation procedure has passed without an express resolution having been adopted, the procedure will expire. Said expiry will not in itself involve the lapsing of the rights of the municipal tax Administration, which may again initiate the procedure within the expiry period.

5. The resolution issued in the procedure of automatic compensation will be liable to an economic-administrative claim to the Municipal Economic-Administrative Court of Madrid, and previously to an appeal for reversal of a discretionary nature; all this is in accordance with that set down in Title VII of this ordinance.

Article 64. *Abatement.* Tax debts may only be abated by virtue of the law as to the amount and with the requirements determined by the same.

Article 65. *Temporary cancellation owing to insolvency.* 1. Tax debts that it has not been possible to collect in the respective collection procedures owing to the proven insolvency, whether total or partial, of the taxpayers will be cancelled in accounts of the appropriate amount by means of declaring the credit to be either partially or totally irrecoverable, insofar as they are not discharged within the expiry period.

2. The tax debt will be cancelled if once the expiry period has passed it has not been discharged.

Article 66. *Low-amount economic rights.* Based on that set down in Article 16 of the General Budget Law, the competent body of the "Madrid Tax Office" is authorised to order the non settlement and if appropriate the cancellation and suspension in the accounts of all those settlements of which debts result of less than the amount that it estimates and fixes as insufficient to cover the cost of its exaction and collection. In any case receipts corresponding to periodic taxes of collective notification, with a tax charge of less than 6 euros, will not be issued.

That set down in the previous paragraph excludes debts of less than 6 euros resulting from having used the various special payment systems valid at each moment.

Likewise settlements will not be carried out owing to interest in arrears except in the cases contemplated in letters c) and f) of Point 1 of Article

17, when that accrued is less than 6 euros and must be notified subsequent to the settlement of the main debt. To the effects of the determination of said limit, the total interest accrued by the taxpayer will be accumulated even if it is from different debts or assessable periods if they come from the same proceedings.

The foregoing is understood without detriment to that set down in Article 120 regarding distrained debts.

SECTION 5. GUARANTEES OF THE TAX DEBT

Article 67. *Right of priority.* 1. The Municipal Treasury will have priority for the collection of expired tax credits and which have not been paid insofar as they concur with other creditors, except in the case of creditors of property, pledges, mortgages, or other rights in rem duly inscribed on the corresponding register prior to the date on which the right of the Municipal Treasury is recorded on the same.

2. In the case of a bankruptcy agreement, the tax credits affected by the agreement, including those deriving from the obligation of making payments on account, will be subject to that established in Law 22/2003 of 9th July on Bankruptcy.

Article 68. *Tacit legal mortgage.* In the taxes periodically affecting the assets or rights registrable on a public register or their direct, certain, or presumed products, the State, the autonomous regions, and the local entities will have preference over any other creditor or acquirer, even if these have inscribed their rights, in order to collect the debts accrued and unpaid corresponding to the calendar year in which the payment is demanded and that immediately preceding it.

Article 69. *Affect on assets.* Acquirers of assets affected by law on payment of the tax debt will answer with them in a subsidiary manner, by derivation of the tax action, if the debt is not paid.

Article 70. *Precautionary measures.* In order to ensure collection of the tax debt, the Administration may adopt temporary precautionary measures when there is rational evidence to show that otherwise said collection will be frustrated or seriously hindered, according to that set down in Articles 81, 146, and 162 of the General Law on Taxation.

TITLE III

The application of taxes

CHAPTER I

General principles

Article 71. *Scope of application of taxes.* 1. The application of the taxes includes all administrative actions aimed at providing information and assistance to taxpayers and to management, inspection, and collection, together with the actions of taxpayers in the exercising of their rights or in compliance with their tax obligations.

2. The functions of the applications of the taxes will be exercised separately to those of the resolution of the economic-administrative claims made against the rulings issued by the municipal tax Administration.

3. The taxes will be applied by means of the administrative procedures of management, inspection, collection, and others that may be established.

Article 72. *Duty of information and assistance to taxpayers.* 1. The municipal tax Administration must provide taxpayers with the necessary information and assistance regarding their rights and obligations.

2. The activities referred to in the previous point will be implemented, among others, by the following actions:

- a) The publication of updated texts of the tax regulations.
- b) Notifications and actions of information carried out by the services assigned for the purpose at the tax administration body.
- c) Replies to written enquiries.
- d) Prior valuation actions.
- e) Assistance to taxpayers in the drawing up of declarations, self-assessments, and tax returns.

Article 73. *Written tax enquiries.* 1. Written tax enquiries may be formulated to the municipal tax Administration either directly or by means of representatives in the terms contemplated in this ordinance, by the following subjects:

- a) The taxpayers referred to in Article 20 of this ordinance.

b) Professional associations, official chambers, employers' associations, trade unions, consumer associations, associations or foundations representing the interests of the disabled, business associations, and professional organisations, together with federations grouping together the bodies or entities mentioned, when they refer to matters affecting the majority of their members or associates.

2. Written tax enquiries must necessarily refer to the tax system, classification, or rating within the scope of the competence of the municipal tax Administration.

3. Written tax consultations will be formulated before the end of the period established for the exercising of rights, the presentation of tax returns of self-assessments, or compliance with other tax obligations.

The presentation of and replying to the enquiries will not interrupt the deadlines established in the tax regulations for compliance with tax obligations.

4. The municipal tax Administration will proceed to shelve with notification to the interested party those tax enquiries that do not fulfil the requirements established in this article and are not made good within ten days.

5. Tax enquiries will be formulated in writing to the tax administration body by the subjects determined and within the deadlines indicated in this ordinance, stating in any case the following:

a) Full name or trade name, tax identity number, and address of the interested party. If the action is through a representative, this circumstance will be placed on record and the complete identification of the same will likewise be included.

b) The history and circumstances of the case, clearly identifying the objective of the consultation.

c) Any other details, elements, and documents that may help the Municipal Administration to form an opinion.

d) The place, date, and signing of the document.

6. Once the enquiry has been received, the tax administration body having competence to answer the enquiry may summon the interested parties to provide whatever documents may be necessary for the reply. At the same time it may count on the collaboration of other administrative centres and bodies that it considers necessary for forming a criterion

applicable to the case.

7. The Administration must answer in writing the tax enquiries fulfilling the requirements within a period of six months since their presentation.

The passing of said period of six months without the enquiry having been answered will not imply the acceptance of the criteria expressed in the document.

8. The reply to the written tax enquiries formulated to the municipal tax Administration will bind all the bodies of the same in charge of the application of the taxes in their relation with the enquirer.

The aforementioned criteria must likewise be applied by the municipal tax Administration with regard to any taxpayer, provided that there is identity between the facts and circumstances of said taxpayer and those included in the answer to the enquiry.

Nevertheless, the criteria established in the answers to the tax enquiries formulated will not bind the municipal tax Administration in the following cases:

a) When the legislation or case law applicable to the case have been subject to modification.

b) When the enquiries have been formulated within the deadline referred to in Point 3 of this article and raise matters related to the objective or processing of a procedure, appeal, or claim previously initiated.

The answers to written tax enquiries will be informative in nature and the taxpayer may not lodge any appeal against said answer, without detriment to those that may be lodged against the administrative ruling or rulings that are issued subsequently in application of the criteria declared in the reply.

CHAPTER II

Rules common to tax action and procedures

Article 74. Regulation of tax action and procedures. The action and procedures for the application of taxes, within the field of the municipal tax Administration, will be regulated:

a) By the special rules established in the General Law on Taxation and in the revised text of the Law regulating Local Properties, by this

ordinance and the specific ordinances referring to each tax, and also by the procedural rules included in other tax laws and in their statutory rules of development.

b) In addition by the general precepts of the administrative procedures.

SECTION 1. STAGES OF TAX PROCEDURES

Article 75. *Initiation.* 1. Tax action and procedures may be initiated automatically or at the request of the taxpayer by means of self-assessments, tax returns, notifications, applications, or any other means contemplated in a general manner in the tax regulations.

2. The documents for initiating the action must include in any case the full name or trade name and the tax identity number of the taxpayer and if appropriate of the person representing it.

3. In those cases in which the mass processing of tax action and procedures occurs, the municipal tax Administration will adopt the standardised models and systems of self-assessments, tax returns, notifications, applications, and any others that may be necessary.

Article 76. *Carrying out of tax action and procedures.* 1. In the carrying out of tax action and procedures the municipal tax Administration will facilitate for taxpayers at all times the exercising of their rights and compliance with their obligations in the terms contemplated in the following points.

2. Taxpayers may refuse the presentation of documents that are not demandable by tax regulations and of those that have been previously presented by themselves and which are in the possession of the municipal tax Administration. Nevertheless, the interested party may be summonsed for the ratification of specific details of its own or of third parties that have previously been provided.

3. The actions of the municipal tax Administration in the procedures of application of the taxes will be documented in notifications, proceedings, and reports, according to the definition given of them by the General Law on Taxation, without detriment to other documents contemplated in the specific regulations for each procedure.

4. In the tax procedures the hearing prior to the proposal for resolution can be dispensed with in the following cases:

- a) In the inspection procedure when rulings are signed with an agreement.
- b) When the interested party renounces the same.
- c) When the rules regulating the various procedures anticipate a measure of allegations subsequent to said proposal for resolution.
- d) When neither other facts nor other allegations and evidence to those adduced by the interested party appear in the procedure or are taken into account in the resolution.

In the case contemplated in point c) the proceedings will be declared in the measure of allegations.

The measure of allegations will last not less than 10 days and not more than 15.

Article 77. Proof in tax procedures. 1. For the hearing of evidence in tax procedures neither the opening of a specific period nor the prior notification of action to the interested parties will be necessary.

2. In the procedures of the application of taxes, in order to assert one's rights it will be necessary to prove the facts constituting the same.

3. This obligation will be understood to have been complied with if the elements of proof in the possession of the municipal tax Administration are designated in a specific manner.

Article 78. Means and assessment of proof. In tax procedures the rules on the means and assessment of proof contained in the Spanish Civil Code and the Law of Civil Procedure will be applicable unless the law establishes otherwise.

Article 79. Value of the proceedings as evidence. 1. The proceedings drawn up during the action and the tax procedures take the form of public records and prove the events leading to their formalisation, unless the opposite is justified.

2. The facts contained in the proceedings and accepted by the taxpayer subject to the procedure, together with its manifestations, are assumed to be true and can only be rectified by the latter by proving that an error of fact has been incurred.

Article 80. Presumptions in tax matters. 1. The presumptions established by the tax regulations may be destroyed by proof to the contrary, except in those cases in which a legally binding rule expressly

forbids it.

2. For the presumptions not established by the rules to be acceptable as a means of evidence, it is essential for there to be a precise and direct link according to the rules of the human criterion between the proven fact and that being deduced.

3. The municipal tax Administration may consider the holder of any asset, right, company, service, activity, exploitation, or duty to be whoever appears as such on a tax register or on others of a public nature, unless there is proof to the contrary.

4. The details and elements of fact stated on the self-assessments, tax returns, notifications, and other documents presented by taxpayers will be presumed to be true for them and can only be rectified by the same by means of proof to the contrary.

Article 81. Completion of tax procedures. 1. Tax procedures will be brought to an end by a resolution, abandonment, the renouncing of the right on which the application is based, the material impossibility of continuing them owing to unforeseeable reasons, expiry, compliance with the obligation subject to summons, or any other reason anticipated in the tax regulations.

2. A resolution will be considered to be the reply given in an automated manner by the municipal tax Administration in those procedures in which this form of completion is contemplated.

SECTION 2: TAX SETTLEMENTS

Article 82. Concept and types. 1. Tax settlement is the resolutive ruling by means of which the competent body of the municipal tax Administration carries out the necessary operations of quantification and determines the amount of the tax debt or of the amount which, if appropriate, is to be refunded or compensated in accordance with tax regulations.

The municipal tax Administration will not be obliged to adjust the settlements to the details stated by the taxpayers in the self-assessments, tax returns, notifications, applications, or any other document.

2. The tax settlements ordered by the municipal tax Administration may be provisional or definitive.

Article 83. Definitive settlements. Definitive settlements will be considered to be those of the inspection procedure prior to the checking

and investigation of the totality of the elements of the tax obligation, except for that set down in Point 4, Article 101 of the General Law on Taxation.

Likewise, regardless of the procedure for the application of taxes from which they ensue, those settlements which, after the checking of the totality of the elements making up the tax debt by means of the use of whatever details and documents may be necessary for their determination, are notified as being definitive.

Article 84. *Provisional settlements.* 1. Provisional settlements will be considered to be all those which according to that established in the previous article are not definitive.

2. In particular the tax settlements of the Municipal Administration will be considered to be provisional in accordance with the rating, bases, values, or charges indicated by the State or its Autonomous Bodies in taxes of shared administration, when said rulings of the rating or fixing of bases, values, or charges have been issued without the prior checking of the liability or of the circumstances determining the respective rating, valuation, or indication of charges by the competent Administration.

3. Likewise settlements will be considered to be provisional when they are notified individually, or in the case of taxes collected periodically by receipt, collectively, and contain the implicit recognition of tax inducements conditioned to compliance with certain future conditions or the effective combination of certain requirements that have not been checked during the procedure in which they were ordered, it being possible to check them in a subsequent procedure in the terms of Point 3 of Article 95 of this ordinance.

SECTION 3: OBLIGATION OF RESOLUTION AND DEADLINES OF RESOLUTION

Article 85. *Obligation of resolution and justification.* 1. The municipal tax Administration is obliged to expressly resolve all matters that may be raised in the procedures of application of the taxes, and also to notify said express resolution.

2. There will be no obligation to resolve expressly in the procedures relating to the exercising of rights that must only be subject to notification by the taxpayer and in which occurs the expiry, the unforeseeable loss of the subject of the procedure, the renouncing, or the abandonment of the interested parties.

Nevertheless, when one of said cases occurs, the municipal tax Administration will be obliged to answer the petition of those interested parties expressly requesting the declaration of such a circumstance.

3. In any case, with succinct reference to the facts and the fundamental points of law, the following proceedings will be justified:

- a) Those of settlement.
- b) Those of the checking of value.
- c) Those imposing an obligation.
- d) Those rejecting a tax inducement.
- e) Those rejecting the suspension of the execution of the rulings of the application of the taxes.
- f) Whatever others may be set down in current regulations.

Article 86. *Deadlines of resolution.* 1. The deadline for notifying the resolution will be that set by the rules regulating the corresponding procedure. If no deadline is expressly determined it will be of six months.

Without detriment to the specialities contained in this ordinance for each procedure, the deadline will be counted as a general rule:

- a) In the procedures initiated automatically, from the date of notification of the initial agreement.
- b) In the procedures initiated at the request of the interested party, from the date when the document entered the register, if there is one, of the competent body for its processing, or in other cases when it entered the General Register of the City Council or that of the District Municipal Boards.

The procedure of distraint will be excluded from that set down in this section, its actions may extend to the expiry period of the right to collection.

2. To the sole effects of understanding the obligation of notifying within the deadline of the duration of the procedures to have been complied with, it will be sufficient to prove that a attempt at notification containing the complete text of the resolution has been made.

The periods of justified interruption and delays in procedures for reasons not imputable to the municipal tax Administration will not be

included in the calculation of the deadline for resolution.

To these effects periods of justified interruption will be considered to be:

The time that passes from when the municipal tax Administration issues a summons to the interested party to the date when the documentation required is submitted, in those cases in which the documentation demanded should have been presented by the taxpayer in the terms established in the rules regulating each tax or in those others in which the details and documents are necessary to issue a resolution.

Article 87. Effects of the lack of express resolution. 1. In the procedures initiated at the request of the interested party, the expiry of the deadline without an express resolution having been notified will have the effects established in the regulations.

In those cases in which the effects of the lack of express resolution are not established, the interested parties may understand that their applications have been accepted by the failure of the administration to reply, except for those formulated in the procedures of the exercising of the right of petition referred to in Article 29 of the Spanish Constitution and in those of the challenging of rulings and precepts in which failure to reply will mean rejection.

Nevertheless, it should be understood that rejection owing to the failure to reply, or the need to await their express resolution, applies to the applications presented for the obtaining of tax inducements, those presented for the recognition of the right to tax refunds or of undue payments, and those of the reimbursement of the cost of the guarantees.

When the suspension of the procedure occurs for a reason imputable to the taxpayer, the municipal tax Administration will warn it that after three months have passed it may declare the expiry of the same.

2. In procedures initiated automatically, the expiry of the deadline established without any express resolution having been notified will have the effects determined for each procedure.

If there is a lack of express regulation the following effects will occur:

a) If it is a case of procedures from which may derive the recognition or if appropriate the constitution of rights or other individualised legal situations, the taxpayers will understand that the possible favourable effects of the procedure have been rejected by the failure of the

administration to reply.

b) In procedures liable to generate unfavourable effects or levies, the procedure will expire.

3. Once expiry has occurred, this will be declared either automatically or at the request of the interested party and the shelving of the actions will be ordered.

Said expiry will not generate in itself the lapsing of the rights of the municipal tax Administration, which may again initiate the procedure within the expiry period; administrative summons will not be considered to the effects of that contemplated in Point 1 of Article 18 of this ordinance.

The actions carried out during an expired procedure, together with the documents and other elements of proof obtained in said procedure, will retain their validity and effect for purposes of proof in other procedures initiated or which may be initiated subsequently in relation to the same or a different taxpayer.

SECTION 4. NOTIFICATIONS

Article 88. *Tax notifications.* The system of notifications will be that contemplated in the general administrative rules with the specialities established in the General Law on Taxation and in the remaining rules regulating taxes in the local area.

Article 89. *Place for making notifications.* 1. In the procedures initiated at the request of the interested party, notification will be made at the place indicated for the purpose by the taxpayer or its representative, or failing this at that recorded as the tax address of one or the other.

2. In the procedures initiated automatically, notification may be made at that recorded as the tax address of the taxpayer or its representative, at the workplace, at the place where the economic activity is carried out, or at any other suitable for the purpose.

Article 90. *Persons legitimated to receive notifications.* 1. When notification is carried out at the place indicated for the purpose by the taxpayer or its representative, or at the tax address of one or the other, if they are not present at the time of delivery anyone at said place or address who states his identity may take charge of the same, together with the employees of the residents' or proprietors' association located in the place indicated for the purposes of notifications or the tax address of the taxpayer or its representative.

2. The rejection of the notification carried out by the interested party or its representative will imply that it is considered to have been made.

Article 91. Notification by appearance. 1. When it is not possible to notify the interested party or its representative owing to reasons not imputable to the Tax Administration and this has been attempted at least twice at the tax address or at that designated by the interested party in the case of a procedure initiated at the request of the same, the circumstances of the attempts at notification will be noted on the record. A single attempt will be sufficient when the recipient is recorded as unknown at said address or place.

In this case the interested party or its representative will be summonsed to be notified by appearance by means of announcements, which will be published a single time for each interested party in the "Official State Bulletin".

Announcements will be placed in the "Official State Bulletin" each week on Mondays, Wednesdays, and Fridays. They may likewise be displayed at the office of the Tax Administration corresponding to the last known tax address. If the last known address is located outside Spain, the announcement may be displayed at the consulate or consular section of the corresponding embassy.

2. The publication will contain a list of the pending notifications, indicating the taxpayer or its representative, the procedure making them necessary, the competent body for their processing, and the place and deadline in which the recipient of the same must appear to be notified.

In any case the appearance must occur within a deadline of 15 calendar days counting from the day following that of the publication of the announcement in the "Official State Bulletin". Once said deadline has passed without an appearance having occurred, the notification will be understood to have been made for all legal purposes on the day following that of the expiry of the period indicated.

3. When the initiation of a procedure or any of its stages are understood to have been notified because neither the taxpayer nor its representative have appeared, it will be considered to have been notified of the successive actions and proceedings of said procedure, and its right to appear at any time of the same is maintained, except for the settlements issued in the procedure and the agreements for the disposal of the property seized, which must be notified in accordance with that

established in this section.

Article 92. Notification of tax settlements. 1. Tax settlements must be notified to the taxpayers in the terms indicated in this section.

2. Tax settlements will be notified stating:

- a) The identification of the taxpayer.
- b) The elements determining the amount of the tax debt.
- c) The justification for the same when they do not coincide with the details recorded by the taxpayer or the interpretation of the regulations made by the same, expressing the essential facts and elements originating them together with the fundamental points of law.
- d) The means of opposition that may be exercised, the body to which they are to be presented, and the deadline for their mediation.
- e) The place, deadline, and manner in which the tax debt must be paid.
- f) Whether it is provisional or definitive.

3. According to the rules, cases in which express notification will not be mandatory may be established, provided that the Administration warns the taxpayer or its representative of this in writing.

Article 93. Notifications of settlements in taxes of periodic expiry and collective notification. 1. In taxes of periodic collection by receipt, once the settlement corresponding to inscription on the respective register or census has been notified, the successive settlements may be notified collectively by means of edicts warning of this.

To this effect the registers or censuses will be subject for each period to the approval of the tax administration body. Once they have been approved they will be displayed to the public for a period of fifteen days counted as from the day following that of the publication of the announcement displayed in the «Official Bulletin of the Region of Madrid». Likewise the announcement may be published in at least one of the newspapers with the largest print run.

They will be displayed to the public at the place indicated in the announcement displayed in the "Official Bulletin of the Region of Madrid". In any case mention will be made of the place of display during the time it is displayed on the notice board of the electronic headquarters of the City Council of Madrid, the electronic address of which is <http://sede.madrid.es>.

2. The increase in the gross tax base on that resulting from the tax returns must be notified to the taxpayer with the specific expression of the additional facts and elements causing it, except when the modification comes from general revaluations authorised by the laws.

SECTION 5. PUBLIC DENUNCIATION

Article 94. *Public denunciation.* 1. By means of public denunciation the tax Administration can be notified of facts or situations that may constitute tax offences or be significant for the application of taxes. Public denunciation is separate from the duty of collaborating with the tax Administration regulated in Articles 93 and 94 of the General Law on Taxation.

2. The municipal tax Administration may agree to shelve the denunciation when it is considered unfounded or when the facts or the persons denounced are not sufficiently specified or identified.

The appropriate action can be initiated if there is sufficient evidence of veracity in the imputed events and these are unknown to the tax Administration. In this case the denunciation will not be part of the administrative proceedings.

3. The accuser will not be considered to be an interested party in the administrative action initiated as a consequence of the denunciation and will not be informed of the result of the same. Neither will it will legitimated to lodge appeals or make claims in relation to the results of said action.

SECTION 6. POWERS AND DUTIES OF CHECKING AND INVESTIGATION

Article 95. *Powers and duties of checking and investigation.* 1. The municipal tax Administration may check and investigate the facts, rulings, elements, activities, exploitations, values, and other determinant circumstances of the tax obligation in order to check correct compliance with the rules applicable for the purpose.

2. In the carrying out of the duties of checking or investigation, the municipal tax Administration will assess the facts, rulings, or business carried out by the taxpayer, regardless of the previous rating that the latter may have given to the same.

3. The rulings of the granting or recognising of tax inducements, which are conditioned to compliance with certain future conditions or the effective combination of certain requirements that have not been checked in the procedure in which they were issued, will be provisional in nature.

In a subsequent procedure of the application of taxes, the municipal tax Administration may check the combination of such conditions or requirements and if appropriate regularise the tax situation of the taxpayer, without the need to proceed to the prior revision of said rulings in the terms contemplated in Title VII of this ordinance.

CHAPTER III

Tax administration actions and procedures

SECTION 1. GENERAL PRECEPTS

Article 96. *Tax administration.* The actions and the exercising of the duties of tax administration, in the terms indicated in the General Law on Taxation, will be carried out in accordance with that established in said law, with the specialities of the local area contemplated in the local tax regulations and in this ordinance.

Article 97. *Publication of agreements.* 1. The City Council will publish the taxes, concepts, or headings that may be subject to agreement.

2. If the bases for the regulation of the agreements are not expressly mentioned in the tax ordinance corresponding to the tax, heading, or concept that is to be agreed upon, they will be detailed for each of them at the time of their publication.

Article 98. *Initiation of tax administration.* In accordance with that contemplated in the tax regulations, tax administration will be initiated:

- a) At the request of the taxpayer by means of an application, self-assessment, or any kind of declaration.
- b) Automatically by the municipal tax Administration.

SECTION 2. ORDINARY PROCEDURES OF MUNICIPAL TAX ADMINISTRATION

Article 99. *Procedure initiated by self-assessment.* 1. Self-assessments are returns in which taxpayers not only notify to the Administration the necessary details for the settlement of the tax and others of an informative nature but also carry out themselves the necessary operations of assessment and quantification necessary to determine and pay in the amount of a tax debt or if appropriate determine the amount to be returned or compensated.

2. Taxpayers may present complementary self-assessments or complementary or replacement returns in the terms established in Article 122 of the General Law on Taxation.

3. Self-assessments presented by taxpayers may be subject to verification and checking by the municipal tax Administration, either automatically or at the request of the taxpayers, who may promote the rectification of those self-assessments which they have presented that they consider to have harmed their legitimate interests or when the amount is higher or lower than that paid by the self-assessment which they seek to rectify.

In those cases in which the result is an amount lower than that paid in, the rectification may be instigated by the taxpayer by the presentation of a self-assessment, quantifying the debt without payment from which there is an amount to refund, by means of the presentation of an application for refund or by the presentation of the notification of data.

4. When the rectification of a self-assessment originates a refund deriving from the rules on the tax and six months have passed without the payment having been ordered for a reason imputable to the tax Administration, the latter will pay the interest in arrears on the amount of the refund as appropriate, without the need for this to be requested by the taxpayer. To these effects, the deadline of six months will begin to be counted as from the end of the period for the presentation of the self-assessment, or if this has been completed as from the presentation of the application for rectification.

When the rectification of a self-assessment originates the refund of an undue payment, the tax Administration will likewise pay the interest in arrears.

5. If as a consequence of the check carried out the self-assessment presented must be rectified, the Administration will carry out the corresponding settlement or settlements together with the surcharges and interest that may be appropriate, or will pay the refunds in accordance with the procedure applicable.

Article 100. Procedure initiated by tax return. 1. A tax return will be considered to be any document presented to the tax Administration which recognises or declares any particular relevant to the application of taxes.

The presentation of a tax return does not imply the acceptance or recognition by the taxpayer of the legitimacy of the tax obligation.

2. The cases in which verbal declarations or tax returns by any other form of manifestation of knowledge are acceptable can be determined according to the rules.

3. In taxes in which this is established, administration will be initiated by means of the presentation of a tax return by the taxpayer.

4. In order to resolve the procedure correctly, the municipal tax Administration may use the details stated by the taxpayer on its tax return or any other in its possession. It may summons the taxpayer to clarify the details stated on its tax return or to present proof of the same and may carry out whatever checks will be necessary.

5. Once the appropriate assessments and quantifications have been carried out, the municipal tax Administration will proceed to issue the corresponding settlements.

6. The notification of the settlement must be carried out within a period of six months from the day following the end of the deadline to present the tax return.

In the case of the presentation of late declarations, the deadline of six months within which to notify the settlement will begin to be counted on the day following the presentation of the tax return.

7. In the settlements issued in this procedure no interest in arrears will be demanded from the presentation of the tax return to the end of the voluntary payment period, without detriment if appropriate to that set down in Articles 18 and 137 of this ordinance.

Article 101. *Speciality of periodic taxes of collective notification.* 1. Taxes which owing to their nature give continuity to liabilities may be subject to censuses or registers.

In periodic collection taxes in which the administration is the full responsibility of the City Council, the census or register will be drawn up for each period by the tax Administration, taking into account the tax returns of the interested parties and other details that are known as a consequence of the actions of checking and investigation. Cancellations must be formulated by the taxpayers and once these have been checked they will lead to the definitive elimination from the census with effect as from the period following that in which they were presented, except for the exceptions established in each ordinance.

In the remaining cases the body of the competent Administration for the drawing up of the corresponding census or register must send it annually to the City Council within the deadlines established in each case so as to proceed to reveal it to the public in the terms established in Article 93 of this ordinance.

2. To the effects anticipated in the previous article, tax administration will be understood to have been initiated in periodic collection tax:

a) In cases of registration, with the presentation of the corresponding tax return or self-assessment as is established in the ordinance regulating the tax in question, provided that the administration is the full responsibility of the City Council.

b) In the remaining cases, the first day of the revealing to the public of the corresponding census or register referred to in Article 93 of this ordinance.

In any case, unless the law decrees otherwise, the failure to include a taxable item in the census or on the register in a specific period will not prevent the regularisation of the tax situation and the individual notification of the settlements corresponding to each of the periods that have not expired, regardless of the penalties that may be fitting and their inclusion in future censuses, if this is not already the case, by the competent Administration.

3. The notification of the settlements in taxes of periodic collection by receipt will be carried out as established in Article 93 of this ordinance.

TITLE IV

Inspection

CHAPTER I

General precepts

Article 102. *Tax inspection.* Tax inspection consists of the exercising of the administrative duties with the objective of:

a) The investigation of the factual assumptions of tax obligations in order to discover those unknown to the Municipal Administration.

b) The checking of the veracity and the accuracy of the tax returns presented by the taxpayers.

c) The carrying out of actions to obtain information related to the application of taxes, in accordance with that established in Articles 93 and 94 of the General Law on Taxation.

d) The checking of the value of rights, revenue, products, assets, net wealth, companies, and other elements, when this is necessary for determining tax obligations, with that set down in Articles 134 and 135 of

the aforementioned General Law on Taxation being applicable.

e) The checking of compliance with the requirements for the obtaining of tax inducements or incentives and tax refunds, and also for the application of special tax systems.

f) Informing taxpayers on their tax rights and obligations regarding inspections and how the latter should be complied with.

g) Achieving tax settlements resulting from their actions of checking and investigation.

h) The carrying out of actions of limited checking according to that established in Articles 136 to 140 of said law.

i) Advising and informing Municipal Administration bodies.

j) Making permanent and non permanent tax interventions that will be governed by that set down in their specific rules and failing specific regulation by the rules of Title III, Chapter IV of the General Law of Taxation with the exception of Article 149.

k) The remaining established in other precepts or entrusted to it by the competent authorities.

Article 103. Tax Inspection powers. 1. Inspections will be carried out by means of the examination of documents, books, main and auxiliary accounting, files, invoices, receipts, correspondence of fiscal significance, computerised databases, programmes, and computer registers and files relating to economic activities, and also by means of the inspection of assets, elements, exploitations, and any other record or information that must be submitted to the Administration or which is necessary in order to demand tax obligations.

2. When this is required by inspections, officials carrying out duties of tax inspection may enter properties, business premises, and other establishments or places in which activities or exploitations subject to levies are carried out, where there are assets subject to taxation, and where liabilities or factual assumptions exist regarding tax obligations or if there is any proof of the same.

If the person in charge of the custody of the places mentioned in the previous paragraph opposes the entry of the Tax Inspection officials, the written authorisation of the Mayor will be necessary.

When in the carrying out of inspections it is necessary to enter the

constitutionally protected address of the taxpayer, that set down in Article 113 of the General Law on Taxation will be applicable.

3. Taxpayers must attend the inspection and duly collaborate with it in the carrying out of its duties

The taxpayer summonsed by the inspection must appear, either in person or through its representative, at the place, day, and time indicated for carrying out the actions and must provide or have available for Inspection the documentation and other elements required.

As an exception and for a justified reason, the Inspection may require the personal appearance of the taxpayer when this is required by the nature of the actions to be carried out.

4. The officers carrying out inspection duties will be considered to be law enforcement officers and must prove their identity when called upon to do so outside the public offices.

The public authorities will provide the officials with the necessary protection and assistance for the carrying out of their inspection duties.

CHAPTER II

Documentation of inspection action

Article 104. *Documentation of inspection action.* 1. The Tax Inspection actions will be documented in notifications, formalities, reports, and proceedings.

2. The proceedings are the public documents made out by the Tax Inspection with the aim of reflecting the result of the inspection actions of checking and investigation, proposing the regularisation that is considered appropriate of the tax situation of the taxpayer or declaring the same to be correct.

Article 105. *Value of the proceedings as evidence.* 1. The proceedings drawn up by the Tax Inspection constitute public records and prove the events leading to their formalisation in the absence of any justification to the contrary.

2. The events accepted by the taxpayers in the inspection proceedings are assumed to be true and can only be rectified by proof that a factual error has been incurred.

CHAPTER III

The proceedings

Article 106. Content of the proceedings. The proceedings documenting the results of the inspection actions must contain at least the following mentions:

- a) The place and date of their formalisation.
- b) The full name or complete trade name, the tax identity number, and the tax address of the taxpayer, together with the full name and tax identity number of the person with which are understood the actions and the type of representation with which it intervenes in the same.
- c) The essential elements of the liability or assumption of fact of the tax obligation and its attribution to the taxpayer, together with the fundamental points of law on which the regularisation is based.
- d) If appropriate the regularisation of the tax situation of the taxpayer and the pertinent proposal for settlement.
- e) The agreement or disagreement of the taxpayer with the regularisation and the proposal for settlement.
- f) The stages of the procedure subsequent to the ruling, and when the latter is with agreement or in accordance, the appropriate appeals against the settlement ruling deriving from the proceedings, the body to which they must be presented, and the period within which they must be lodged.
- g) The existence or non existence, in the opinion of the actuary, of signs of the committing of tax offences.

Article 107. Types of proceedings according to their processing. 1. To the effects of their processing, inspection proceedings may be with agreement, in accordance, and in disagreement.

2. When the taxpayer or its representative refuses to receive or sign the proceedings, the latter will be processed as in disagreement.

Article 108. Proceedings with Agreement. 1. When in order to draw up the proposal for regularisation the application of indeterminate legal concepts must be specified, when the appreciation of the determining facts is necessary for the correct application of the rule to the specific case, or when it is necessary to make estimates, issue valuations, or

measure details, elements, or relevant characteristics for the tax obligation that cannot be quantified with certainty, prior to the settlement of the tax debt the tax Administration may specify said application, the appreciation of those events, or the estimation, assessment, or measurement by means of an agreement with the taxpayer in the terms contemplated in this article.

2. For the signing of the Proceedings with Agreement the combination of the following requirements will be necessary:

a) The authorisation of the competent body to settle, which may be prior to or at the same time as the signing of the Proceedings Certificate with Agreement.

b) The constitution of a deposit, a joint and several guarantee from a credit entity or a mutual guarantee company, or a surety insurance certificate of a sufficient amount to guarantee the payment of the amounts that may derive from the proceedings.

3. The settlement will be understood to have been carried out and notified, and if appropriate the penalty imposed and notified, in the terms of the proposals formulated if after 10 days have passed since that following the date of the proceedings the interested party has not been notified of an agreement of the competent body to settle with the rectification of the material errors that the Proceedings with Agreement may contain.

Once the proposals have been confirmed, the deposit made will be applied to the payment of said amounts. If a guarantee or a surety insurance certificate has been presented, the payment must be made within the deadline referred to in Point 2 of Article 62 of the General Law on Taxation, without the possibility of postponing or splitting the payment.

4. The contents of the Proceedings with Agreement will be understood to have been fully accepted by both the taxpayer and the tax Administration. The settlement and the penalty deriving from the agreement may only be subject to challenge or revision by administrative proceedings by means of the procedure of the declaration of nullity with full rights contemplated in Article 217 of said law, and without detriment to any appeal that may be appropriate by contentious-administrative proceedings owing to the existence of defects in the consent.

5. The lack of a signature on the Proceedings with Agreement in an inspection procedure may not be a reason for an appeal or claim against

the settlements deriving from Proceedings of Accordance or Proceedings of Disagreement.

Article 109. *Proceedings of Accordance.* 1. When the taxpayer or its representative declares its acceptance of the proposal for regularisation formulated by the Tax Inspection, this circumstance will be expressly recorded in the proceedings.

2. The tax settlement will be understood to have been carried out and notified in accordance with the proposal formulated in the proceedings if within a deadline of one month counting from the day following the date of the proceedings the interested party has not been notified of the agreement of the competent body for settling, with any of the following contents:

- a) Rectifying material errors.
- b) Ordering the completion of the record by carrying out the appropriate actions.
- c) Confirming the settlement proposed in the proceedings.
- d) Considering that there has been an error in the proposal for settlement regarding the appreciation of the events or the undue application of the legal regulations and granting the interested party a deadline for a hearing prior to the settlement carried out.

3. For the imposition of the penalties that may be appropriate as a consequence of these settlements the reduction contemplated in Point 1 of Article 188 of the General Law on Taxation will be applicable.

4. That set down in Point 2 of Article 144 of the aforementioned law will be applicable to the events and elements determining the tax debt regarding which the taxpayer or its representative expressed its acceptance.

Article 110. *Proceedings of Disagreement.* 1. When the taxpayer or its representative do not sign the proceedings or declare their disagreement with the proposal for regularisation formulated by the Tax Inspection, this circumstance will be expressly recorded in the proceedings, which will be accompanied by a report from the actuary in which are expounded the fundamental points of law on which the proposal for regularisation is based.

2. The taxpayer will have a deadline of 15 days from the date when the proceedings were drawn up or from the notification of the same in order to

formulate allegations.

3. Before issuing the settlement ruling the competent body may agree on the carrying out of complementary actions in the terms established according to the rules.

4. Once allegations have been received, the competent body will issue the appropriate settlement which will be notified to the interested party.

CHAPTER IV

Special precepts

Article 111. *Application of the indirect estimate method.* 1. When the indirect estimate method is applicable, the Tax Inspection will add to the proceedings instituted in order to regularise the tax situation of the taxpayers a reasoned report on:

a) The reasons determining the application of the indirect estimation method.

b) The situation of the accounting and compulsory registers of the taxpayer.

c) The justification of the methods chosen for determining the bases, yields, or charges.

d) The calculations and estimates made by virtue of the methods chosen.

2. The application of the indirect estimate method will not require a prior administrative ruling to declare it, but in the appropriate appeals and claims against the resultant proceedings and settlements the suitability of the application of said method may be raised.

Article 112. *Mandatory report for the declaration of a dispute in the application of tax regulations.* 1. In accordance with that established in Article 15 of the General Law on Taxation, for the Tax Inspection to be able to declare a dispute in the application of the tax regulations it must issue in advance a favourable report from the Consultative Commission which is made up, in the terms established according to the rules, of two representatives of the competent body for replying to written tax enquiries, one of which acts as Chairman, and by two representatives of the acting tax Administration.

2. When the acting body considers that the circumstances

contemplated in Point 1 of Article 15 of said law may occur, it will notify this to the interested party and will grant it a period of 15 days to present allegations and provide or propose the evidence it considers appropriate.

Once the allegations have been received and the appropriate evidence has been examined if this is necessary, the acting body will send the complete record to the Consultative Commission.

3. The time that passes from the notification to the interested party of the legitimacy of requesting the mandatory report to the reception of said report by the inspection body will be considered a justified interruption to the calculation of the deadline of the inspection actions contemplated in Article 150 of the aforementioned General Law on Taxation.

4. The deadline for issuing the report will be three months from the sending of the record to the Consultative Commission. This deadline can be extended by a justified agreement by the consultative commission by not more than one month.

5. Once the deadline referred to in the previous section has expired without the Consultative Commission having issued the report, the calculation of the period of duration of the inspection actions will be renewed, maintaining the obligation of issuing said report, although the actions may continue and if appropriate a provisional settlement may be issued regarding the remaining elements of the tax obligation unrelated to the operations analysed by the Consultative Commission.

6. The report of the Consultative Commission will bind the inspection body on the declaration of the dispute in the application of the regulations.

7. The report and the remaining rulings issued in application of that set down in this article will not be subject to claims or appeals, but in those lodged against the rulings and settlements resulting from the checking the legitimacy of the declaration of the dispute in the application of the tax regulations can be raised.

TITLE V

Collection

CHAPTER I

General precepts

Article 113. *Collection administration bodies.* 1. The taxes of the Municipality of Madrid will be collected by the "Madrid Tax Office".

2. The Credit Entities authorised for the opening of restricted collection accounts are collaborators with the collection service.

3. The payment of periodic taxes subject to collective notification must be made at any of the authorised Credit Entities.

4. The payment of individually notified settlements, together with those resulting from self-assessments formulated by the taxpayers themselves, will be made at any of the authorised Credit Entities.

Article 114. Debt collection. 1. The tax debts and tax penalties that may be imposed in accordance with Title VI of this ordinance may be collected during the voluntary period or the enforcement period.

2. Payment during the voluntary period must be made within the deadlines determined in Sections 1 and 2 of the following article of this ordinance.

3. Debts that have not been paid during the voluntary period will be charged by distraint proceedings once the enforcement period has been initiated.

Article 115. Deadlines for payment. 1. In the case of debts resulting from settlements carried out by the Administration, payment within the voluntary period must be made within the following deadlines:

a) If the settlement is notified between the 1st and 15th of each month, from the date of the reception of the notification to the 20th of the subsequent month, or if this is not a working day to the working day immediately following it.

b) If the settlement is notified between the 16th and the last day of the month, from the date of the reception of the notification to the 5th of the second subsequent month, or if this is not a working day to the working day immediately following it.

c) Those corresponding to periodic taxes subject to collective notification for which no other deadline has been established in their regulations, from 1st October to 30th November.

When the needs of the service make it advisable, this deadline may be modified by a resolution of the competent body of the "Madrid Tax Agency" provided that this is not less than two months.

d) The debts resulting from agreements will be paid within the deadlines determined in the same.

e) For non tax debts, within the deadlines determined by the rules or agreements in accordance with which such debts are demanded, and failing this within the deadlines established in points a), b), or c) according to each case.

2. In the case of self-assessments, the debts settled by the taxpayer itself must be paid within the deadlines indicated in the rules regulating each tax.

3. Once the enforcement period has been initiated and notice of a distraint order has been given, the tax debt must be paid within the following deadlines:

a) If notice of the distraint order is given between the 1st and 15th of each month, from the date of the reception of the notice to the 20th of said month, or if this is not a working day to the working day immediately following it.

b) If notice of the distraint order is given between the 16th and the end of each month, from the date of the reception of the notice to the 5th of the following month, or if this is not a working day to the working day immediately following it.

4. If a postponement or splitting of the payment has been granted, that established in Articles 37 to 42 of this ordinance will be applicable.

5. The suspensions agreed by a competent administrative or legal body in relation to debts during the voluntary period interrupt the deadlines fixed in this article.

Having settled the appeal that gave rise to the suspension, if the agreement neither cancels nor modifies the settlement challenged it must be paid within the deadlines contemplated in paragraphs a) and b) of Point 1 of this article depending on whether the resolution has been notified during the first or second fortnight of the month. The administrative resolution will be notified to the appellant with the mention of this deadline within which the debt must be paid.

If the resolution gives rise to the modification of the ruling or orders the retroaction of the procedure, the debt resulting from the ruling issued to enforce said agreement must be paid within the deadlines contemplated in paragraphs a) and b) of Point 1 of this article. The notification of the new proceedings will expressly indicate this deadline.

With regard to the refunding of the cash deposits and to the effects of

that set down in Article 7.4 of the municipal Regulations on the constitution, refunding, and discharging of guarantees, the references to the "administrative body" to which said precept refers will be understood to mean the services of the Treasury.

CHAPTER II

Collection during the voluntary period

Article 116. *Initiation and completion.* 1. Collection during the voluntary period will be initiated as from:

a) When the taxpayer or its representative is individually notified, from the date of the reception of the notification or from that on which this is understood to have occurred to all legal effects.

b) The opening of the respective collection period for debts subject to collective and periodic notification.

c) In the case of self-assessments, the date of the beginning of the period indicated for its presentation.

2. Collection during the voluntary period will conclude on the day of the expiry of the corresponding payment periods. For debts to be paid by self-assessment presented late without making the payment or without presenting an application for postponement, payment by instalments, or compensation it will conclude on the same day as the presentation of the self-assessment.

If the expiry of the payment period falls on a Saturday or on a non working day it will be transferred to the first following working day.

3. Taxpayers may settle their debts either totally or partially during the voluntary period; the enforcement period will be initiated for the unpaid amount.

CHAPTER III

Collection during the enforcement period

Article 117. *Collection during the enforcement period.* 1. The enforcement period is initiated:

a) In the case of debts settled by the tax Administration, on the day following that of the expiry of the deadline established for its payment according to the rules.

b) In the case of the debts to be paid by self-assessment presented without making the payment, on the day following the end of the deadline established for the rules of each tax for said payment, or if this has already ended on the day following the presentation of the self-assessment.

2. The presentation of an application for postponement, payment by instalments, or compensation during the voluntary period will prevent the initiation of the enforcement period during the processing of said records.

The lodging of an appeal or the making of a claim on time and correctly against a penalty will prevent the initiation of the enforcement period until the penalty is definitive by administrative proceedings and the deadline for voluntary payment has ended.

3. Once the enforcement period has been initiated the debts settled or self-assessed will be collected with the corresponding surcharge and if appropriate the interest and the costs by the distraint procedure on the net worth of the taxpayer.

4. The start of the enforcement period will determine the requirement of the interest in arrears and the surcharges of the enforcement period in the terms of Articles 17 and 19 of this ordinance and if appropriate of the distraint procedure.

5. The distraint procedure will be initiated by means of a order served to the debtor which will identify the debt pending, settle the corresponding surcharges, and summons said debtor to make the payment.

If the debtor does not make the payment during the deadline established in Article 62.5 of the General Law on Taxation its assets will be seized as is warned in the distraint order.

If the expiry of the payment period falls on a Saturday or on a non working day it will be transferred to the first following working day.

6. The above order issued by the Director of the "Madrid Tax Office" is sufficient right for the initiation of the distraint procedure and has the same enforceability as a court ruling to proceed against the assets and rights of taxpayers.

7. The system of notifications in the administrative collection procedure will be that established in the General Collection Regulations and in this ordinance.

Article 118. Reasons for opposition. 1. Only the following reasons for opposition will be acceptable against the distraint order:

a) The total discharge of the debt or lapsing of the right to demand the payment.

b) An application for postponement, payment by instalments, or compensation during the voluntary period and other reasons for the suspension of the collection procedure.

c) Failure to notify the settlement.

d) Cancellation of the settlement.

e) An error or omission of the distraint order preventing the identification of the debtor or the distraint debt.

2. Only the following reasons for opposition will be acceptable against the attachment proceedings of the assets forming the net worth of the debtor:

a) The discharge of the debt or the lapsing of the right to demand the payment.

b) Failing to notify the distraint order.

c) Failure to comply with the rules regulating attachment contained in the General Law on Taxation and the rules issued to develop them.

d) Suspension of the collection procedure.

Article 119. *Distraint procedure.* The distraint procedure will be carried out in the manner regulated in the General Law on Taxation and in the General Collection Regulations in accordance with the peculiarities established in the following articles.

Article 120. *Interest in arrears.* The interest in arrears accrued during the enforcement period must be paid at the time of the payment of the distraint debt and will always be demandable when appropriate according to that set down in Articles 26 to 28 of the General Law on Taxation, whatever the amount accrued by the concept.

Article 121. *Costs.* In addition to those enumerated in the General Collection Regulations, the following will be considered to constitute costs of the record as they are expenses that are inevitably and specifically demanded and required by the processing of the procedure:

a) Citations or summonses that must be published in Official Bulletins owing to this being a legal precept or regulation, when they are subject to the payment of the corresponding rates.

b) Announcements of auction or bankruptcy, whether in full or in the form of extracts, in the media referred to in the General Collection Regulations and in this ordinance.

c) Franking costs according to post office rates.

Article 122. *Valuations.* In relation to that set down in the General Collection Regulations on the valuation of assets, the following must be understood:

If the difference between the sums of the values allocated to the assets by the Administration and the taxpayer should exceed 20 per cent, the debtor will be summonsed to appear in person at the headquarters of the "Madrid Tax Office" within 10 working days to settle the difference in valuation. If an agreement is reached the value of the asset seized will be considered to be that attained in said agreement.

If the interested party does not appear within the above deadline it will be declared to have lost its right to the aforementioned measure, and as there is no agreement between the parties the competent body will request a new valuation from a suitable appraiser.

Article 123. *Auction table.* The auction table will consist of the Director of the "Madrid Tax Office", who will be the Chairman, of the General Inspector, and of two employees of the "Madrid Tax Office" appointed by the Chairman of the same, with one of them acting as Secretary. All of them are subject to possible replacement.

Article 124. *Peculiarities of the auction.* 1. The Director of the "Madrid Tax Office" will agree in the terms contemplated in current legislation on the disposal of the assets seized by means of an auction, tender, or direct adjudication.

The disposal agreement may only be challenged if the attachment proceedings have been considered to be notified owing to the failure to appear of the taxpayer or its representative. In this case only the reasons for challenging established against attachment proceedings will be admissible against the disposal agreement.

2. The auctions will be announced in any case on the notice boards of the Corporation and of the "Madrid Tax Office".

When the value of the asset to be disposed of exceeds the amount of 1.000,000 euros, the auction will be announced in the Official Bulletin of the Region of Madrid. When the value of the asset exceeds the amount of

10.000,000 euros, the auction will also be announced in the Official State Bulletin.

If the amount of the assets of the auction is equal to or less than 1.000,000 euros, when its cost is proportional to the value of the assets an extract of the announcement will be published in the Official Bulletin of the Region of Madrid.

In the case of assets included in a lot, the auction will be announced in the corresponding official bulletin when any of the assets included within it exceeds the values indicated in the previous paragraph.

To the effects of determining the amounts previously established, the value of the asset will be considered to be the difference between the valuation used to establish the minimum bid and the amount of the previous burdens inscribed that have resulted from the investigation carried out, in order to comply with that set down in Article 97.5 of the General Collection Resolutions.

3. In order to be accepted as such, all tenderers will provide a deposit in cash or in the form of a certified cheque in favour of the municipal treasury of at least 20% of the minimum bid, unless the Auction Table has a justified reason to reduce it to 10%.

4. If the auction is of real estate with a minimum bid exceeding 250.000 euros, the successful bidder may exercise the option contemplated in Article 111 of the General Collection Regulations of paying the price of the auction sale on the same day of the execution of the public deed of sale. The resultant successful bidder must notify its wish to use this form of payment; the Auction Table may condition this option to the providing of an additional deposit within the non extendible deadline of ten days.

Article 125. *Suspension of the distraint procedure.* In accordance with that set down in Article 165 of the General Law on Taxation, the distraint procedure will be suspended in the manner and with the requirements contemplated in the precepts regulating economic-administrative appeals and claims and in the remaining cases contemplated in the tax regulations, to which effect that anticipated in Article 169 of this ordinance will be applicable.

Article 126. *Challenging the distraint procedure.* An economic-administrative claim may be made within the deadlines and under the conditions contemplated in the rules against the pertinence of the distraint procedure and against the rulings and resolutions issued on collection

administration.

Nevertheless, the interested parties may optionally present in advance against the rulings anticipated in the previous paragraph the appeal for reversal regulated in Chapter III of Title VII of this ordinance.

TITLE VI

Tax offences and penalties

CHAPTER I

Principles and general precepts

Article 127. *Concept and types.* Tax offences are deceitful or culpable actions or omissions at any level of negligence that are classed and penalised as such in the General Law on Taxation or other legally binding rules. They will be classed as minor, serious, or very serious in accordance with that set down in each case in Articles 191 to 206 of the aforementioned law.

Tax offences will be punished by means of the imposing of financial penalties and when appropriate of non financial penalties of an accessory nature.

Financial penalties may consist of a fixed or proportional fine.

Article 128. *Principle of responsibility in tax offences.* The actions or omissions classified in the laws will not give rise to responsibility for tax offences in the following cases:

a) When they are carried out by those lacking the capacity to act in tax matters.

b) In the case of force majeure.

c) When they derive from a collective decision, for those who saved their vote or did not attend the meeting when this measure was adopted.

d) When the necessary diligence has been observed in compliance with tax obligations.

e) When they are imputable to a technical fault in the computer programmes of assistance provided by the tax Administration for compliance with tax obligations.

To the effects of that contemplated in Article 27 and in Point 3 of Article 179 of the General Law on Taxation, no tax offence will be committed by

those regularising their tax situation before the tax Administration notifies any action leading to the checking or investigation of the corresponding tax obligation or in which its compliance is required or in which the initiation of the penalising procedure is notified.

If the taxpayer should make a payment subsequent to the reception of the aforementioned notification, said payment will be considered to be on account of the settlement that may be carried out if possible and will not prevent the application of the corresponding penalties.

Article 129. Action in the event of an alleged offence against the Public Treasury. If the tax Administration considers that the offence may constitute a crime against the Public Treasury, it will pass the evidence of criminal responsibility to the competent jurisdiction or will send the record to the Tax Ministry, after hearing the interested party, and will abstain from following the administrative procedure which will be suspended until the legal authority gives a final judgment, the action is dismissed or shelved, or the record is returned by the Tax Ministry.

The returning of a guilty verdict by the legal authority will prevent the imposing of an administrative penalty.

If no indication of a crime is appreciated, the tax Administration will initiate or continue with its actions in accordance with the events that the courts have considered to be proven, and the calculation of the expiry period will be resumed at the same point it was when it was suspended. Administrative actions carried out during the suspension period will be considered to be non-existent.

Article 130. Compatibility with interest and surcharges. The penalties deriving from the committing of tax offences are compatible with the demanding of the interest in arrears and the surcharges of the enforcement period.

Article 131. Offenders. Offenders will be the corporate or natural persons and the entities mentioned in Point 4 of Article 35 of the General Law on Taxation carrying out the actions or omissions classed as offences in the laws.

Article 132. Reduction of penalties. 1. The amount of the financial penalties imposed according to Articles 191 to 197 of the General Law on Taxation will be reduced in the following percentages:

- a) 50 per cent in cases of Proceedings with Agreement.

b) 30 per cent in cases of accordance.

2. The amount of the reduction applied according to that set down in the previous section will be demanded with no further requirement other than notification to the interested party, in the event of any of the following circumstances:

a) In the cases contemplated in paragraph a) of the previous point, when the corresponding appeal for judicial review has been lodged against the regularisation or the penalty, or if a guarantee or a surety insurance certificate has been presented as replacement for the deposit, when the amounts deriving from the proceedings with agreement have not been paid during the voluntary period, without it being possible to postpone or split said payment.

b) In the cases of accordance, when an appeal has been lodged or a claim has been presented against the regularisation.

3. The amount of the penalty that must be paid for the committing of any offence, once if appropriate the reduction for accordance referred to in paragraph b) of Point 1 of this article has been applied, will be reduced by 25 per cent in the following circumstances:

a) The total payment of the remaining amount of said penalty is made during the voluntary period without a request for the postponement or the splitting of the payment having been presented.

b) No appeal is lodged or claim made against the settlement or the penalty.

The amount of the reduction applied in accordance with that set down in this section will be demanded with no further requirement than notification to the interested party, when an appeal has been lodged or a claim made within the deadline against the settlement or the penalty.

The reduction contemplated in this point will not be applicable to the penalties which are appropriate in the cases of proceedings with agreement.

4. When according to that set down in Points 2 and 3 of this article the amount of the reduction applied is demanded, it will not be necessary to lodge an independent appeal against said ruling if prior to this an appeal has been lodged or a claim brought against the reduced penalty.

If an appeal has been lodged against the reduced penalty it will be understood that the amount to which said appeal refers will be the total

amount of the penalty, and the suspensive effects deriving from the appeal will be extended to the reduction applied which is demanded.

CHAPTER II

Classification of tax offences and penalties

Article 133. Tax offence for failing to pay the tax debt resulting from a self-assessment. 1. Failing to pay the totality or part of the tax debt resulting from the correct self-assessment of the tax within the deadline established in the rules for each tax constitutes a tax offence, unless it is regularised according to Article 27 or it is appropriate to apply paragraph b) of Point 1 of Article 161, both of the General Law on Taxation.

The basis of the penalty will be the amount unpaid in the self-assessment as a consequence of the committing of the offence.

2. The tax offence will be minor when the basis of the penalty is equal to or less than 3.000 euros or when if it is higher there is no concealment.

The penalty for a minor offence will consist of a proportional fine of 50 per cent.

3. The offence will be serious when the basis of the penalty exceeds 3.000 euros and there is concealment.

The penalty for a serious offence will consist of a proportional fine of 50 to 100 per cent and will be calibrated by increasing the minimal percentage according to the criteria of the repeated committing of tax offences and of economic damage for the Public Treasury, with the percentage increases contemplated for each case in paragraphs a) and b) of Point 1 of Article 187 of the General Law on Taxation.

4. When the taxpayer has obtained a refund unduly and as a consequence of the regularisation applied the imposing of a penalty such as those regulated in this article is appropriate, it will be understood that the unpaid amount is the result of adding to the amount of the refund unduly obtained the total amount that it should have paid in the self-assessment and that the economic damage is of 100 per cent.

In these cases, the offence referred to in Article 193 of the General Law on Taxation and consisting of obtaining a refund unduly will not be punishable.

Article 134. Tax offence for failing to comply with the obligation of presenting full and correct returns for applying settlements. 1.

Failing to comply with the obligation of presenting full and correct returns or necessary documents, so that the tax Administration can apply the appropriate settlement of those taxes that are not required by the procedure of self-assessment, constitutes a tax offence unless it is regularised according to Article 27 of the General Law on Taxation.

The basis of the penalty will be the amount of the settlement when no tax return has been presented, or the difference between the amount resulting from the suitable settlement of the tax and that which would have been appropriate in accordance with the details declared.

2. The tax offence will be minor when the basis of the penalty is equal to or less than 3.000 euros or when if it is higher there is no concealment.

The penalty for a minor offence will consist of a proportional fine of 50 per cent.

3. The offence will be serious when the basis of the penalty exceeds 3.000 euros and there is concealment.

The penalty for a serious offence will consist of a proportional fine of 50 to 100 per cent and will be calibrated by increasing the minimal percentage according to the criteria of the repeated committing of tax offences and of economic damage for the Public Treasury, with the percentage increases contemplated for each case in paragraphs a) and b) of Point 1 of Article 187 of the General Law on Taxation.

Article 135. Tax offence for wrongfully obtaining refunds. 1. Wrongfully obtaining refunds deriving from the rules on each tax constitutes a tax offence.

The tax offence contemplated in this article will be minor, serious, or very serious in accordance with that set down in the following points.

The basis of the penalty will be the amount wrongfully refunded as a consequence of the committing of the offence.

2. The tax offence will be minor when the basis of the penalty is equal to or less than 3,000 euros or when if it is higher there is no concealment.

The penalty for a minor offence will consist of a proportional fine of 50 per cent.

3. The offence will be serious when the basis of the penalty exceeds

3.000 euros and there is concealment.

Article 136. Tax offence for wrongfully applying for tax refunds, inducements, or incentives. 1. Wrongfully applying for refunds deriving from the rules of each tax by means of the omission of relevant details or the inclusion of false details in self-assessments, notifications of details, or applications, without the refunds having been obtained, constitutes a tax offence.

The tax offence anticipated in this section will be serious.

The penalty will consist of a proportional fine of 15 per cent.

2. it is likewise a tax offence to wrongfully request tax inducements or incentives by means of the omission of relevant details or the inclusion of false details, provided that as a consequence of said conduct it is not appropriate to impose on the same subject a penalty for any of the offences contemplated in Articles 191, 192, or 195 of the General Law on Taxation or in the first point of this article.

The tax offence contemplated in this section will be serious and will be penalised with a fixed fine of 300 euros.

Article 137. Tax offence for not presenting self-assessments or returns within the deadline without an economic loss occurring. 1. The offence contemplated in this section will be minor.

The penalty will consist of a fixed fine of 200 euros, or in the case of census declarations or that relating to the notification of the appointment of persons or entities when this is established in the regulations, of 400 euros.

2. Notwithstanding that set down in the previous point, if the self-assessments or tax returns are presented after the deadline with no prior summons by the tax Administration, the penalty and the minimum and maximum limits will be half of those contemplated in the previous section.

3. Failing to comply with the obligation of notifying the tax address or any change in the same by natural persons not carrying out economic activities also constitutes a tax offence.

The offence contemplated in this section will be minor.

The penalty will consist of a fixed fine of 100 euros.

Article 138. Tax offence for failing to comply with obligations relating to the use of the tax identity number or other numbers or

codes. Failure to comply with the obligations relating to the use of the tax identity number and of other numbers or codes established by the tax regulations constitutes a tax offence.

The offence contemplated in this article will be minor.

The penalty will consist of a fixed fine of 150 euros.

Article 139. Tax offence for resisting, obstructing, preventing, or denying the actions of the tax Administration. 1. The resistance, obstruction, prevention, or denial of the actions of the tax Administration constitutes a tax offence.

This circumstance will be understood to have occurred when the offender, duly notified for the purpose, has carried out actions intending to delay, hinder, or prevent the actions of the tax Administration in relation to complying with its obligations.

Among others, the following forms of conduct constitute resistance, obstruction, prevention, or denial of the actions of the tax Administration:

a) Not facilitating the examination of documents, reports, records, books, registers, files, invoices, receipts, and main or auxiliary accounting entries, computer programmes and files, operating and control systems, and any other detail of tax importance.

b) Not attending any duly notified summons.

c) Failure to appear at the place and time indicated unless there is a justified reason.

d) Denying or wrongfully preventing the entry or the remaining on properties or premises of officials from the tax Administration or the searching of premises, machines, installations, and exploitations related to tax obligations.

e) Coercion of the officials of the tax Administration.

2. The offence contemplated in this article will be serious.

3. The penalty will consist of a fixed fine of 150 euros unless that set down in the following points of this article is applicable.

4. When the resistance, obstruction, prevention, or denial of the action of the tax Administration consists of disregarding within the deadline granted summons other than those contemplated in the following section, the penalty will consist of a fixed fine of:

- a) 150 euros, if a summons has been disregarded for the first time.
- b) 300 euros, if a summons has been disregarded for the second time.
- c) 600 euros, if a summons has been disregarded for the third time.

5. When the resistance, obstruction, prevention, or denial of the action of the tax Administration refers to the submitting or the examination of documents, books, files, invoices, receipts and main or auxiliary accounting entries, programmes, operating and control systems or consists of persons or entities carrying out economic activities failing to comply with their duty of appearing, of facilitating the entry or remaining on properties or premises, of searching elements and installations, or the duty of submitting details, reports, or records of tax importance in accordance with that set down in Articles 93 and 94 of the General Law on Taxation, the penalty will consist of:

a) A fixed fine of 300 euros, if the taxpayer does not appear or does not facilitate administrative action or provide the information required within the deadline granted in the first summons notified to this effect.

b) A fixed fine of 1.500 euros, if the taxpayer does not appear or does not facilitate administrative action or provide the information required within the deadline granted in the second summons notified to this effect.

c) A proportional fine of up to 2 per cent of the business turnover of the offender in the calendar year prior to that in which the offence occurred, with a minimum of 10.000 euros and a maximum of 400.000 euros, when it has not appeared or has not facilitated administrative action or provided the information required within the deadline granted in the third summons notified to this effect. If the amount of the operations referred to in the disregarded summons represents a percentage exceeding 10, 25, 50, or 75 per cent of the amount of the operations that should have been declared, the penalty will consist of a proportional fine of 0,5, 1, 1,5, and 2 per cent of the amount of the business turnover respectively.

CHAPTER III

Disciplinary procedure

Article 140. Regulation of the tax disciplinary procedure. 1. The tax disciplinary procedure will be regulated:

a) By the special rules established in Title IV of the General Law on Taxation and the regulations issued in its development.

b) Failing this, by the regulations of the administrative disciplinary procedure.

2. When at the time of initiating the disciplinary proceedings all the elements allowing the formulation of the proposal of imposing the penalty are in the possession of the competent body, said proposal will be incorporated to the initiation agreement. This agreement will be notified to the interested party, indicating to it access to the record and granting it a period of 15 days within which it may allege whatever it considers convenient and present the documents, receipts, and evidence it considers appropriate. Likewise the interested party will be expressly warned that if it neither formulates allegations nor submits new documents or elements of proof the resolution may be issued in accordance with said proposal.

3. When in a disciplinary procedure initiated as a consequence of an inspection procedure the interested party gives its agreement to the proposal of resolution, said resolution will be understood to have been issued and notified by the competent body in order to impose the penalty, in accordance with said proposal, during a deadline of one month counting from the date on which said agreement was declared, without the need for a further express notification for the purpose, unless within said deadline the body competent to impose the penalty notifies the interested party of agreement with any of the contents referred to in the paragraphs of Point 3 of Article 156 of the General Law on Taxation.

4. The proceedings of resolution of the disciplinary procedure may be subject to an appeal or independent claim. If the taxpayer also opposes the tax debt, both the appeals and claims will accumulate with the competent one being that hearing the opposition to the debt.

TITLE VII

Revision by administrative proceedings

CHAPTER I

Means of revision

Article 141. Means of revision. 1. The rulings and actions for the application of local taxes and the rulings for imposing tax penalties may be revised by means of:

- a) Special revision procedures.
- b) Appeal for reversal.

c) Economic-administrative claims to the Municipal Economic-Administrative Court of Madrid.

2. The rulings for the applications of municipal public revenue which have been affected by an economic-administrative resolution may not be revised by administrative proceedings, whatever the reason alleged, except in the cases of nullity with full rights, the rectification of material errors, and an Extraordinary Appeal Of Revision.

3. Economic-administrative claims will be governed by the Organic Regulations regulating the Municipal Economic-Administrative Court of Madrid, in addition to the procedure for the resolution of the claims of its competence.

CHAPTER II

Special revision procedures

SECTION 1. PROCEDURE OF REVISING NULL AND VOID RULINGS WITH FULL RIGHTS

Article 142. Declaration of nullity with full rights. The nullity with full rights may be declared of the rulings issued on tax matters that have put an end to administrative proceedings or which have not been appealed against within the deadline, in the cases included in Article 217.1 of the General Law on Taxation.

Article 143. Initiation. 1. The procedure for declaring nullity referred to in this section may be initiated automatically, by agreement of the body that issued the ruling or its hierarchal superior, or at the request of the interested party.

2. The body to which the processing of the procedure corresponds may propose to the body with the competence for resolving this special procedure the rejection of the applications for revision formulated by the interested parties, without the need for obtaining a judgement from the consultative body referred to in Article 145 of this ordinance, in the cases contemplated in Article 217.3 of the General Law on Taxation.

Article 144. Processing. 1. The competent body for its processing will obtain the administrative record accompanied by a report on the records of the procedure that are of relevance for the resolution and any other detail or record that it considers necessary for drawing up the proposal for resolution.

2. Once the documentation indicated in the previous section has been received, a hearing for a period of fifteen days will be given to the interested parties and to the remaining persons for which the ruling recognised rights or whose interests were affected by the same, so that they may allege and present the documents and receipts that they deem appropriate.

Article 145. Resolution. 1. The declaration of nullity will require a favourable prior judgement from the Consultative Council of the Region of Madrid ⁽¹⁾.

2. The competent body for issuing a resolution in procedures of the automatic revision of null and void rulings issued by the bodies of the "Madrid Tax Office" will be that established in its regulations. As for the remaining rulings, a resolution will be issued by the holder of the Area competent in Treasury matters.

SECTION 2. DECLARATION OF HARMFULNESS OF CANCELLABLE RULINGS

Article 146. Declaration of harmfulness. The municipal tax Administration may declare its rulings and resolutions favourable to the interested parties incurring any offence of the legal system to be harmful to the public interest, so as to proceed to its subsequent challenging by contentious-administrative proceedings. The declaration of harmfulness may not be adopted once four years have passed since the administrative ruling was notified.

Article 147. Initiation. The procedure of the declaration of harmfulness of cancellable rulings will be initiated automatically by means of agreement from the body that issued the proceedings or its hierarchal superior.

Article 148. Processing. 1. The competent body for its processing will obtain the administrative record and a report on the records of the procedure of relevance for the resolution and any other detail, record, or report that it considers necessary for drawing up the proposal for resolution.

⁽¹⁾ By Law 7/2015 of 28th December the Consultative Council of the Region of Madrid is abolished. By virtue of that set down in said Law therefore, the references contained in this article to the aforementioned Consultative Council must be understood to be made to the Legal Consultancy Commission of the Region of Madrid.

2. The body in charge of the processing must notify the interested parties of the agreement to initiate the procedure and allow them access to the record for a period of 15 days so that they may allege and present the documents and receipts that they consider appropriate.

3. Once the stage of the hearing has passed, the body in charge of the processing will formulate a proposal for resolution, and once this has been done it must request a report from the municipal Legal Consultancy on the legitimacy of the ruling being declared harmful.

4. Once the report has been received from the Legal Consultancy, the body in charge of the processing will send the full report to the competent body for resolution if this is appropriate.

Article 149. Resolution. 1. The declaration of harmfulness corresponds to the body set down in the regulations of the "Madrid Tax Office" or otherwise to the holder of the Area competent in Treasury matters.

2. Once the declaration of harmfulness has been issued, the administrative record will be sent to the Legal Consultancy in order to challenge the ruling declared harmful by contentious-administrative proceedings.

SECTION 3. REVOCATION OF THE RULINGS OF TAX APPLICATION AND PENALTY IMPOSITION

Article 150. Revocation. 1. The tax Administration may revoke its rulings in favour of the interested parties when it is considered that they clearly break the law, when unforeseeable circumstances affecting a specific legal situation reveal the inadmissibility of the ruling issued, or when the processing of the procedure has caused the defencelessness of the interested parties.

Under no circumstances may the revocation either constitute a dispensation or exemption that is not permitted by tax regulations or go against the principle of equality, the public interest, or the legal system.

2. Revocation will only be possible as long as the expiry period has not passed.

Article 151. Initiation. The revocation procedure will be initiated automatically, without detriment to the fact that the interested parties may promote its initiation through the municipal tax Administration.

Article 152. Processing. 1. The processing will correspond to the

municipal tax administration body, which will obtain the administrative record relevant for resolution and any other detail, record, or report it considers necessary.

2. Once the appropriate information has been obtained, a hearing for a period of 15 days will be given to the interested party, which may allege and present the documents and receipts that it deems appropriate.

3. Once the hearing stage has passed, a report will be requested from the municipal Legal Consultancy.

4. Once the report has been received from the Legal Consultancy, the body in charge of the processing will formulate a proposal for resolution to the competent body for resolution.

Article 153. Resolution. Resolution corresponds to the body set down in the regulations of the "Madrid Tax Office" or otherwise to the holder of the Area competent in Treasury matters.

SECTION 4. RECTIFICATION OF MATERIAL, FACTUAL, OR ARITHMETICAL ERRORS

Article 154. Rectification of errors. 1. The body that has issued the ruling or the resolution, either automatically or at the request of the interested party, will rectify at any time the material, factual, or arithmetical errors, provided that the expiry period has not passed.

2. When the procedure has been initiated automatically, the proposal for rectification will be notified together with the initiation agreement so that the interested party may formulate allegations within a deadline of fifteen days.

When the rectification is applied in favour of the interested parties the resolution may be notified directly.

3. When the procedure has been initiated at the request of the interested party, the Administration may directly resolve as appropriate when other facts, evidence, or allegations than those presented by the interested party neither appear in the procedure nor should be taken into account in the resolution. If the opposite is true, the proposal for resolution should be notified so that the interested party may allege whatever may be in its best interest within a deadline of fifteen days.

4. The resolutions issued in this procedure will be liable to economic-administrative appeals for their processing and resolution to the Municipal Economic-Administrative Court of Madrid, or optionally to the prior lodging

of an appeal for reversal regulated in this ordinance.

SECTION 5. REFUNDING OF UNDUE PAYMENT

Article 155. Cases. The procedure for the recognising of the right to the refunding of undue payment will be initiated automatically or at the request of the interested party in the following cases:

- a) When the payment of tax debts or penalties has been duplicated.
- b) When the amount paid has exceeded the amount to pay resulting from an administrative ruling or a self-assessment.
- c) When amounts corresponding to tax debts or penalties have been paid after the expiry periods have passed.
- d) When this is established by tax regulations.

Article 156. Content of the right to the refunding of undue payments. 1. The amount to be refunded as a consequence of an undue payment will be made up of the sum of the following amounts:

- a) The amount of the payment made unduly.
- b) The surcharges, costs, interest, and other concepts paid in relation to the undue payment.
- c) The interest in arrears current from the date when the undue payment is made up until the date when the refund payment is ordered.

2. When the ruling of the application of the taxes or the imposing of penalties by virtue of which the undue payment was made has become definitive, the refunding of the same may only be requested by instigating or promoting the revision of the ruling by means of any of the special procedures contemplated in this ordinance and by means of the Extraordinary Appeal of Revision regulated in Article 74 of the Organic Regulation regulating the Municipal Economic-Administrative Court of Madrid, together with the procedure for the resolution of the claims of its competence.

Article 157. Initiation. 1. When the procedure is initiated at the request of the interested party, the application for refund will contain the following details:

- a) Proof of the undue payment, attaching to the application the documents justifying the right to refund, together with whatever elements of proof are considered appropriate to this effect. Proof of payment may

be replaced with the exact mention of the details identifying the payment made.

b) The current account number for its refund by bank transfer.

2. When the procedure is initiated automatically, the interested party will be notified of the initiation agreement.

When the details in the possession of the tax Administration are sufficient to formulate the proposal for resolution, the procedure may be initiated by means of the notification of said proposal.

Article 158. Development. 1. In the processing of the record, the circumstances which if appropriate determine the right to the refund, the fact of the payment, and its subsequent non refund, together with the ownership of the right and the amount of the refund, will be checked.

2. Once the pertinent actions have been completed, whoever is responsible for the processing will formulate the proposal for resolution and will present it to the competent body for its resolution.

Article 159. Resolution. The competent body for resolutions will issue a resolution in which if this is appropriate the right to the refund will be agreed, determining the holder of the right and the amount of the refund. The agreement will be reasoned when it is rejected or when the amount recognised does not coincide with that requested.

Article 160. Making the refund. When the refund has been recognised it will be returned immediately.

CHAPTER III

Appeal for reversal

Article 161. Objective and nature. 1. The rulings issued by the municipal tax Administration which are liable to a economic-administrative claim to the Municipal Economic-Administrative Court of Madrid may be subject optionally to the prior lodging of an optional appeal for reversal in accordance with that set down in this chapter.

If the interested party lodges an appeal for reversal it may not promote the economic-administrative claim until the appeal has been expressly resolved or until it can be considered to have been rejected owing to failure by the administration to reply.

When during the period established for appealing an appeal for

reversal is lodged or an economic-administrative claim is made concerning the same ruling, that presented first will be processed and the second will be declared inadmissible.

2. That contemplated in the previous point is understood without detriment to those cases in which the law anticipates the possibility of formulating economic-administrative claims to the Economic-Administrative Courts of the State.

Article 162. Competence for resolving. The municipal body that issued the administrative ruling that has been challenged will have the competence to process and resolve the appeal.

If appropriate it will be understood to this effect that the body that issued the ruling appealed against is always the delegating body to which the rulings issued by its delegates are imputed.

This circumstance must be reflected in the resolution adopted by delegation.

Article 163. Period for lodging the appeal. The appeal for reversal will be lodged within the period of one month counted from the day following that of the express notification of the ruling challenged or from the day following that on which the effects of the failure of the administration to reply occur. In the case of debts of periodic expiry and collective notification the period for lodging the appeal will be calculated as from the day following that of the end of the voluntary payment period.

Article 164. Legitimacy. An appeal for reversal may be lodged by:

- a) Taxpayers.
- b) Any other person whose legitimate and direct interests are affected by the administrative ruling of management.

Article 165. Representation and technical management. The appellants may appear in their own right or by means of a representative, without the intervention of a lawyer or procurator being compulsory.

Article 166. Initiation. The appeal for reversal will be lodged by means of a document on which the following particulars will be recorded:

- a) The personal circumstances of the appellant and if appropriate of its representative, indicating the identity card or the identifying code.
- b) The body to which the appeal is formulated.

c) The administrative ruling appealed against, the date when it was issued, the number of the record, and other details relating to the same that are considered pertinent.

d) The address indicated by the appellant for notification purposes.

e) The place and date of the lodging of the appeal and the signature of the appellant or if appropriate of its representative.

In the notice of appeal both factual and legal allegations will be formulated. Said notice will be presented with the documents serving as a basis for the claim made.

if the suspension of the ruling challenged is sought, the notice of the initiation of the appeal will be accompanied by proof of the guarantees constituted in accordance with that set down in Article 169 of this ordinance.

Article 167. Access to the record. If the interested party should need the record of administration or of the administrative actions in order to formulate its allegations, it must appear for this purpose at the corresponding municipal Office as from the day following the notification of the administrative ruling being challenged and before the end of the period for lodging the appeal.

Under the responsibility of its manager, the administration Office or Department will have the obligation of allowing the interested party access to the record or the administrative actions required.

Article 168. Presentation of the appeal. The notice of the lodging of the appeal will be presented at the headquarters of the body that issued the administrative ruling which was challenged or failing this in the places indicated in the legislation on the common administrative procedure of the Public Administrations.

Article 169. Suspension of the ruling challenged. 1. The lodging of any administrative remedy will not suspend the application of the ruling challenged with the resulting legal consequences, including the collection of charges or rights settled, interest, surcharges, and costs. Rulings of the imposing of tax penalties will be automatically suspended.

2. The suspension will be fitting in the same terms as those established in Articles 25 and the following of the Organic Regulation that regulates the Municipal Economic-Administrative Court of Madrid, as will the procedure for the resolution of the claims of its competence, taking into

account that:

a) No suspensive effects will apply to any applications not accompanied by the corresponding guarantee. In this case the application will be rejected and shelved and this will be notified to the interested party.

b) The automatic suspension will be agreed in the event of the presentation of a guarantee consisting of the personal and joint and several surety of two ratepayers resident in the Municipality of Madrid when the amount of the claim is less than 600 euros.

c) Resolutions dismissing the suspension will be liable to an economic-administrative claim for their resolution by the Municipal Economic-Administrative Court of Madrid.

Article 170. *Other interested parties.* If from the initial document or that of the subsequent action other interested parties apart from the appellant should be forthcoming, these will be notified of the lodging of the appeal so that they may allege whatever may be in their best interest within a period of five days.

Article 171. *Extension of the revision.* The revision subjects to the knowledge of the competent body for it to resolve all the matters expounded in the record, whether they have been brought forward in the appeal or not.

If the body considers it relevant to examine and resolve matters not brought up by the interested parties, it will expound them to those appearing in the procedure and will grant them a period of five days within which to formulate allegations.

Article 172. *Resolution of the appeal.* The appeal will be resolved within one month counting from the day following that of its presentation, with the exception of the cases regulated in Articles 170 and 171 above in which the deadline will be calculated from the day following that on which the allegations are formulated or the deadlines mentioned are allowed to pass.

The appeal will be understood to have been dismissed when there has been no resolution within the deadline.

Alleged rejection does not imply exemption of the obligation to resolve the appeal.

Article 173. *Form and content of the resolution.* The express resolution of the appeal will always be carried out in writing.

Said resolution, which will always be justified, will contain a succinct reference to the facts and allegations of the appellant, and will clearly express the why the ruling challenged is confirmed or revoked either totally or partially.

Article 174. Notification of the resolution. The express resolution must be notified to the appellant and the other interested parties, if these exist, within a deadline of ten days from its occurrence.

Article 175. Challenging the resolution. This appeal may not be lodged again against the resolution of the appeal for reversal; the interested parties may make an economic-administrative claim for its processing and resolution to the Municipal Economic-Administrative Court of Madrid.

Article 176. System for challenging the rulings and normative local precepts. Against the rulings bringing to an end the claims formulated in relation to the agreements of this Corporation on the imposing of taxes and the approval and modification of tax ordinances, the interested parties may directly lodge an appeal for resource review within two months counting from the publication of the same in the Official Bulletin of the Community of Madrid.

CHAPTER IV

Special precepts

SECTION 1. SPECIAL RULES FOR THE ENFORCING OF ECONOMIC-ADMINISTRATIVE RESOLUTIONS AND SENTENCES

Article 177. Compliance with the economic-administrative resolution. If the interested party considers that the rulings issued to enforce the resolutions are not in keeping with their content, it may present an application for enforcement that must be resolved by the Municipal Economic-Administrative Court of Madrid in the manner set down in the Organic Regulation regulating the Municipal Economic-Administrative Court of Madrid, together with the procedure for the resolution of the claims of its competence.

Article 178. Enforcement of sentences. Sentences of the Courts of Law will be enforced in accordance with that established in the regulations of Jurisdiction for Suits under Administrative Law.

SECTION 2. REIMBURSEMENT OF THE COSTS OF GUARANTEES

Article 179. Reimbursement of the costs of guarantees. 1. At the

request of the interested party and on justification of the amount, the Municipal Administration will reimburse the cost of the guarantees provided in order to suspend the enforcement of a ruling or to postpone or split the payment of a debt if said ruling or debt is declared inadmissible by a definitive sentence or administrative resolution. When the ruling or the debt is declared partially inadmissible, the reimbursement will attain the corresponding part of the cost of the guarantees.

In shared administration taxes, the Municipal Administration will reimburse the cost of the guarantee without detriment to subsequently claiming it from the Administration causing the error that determined the cancellation of the ruling.

2. With the reimbursement of the costs of the guarantees, the tax Administration will pay the current legal interest throughout the period during which it is accrued without the need for the taxpayer to apply for it. To these effects, the legal interest will be accrued from the duly justified date on which said costs have been incurred until the date when the payment is ordered.

3. To the effects of proceeding to reimburse the guarantees, the cost of the latter will be determined in the following manner:

In endorsements, by the amounts in effect paid to the guaranteeing entity as commissions and expenses of the formalisation, maintenance, and cancellation of the endorsement, accrued up until the thirty days following the notification to the interested party of the corresponding definitive resolution or sentence.

In chattel and real estate mortgages and pledges with or without transfer of possession, expenses deriving from the intervention of a commissioner for oaths, registration fees, expenses deriving from the appraisal of assets offered in guarantee, and taxes deriving directly from the constitution and if appropriate from the cancellation of the guarantee.

If the Administration or the Courts have accepted guarantees other than the previous ones, the reimbursement of the same will be accepted, limited exclusively to the justified costs which have been incurred directly and immediately for their formalisation, maintenance, and cancellation.

In cash deposits constituted in accordance with the applicable regulations, the legal interest corresponding to the amounts deposited up until the thirty days following notification will be paid to the interested party of the corresponding resolution or definitive sentence.

If within this deadline the guarantee has not been refunded or cancelled for a reason imputable to the Municipal Administration, the deadline will be extended until said refund or cancellation occurs.

Article 180. *Initiation.* 1. The procedure will be initiated at the request of the interested party by means of a document that must be addressed to the competent body for its processing with the following content:

- a) Full name or complete trade name, tax identity number, and address of the interested party. In the event of acting by means of a representative the complete identification of the same must be included.
- b) Body from which the initiation of the procedure is sought.
- c) Intention of the interested party.
- d) Address indicated by the interested party for the purpose of notifications.
- e) Place, date, and signing of the application.

2. The application for reimbursement will be accompanied by the following details or documents:

- a) Copy of the administrative resolution or definitive order which declares the administrative ruling or debt for which enforcement was suspended to be totally or partially inadmissible.
- b) Justification of the amount of the cost of the guarantees for which reimbursement is sought.
- c) Indication of the account code number and the details identifying the credit entity or banking institution through which the payment will be made.

Article 181. *Development.* 1. The body which conducts the procedure may carry out the necessary actions for checking the legitimacy of the reimbursement sought, it may obtain the reports or proceedings it considers necessary.

2. If the application does not include the details expressed in Point 1 of the previous article or the documentation contemplated in letters b) and c) of Point 2 of the same is not attached, the competent bodies for the processing will summon the interested party so that within a period of ten days it makes good the lack or attaches the mandatory documents, indicating that if this is not done it will be considered that it has desisted from its application, which will be shelved.

3. The above deadline may be extended at the request of the interested party when the submitting of the documents required involves special difficulties.

4. Once the proceedings have been completed, before drawing up the proposal for resolution the body conducting the procedure will provide a hearing for the interested party so that it may allege whatever it considers to be in its best interest.

Nevertheless, the hearing stage may be dispensed with when other events or other allegations to those adduced by the interested party neither appear in the procedure nor are taken into account.

Article 182. Resolution. 1. When the reimbursement of the cost of the guarantee provided is appropriate, a resolution will be issued within a deadline of six months to be counted from the date on which the application of the interested party has entered the register of the body competent for resolving, and provided that the amounts have been duly justified and correspond to the suspension of the debt declared to be totally or partially inadmissible.

2. The payment to the person or entity that is the creditor will be made by bank transfer.

This cost may be compensated with debts held by the interested party.

3. Once the deadline for issuing the resolution has passed without this having been done, it will be understood that the application has been dismissed to the effects of lodging the corresponding appeal against the alleged resolution. The express resolution subsequent to the expiry of the deadline will be adopted without any connection with the sense of failing to reply.

4. The resolution that puts an end to this procedure will be claimable by economic-administrative proceedings prior to the appeal for reversal if the interested party should decide to lodge it.

5. In any case, the right to the reimbursement of the costs of the guarantees lapses after 4 years counted from that following the one in which the sentence or administrative resolution that declares the ruling challenged to be totally or partially inadmissible becomes definitive.

SECTION 3. EXTRAORDINARY APPEAL OF REVISION

Article 183. Objective and regulation. The Extraordinary Appeal of

Revision referred to in Article 74 of the Organic Regulation regulating the Municipal Economic-Administrative Court of Madrid, and also the procedure for the resolution of the claims of its competence, may be lodged not only against the resolutions of the Court that have become definitive but also against the definitive rulings of the Municipal Tax Administration.

ADDITIONAL PRECEPT

One. Collection of other public law payments. For the collection of the public law payments other than those mentioned in Article 114 of this ordinance, that set down in Title V of the latter will be applicable.

Two. System of “a la carte payment”. The regulation contained in this ordinance referred to the system of “a la carte payment”, Articles 43 to 57, will be applicable to the Property Tax and to the rate for the providing of the service of urban waste management of activities.

Three. No sex discrimination. In those cases in which this and the remaining tax ordinances use masculine nouns to refer to persons, it must be understood that they are used generically and regardless of the sex of the persons mentioned, in accordance with the criteria established by the Royal Spanish Academy and with strict equality to all effects.

ABROGATIVE PRECEPT

One and only. Repeal of the previous General Tax Ordinance. The General Tax Ordinance of Administration, Collection, and Inspection, in its current wording up until the latest modifications approved by agreements of the Plenary Session of the City Council of 30th January 2003 and regarding the Street Tax Index of 4th November 2003, is hereby repealed.

FINAL PRECEPTS

One. Street Tax Index. The classification of public thoroughfares that appears as an annex must be considered to all effects to be an integral part of this General Tax Ordinance of Administration, Collection, and Inspection.

Two. Coming into effect. This ordinance will come into effect on 1st

January 2005⁽²⁾.

Three. In accordance with the power that the Director of the autonomous body the Madrid Tax Agency grants its Charter for the interpretation of the tax regulations of the City Council, the same is attributed the competence for issuing the necessary instructions for compliance with that set down in Subsection 3 of Section 2 of Chapter VI of Title II of this ordinance.

⁽²⁾ The text of the ordinance transcribed is that of its current wording together with the modifications approved by the Plenary Session of the City Council by means of an agreement of 29th December 2016 which will come into effect as from 1st January 2017 (BOCM - Official Bulletin of the Region of Madrid - No. 315 of 31/12/2016).

TAXES

TAX ORDINANCE REGULATING PROPERTY TAX

Current wording in accordance with the modifications approved by agreement of the Plenary Session of the City Council of 29th December 2016

CHAPTER I. NATURE AND FOUNDATION

Article 1. Property Tax is an actual direct tax that affects the value of real estate in the terms established in the revised text of the Law regulating Local Properties approved by Royal Decree 2/2004 of 5th March and in those established in this ordinance in accordance with the former.

CHAPTER II. LIABILITY

Article 2.1. The liability of this tax affects the ownership of the following rights on rural and urban real estate and on property with special characteristics:

- a) Of an administrative concession on the property itself or on the public services by which it is affected.
- b) Of a surface right in rem.
- c) Of an usufruct right in rem.
- d) Of the proprietorship.

2. The carrying out of the corresponding liability from among those defined in the point above in the order established in it will determine the property's not being subject to the remaining modalities contemplated in the same.

The same order of priority will be applied to real estate of special characteristics, except when the rights of concession that may affect the property do not exhaust their surface extension, in which case the liability owing to proprietorship will also fall on that part of the asset not affected by the concession.

TAX ORDINANCE REGULATING PROPERTY TAX

3. To the effects of this tax, rustic real estate, urban real estate, and real estate of special characteristics will be considered to be that defined as such in the rules regulating the Property Register.

4. *Assets not subject to it.* This tax will not affect the real estate referred to in Article 61.5 of the revised text of the Law regulating Local Properties, and in particular:

a) Roads, tracks, other land thoroughfares, and water assets of public domain, provided that they may be used by the public and are free of charge for users.

b) The following real estate located in this district that is municipally owned:

- That of public domain affected by public use.

- That of public domain affected by a public service run directly by the City Council, except when it is a case of property transferred to third parties by compensation.

- Net worth assets, equally with the exception of those transferred to third parties by compensation.

CHAPTER III. EXEMPTIONS Section One

Automatic exemptions

Article 3.1. The following real estate will enjoy the exemption established regarding the same in the revised text of the Law regulating Local Properties:

a) That which being owned by the State, the Autonomous Regions, or Local Entities directly affects citizen security and educational and penitentiary services, in addition to that of the State affected by National Defence.

b) Communal assets and communal woodlands.

c) That of the Catholic Church in the terms set down in the Agreement between the Spanish State and the Holy See on economic matters of 3rd January 1979; and that of legally recognised non Catholic confessional associations in the terms established in the respective cooperation agreements signed by virtue of that set down in Article 16 of the Spanish Constitution.

d) That of the Spanish Red Cross.

e) Property to which exemption is applicable by virtue of current International Agreements and in a reciprocal manner that of foreign Governments intended for their diplomatic or consular representation or their official bodies.

f) The surface area of woodland populated with slow growing species determined by regulations, the main exploitation of which is of timber or cork, provided that the density of the tree cover is that characteristic or normal with regard to the species in question.

g) Land occupied by railway lines and buildings located on the same land devoted to stations, warehouses, or to any other service that is indispensable for the exploitation of said lines. This exemption does not therefore apply to establishments of the hotel trade or those used for shows or business or leisure use, houses intended for the accommodation of employees, management offices, or industrial installations.

2. Property of a rustic or urban nature with a net tax liability not exceeding six euros will likewise be exempt, without detriment to that established in Article 66 of the General Tax Ordinance on Administration, Collection, and Inspection.

3. Exemption will also extend to assets which are owned, in the terms established in Article 5 of this ordinance, by non-profit-making bodies and those other bodies included in Law 49/2002 of 23rd December on the Tax System of non-profit-making bodies and of tax incentives for patronage, in the cases and with the requirements established in the aforementioned Law and the Regulations for the application of the tax system of the aforementioned entities, approved by Royal Decree 1270/2003 of 10th October.

With regard to those entities referred to in this section having the obligation of notifying the exercising of the option of the special tax system contemplated in Title II of the aforementioned Law 49/2002 of 23rd December, exemption will be enjoyed as from the assessable period coinciding with the calendar year in which said notification is sent to this City Council.

The notification to the City Council must expressly indicate the exercising of the option by the application of the special tax system contemplated in Title II of Law 49/2002 of 23rd December, and must be accompanied by proof of having presented the census declaration to the corresponding tax administration.

Section Two

Exemptions of a requested nature

Article 4.1. By means of an application formulated to the corresponding municipal services, the following real estate will enjoy the exemption which is established regarding the same in the revised text of the Law regulating Local Properties:

a) Buildings used for education by teaching centres belonging either totally or partially to the system of educational agreement as to the surface area affected by the agreed teaching.

Under the protection of that contemplated in Articles 9.2 and 62.2.a) paragraph 2 of the revised text of the Law regulating Local Properties, the corresponding municipal services will make sure, if appropriate instigating the competent Administration, that said Administration proceeds to award the appropriate compensation for the exemptions recognised by this City Council in accordance with this letter.

b) That declared expressly and individually to be a monument or historical garden of cultural interest by means of a Royal Decree in the manner established in Article 9 of Law 16/1985 of 25th June on the Spanish Historical Heritage and inscribed on the General Register referred to in Article 12 as being part of the Spanish Historical Heritage, together with those included in the first, second, and fifth additional precepts of said Law.

This exemption will not affect any kind of urban assets located within

the delimiting perimeter of archaeological areas and sites and historical ensembles totally integrated within them, but rather exclusively those fulfilling the following conditions:

- In archaeological areas, those included as an object of special protection in the town planning instrument referred to in Article 20 of Law 16/1985 of 25th June on the Spanish Historical Heritage.

- On historical sites or ensembles which are fifty years old or more and are included in the catalogue contemplated in Royal Decree 2159/1978 of 23rd June approving the Planning Regulation for the development and application of the Law on the Land and City Planning System as an object of complete protection in the terms established in Article 21 of Law 16/1985 of 25th June.

Real estate referred to in this letter b) will not be exempt when it is affected by economic exploitation unless it is affected by any of the cases of exemption contemplated in Law 49/2002 of 23rd December on the tax system of non-profit-making entities and of tax incentives for patronage, or the subjection to the tax as ratepayer falls to the State, the Autonomous Regions, or local entities, or to independent bodies of the State, or to bodies of public law of a similar nature to the Autonomous Regions and local entities.

In any case the tax liability referring to any property affected by economic exploitation, individualised regarding the land registry to the effects of this tax at the time of accrual and which is part of a building subject to the special system of horizontal property, will not be apportionable.

- c) The surface areas of woodlands in which reforestation or the regeneration of tree cover subject to planning projects or technical plans approved by the forestry Administration are carried out. This exemption will last for fifteen years counting from the assessable period being taxed following that in which its application is made.

2. Requested exemptions will come into effect as from the accounting period following that of the date of the application.

CHAPTER IV. TAXPAYERS

Article 5.1. Taxpayers are those natural and corporate persons and the entities referred to in Article 35.4 of Law 58/2003 of 17th December on General Taxation that own the right which in each case constitutes the liability of this tax according to that set down in Article 2.1 of this ordinance.

2. In the case of real estate of special characteristics, when the condition of ratepayer falls to one or several concessionaires each one of them will be so according to its charge, which will be determined according to the part of the rateable value corresponding to the surface area granted and the construction directly linked to each concession.

For this same type of buildings, when the proprietor is a taxpayer and ratepayer for the surface area not affected by the concessions the acting substitute of the same will be the public body to which the property is assigned or that entrusted with its administration and management, which may not charge the ratepayer the amount of the tax debt paid.

3. With the exception of the case referred to in the last paragraph above, the taxpayer has the power of affecting the tax burden borne according to the rules of common law.

The Public Administrations and the bodies referred to in the point above will transfer the part of the corresponding net tax liability to those which, while not being taxpayers, make use by means of compensation of their inalienable property in the public domain and net worth assets, which will be obliged to bear the transfer. To this effect the recoverable charge will be determined according to the part of the rateable value corresponding to the surface used and to the construction directly linked to each leaseholder or beneficiary of the right of use.

Article 6.1. In the cases of a change for any reason in the ownership of the rights constituting the liability of this tax, the real estate subject to said rights will be liable for the payment of the totality of the tax charge by the system of secondary responsibility in the terms established in the Law on General Taxation. To these effects the notaries will request

information and will expressly warn the persons appearing in the documents they authorise on the debts pending as a result of Property Tax associated with the building being transferred, on the deadline within which the interested parties are obliged to present the tax return when such obligation remains because the cadastral reference of the property has not been provided, according to Point 2 of Article 43 of the revised text of the Law on the Property Register and other tax regulations, on the assets being subject to the payment of the tax charge, and likewise on the responsibilities that they incur on failing to present tax returns, not presenting them within the deadline, or presenting false, incomplete, or inaccurate returns, according to that contemplated in Article 70 of the revised text of the Law on the Property Register and other tax regulations.

2. The joint partners or joint holders of the entities referred to in Article 35.4 of the General Law on Taxation, if they are inscribed as such on the Property Register, answer jointly and severally for the charge of this tax and in proportion to their respective shares. If they are not inscribed the responsibility will be required equally in any case.

CHAPTER V. GROSS TAX BASE AND NET TAX BASE

Article 7.1. The gross tax base consists of the rateable value of the real estate, which will be determined, will be notified, and will be liable to challenge according to the rules regulating the Property Register.

2. The net tax base will be the result of applying the reduction to the gross tax base that is legally appropriate.

In accordance with that established in provisional precept three (3) of the revised text of the Law regulating Local Properties, said reduction will be that contemplated in Articles 2 to 6 of Law 53/1997 of 27th November until the new rateable values come into effect. These will be determined by means of the application of Proposals for total or special values approved in accordance with that set down in the rules regulating the Property Register. Likewise that set down in Article 69.3 of the Law regulating Local Properties in the wording prior to its reform by Law 51/2002 will continue to be applicable up until that time.

TAX ORDINANCE REGULATING PROPERTY TAX

In the case of real estate of special characteristics, in the application of the reduction that set down in Articles 67.2 and 68.4 of the revised text of the Law on Local Properties will be adhered to.

3. In accordance with that set down in Article 77 of the revised text of the Law on Local Properties, once the deadline for challenges contemplated in the notifications of the rateable value and net tax base anticipated in the collective valuation procedures has passed, it will be understood that the gross tax base and the net tax base notified have been consented and are definitive; the annual exaction of the tax cannot be subject to further challenges.

CHAPTER VI. CHARGE AND TYPE OF LEVY

Article 8.1. The full charge of this tax will be the result of applying to the net tax base the type of levy that corresponds to it, according to that established in Point 2 of this article.

2. The type of levy applicable to urban real estate is established at 0.510 per cent, that of rural real estate at 0,567 per cent, and that of real estate of special characteristics at 1,141 per cent.

3. Nevertheless, different types are established for urban real estate excluding those of residential use, which in accordance with the uses established in the property regulations for the valuation of constructions exceed the rateable value that is given for each of them in the table below:

USES	Rateable value as from which a differentiated type of levy is applied	Different forms of levy
Business	860,000 euros	0,985%
Leisure and Hotels	1.625,000 euros	1,135%
Industry	890,000 euros	1,135%
Sports	20.000,000 euros	0,931%
Offices	2.040,000 euros	1,135%
Warehouse-Car park	1.200,000 euros	1,135%
Healthcare	7.700,000 euros	1,135%
Outstanding building	35.000,000 euros	1,294%

In any case the differentiated types of levy to which this point refers can only be applied as a maximum to 10 per cent of the real estate of the municipal district which for each use has the greater rateable value.

When the properties have several uses attributed to them the type corresponding to the use of the main building or outbuilding will be applied.

4. The net tax liability will be obtained by reducing the full charge by the amount of the rebates contemplated in the following chapter.

CHAPTER VII. REBATES

Article 9. *Urbanisation, construction, and real estate promotion.* The properties constituting the object of the activities of companies of urbanisation, construction, and real estate promotion, both of new work and of restoration comparable to the same, and which do not appear among their fixed assets, will have the right to a 90 per cent rebate in the full charge of the tax, provided that this is applied for by the interested parties before the initiation of the works.

To the effects of the application of this rebate, restoration work comparable to new work will be understood to be that defined in the last point of letter d) of Article 1.4.8.3 of the City Planning Rules of the General Urban Development Plan as "*Works of General and Total Restructuring*".

The period for the application of this rebate will range from the assessable period following that during which the works are initiated to that subsequent to the termination of the same, providing that during that time works of urbanisation or effective construction are carried out, and without it under any circumstances exceeding three assessable periods.

Article 10. *Council housing.* Council housing and that comparable to this according to the regulations of the Region of Madrid will enjoy a rebate of 50 per cent during the three assessable periods following that of the granting of the definitive rating.

Said rebate will be granted on the application of the interested party, which may be carried out at any time before the end of the three assessable periods of the duration of the same and will come into effect, if appropriate, as from the assessable period following that during which it

is applied for.

Article 11. *Agricultural cooperatives and communal exploitation cooperatives.*

The rural properties of agricultural cooperatives and communal exploitation cooperatives will have the right to a rebate of 95 per cent of the full tax charge in the terms established in Law 20/1990 of 19th December on the Tax System for Cooperatives.

Article 12. *Large families.* 1. Those taxpayers who at the time of accrual have a large family according to that established in Law 40/2003 of 18th November on the Protection of Large Families and other concordant regulations will enjoy, according to the amount and conditions regulated in this article, a rebate of the full tax charge corresponding to the habitual residence of the family, provided that the rateable value of the same does not exceed the amount established in this article.

To this effect the habitual residence will be understood to be that urban unit of residential use that exclusively fills the permanent need for a house of the taxpayer and his family.

It will be assumed that the permanent residence of the large family is that at which the family is registered.

2. If the taxpayer who is the beneficiary is the holder of more than one property located in Madrid, the rebate will refer to a single urban unit, provided that in addition to this it is the habitual residence of the family unit or most of the same, without it being possible to enjoy more than one rebate even if the taxpayer or his family has several houses.

A requirement for the rebate referred to in this section will be for the rateable value of the habitual residence of the family unit to be individualised.

3. In order to be able to enjoy this rebate, the taxpayer must be registered in the municipal district of Madrid and present the application on an official form duly filled in before the first day of the assessable period as from which it begins to come into effect, accompanied by a current certificate or photocopy of the large family card issued by the competent body.

TAX ORDINANCE REGULATING PROPERTY TAX

4. The percentage of the rebate, which will be maintained each year without the need to repeat the application if the conditions that led to said application are maintained, will be determined depending on the category of a large family, provided that the rateable value of the habitual residence does not exceed 408.000 euros, in the following terms:

<u>Rateable value habitual residence</u>	<u>Categories</u>	
	<u>General</u>	<u>Special I</u>
Up to 204.000 euros	75%	90%
Over 204.000 euros and below		
408.000 euros	30%	45%

5. When more than one taxpayer is the holder of the habitual residence, the rebate will only be applied to the percentage of the right corresponding to the taxpayers included on the large family certificate. Nevertheless, in cases of marriage annulment, separation, or divorce the rebate will be applied to the totality of the percentage corresponding to both spouses regardless of which of them is included on said certificate.

6. When the large family certificate loses its validity owing to expiry, and provided that the right to its renewal exists, until the date of the expiry of the deadline to lodge an appeal for reversal or an economic-administrative claim against the receipt of the tax, it is necessary to present the renewed certificate or proof of having presented the renewal. Failure to present the documentation within the deadline will determine the loss of the right to the rebate for this accounting period, without detriment to the possibility of recovering it for successive accounting periods provided that the aforementioned documentation is provided.

7. The change of address of the habitual residence of the large family will determine the loss of the right to the rebate; this must be requested for the new building within the deadline established in Point 3.

Article 13. Systems for making use of solar energy. 1. A rebate of 50 per cent of the full tax charge will be enjoyed by buildings with a predominantly residential rateable value in which systems have been installed for the thermal or electric use of the energy from the sun during the three assessable periods following that of the completion of their installation.

In order to have the right to this rebate the following will be necessary:

a) In systems for the thermal use of solar energy the installation must have a minimum useful surface area for capturing solar energy of 4 m² for each 100 m² of surface area built on.

b) In systems for the electrical use of solar energy the power installed must be at least 5 Kw for each 100 m² of surface area built on.

In those cases in which both systems have been installed the maximum rebate applicable will be 50 per cent.

2. The granting of these rebates will be conditioned to compliance with the above requirements by submitting the technical project or technical report of the certificate of assembly, if appropriate, and of the certificate of installation duly processed by the body authorised by the Autonomous Region of Madrid.

Likewise the municipal licence or other City planning certificate allowing the carrying out of the works must be identified.

3. The above rebates will not be granted when the installation of these systems for making use of solar energy is obligatory in accordance with specific regulations on the matter.

4. Said rebates will be requested and will come into effect, if appropriate, as from the assessable period following that in which they are applied for, provided that the conditions are fulfilled in advance and that compliance with the requirements for their granting is justified to the City Council. The rebate may be applied for at any time prior to the termination of the period of duration of the same to which Point 1 of this article refers.

Article 14. Public research centres. 1. A 95 per cent rebate of the full tax charge will be enjoyed by public research bodies with regard to the buildings that are either totally or partially subject to the research activity that characterises them.

In order to have the right to this rebate it will be necessary for the taxpayer to be one of the public research bodies referred to in Law 14/2011 of 1st June on Science, Technology, and Innovation.

In those cases in which the research activities are partially carried out within the building, the rebate will be applied exclusively regarding the surface area affected by said activity.

Article 15. *Special payment system.* Under the protection of that set down in Article 9 of the revised text of the Law regulating Local Properties, a 3,25 per cent rebate is established of the tax charge in favour of those taxpayers using the special payment system regulated in Article 21, which will be applicable in the terms and conditions contemplated in the same, without detriment to that set down in the following articles.

Under no circumstances may the amount of the rebate established in the paragraph above exceed 70 euros.

Article 16. *Requested nature.* The tax inducements contemplated in this chapter must be applied for by the taxpayer; with the exception of that established in Article 21.3 of the ordinance for the special payment system, they come into effect as from the accounting period following that in which they are applied for.

Article 17. *Compatibility.* The rebates regulated in this ordinance will be compatible among themselves when this is permitted by the nature of the rebate and the corresponding asset, and will be applied in the order in which they appear listed in the preceding articles to the full charge, or if appropriate to that resulting from applying those preceding it.

CHAPTER VIII. ACCRUAL AND ASSESSABLE PERIOD

Article 18.1. The tax is accrued on the first day of the assessable period.

2. The assessable period coincides with the calendar year.

3. The events, acts, and business that must be declared or notified to the Property Register will come into effect on the accrual of this tax immediately after the time when cadastral effects occur. The coming into effect of the cadastral inscriptions resulting from the procedures of collective valuation and of the determination of the rateable value of the real estate of special characteristics will coincide with that contemplated in the rules regulating the Property Register.

CHAPTER IX. ADMINISTRATION AND PAYMENT

Article 19. The alterations concerning real estate liable to cadastral inscription that are of significance to the effects of this tax will determine the obligation of the taxpayers to formalise the returns leading to their inscription on the Property Register according to that established in its regulations.

Article 20.1. Liquidation and collection, together with the revision of the rulings dictated by the administration of this tax, will be the exclusive competence of this City Council and will include among others the duties of the recognition and refusal of exemptions and rebates, the carrying out of the settlements leading to the determination of tax debts, the issuing of payment documents, the resolution of records for the refunding of undue payment, the resolution of the appeals lodged against said rulings, and actions for assisting and informing the ratepayer referring to the matters included in this point.

2. All the charges of this tax concerning the same taxpayer can be grouped in a single payment document in the case of rural properties of this municipal district.

3. The period for the voluntary payment of this tax ranges from 1st October to 30th November or the working day immediately following it.

When the needs of the service make this advisable, this deadline may be modified by a resolution from the Mayor provided that this does not exceed two calendar months.

Article 21. *Special system for paying Property Tax.* 1. With the objective of facilitating compliance with the tax obligation, a special system is established for paying the charges by receipt, which in addition to dividing the debt in the terms contemplated in this article will allow those using the same to enjoy the rebate established in Article 15 of this ordinance.

2. Using this special system will require paying the tax by direct debiting at a bank or Savings Bank and the formulation of the appropriate application on the form established for the purpose.

3. The application, duly filled in, will be understood to have been automatically granted on the same day as its presentation and will come into effect as from the following assessable period. It is valid indefinitely as long as there is no manifestation against it by the interested party and the payments continue to be made in the terms established in the following point.

However, if the application is processed either by means of telecommunication or telematic techniques or personally at the municipal citizen attention offices set up by the Madrid City Council for the purpose, between 1st January and 30th April, it will also come into effect for the accounting period when it is applied for.

If the application is made by these same means after 30th April and before the expiry of the deadline for the voluntary payment of this tax, it will be understood that the payment for the accounting period in which it is submitted has automatically been allocated to the direct debiting system without adhering to the special payment system until the following accounting period. An exception is that of the case in which the application is made once the registration of the tax has been approved and a current direct debiting system exists, which will come into effect as from the following accounting period.

4. The payment of the total annual amount of the tax will be divided into two instalments: the first, which will take the form of payment on account, will be equivalent to 65 per cent of the charge of the Property Tax corresponding to the immediately previous accounting period, corrected if appropriate with the details in the possession of the Municipal Administration at the time of making its calculation and which have been formally notified to the taxpayer, and must be paid by 30th June or the working day immediately after it by means of the appropriate direct debiting.

The amount of the second instalment will be sent for collection from the account or passbook indicated by the interested party on the last day of the ordinary period for the collection of the tax, i.e. 30th November or the working day immediately after it, and will consist of the difference between the amount of the receipt corresponding to the accounting period and the amount paid in the first instalment, deducting in turn the amount of the rebate referred to in Article 15, which will come into effect at that time.

5. In the event of the downward modification of the debt, in order to prevent the amount of the first instalment from exceeding that of the definitive settlement and consequently the corresponding refund, a control is established to allow the calculation of the amount to be paid in the first instalment according to the estimated net tax payable for the current accounting period, so that the surplus does not occur.

6. if for reasons imputable to the interested party the amount of the first instalment referred to in the point above is not paid when it falls due, this special payment system will automatically become inapplicable and the right to the rebate that otherwise would have been applied will be lost. In this case the total amount of the tax may be paid without surcharge within the ordinary payment period referred to in Article 20.3; if said period passes without the tax being paid the enforcement period will be initiated with the surcharges, interests, and costs inherent to said period.

If the amount of the first of the instalments has been paid and for reasons imputable to the interested party the amount of the second instalment is not paid when it falls due, the enforcement period will be initiated for the sum pending and likewise this special payment system will automatically become inapplicable with the consequent loss of the right to the rebate.

7. When the payment on account made as the first instalment exceeds the amount of the charge resulting from the receipt, the tax administration will proceed to refund automatically the surplus of the aforementioned charge by means of a bank transfer to the same account from which the payment was made within a maximum period of 6 months following the expiry of the voluntary period.

If once this deadline has passed the payment of the refund has not been ordered for a reason not imputable to the ratepayer, the interest in arrears referred to in Article 26 of Law 58/2003 of 17 December on General Taxation will be applied to the amount pending refund as from the day following that of the end of said deadline and until the date when payment is ordered without any need for the ratepayer to claim it.

8. In a subsidiary manner this special payment system will be affected by that established in the General Tax Ordinance of Administration, Collection, and Inspection and other rules of general application regarding the payment of tax by direct debiting.

Article 22. *A la Carte Payment.* This tax may be paid by using the Payment à la Carte system regulated in the General Tax Ordinance of Administration, Collection, and Inspection.

CHAPTER X. OFFENCES AND PENALTIES

Article 23. In anything relating to the description of tax offences, together with the determination of the penalties corresponding in each case, the system regulated in the General Law on Taxation and the precepts complementing and developing it and in the General Tax Ordinance of Administration, Collection, and Inspection will be applicable.

ADDITIONAL PRECEPT

For everything not expressly contemplated in this ordinance the following will be applied: that set down in Royal Legislative Decree 2/2004 of 5th March approving the revised text of the Law regulating Local Properties; Law 58/2003 of 17th December on General Taxation; Royal Legislative Decree 1/2004 of 5th March approving the revised text of the Property Register Law; and the General Tax Ordinance of Administration, Collection, and Inspection approved by this City Council; and other applicable precepts.

PROVISIONAL PRECEPTS

One. With exclusive effects for the period of 2004, the rebates established in Articles 12 and 14 may be taken advantage of by taxpayers who in the manner regulated in this ordinance present their applications before 1st March 2004. Applications presented after this date will come into effect as from the assessable period following that of its presentation.

Two. In accordance with that established in Article 74.2 ter of the revised text of the Law regulating Local Properties, with exclusive effects for the year 2013 and automatically applicable, a rebate of 80 per cent is established for that real estate affected by economic exploitation which has enjoyed in 2012 the exemption regulated in Article 62.2.b) which was valid at the time of said revised text.

The rebate established in the paragraph above will also be applicable to that real estate affected by economic exploitation regarding which exemption was applied for in 2012 and said exemption does not correspond to it for 2013 as a consequence of the exclusion of the exemption regulated in the penultimate paragraph of Article 4.1.b) of this ordinance.

The rebate established in this precept will be applied to the full charge or if appropriate to that resulting from applying any other rebates that may be compatible, and always prior to the application if it occurs of those established in Article 14 of this ordinance and Article 43 and the following of the General Tax Ordinance of Administration, Collection, and Inspection.

Three. With effect for the year 2015 the rebate established in the above precept is extended; it will be automatically applicable to those to which it was applicable in the year 2014.

For those to whom this rebate was not applicable in 2014 it may be requested in 2015, the corresponding application must be presented before 1st March 2015. If appropriate, applications presented after the deadline in the same year 2015 will come into effect in 2016 in the event of the extension of this rebate for said year without the need for presenting a new application.

Four. With exclusive effects for the period of 2016, the rebates established in Article 14 may be taken advantage of by taxpayers who in the manner regulated in this ordinance present their application before 1st March 2016. Applications presented after this date will come into effect as from the assessable period following that of its presentation.

Five. In the 2017 accounting period and in accordance with the current situation of municipal markets and the characteristics of the activities that they carry out, after analysing the economic, social, legal, and fiscal situation of the same the Plenary Session of the Corporation may agree on the measures that may be necessary to reactivate, promote, and encourage the activities carried out by the latter in the city of Madrid, including if appropriate the rebate of Property Tax contemplated in Article 74.2 quater of the revised text of the Law regulating Local Property.

FINAL PRECEPT

This ordinance will come into effect on 1st January 1999 and will remain valid until it is expressly modified or repealed. ⁽¹⁾

⁽¹⁾ The text of the ordinance transcribed is that of its current wording together with the modifications approved by the Plenary of the City Council by means of an agreement of 29th December 2016 which will come into effect as from 1st January 2017 (BOCM - Official Bulletin of the Region of Madrid - no. 315 of 31/12/2016).

TAX ORDINANCE REGULATING BUSINESS TAX

Current wording in accordance with the modifications approved by agreement of the Plenary Session of the City Council of 29th December 2016

I. NATURE AND FOUNDATION

Article 1. Business Tax is an actual direct tax that is established as obligatory in the revised text of the Law regulating Local Properties approved by Royal Legislative Decree 2/2004 of 5th March and regulated in accordance with that set down in Articles 78 to 91, both inclusive, of said precept.

II. LIABILITY

Article 2.1. Business Tax levies the exercising within Spain of professional or artistic business activities, whether or not they are exercised on specific premises and whether they are specified in the rates for the tax or not.

2. To the effects of this tax business activities will be considered to be those of stockbreeding, when they are independent, and mining and industrial, commercial, and service activities. They do not therefore include agricultural activities, dependent stockbreeding, and forestry and fishing activities; none of these constitutes a liability affected by this tax.

To the effects of that contemplated in the previous paragraph, independent stockbreeding will be considered to be that of the herds of livestock included in any of the following cases:

- a) That grazing or feeding essentially on land not exploited concerning agriculture or forestry by the owner of the livestock.
- b) That not stabled on agricultural land.
- c) That of transhumance or passing from one jurisdictional district to another.
- d) That essentially feeding on fodder not produced on the land it is reared.

3. It will be considered that an activity is exercised in a business, professional, or artistic manner when it involves the planning on one's

own account of means of production and human resources or of one of the two with the aim of intervening in the production or distribution of goods or services.

4. The content of the activities levied will be defined in the rates of the tax.

5. The exercising of the activities levied will be proven by any means acceptable by law, by those contemplated in Article 3 of the Spanish Code of Commerce and in particular by:

a) Any tax return formulated by the interested party or by its legal representatives.

b) Recognition by the interested party or its legal representatives in proceedings, in inspections, and on any other tax record.

c) Announcements, circulars, samples, signs, or any other advertising procedure declaring the exercising of an economic activity.

d) Details obtained from accounting books or registers kept by any kind of bodies or companies and duly certified by those in charge of the same or by the Administration itself.

e) Details provided by all kinds of authorities on their own initiative or when requested to do so by the competent tax administration.

f) Details provided by Official Chambers of Commerce, Industry, and Navigation, Professional Associations and Organisations, and other officially recognised institutions on their own initiative or when required to do so by the Administration.

Article 3. The exercising of the following activities does not constitute a liability affected by this tax:

1. The transferring of assets which are part of the fixed assets of the companies which have been duly inventoried as such fixed assets more than two years before the date of the transfer, and the sale of goods of the private use of the seller provided that it has used them for the same period of time.

2. The sale of products received in payment for personal work or professional services.

3. The exhibiting of articles with the exclusive aim of the decoration or adornment of the establishment. On the contrary, the exhibiting of articles to serve as gifts to clients will be subject to the tax.

4. In the case of retail sales the carrying out of an isolated act or operation.

III. TAXPAYER

Article 4. Those liable to this tax are natural or corporate persons and the entities referred to in Article 35.4 of Law 58/2003 of 17th December on General Taxation, provided that any of the activities originating the liability are carried out on Spanish territory.

IV. EXEMPTIONS FROM THE TAX

Article 5.1. The following are exempt from the tax:

a) The State, the Autonomous Regions, and Local Entities, together with independent state bodies and entities of public law of the same nature of the Autonomous Regions and Local Entities.

b) Taxpayers initiating their activities as from 1st January 2003 during the first two assessable periods of this tax in which the same are carried out.

c) The following taxpayers:

- Natural persons.

- Taxpayers of Corporation Tax, civil partnerships, and entities of Article 35.4 of the General Law on Taxation with a net business turnover of less than 1.000.000 euros.

- As for ratepayers of Income Tax for Non Residents, the exemption will only affect those operating in Spain by means of a permanent establishment, provided that they have a net business turnover of less than 1.000.000 euros.

d) Entities administering Social Security and Mutual Benefit Societies regulated by the revised text of the Law on the Planning and Supervision of Private Insurance approved by Royal Legislative Decree 6/2004 of 29th October.

TAX ORDINANCE REGULATING BUSINESS TAX

e) Public research bodies and teaching establishments at all levels financed exclusively with funds from the State, the Autonomous Regions, or Local Entities, or by Foundations declared to be charitable or of public use, and teaching establishments at all levels which being non-profit-making have a system of educational subsidy, even if they provide their students with books or writing elements or provide them with services of half board or boarding schools and even if as an exception they sell at the same establishment the products of the workshops devoted to said teaching, provided that the amount of said sale, of no use to any private person or third party, is devoted exclusively to the acquiring of raw material or the sustaining of the establishment.

f) Non-profit-making Associations and Foundations for those with physical, mental, and sensory disabilities for the pedagogical, scientific, welfare, and employment activities that they carry out for the teaching, education, rehabilitation, and protection of the disabled, even if they sell the products of the workshops devoted to said purposes, provided that the amount of said sale, of no use to any private person or third party, is devoted exclusively to the acquiring of raw material or the sustaining of the establishment.

g) The Spanish Red Cross.

h) Taxpayers who are exempt by the application of International Treaties or Agreements.

i) Non-profit-making entities and those other entities included in Law 49/2002 of 2nd December on the tax system of non-profit-making entities and tax incentives for patronage, in the cases and with the requirements established by the aforementioned law and the Regulations for the application of a tax system of the entities mentioned, approved by Royal Decree 1270/2003 of 10th October.

2. To the effects of the application of the exemption contemplated in letter b) of this article, it will not be considered that the exercising of an activity has been initiated when this has previously been carried out under another ownership; this circumstance will be understood to occur among other cases in those of merging, splitting, or the providing of branches of activity.

3. In accordance with that contemplated in Article 82.1.c) of the revised text of the Law regulating Local Properties, to the effects of the application

of the exemption contemplated in letter c) of this article, the following rules will be taken into account:

1st. The net amount of the business turnover will be determined according to that contemplated in Article 35.2 of the Spanish Code of Commerce.

2nd. In the case of taxpayers of Corporate Tax or ratepayers of Income Tax for Non Residents, the net amount of the business turnover will be that of the assessable period with a deadline for the presentation of returns for said taxes that ended during the year prior to the accrual of this tax. In the case of civil partnerships and the entities referred to in Article 35.4 of the General Law on Taxation, the net amount of the business turnover will be that corresponding to the penultimate year prior to that of the accrual of this tax. If the duration of said assessable period is less than a calendar year, the net amount of the business turnover will be one year.

3rd. In order to calculate the amount of the business turnover of the taxpayer, the economic activities exercised by the same as a whole will be taken into account.

Nevertheless, when the entity is part of a group of companies in the sense of Article 42 of the Code of Commerce, the net amount of the business turnover will refer to the entities belonging to said group as a whole.

To the effects of that set down in the previous paragraph, it will be understood that the cases of Article 42 of the Code of Commerce are those included in Point 1 of Chapter I of the rules for the formulation of the consolidated annual accounts approved by Royal Decree 1159/2010 of 17th September.

4th. In the case of ratepayers of Income Tax for Non Residents, the net amount of the business turnover imputable to the permanent establishments located on Spanish territory as a whole will be considered.

4. To the effects contemplated in Point 1.i) of this article with regard to those entities with the obligation of notifying the exercising of the option of the special tax system anticipated in Title II of Law 49/2002 of 23rd December, in accordance with Article 2.3 of the Regulations developing the aforementioned law, notification will take the form of the presentation

to the State Tax Administration of the census tax return referred to in Article 1.2 of the aforementioned regulations and will come into effect as from the assessable period coinciding with the calendar year in which said tax return is presented.

5. in accordance with that established in Point 2 of rule 14 of the instruction of the tax, the fluctuations whether up or down not exceeding 20 per 100 of the tax elements will not alter the amount of the tax charges being paid. When the fluctuations of reference exceed the percentage indicated they will be considered to be variations to the effect of that set down in the second paragraph of Article 90.2 of the revised text of the Law regulating Local Properties.

6. The exemptions contemplated in letters e) and f) of the first point of this article will be of a requested nature and will be granted when appropriate at the request of the interested party.

V. RATES AND TAX CHARGE

Article 6.1. The rates of Business Tax and the Instructions approved by Royal Legislative Decree 1175/90 of 28th September and Royal Legislative Decree 1259/1991 of 2nd August include:

a) The description and content of the various economic activities classified into business, professional, and artistic activities.

b) The charges corresponding to each activity are determined by means of the application of the corresponding tax elements regulated in the rates and in the Instruction.

2. The charges contained in the rates are classified as:

a) Minimum municipal charges.

b) Provincial charges.

c) National charges.

Article 7.1. Minimum municipal charges are those which appear under this name specifically indicated in the rates, with the addition if appropriate of the surface area element of the premises on which the activities levied are carried out, together with any others not expressly described in the aforementioned rates of provincial or national charges.

TAX ORDINANCE REGULATING BUSINESS TAX

2. The same consideration of minimum municipal charges will be given to those for which by application of that set down in Rule 14.1.F) of the instruction approved by the aforementioned Royal Decree, the amount is exclusively made up of the value of the surface tax element.

3. If the same activity is carried out on several different premises, the taxpayer will be obliged to pay as many minimum municipal charges increased with the coefficients regulated in Articles 14 and 15 as premises on which the activity is carried out. If several activities are carried out on the same premises, as many minimum municipal charges will be paid as activities carried out, even if the holder of these is the same person or entity.

4. Activities carried out by professionals outside the municipal district in which the premises on which their activity is carried out are located will not give rise to the payment of any other charge, neither the minimum municipal nor the provincial nor the national charge.

5. Professionals who do not carry out their activities on specific premises and artists will pay the charge corresponding to the place where they carry out their activities; they may carry out outside the same whatever actions are characteristic of said activities.

Article 8. National or provincial charges are those appearing under these names in the rates.

Article 9. When the activity in question has allocated more than one of the types of charges referred to in Article 6, the taxpayer may choose to pay any of them using the powers indicated in Rules 10, 11, and 12 respectively of the Instruction of the tax.

Article 10. To the effects of that contemplated in Article 6.1.b) of this ordinance and in Rule 1.^a.b) of the Instruction, tax elements will be considered to be those modules indicating the activity made up of the rates or the Instruction for the determination of the charges.

Article 11. In accordance with that set down in Point Four of Article 85.1 of the revised text of the Law regulating Local Properties, the charges allocated in Sections 1 and 2 of the rates will be completed with the amount resulting from applying the tax element made up of the surface area of the premises on which the business activities are carried out, in the terms contemplated in Rule 14.1.7 of the Instruction.

TAX ORDINANCE REGULATING BUSINESS TAX

Article 12.1. For the purposes of Business Tax premises will be considered to be the buildings, constructions, and installations, in addition to covered or uncovered surfaces whether these be open to the public or not, which are used for any business or professional activities.

2. The following will not however be considered premises for the purposes of this tax:

a) Those on which mining activities are carried out. When within the perimeter of the mine the taxpayer carries out activities of preparation or others which it is empowered to do by the rates of the tax, the constructions or installations in which these are carried out will however be considered to be premises.

b) Those on which the activities of the extraction of petroleum, natural gas, and the capturing of water are carried out.

c) Power stations producing electricity.

d) Supply networks, oil pipelines, gas pipelines, etc. for carrying out the activities of the transport and distribution of electricity (including transformer stations), together with those of the distribution of crude oil, natural gas, town gas, and steam. Neither will supply networks and other installations involving the distribution of water to city centres, or the plants and installations treating the same, be considered premises.

e) The works, installations, and assemblies of the activity of construction, including offices, huts, and other temporary constructions located on the building site and used exclusively during the time of the execution of the works, installations, and assemblies.

f) Buildings in which water, gas, and electricity meters are installed with the aim of their hire, reading, and preservation exclusively for the purposes of said activities and without detriment to the consideration that these may have to the effects of other activities.

g) Buildings in which are installed automatic machines or appliances, sales stands in deposit, and arcade game machines and similar, exclusively for the purposes of the activities provided or carried out by means of the elements referred to, and without detriment to the consideration that these may have to the effects of other activities.

TAX ORDINANCE REGULATING BUSINESS TAX

h) Both rural and urban real estate subject to the activities of the renting and selling of said property. Neither will the information offices installed in the real estate subject to property promotion be considered to be premises.

i) Toll motorways, roads, bridges, and tunnels, the exploitation of which is an activity affected by the tax.

j) Runways, hangars, and ports with the exception of the constructions.

In consequence the installations specified in the previous letters will not be considered either for the purposes of the "surface area" tax element regulated in Rule 14.1.F) of the Instruction of the tax or for the purposes of the situation coefficient contemplated in Article 87 of the revised text of the Law regulating Local Properties.

3. For the purposes of the "surface area of the premises" tax element and in accordance with that set down in letter f) of the fourth Additional Precept of Law 51/2002 of 27th December, not only will it not be calculated but it will be specifically deducted from the surface area corresponding to the elements directly affected by the levied activity:

- The surface area used as a nursery or care centre for the children of staff or clients of the taxpayer.

- The surface area used for socio-cultural activities of the staff of the taxpayer.

That established in this point will also be applied for the purposes of the determination of those charges for the calculation of which the rates of the tax expressly take into account as a tax element the surface area of the premises, calculated in square metres, on which the corresponding activities are carried out.

The surface area to be deducted by virtue of that indicated may not exceed 10 per cent of the surface area to be calculated corresponding to the elements directly affecting the levied activity.

4. The following are considered to be separate premises:

- a) Those along streets, roads, or continuous walls without a gap in the latter.

TAX ORDINANCE REGULATING BUSINESS TAX

b) Those located in the same building or adjacent buildings with different doors for attending the public and divided in any noticeable manner, even when for their owner they are internally connected.

c) Departments or sections of individual premises when being divided in a noticeable manner they can easily be isolated, and when different activities are carried out in them.

d) Floors of a building, whether or not they are internally connected, except when the activity carried out on them is the same by a single holder.

e) Stalls and compartments in fairs, markets, and permanent exhibitions, provided that they are isolated or independent for the displaying and sale of the goods, even though there may be common entrances and exits for all of them.

In the case of manufacturers carrying out the stages of the manufacturing of a certain product in installations not located within the same enclosure but which make up an exploitation unit, the ensemble of all of them will be considered as individual premises provided that said stages do not of themselves constitute the activity indicated in the independent tax rates. This criterion of unit of premises will also be applied in those cases in which the installations of an accommodation establishment or sports facilities are not located in the same enclosure.

5. When an asset is used both as living space and for the exercising of a levied activity, only the part of the asset in which in effect the activity in question is carried out will be considered as premises for tax purposes.

Article 13. The tax charge will be the result of applying the rates of the tax in accordance with the precepts contained in the revised text of the Law regulating Local Properties and in the precepts that complement and develop it, and the coefficients and rebates contemplated by law, and if appropriate agreed by this Town Council and regulated in this ordinance.

Article 14. Weighting coefficient.

1. In accordance with that established in Article 86 of the revised text of the Law regulating Local Properties on the charges resulting from the rates of the tax, in any case a weighting coefficient will be applied that is

TAX ORDINANCE REGULATING BUSINESS TAX

determined according to the net amount of the business turnover of the taxpayer.

2. Said coefficient will be determined in accordance with the table below:

<u>Net amount of the business turnover</u> (euros)	<u>Coefficient</u>
From 1.000.000,00 hasta 5.000.000,00	1,29
From 5.000.000,01 hasta 10.000.000,00	1,30
From 10.000.000,01 hasta 50.000.000,00	1,32
From 50.000.000,01 hasta 100.000.000,00	1,33
Over 100.000.000,00	1,35
No net business turnover	1,31

To the effects of the application of the coefficient to which this article refers, the net amount of the business turnover of the taxpayer will be that corresponding to the whole of the economic activities carried out by the same and will be determined in accordance with that contemplated in paragraph c) of Section 1 of Article 82 of the revised text of the Law regulating Local Properties.

Article 15.1. Situation coefficient. In accordance with that contemplated in Article 87 of the revised text of the Law regulating Local Properties, the following scale of coefficients weighting the physical situation of the establishment of premises is established, according to the street category:

<u>Street category</u>	<u>Coefficient</u>
9th	1,34
8th	1,55
7th	1,79
6th	2,17
5th	2,49

TAX ORDINANCE REGULATING BUSINESS TAX

<u>Street category</u>	<u>Coefficient</u>
4th	2,86
3rd	3,28
2nd	3,70
1st	3,80

2. To the effects of determining the coefficient situation applicable, the roads of the municipal district are classified in nine categories as established in the Street Tax Index that appears as an annex to the General Tax Ordinance of Administration, Collection, and Inspection, the road classification of which will be used for the application of the previous scale of coefficients.

3. Nevertheless, when any road or section of road is not included in the Street Tax Index it will be provisionally classified for the purposes of this tax in accordance with the following rules:

a) If it is a road that has recently been opened it will be considered to be of the last category of those contemplated in the Street Tax Index.

b) If it is a pre-existing road section it will be considered to be of the last category that the Street Tax Index has attributed to the road on which it is situated.

The foregoing will not be applicable to cases of the changing of street names.

4. To the effects of the liquidation of the tax, the charge increased by the application of the weighting coefficient will be multiplied by the situation coefficient corresponding to the category of the street where the premises are located in accordance with that established in the previous numbers.

5. In order to determine the situation coefficient when several public thoroughfares constitute the façade of the establishment or premises, or when the latter in accordance with the rules contained in the rates and Instruction of the tax has to be considered as a single location, despite the fact that it is made up of several enclosures located on roads that have a different category indicated, that corresponding to the higher road

category will be taken provided that it has (even in the form of a corner) direct access of normal use.

6. If because they are located in basements, on inside floors, etc., the establishments or premises lack actual façades onto the street, the situation coefficient corresponding to the street category where the place of entry or main access is to be found will be applied.

VI. REBATES

Article 16.1. In accordance with that set down in Article 88.1 of the revised text of the Law regulating Local Properties on the tax charge, in any case the following rebates will be applied:

a) Cooperatives, together with unions, federations, and confederations of the same and agricultural transformation associations will enjoy the rebate contemplated in Law 20/1990 of 19th December on the Tax System of Cooperatives.

b) A rebate of 50 per cent of the corresponding charge for those initiating the exercising of any professional activity during the five years of activity following the conclusion of the second assessable period of the development of the same. The period of the application of the rebate will expire when five years have passed since the expiry of the exemption contemplated in letter b) of Point 1 of Article 5 of this ordinance.

2. In accordance with that set down in Article 88.2.d) of the revised text of the Law regulating Local Properties, a rebate of 25% of the corresponding charge is established for taxpayers subject to a municipal charge and with a negative net return of the economic activity in accordance with the following rules:

1st. The net return of the taxpayers of Corporation Tax understood to be the gross tax base for this tax, without including to these effects the compensations for negative gross tax bases of previous periods or profits or losses from non-current assets.

2nd. When it is a case of taxpayers of Income Tax for Non-Residents, the net return will be understood to be the income imputable to permanent establishments originating from activities or economic exploitation carried out by the same. In cases of income obtained without a permanent establishment, the net return to be considered will be the sum of the gross tax bases originating from the activities or economic exploitation carried

out in Spain without said establishment recorded in the tax returns presented during the calendar year in question.

3rd. With regard to the entities referred to in Article 35.4 of Law 58/2003 of 17th December on General Taxation, the net return from the activities or exploitation will be considered without including in any circumstances the profits or losses from the transfer of assets subject to said activities or exploitation.

4th. When an entity is part of a group of companies in the sense of Article 42 of the Code of Commerce, the net return to be considered will be the gross tax base determined according to the 1st rule above of the whole of the entities belonging to said group.

To the effects of that set down in the previous paragraph, it will be understood that the cases of Article 42 of the Code of Commerce are those included in the 1st section of the rules for the formulation of the consolidated annual accounts approved by Royal Decree 1159/2010 of 17th September.

In order to prove the existence of said group of companies the following documentation must be submitted:

- Consolidated annual accounts referring to the assessable period of the declarations of Corporation Tax, income Tax for Non-Residents, and Income Tax presented for the determination of the negative economic return deposited with the Registry of Companies, except when there is no obligation to apply the consolidation as is set down by business regulations, in which case a declaration signed by the administrators must be presented or if appropriate by the duly accredited legal representative of the entity, indicating the legal reasons for the dispensation.

- A declaration signed by the administrators must be presented or if appropriate by the legal representative of the entity duly accredited to do so, which lists all the Spanish companies forming part of the group, whether directly or indirectly, placing on record in the same that no presentation has been made to the State Agency of Tax Administration or to the corresponding Regional Administrations of more returns of Corporation Tax or of Income Tax for Non-Residents than those provided to accredit the tax inducement.

5th. The determination of the net return will be understood to refer to the assessable period for which the deadline for the presentation of the

returns for Corporation Tax, income Tax for Non-Residents, and Income Tax has ended the year prior to that of the accrual of the tax. In the case of non-residents without a permanent establishment the net return will be understood to refer to the calendar year immediately after that in which the sum of the gross tax bases is negative in accordance with the final subsection of the 2nd rule above.

The rebate will be applicable, if appropriate, to all the activities carried out by the taxpayer on the charge resulting from successively applying the rebates contemplated in Article 16.1 and in additional precepts three and four of this ordinance.

For the purposes of accrediting the negative economic performance the application for the rebate must be accompanied by the following documentation:

- Tax return corresponding to the entities of Article 35.4 of the Law on General Taxation mentioned in the 3rd rule.
- Tax return for Corporation Tax or income Tax for Non-Residents, as appropriate, in the event of the remainder of possibilities not contemplated in the 3rd rule.
- Breakdown of the profits and losses, differentiating the part corresponding to non-current assets from the part corresponding to current assets.

The rebate established in this section is by request and must be applied for from the Town Council before 1st February of the year to which it is applicable.

VII. ASSESSABLE PERIOD AND ACCRUAL

Article 17.1. The assessable period coincides with the calendar year except in the event of declaring the activity, in which case it will run from the date of the initiation of the activity to the end of the calendar year.

2. The tax is accrued on the first day of the assessable period and the charges will be irreducible, except when in the cases of declaring the activity the day of initiating the activity does not coincide with the natural year, in which case the charges will be calculated proportionally to the number of calendar quarters remaining to end the year, including that of the initiating of the exercising of the activity.

Likewise, and in the case of the end of liability owing to the abandoning of the activity, the charges will be apportionable by calendar quarters with the exclusion of that in which said abandonment occurs. To this end taxpayers may request the refund of the part of the charge corresponding to the calendar quarters in which the activity has not been carried out.

3. In the case of show business, when the charges are established by isolated performances, the accrual occurs as a result of the putting on of each of them; the corresponding tax returns must be presented.

VIII. TAX ADMINISTRATION

Article 18. The administration of the tax will be in keeping with that established in Law 58/2003 of 17th December on General Taxation, in Royal Decree 243/1995 of 17th February, and in the General Tax Ordinance of Administration, Collection, and Inspection.

IX. OFFENCES AND PENALTIES

Article 19. In everything relating to tax offences and their various categories, together with the penalties corresponding to the same in each case, that set down in the General Law on Taxation and in the General Tax Ordinance will be applied.

ADDITIONAL PRECEPTS

One. REDUCTION FOR MAJOR WORKS IN BUSINESS ACTIVITIES OF THE 6th DIVISION. In accordance with that established in Article 76 One, 9th of Law 41/1994 of 30th December on General State Budgets for 1995, and to the effects of the reduction for major works contemplated in the 1st common note to the 6th division of the 1st section of the rates of the tax, the following rules are approved for their application:

1st. The municipal charges corresponding to the activities classified in the 6th division of the 1st section of the rates of the tax will be reduced in proportion to the number of days on which the premises on which said activities are carried out remain closed when major works are being carried out to them for which the obtaining of the corresponding planning permission is required, and which last longer than three months within the same assessable period, provided that as a result of the same the premises remain closed.

2nd. For the purpose of the determination of the concept of major works for which the obtaining of the corresponding planning permission is

TAX ORDINANCE REGULATING BUSINESS TAX

required, that set down in town planning legislation, Urban Development Plans, the Municipal Ordinances, and other legislation on development will be applicable.

3rd. In order to calculate the duration of the works, the time that has passed owing to the stoppage of the works for reasons imputable to the interested party is not calculated. The stoppage of the works decreed by failure to comply with the urban or sectorial prescriptions that must govern its execution will be considered to be imputable to the interested party.

4th. Under no circumstances will this reduction be applicable when the premises are closed (with no activity taking place) prior to the initiation of the works or on which activities classified in divisions other than that of the aforementioned 6th division are carried out, even if in both cases the aim of the major works carried out is that of adapting the premises for the subsequent carrying out of an activity classified in said 6th division.

5th. If on the same premises the same taxpayer carries out any activities classified in the 6th division of the 1st section of the rates and activities classified in another division or other divisions, only the charges or part of the charges corresponding to the activities included in said 6th division will be subject to reduction.

6th. Premises on which the activities classified in the 6th division are carried out in accordance with that set down in the 6th rule of the Instruction of the tax are considered to be the buildings, constructions, and installations, together with the surface areas whether covered or uncovered or open to the public or otherwise, that are used for said business activities.

7th. Said reduction will likewise be applicable to premises indirectly affected by the activities classified in the repeated 6th division when the major works referred to in the 1st common note of the aforementioned division are carried out on them and when they comply with the remainder of the prescriptions of said note in accordance with the present application criteria.

8th. In accordance with the premises unit principle established in the 10th rule (no. 3) of the Instruction of the tax, the reduction will only be appropriate to the charge corresponding to the premises on which the major works are carried out, without their application on premises authorising their application on another premises or on other different

premises, even if they affect the main activity carried out on the premises where the works are carried out.

9th. The repeated reduction of the charge or part of the corresponding charge will not be applied to activities which, in accordance with that set down in the 5th and 6th rules and concordant with the Instruction of the tax, are not understood to be carried out on specific premises and therefore the situation coefficient must not be applied in the settlement of the tax.

10th. The charge or the part of a charge corresponding to the activity classified in the 6th division will be reduced in proportion to the number of days that the premises remain closed in relation to the assessable period in question. If the initiation of the activity has occurred after the first day of the year, it will be considered that the assessable period includes the number of quarters in which the activity is carried out. The same criterion will be applied in the cases of abandonments occurring after 31st December.

11th. In accordance with that set down in the sixteenth rule of the Instruction of the tax, the minimum municipal charge resulting after the application of this note must not under any circumstances be lower than that established in the aforementioned rule.

12th. Application and period for presentation

1. The application of the repeated note of reduction must be applied for by the taxpayer separately for each of the activities and premises affected by said works, and moreover with the identification of each of the different premises and the activity, the accounting period for which it is requested, and in each case municipal planning permission or the order of execution allowing the carrying out of the constructions, installations, or works, within a deadline of one month from the completion of the works, on the standardised application form that must be presented at the Tax Office together with the following documentation:

a) Copy of the declaration of being registered for Business Tax (*Impuesto sobre Actividades Económicas*, IAE) corresponding to the activity and the premises in question.

b) Certificate of the professional technician of the works to accredit the date of their initiation and completion.

TAX ORDINANCE REGULATING BUSINESS TAX

For the application of this note of reduction it will be necessary to be up-to-date with the payment of the Tax on Constructions, Installations, and Works.

2. If the works should be continued after 31st December, the application should be presented before 31st January of the following year, without detriment to the right of the taxpayer to request a new reduction in the charge corresponding to the new assessable period, if said works should last more than three months in the new period.

3. In cases of abandonment the application should be presented within one month from the date said abandonment occurred.

4. In cases of variation owing to a change of activity, the application for reduction must be presented within one month from the date when said change occurred, even if the new activity to be carried out is included in the same division. The foregoing is understood without detriment to the right of the taxpayer to request the reduction of the charge corresponding to the new activity if all requirements for the same are carried out for its enjoyment, including the exigency that the works affect the same for a period of over three months.

5. In cases in which the application for reduction is presented after the deadline, the recognition of the same will come into effect if appropriate as from the period following that in which said application was presented.

6. The taxpayer is subject to the burden of proof regarding compliance with the requirements established in order to enjoy this reduction.

13th. Granting and rejecting.

1. The tax administration body will be responsible for recognising or refusing the reduction corresponding to this 1st note common to the 6th division.

2. The granting of the aforementioned reduction will be understood without detriment to the powers of the Municipal Tax Inspection with regard to the checking of the requirements that led to its granting and to the practising of the definitive settlements that may proceed if appropriate.

3. In accordance with that set down in the second paragraph of the 1st common note of the 6th division, according to the wording given by the

TAX ORDINANCE REGULATING BUSINESS TAX

Budget Law for 1995, once the aforementioned reduction has been granted the taxpayer must apply to this Town Council for the corresponding refund.

4. Notwithstanding the foregoing, when the agreements of the recognition of the reduction have been adopted prior to 31st July of the accounting period to which the registration refers, said reduction will come into effect in the settlement corresponding to said accounting period. Without detriment to the foregoing, within the periods for appeals against the settlements these may be modified and the pertinent reductions applied, even when the agreements have been pronounced subsequent to the aforementioned date.

Two. REDUCTION FOR WORKS ON THE PUBLIC THOROUGHFARE IN BUSINESS ACTIVITIES OF THE 6th DIVISION. In accordance with that established in Article 76 One, 9th of Law 41/1994 of 30th December on General State Budgets for 1995, and to the effects of the reduction for works on the public thoroughfare contemplated in the 2nd common note to the 6th division of the 1st section of the rates of the tax, the following rules are approved for their application:

1st. When works are carried out on public thoroughfares of a duration of more than three months within the same assessable period that affect the premises in which activities classified in the 6th division of the 1st section of the rates of the tax are being carried out, taxpayers will have the right on application to a reduction in the municipal charge of the amount resulting from the application of the measurement criteria specified below, in keeping with the degree to which the premises are affected by said works.

2nd. To the effects of the reduction in the municipal charge of Business Tax owing to the application of this 2nd note common to the 6th division, works on the public thoroughfare will not be considered to be those carried out on premises, housing, and properties in general, even if in order to execute them they have to occupy the public thoroughfare either totally or partially.

3rd. In order to establish the reduction percentage to be applied the degree to which said works affect the premises will be taken into account; this degree will be determined by means of the weighting of the duration and intensity of said impact in accordance with the following coefficients:

TAX ORDINANCE REGULATING BUSINESS TAX

A) DURATION COEFFICIENT:

Works affecting the premises for:

Over 3 months but less than 4 months	0,20
From 4 full months to 6 months	0,40
Over 6 full months to 9 months	0,60
Over 9 months to completing the year.....	0,80

B) INTENSITY COEFFICIENT:

WORKS ON THE ROADWAY, without affecting the pavements
or pedestrian areas of the main access to the premises:

On roads completely closed to vehicular traffic as a consequence of the works on the section of the street of the main access of the premises affected	0,60
On roads with restricted vehicular traffic as a consequence of the works on the section of the street of the main access of the premises affected	0,40

WORKS ON PAVEMENTS OR PEDESTRIAN AREAS

On the same pavement and section on which the premises have their main access, without restricting vehicular traffic, even when they invade the parking lane	0,70
---	------

**WORKS ON THE ROADWAY AND ON PAVEMENTS OR
PEDESTRIAN AREAS**

On the same pavement and section of the main access of the affected premises	1,00
---	------

4th. In order to determine the corresponding reduction, the coefficient from section A) of the 3rd paragraph above will be multiplied by the coefficient of the table of section B) of the same 3rd paragraph, and the result of said operation converted into a percentage will be applied to the minimum municipal charge corresponding to the period of settlement for the purposes of its reduction.

TAX ORDINANCE REGULATING BUSINESS TAX

5th. If on the same premises the same taxpayer carries out activities classified in the 6th division of the 1st section of the rates and activities classified in another division or other divisions, only the settlements or part of the settlements corresponding to the activities included in said 6th division will be subject to reduction.

6th. Premises on which the activities classified in the 6th division are carried out in accordance with that set down in the 6th rule of the Instruction of the tax are considered to be the buildings, constructions, and installations, together with the surface areas, whether covered or uncovered or open to the public or otherwise, that are used for said business activities.

7th. Said reduction will likewise be applicable to premises indirectly affected by the activities classified in the repeated 6th division when they are located on the roads on which are executed the works referred on in the 2nd common note of the aforementioned division.

8th. In accordance with the premises unit principle established in the 10th rule (no. 3) of the Instruction of the tax, the reduction will only be appropriate in the charge to the premises located on the roads on which the works are carried out, without their recognition regarding individual premises authorising their application on another premises or on other different premises, even if they affect the main activity carried out on the premises on which a reduction of the charge is appropriate.

9th. The repeated reduction of the charge or of part of the corresponding charge will not be applied to activities which, in accordance with that set down in the 5th and 6th rules and concordant with the Instruction of the tax, are not understood to be carried out on specific premises and therefore the situation coefficient must not be applied in the settlement of the tax.

10th. If at the end of the calendar year the works should continue on the public thoroughfare for a period of over three months, the taxpayer affected by them will have the right to a new reduction in the charge corresponding to the new assessable period in a percentage resulting from the degree to which the premises are affected during the new period.

11th. In accordance with that set down in the sixteenth rule of the Instruction of the tax, the minimum municipal charge resulting after the

application of this note must not under any circumstances be lower than that established in the aforementioned rule.

12th. Application and period for presentation.

1. The application of the repeated note of reduction must be applied for by the taxpayer separately for each of the activities and premises affected by said works, and moreover with the identification of each of the different premises and the activity, the accounting period for which it is requested, within a deadline of one month from the completion of the works, and in any case since the premises cease being affected by the same, on the standardised application form that must be presented at the Tax Office together with the following documentation:

a) Copy of the declaration of being registered for Business Tax (IAE) corresponding to the activity and the premises in question.

b) Location plan of the premises.

2. If the impact of the works on the premises should be continued after 31st December, the application should be presented before 31st January of the following year, within detriment to the right of the taxpayer to apply for a new reduction in the charge corresponding to the new assessable period, if the impact of said works should last more than three months in the new period.

3. In cases of abandonment the application should be presented within one month from the date said abandonment occurred.

4. In cases of variation owing to a change of activity, the application for reduction must be presented within one month from the date when said change occurred, even if the new activity to be carried out is included in the same division. The foregoing is understood without detriment to the right of the taxpayer to request the reduction of the charge corresponding to the new activity if all requirements for the same are complied with for its enjoyment, including the exigency that the premises are affected by the works for a period of over three months since the initiation of the new activity.

5. In cases in which the application for reduction is presented after the deadline, the recognition of the same will come into effect if appropriate as from the period following that in which said application was presented.

TAX ORDINANCE REGULATING BUSINESS TAX

6. The taxpayer is subject to the burden of proof regarding compliance with the requirements established in order to enjoy this reduction.

13th. Granting and rejecting.

1. The tax administration body will be responsible for recognising or refusing the reduction corresponding to this 2nd note common to the 6th division.

2. The granting of the aforementioned reduction will be understood without detriment to the powers of the Municipal Tax Inspection with regard to the checking of the requirements that led to its granting and to the practising of the definitive settlements that may proceed if appropriate.

3. In accordance with that set down in the second paragraph of the 2nd common note of the 6th division, according to the wording given by the Budget Law for 1995, once the aforementioned reduction has been granted the taxpayer must apply to this City Council for the corresponding refund.

4. Notwithstanding the foregoing, when the agreements of the recognition of the reduction have been adopted before 31st July of the accounting period to which the registration refers, said reduction will come into effect in the settlement corresponding to said accounting period. Without detriment to the foregoing, within the periods for appeals against the settlements these may be modified and the pertinent reductions applied, even when the agreements have been pronounced subsequent to the aforementioned date.

Three. 1. In accordance with that set down in Article 88.2.a) of the revised text of the Law regulating Local Properties, those initiating a new business activity and with a municipal tax charge in the 2012, 2013, 2014, 2015, 2016, and 2017 accounting periods will have the right to a rebate of 50 per cent of the tax charge during the third and fourth assessable periods following that of the initiation of the same.

The application of this rebate will require that the activity has not been carried out previously under different ownership. It will be understood that the activity has been carried out previously under different ownership in the cases of merging, splitting, or the providing of a branch of activity, among others.

TAX ORDINANCE REGULATING BUSINESS TAX

The period for the application of the rebate will expire when two years have passed since the end of the exemption contemplated in letter b) of Article 5.1 of this ordinance.

The rebate will be applied to the tax charge consisting of the rate charge weighted by the coefficient established in Article 14 and modified by the coefficient established in Article 15, both of this ordinance.

The rebate will be applied, if appropriate, to the liability resulting from the successive appliance of the rebates contemplated in Section 1 of Article 16 of this tax ordinance.

The rebate established in this precept is requested in nature and must be applied for from the City Council for each of the activities carried out prior to the first day of February of the year in which it is applicable; it is not necessary to repeat the application (if appropriate) for the second assessable period. If it should be applied for after this deadline, the rebate will be granted (if appropriate) for the remaining accounting period.

2. Notwithstanding the foregoing, taxpayers initiating any business activity in the 2010 and 2011 assessable periods will have the right to enjoy the rebate established in the previous section in the same terms as indicated.

Four. In accordance with that established in Article 88.2. b) of the revised text of the Law regulating Local Properties approved by Royal Legislative Degree 2/2004 of 5th March and exclusively affecting the 2013, 2014, 2015, 2016, and 2017 assessable periods, a rebate is established for job creation of up to 50% of the charge corresponding to taxpayers affecting by a municipal charge and which have increased the average of their workforce with a permanent contract during the assessable period immediately prior to that of the application of the rebate, in relation to the period prior to the former, of the following amount:

1.1) Percentages of the increase in the workforce with a permanent contract equal to or exceeding 5% will have a rebate of 40%.

1.2) Percentages of the increase in the workforce with a permanent contract exceeding 10% will have a rebate of 50%.

In the application of the rebate the following rules will be observed:

TAX ORDINANCE REGULATING BUSINESS TAX

1st. In order to calculate the average of the total workforce of the company and its increase, the persons employed will be considered in the terms set down in employment legislation, taking into account the working day contracted in relation to full-time work.

2nd. When an entity is part of a group of companies in the sense of Article 42 of the Code of Commerce, the requirements and terms of this rebate will refer to the entities belonging to said group as a whole.

It will be understood that the cases of Article 42 of the Code of Commerce are those included in the 1st section of Chapter I of the rules for the formulation of the consolidated annual accounts approved by Royal Decree 1159/2010 of 17th September.

In order to prove the existence of said group of companies the following documentation must be submitted:

- Consolidated annual accounts referring to the two accounting periods immediately prior to that of the application of the rebate, deposited with the Registry of Companies, except when there is no obligation to apply the consolidation as is set down by business regulations, in which case a declaration signed by the administrators must be presented or if appropriate by the duly accredited legal representative of the entity, indicating the legal reasons for the dispensation.

- A declaration signed by the administrators must be presented or if appropriate by the legal representative of the entity duly accredited to do so, which lists all the Spanish companies forming part of the group, whether directly or indirectly.

3rd. When the rebate is appropriate it will be applied to all activities carried out by the taxpayer and affected by a municipal charge.

The rebate will be applied, if appropriate, to the charge resulting from the successive appliance of the rebates contemplated in Point 1 of Article 16 and in the third additional precept of this ordinance.

The application for the rebate must be accompanied with a certificate issued by the General Treasury of the Social Security recording the average annual number of workers with a permanent contract, indicating the working day contracted regarding the two assessable periods prior to that in which the rebate will come into effect.

TAX ORDINANCE REGULATING BUSINESS TAX

The rebate established in this section is by request and must be applied for from the City Council before the first day of February of the year to which it is applicable.

FINAL PRECEPTS

One. For everything not expressly regulated in this ordinance the rules contained in the General Tax Ordinance will be applicable.

Two. Once it has been approved this ordinance will come into effect on 1st January 1999 in accordance with that set down in Point 4 of the tenth temporary precept of Law 50/1998 of 30th December on Tax, Administrative, and Social Measures (Official State Bulletin no. 313 of 31st December 1998)⁽¹⁾.

(1)The text of the ordinance transcribed is that of its current wording together with the modifications approved by the Plenary Session of the City Council by means of an agreement of 29th December 2016 which will come into effect as from 1st January 2017 (BOCM - Official Bulletin of the Region of Madrid - no. 315 of 31/12/2016).

TAX ORDINANCE REGULATING MOTOR VEHICLE TAX

Current wording in accordance with the modifications approved by agreement of the Plenary Session of the City Council of 29th December 2016

CHAPTER I. NATURE AND FOUNDATION

Article 1. Motor Vehicle Tax is a direct tax that is established as obligatory in the revised text of the Law regulating Local Properties approved by Royal Legislative Decree 2/2004 of 5th March and regulated in accordance with that set down in Articles 92 to 99, both inclusive, of said precept and according to this ordinance.

CHAPTER II. LIABILITY

Article 2.1. Motor Vehicle Tax is a levy on the ownership of vehicles of this nature that are suitable for use on public thoroughfares, whatever their type and category.

2. A vehicle suitable for use is considered to be one registered and recorded on the corresponding public registers as long as it has not been deregistered on the same. This tax also affects vehicles with temporary permits and tourist number plates.

3. The following vehicles are not subject to this tax:

a) Vehicles which having been deregistered on the Registers owing to the age of the model can be authorised for occasional use during exhibitions, competitions, or races limited to those of this kind.

b) Trailers and semi-trailers towed by motor vehicles with a payload not exceeding 750 kilograms.

CHAPTER III. TAXPAYER

Article 3. Those liable for this tax are the natural and corporate persons and the entities referred to in Article 35.4 of Law 58/2003 of 17th December on General Taxation in whose names the vehicle is recorded on the registration document.

CHAPTER IV. EXEMPTIONS AND REBATES

Article 4.1. The following vehicles will be exempt from the tax:

a) Official vehicles of the State, Autonomous Regions, and Local Entities involved in national defence or citizen security.

b) Vehicles of diplomatic representation, consular offices, diplomatic agents, and consular career officials accredited in Spain who are subjects of their respective countries and carry external identification and on the condition of reciprocity in their extent and degree.

Likewise vehicles of international bodies with their headquarters or offices in Spain and of their officials or members with diplomatic status are in the category.

c) Vehicles when this derives from that set down in international treaties or agreements.

d) Ambulances and other vehicles used directly for healthcare or the transporting of the injured or the sick.

e) Vehicles for persons with reduced mobility referred to in letter A of Annex II of the General Regulation of Vehicles approved by Royal Decree 2822/1998 of 23rd December.

Likewise vehicles registered in the name of disabled persons for their exclusive use are also exempt. This exemption will be applied as long as said circumstances are maintained and apply to both vehicles driven by disabled persons and those used to transport them.

The exemptions contemplated in the two previous paragraphs will not be applicable to taxpayers benefitting from the same for more than one vehicle at the same time.

To the effects of that stipulated in this paragraph, disabled persons will be considered to be those having this legal condition to a degree of 33 per cent or above.

f) Buses, minibuses, and other vehicles designed for or involved in the service of urban public transport, provided that their capacity is of over nine seats including that of the driver.

g) Tractors, trailers, semi-trailers, and machinery holding an Agricultural Inspection Card.

2. In order to be able to apply the exemptions referred to in paragraphs e) and g) of Point 1 of this article, interested parties must instigate their concession by indicating the characteristics of the vehicle, its registration number, and the reason for the benefit. When exemption has been declared by the municipal administration a document will be issued to prove that it has been granted.

TAX ORDINANCE REGULATING MOTOR VEHICLE TAX

Said exemptions will come into effect during the current accounting period regarding vehicles that are registered for tax as a consequence of their registration and authorisation for use, together with in the cases of rehabilitations or new authorisations for use, provided that the application is formulated at the time when, in accordance with that established in Article 8 of this ordinance, the presentation and the payment of the appropriate self-assessment would take place were it not for the application for exemption, without detriment to the appropriate check by the municipal Administration.

In the remaining cases the recognition of the right to the aforementioned exemptions will come into effect as from the period following that in which the application was presented.

In relation to the exemption contemplated in the second paragraph of letter e) of Point 1 above, the interested party must submit the certificate of disability issued by the competent body and justify the use of the vehicle to the City Council imposing the tax.

3. A 100 per cent tax rebate will be enjoyed by vehicles that have been declared historic by the respective Autonomous Region, provided that they are recorded as such on the Register of the Provincial Traffic Headquarters.

The Provincial Traffic Headquarters will transfer to the City Council the registration documents granted for this type of vehicle.

Inclusion on the Register of the Provincial Traffic Headquarters as a historic vehicle will give the right to the corresponding rebate, which will come into effect as from the assessable period following that of the inscription, except in those cases of vehicles registered for the tax as a consequence of registration and authorisation for use, in which case it will come into effect during the current accounting period.

The rebate will be granted provided that the requirements for its granting are complied with, without detriment to the appropriate check by the municipal administration.

4. Vehicles of the following kinds: cars, trucks, vans, light vans, adaptable mixed vehicles, buses, coaches, motorcycles, and mopeds will enjoy, in the terms stipulated in the following point, a rebate of the tax charge depending on the type of fuel used and on the characteristics of the engine and its effect on the environment, provided that the conditions and requirements specified below are complied with:

A) Vehicles not having internal combustion engines (electric or fuel cell

TAX ORDINANCE REGULATING MOTOR VEHICLE TAX

vehicles or those with no direct emissions), Plug in Hybrid Electric Vehicles (PHEVs), or electric vehicles with an extended range.

B) According to their official factory specifications, vehicles using gas or bioethanol or with hybrid technology and including catalytic converters suitable for their type and model that minimise contaminating emissions.

5. In accordance with that established in the previous point, the vehicles referred to in the same will enjoy indefinitely from the date of their first registration in the case of the vehicles referred to in letter A) and 6 years in the case of those in letter B) a rebate of the tax charge according to that set out in the following table:

CHARACTERISTICS OF THE ENGINE, FUEL, AND VEHICLE TYPE		BENEFIT PERIOD AND REBATE PERCENTAGE ACCORDING TO PERIOD						
		Years						
		1st	2nd	3rd	4th	5th	6th	Other
A) Electric or fuel cell vehicles or those with no direct emissions, Plug in Hybrid Electric Vehicles (PHEVs) or electrical vehicles with an extended range	VEHICLES POINT 4	75 %	75 %	75 %	75 %	75 %	75 %	75 %
B) Hybrid with catalytic converter, gas, or bioethanol	VEHICLES POINT 4	75 %	75 %	75 %	75 %	75 %	75 %	- -

6. The rebate referred to in letter B) of Point 4 will be applicable to vehicles adapted for using gas as fuel when this is different from what would correspond to them according to its official factory approval, after complying with the Spanish Ministry of Transport test (Inspección Técnica de Vehículos, ITV) contemplated in current legislation.

TAX ORDINANCE REGULATING MOTOR VEHICLE TAX

The right to the rebates regulated in this section will be counted from the assessable period following that in which the vehicle is adapted.

7. The rebates contemplated in sections 4, 5, and 6 are requested in nature and will come into effect, if appropriate, from the assessable period following that in which they are applied for, provided that the conditions are fulfilled in advance and that compliance with the requirements for their granting are accredited to the City Council. Said rebates may be applied for at any time prior to the completion of the periods of duration of the same referred to in Point 5 of this article.

Nevertheless, the rebates regulated in sections 4 and 5 above may come into effect in the current accounting period regarding the vehicles liable for the tax as a consequence of their registration and authorization for use, provided that the application is formulated at the time of the presentation-payment of the corresponding self-assessment, without detriment to the pertinent check by the municipal Administration.

8. In order to enjoy the benefits referred to in sections 4, 5, and 6 of this article, the vehicles affected must not be subject to any penalties owing to atmospheric pollution by forms of matter relating to motor vehicles during the whole of the period of enjoyment of the corresponding rebate. If this should occur the taxpayer will be obliged to return within the deadline of one month after the penalty becoming definitive the amount of the rebates that it has wrongfully enjoyed as from the date on which the offence occurred.

CHAPTER V. RATES

Article 5.1. The charges of the City Council of Madrid are as follows:

<u>Vehicle power and category</u>	<u>Euros</u>
A) Cars:	
Of less than 8 taxable horsepower	20
From 8 to 11.99 taxable horsepower	59
From 12 to 15.99 taxable horsepower	129
From 16 to 19.99 taxable horsepower	179
Of 20 taxable horsepower or more	224

TAX ORDINANCE REGULATING MOTOR VEHICLE TAX

<u>Vehicle power and category</u>	<u>Euros</u>
B) Buses:	
Of less than 21 seats.....	145
From 21 to 50 seats.....	212
Of over 50 seats.....	266
C) Trucks:	
Of less than 1.000 kilograms. of payload.....	73
From 1.000 to 2.999 kilograms of payload	149
Of over 2.999 to 9.999 kilograms of payload.	213
Of over 9.999 kilograms of payload.....	266
D) Tractors:	
Of less than 16 horsepower	32
From 16 to 25 horsepower	50
Of over 25 horsepower.....	149
E) Trailers and semi-trailers towed by motor vehicles:	
Of less than 1.000 and more than 750 kilograms of payload .	32
From 1.000 to 2.999 kilograms of payload	50
Of over 2.999 kilograms of payload.....	149
F) Other vehicles	
Mopeds	7
Motorbikes of up to 125 cubic centimetres	7
Motorbikes of over 125 to 250 cubic centimetres	12
Motorbikes of over 250 to 500 cubic centimetres.....	27
Motorbikes of over 500 to 1.000 cubic centimetres.....	60
Motorbikes of over 1.000 cubic centimetres.....	121

TAX ORDINANCE REGULATING MOTOR VEHICLE TAX

2. To the effects of this tax, the concept of the various vehicle types listed in the table of rates of the same will be that included in Royal Decree 2822/1998 of 23rd December approving the General Vehicle Regulations, and also taking the following rules into account:

a) A van or light van will be understood to be a vehicle with four wheels or more conceived and built for the transport of merchandise, the cab of which is part of the remainder of the bodywork, and with a maximum of 9 seats including that of the driver. Vans/light vans will be taxed at the rates corresponding to trucks.

b) Three-wheeled vans will be considered to be motorbikes for the purposes of this tax and will therefore be taxed according to their cylinder capacity.

c) In the case of articulated vehicles the cab, which is a motor vehicle, and the trailer and semi-trailer coupled to it will be taxed separately and simultaneously.

d) Self-propelled machinery that may use public thoroughfares without being transported or towed by other motor vehicles will be taxed at the rates corresponding to tractors, which include tractor units and works and service tractors.

3. The power of the vehicle expressed in taxable horsepower will be established in accordance with that set down in Article 11.20 of the aforementioned General Vehicle Regulations in relation to Annex V of the same text.

4. In cases of vehicles in which the ITV card mentions the distinction in the determination of the load between the Maximum Authorised Mass (MAM) and the Technically Acceptable Maximum Mass (TAMM), for the purposes of their tax bracket the kilos taken into account will be those expressed in the MMA, which corresponds to the maximum mass for the use of a vehicle with a load on public thoroughfares, according to that indicated in Royal Decree 2822/1998 of 23rd December regulating the General Vehicle Regulations. This weight will always be less than or equal to the TAMM.

CHAPTER VI. ASSESSABLE PERIOD AND ACCRUAL

Article 6.1. The assessable period coincides with the calendar year except in the case of the initial purchase of vehicles. In this latter case the assessable period will begin on the day of said purchase.

2. The tax accrues on the first day of the assessable period.

3. The amount of the tax charge will be apportioned by calendar quarters in the cases of the initial purchase or definitive deregistration of a vehicle. The apportioning of the charge in the same terms in cases of temporary deregistration owing to the theft of the vehicle will also proceed from the time of said temporary deregistration on the corresponding public register.

4. In the event of the transfer or change of address with an effect on the tax the charge will be irreducible and the person with the obligation to pay the tax will be that appearing as the holder on the registration document on the first day of January and in cases of initial purchase on the day on which said purchase occurs.

CHAPTER VII. TAX ADMINISTRATION AND PAYMENT

Article 7. The administration, settlement, inspection, and collection of the tax, together with the revision of the rulings issued in the administration of the tax, corresponds to the City Council of Madrid when the address appearing on the registration document of the vehicle belongs to its municipal district.

Article 8.1. This tax will be administered according to the self-assessment system in the case of vehicles liable for the tax as a consequence of their registration and authorisation to be used, and also in the event of their rehabilitation and new authorisations to be used in those cases in which the vehicle has been temporarily or definitively deregistered on the Register of the Provincial Traffic Headquarters.

2. Regarding the vehicles expressed, the taxpayer must proceed on the form provided for the purpose by the municipal Administration to the self-assessment of the tax with the payment, if appropriate, of its amount through banking institutions or Savings Banks authorised by the City Council of Madrid.

3. The document proving the payment of the Motor Vehicle Tax or its exemption must be presented at the Provincial Traffic Headquarters by those wishing to register or rehabilitate a vehicle when this is requested.

TAX ORDINANCE REGULATING MOTOR VEHICLE TAX

4. The self-assessment will be provisional until the municipal Administration checks that this has been carried out by means of the correct application of the rules regulating the tax.

Article 9. The Provincial Traffic Headquarters will not process the administrative change of ownership of a vehicle until its registered owner has justified the payment of the tax corresponding to the assessable period of the year prior to that in which the transaction is carried out.

Article 10.1. In the case of vehicles that have already been registered or declared suitable for use in previous accounting periods, the period for the payment of the annual charges will run from 1st April to 31st May or the working day immediately following it.

When the needs of the service make this advisable, this deadline may be modified by a resolution from the Mayor provided that this does not exceed two calendar months.

2. In this case the collection of the corresponding charges will be achieved by the issuing of receipts based on a census or annual register on which appear all the vehicles liable to the tax, which will coincide with those inscribed on the corresponding Public Register in the name of persons or entities with addresses in the municipal district of Madrid.

3. The census or register of the tax will be exhibited to the public for a period of fifteen days so that the legitimate interested parties can examine it and if appropriate make the pertinent claims.

Said exhibiting to the public and the indication of the deadline for the payment of the charges will be notified by means of the placing of announcements on the public notice board of the electronic headquarters of the City Council of Madrid, the electronic address of which is <http://sede.madrid.es>, in the Official Bulletin of the Region of Madrid, and in a newspaper with one of the largest print runs in the capital, and will serve as notification of the settlement to each of the taxpayers.

4. The receipts will be paid through the financial entities authorised by the City Council.

CHAPTER VIII. TAX OFFENCES AND PENALTIES

Article 11. In everything concerning tax offences and their different categories, together with the penalties corresponding to the same in each case, the rules established in Title VI of the General Tax Ordinance will be applied.

Article 12. Failure to comply with the obligation contemplated in Article

4.9 may be considered to be a serious tax offence in accordance with that set down in the General Law on Taxation and the General Tax Ordinance of Administration, Collection, and Inspection.

Article 13. Using again a vehicle when its scrapping has been declared with the objective of claiming the rebate contemplated in Article 4.4 of this ordinance will likewise be considered to be a serious tax offence.

ADDITIONAL PRECEPT

The references to registration documents throughout the articles of this ordinance must be understood to refer to the equivalent document in the case of mopeds after the coming into effect of Royal Decree 2822/1998 of 23rd December approving the General Vehicle Regulations.

PROVISIONAL PRECEPT

To the effects of the application of rebates depending on the type of fuel used, on the characteristics of the engine, and on its impact on the environment, vehicles that have been registered and liable for tax as from 1st January 2004 and before 1st January 2012 will be affected by the tax inducements current at that time until their total cancellation.

FINAL PRECEPTS

One. For everything not specifically regulated in this ordinance the regulations in the General Tax Ordinance will be applicable.

Two. This ordinance will come into effect on 1st January 1999 and will remain valid until its repeal or modification is expressly agreed ⁽¹⁾.

⁽¹⁾ The text of the ordinance transcribed is that of its current wording together with the modifications approved by the Plenary Session of the Town Council by means of an agreement of 29th December 2016 which will come into effect as from 1st January 2017 (BOCM - Official Bulletin of the Region of Madrid - No. 315 of 31/12/2016).

TAX ORDINANCE REGULATING TAX ON CONSTRUCTIONS, INSTALLATIONS, AND WORKS

Current wording in accordance with the modifications approved by agreement of the Plenary Session of the City Council of 29th December 2016

CHAPTER I. NATURE AND FOUNDATION

Article 1. The Tax on Constructions, Installations, and Works is an indirect tax established in accordance with the authorization granted by the revised text of the Law regulating Local Properties approved by Royal Legislative Decree 2/2004 of 5th March and regulated according to that set down in Articles 100 to 103, both inclusive, of the aforementioned revised text.

CHAPTER II. LIABILITY

Article 2.1. The liability for this tax consists of the carrying out within the municipal district of any construction, installation, or works for which the obtaining of the corresponding planning permission is required, whether or not said permission has been obtained, or for which it is necessary to present a declaration of responsibility or prior notification, providing that the issuing of the permission or the control activity corresponds to the City Council of Madrid.

2. Likewise the liability for the tax is understood to include the following:

a) Constructions, installations, or works which are carried out in compliance with a municipal order of enforcement or any other requiring the prior existence of an approved agreement, the awarding of a concession, or municipal authorization. In such cases the order of enforcement, the approved agreement, the awarding of a concession, or the authorization granted by municipal bodies will be equivalent to the permission, declaration of responsibility, or prior notification mentioned in the previous point.

b) Constructions, installations, and works carried out on the public thoroughfare by private individuals or by companies providing public services, including as examples both the opening of pits and the digging of wells or ditches, the laying of plates, the placing of posts, channels, and connections, and in general any turning over of the roadway or the

pavement such as may be necessary for the replacement, reconstruction, or repair of what has been destroyed or deteriorated with the aforementioned pits or ditches.

c) Constructions, installations, and works carried out in cemeteries, such as the construction of pantheons and mausoleums, alterations, and the placing of sarcophaguses, gravestones, crosses, and other attributes, and those of plumbing, drains, and service passageways.

The liability for the tax will not be understood to include the constructions, installations, or works authorized in Development Projects.

CHAPTER III. TAXPAYER

Article 3.1. The taxpayers for this tax as ratepayers are the natural or corporate persons and the entities referred to in Article 35.4 of Law 58/2003 of 17th December on General Taxation which are the owners of the construction, installation, or works whether or not they are the proprietors of the building on which the former are carried out.

The owner of the construction, installation, or works will be considered to be the party paying the expenses or the costs that the former incur.

2. If the construction, installation, or works are not carried out by the taxpayer or ratepayer, it will be the replacement taxpayer of the same who will request permission or present the corresponding declarations of responsibility or prior notifications or who carries out the constructions, installations, or works.

The replacement taxpayer may demand from the ratepayer the amount of the tax charge paid.

CHAPTER IV. EXEMPTIONS AND REBATES ⁽¹⁾

Article 4. *Exemption of specific works of infrastructure.* In accordance with Article 100.2 of the revised text of the Law regulating Local Properties, exemption from the payment of the tax extends to the carrying out of any construction, installation, or works owned by the State, the Autonomous Region of Madrid, and the City Council of Madrid, which being subject to the same is to be directly applied to roads, railways, ports, airports, hydraulic works, and the drainage of towns and their sewage, even if their administration is carried out by Autonomous Bodies both in the case of works of new investment and of preservation.

Section One:

Rebates for constructions, installations, or works of special interest or municipal use

Article 5. Under the protection of that set down in Point a) of Article 103.2 of the revised text of the Law regulating Local Properties, provided that the significant official requirements established in this ordinance are complied with, the constructions, installations, or works declared to be of special interest or municipal use may enjoy a rebate of the tax charge in the terms indicated below.

To the effects of the enjoyment of the rebate referred to in the paragraph above, the constructions, installations and works detailed in the table below are hereby declared to be of special interest or municipal use:

⁽¹⁾ To the effects of the application of the rebates referred to in Articles 5.b), c), and d) and 12 of this ordinance, the equivalences deriving from current regulations must be taken into account. Said regulations consist of Royal Decree 233/2013 of 5th April regulating the 2013-2016 State Plan for encouraging the renting of houses, the restoration of buildings, and urban regeneration and renewal, and Decree 74/2009 of 30 July approving the Regulations on public interest housing of the Region of Madrid.

CONSTRUCTIONS, INSTALLATIONS, OR WORKS OF SPECIAL INTEREST OR MUNICIPAL USE	REBATE PERCENT
a) The constructions, installations, and works of new building for the implementation of the non-residential equipment included in Article 7.10.3 on the Urban Regulations of the current General Urban Development Plan of Madrid, which are established on plots which said Plan devotes in a qualified manner to this use, and which for these purposes are represented in the graphic documentation of the same as of Basic Equipment, Outstanding Equipment, and Private Equipment according to the following system, are as follows:	
a.1.- Those included in points a) and b) of said article which moreover will be directly administered by a public entity	70%
a.2.- Those included in points a) and b) of said article which will be administered by a private entity .	35%
a.3.- Those included in section c) of said article	35%
b) The works of the restoration of buildings for residential use, in Areas declared of Preferential, Integrated, or State-Assisted Restoration which obtain from the competent administration the classification of protected action.....	70%
c) Work on buildings and elements protected by the General Urban Development Plan of Madrid as indicated below in the following amounts:	
c.1.- Work on the buildings and elements catalogued as having protection level 1 (to an outstanding or complete degree).....	75%
c.2.- Work on the buildings and elements catalogued as having protection level 2 (to a structural or volumetric degree)	35%

TAX ORDINANCE REGULATING TAX ON CONSTRUCTIONS, INSTALLATIONS, AND WORKS

CONSTRUCTIONS, INSTALLATIONS, OR WORKS OF SPECIAL INTEREST OR MUNICIPAL USE	REBATE PERCENT
c.3.- Works on buildings and elements catalogued with protection 3 level (to a partial or environmental degree)	10%
d) The new construction works of Council Houses under the Special System and of Social Integration Housing (Viviendas de Integración Social, V.I.S.) of the Region of Madrid and others promoted by the City Council of Madrid of similar characteristics to those above, together with the Public Housing of the Basic Rental System promoted by the City Council of Madrid which are intended for families earning up to 1,5 times the Public Income Indicator of Multiple Effects (Indicador Público de Renta de Efectos Múltiples, IPREM)	90%
e) Regarding the first 45.000 euros of the actual and effective cost, the constructions, installations, and works carried out for the implementation, development, modification, or change of those activities in which the processing for the obtaining of the permission, declaration of responsibility, or prior notification is carried out according to any of the procedures of the ordinance by which the urban system of the activities is established, with the exclusion of those exercised by the public sector	95%
Once the rebate regulated in this letter e) has been enjoyed for a liability, it can only be enjoyed for the following regarding the same ratepayer and premises or establishment if two years have passed since the date of the application for the rebate previously granted. Nevertheless, if a change of activity is accredited the rebate can be enjoyed regardless of the time that has passed since the previous one.	

TAX ORDINANCE REGULATING TAX ON CONSTRUCTIONS, INSTALLATIONS, AND WORKS

CONSTRUCTIONS, INSTALLATIONS, OR WORKS OF SPECIAL INTEREST OR MUNICIPAL USE	REBATE PERCENT
Especially in that referred to in this letter e), those declarations of special interest or municipal use which when duly listed allow the identification, in each case, of the constructions, installations, and works may be rewritten in a single ruling agreed by the Plenary Session of the City Council.	

Rules for the application of the rebates of Section One

Article 6. The rebates included in this Section One are neither accumulative nor applicable either simultaneously or successively between themselves.

Article 7. If the constructions, installations, or works are liable to be included in more than one case, if the interested party does not express a preference that corresponding to the higher rebate will be applied.

Article 8. The percentages referred to in Article 5 will be applied to the tax charge or if appropriate to that part of the same corresponding strictly to the real and effective cost imputable to the constructions, installations, and works included in the respective case.

Article 9. *Restoration of buildings of residential use in Areas of Preferential, Integrated, or State-Assisted Restoration.* 1. To the effects of that set down in letter b) of the table contained in Article 5, restoration work will be considered to constitute all those actions to buildings that have obtained the category of protected action under the protection of that set down in the corresponding state, autonomous region, or municipal regulations.

To the effects of the processing of the rebate a report will be requested from the Municipal Housing Company or an entity responsible for the administration of the Areas of Preferential, Integrated, or State-Assisted Restoration regarding the suitability of the works for the objectives of the declaration of such Areas as a protectable action. Nevertheless, said report will not be necessary if the applicant demonstrates that it is a beneficiary of the public aid and subsidies which to the same end may be

established for the encouraging and protecting of said Restoration Areas, according to that set down in the appropriate state, autonomous region, or municipal regulations.

In any case, Preferential Restoration Areas will be considered to be Preferential Areas for Encouraging Urban Regeneration declared by the City Council of Madrid, with it being a requirement for the right to the rebate that the construction, installation, or works for which a tax inducement is applied for have been granted the corresponding municipal subsidy in accordance with the public aid programme approved for this type of Area.

2. In any of the cases referred to in the previous point, if it should be necessary to repay the amount of the subsidies granted owing to failure to comply with the conditions established in the corresponding aid programme, it will be fitting to claim by the appropriate settlement process the amount of the rebate initially granted.

Article 10. *Subsidised Housing.* In the event of the building of houses included in letter d) of Article 5, if it is a case of mixed promotions including premises, unsubsidised housing, and subsidised housing the rebate will only affect the last named. To this effect the rebate percentage contemplated in said letter will be applied to the part of the charge corresponding to the actual and effective cost imputable to the construction of the subsidised housing. The same proviso will be applied if the promotion includes housing subject to public protection systems other than those referred to in said letter d) of Article 5. In both cases the interested party must submit a breakdown of the budget determining the cost of the construction of each category of housing. If their breakdown should not be possible, for the purposes of the rebate the budget will be apportioned in proportion to the respective surface areas.

Likewise it will be necessary to present in any case a copy of the provisional rating of the housing issued by the competent body of the Region of Madrid.

Section Two:

Other tax inducements

Article 11. *Incentives on making use of solar energy.* A 30% rebate of the charge will be enjoyed by constructions, installations, and works consisting of the installation of systems for the thermal or electric use of

solar energy for their own use. In the case of buildings for residential use the rebate percentage will however rise to 95%. The application of this rebate will be subject to demonstrating that the panels or sensors have been officially approved by the competent Administration. This rebate will not be granted when the implementation of these systems is compulsory in accordance with the specific regulations on the matter.

This rebate will exclusively affect the part of the charge corresponding to the constructions, installations, and works intended strictly for said purpose, and will be compatible with that contemplated in Article 13 in the terms set down in Section Three of Chapter IV of this ordinance. In order to enjoy the rebate the interested party must submit a breakdown of the budget in which the cost of the construction, installation, or works referred to in this case is determined in a detailed manner.

Article 12. Public interest housing. A 40% rebate will be enjoyed by the new constructions of Basic Public Interest Housing (Viviendas de Protección Pública Básica, VPPB) and of Public Interest Housing for Rental (Viviendas de Protección Pública para Arrendamiento, VPPA) referred to in points 2.A).a).1 and 2.B).b).1 of Article 2 of Decree 11/2005 of 27th January of the Region of Madrid, and likewise by the new constructions of subsidised housing at general prices for sale and for leasing at a basic rent regulated in Articles 19.1.b) and 32.1.a) of Royal Decree 801/2005 of 1st July.

The rebate anticipated in this article will only affect the public interest housing contemplated in the same. To this effect, in the case of mixed promotions including unsubsidised premises or housing and subsidised housing, the rebate percentage will be applied to the part of the charge corresponding to constructions, installations, and works strictly intended for the construction of the subsidised housing referred to in this precept. The same proviso will be applied if the promotion includes housing subject to public protection systems other than those referred to in this article.

In both cases, in order to enjoy the rebate the interested party must submit a breakdown of the budget in which the cost of the construction of each category of housing is determined in a detailed manner. If their breakdown should not be possible, for the purposes of the rebate the budget will be apportioned in proportion to the respective surface areas.

Likewise it will be necessary to present in any case a copy of the provisional rating of the housing issued by the competent body of the Region of Madrid.

Article 13. Access and habitability of the disabled. 1. Constructions, installations, and works necessary for the access and habitability of the disabled carried out on housing and buildings will enjoy a rebate of 90% of the charge, provided that the need for said works is accredited in terms of the following point.

To the effects of this rebate, constructions, installations, and works necessary for the access and habitability of the disabled will be understood to be those involving the alteration of the interior of a house in order to adapt it to the disability of anyone habitually living in it. It will also include the modification of the common elements of the building that serve as a necessary means of passage between the town property and the public thoroughfare, such as steps, lifts, passageways, halls, or any architectural element, or those necessary for the application of electronic devices serving to overcome barriers of sensory communication or of the promotion of security.

The rebate will not cover the constructions, installations, or works carried out on buildings which by normative prescription must be adapted as a compulsory measure.

2. The need for the constructions, installations, or works for accessibility and sensory communication to facilitate the decent and appropriate development of the disabled person will be accredited to the municipal tax Administration.

3. To the effects of this rebate disabled persons will be considered to be those with a recognised level of disability of at least 33 per cent, which must be justified by means of a document issued by the competent body. Notwithstanding this, said level of disability is considered equal to that of recipients of a Social Security allowance for total and permanent, absolute, or major disability.

Persons aged over seventy will be considered to be equal to disabled persons, without it being necessary for them to justify their disability with the document issued by the competent authority, when the works affect the common elements of the building that serve as a necessary means of

passage between the housing and the public thoroughfare, such as halls, lifts, ramps, or any other architectural element.

4. This rebate will exclusively cover the part of the charge corresponding to the constructions, installations, and works intended strictly for this purpose. The interested party must submit a breakdown of the budget signed if appropriate by the authorised technician in charge of the works, which determines in a reasoned manner the cost of the constructions, installations, or works covered by this rebate, which will be compatible with that contemplated in Article 11 in the terms set down in Section Three of Chapter IV of this ordinance.

Article 14. *System of application for the rebates of Section Two. Compatibility and priority.* The rebates will only be compatible when this has been expressly established. When more than one rebate included in this Section Two is applicable, the order of the articles in which they are reflected will be followed and they will be applied by deducting the amount of the charge resulting from deducting those preceding it, with the limits indicated in Section Three of this chapter.

Section Three:

System of compatibility and common precepts

Article 15.1. As a general rule the rebates included in Section One and those included in Section Two are not compatible and therefore may not be enjoyed simultaneously. If a construction, installation, or works can be included in any of the cases of Section One and another or other cases of Section Two, the interested party must choose the one it wishes to be applicable to it, it being understood that if more than one is indicated the one with the highest rebate will be chosen. Nevertheless, refusal concerning any of them will not prevent the enjoyment of any others provided that they are included in the application and that the corresponding documentation is accompanied to said effect.

The foregoing will be understood without detriment to the compatibility of the rebates contemplated in Articles 10 and 12 in the terms established in said precepts.

2. *Limit of the rebates.* The limit of the amounts of the rebates regulated in this ordinance, whatever the percentage indicated and regardless of whether they are applied individually or simultaneously, will be the full amount of the charge.

3. *Reimbursement.* Under no circumstances will interest be accrued by the amounts to be refunded to the taxpayer as a consequence of self-assessments paid on account without having applied the rebates regulated in this ordinance, owing to the lack of proof of the requirements necessary for their application at the time of the self-assessment and payment on account.

Article 16. *Procedure.* 1. *Requested nature.* If the rebates are to be enjoyed they must be applied for by the taxpayer within two months from the application for the permission or the presentation of the declaration of responsibility or prior notification.

In any case the application will be understood to have been made when the taxpayer carries out the self-assessment of the tax with the deduction of the amount of the rebate.

2. The application must be accompanied by the following documentation:

a) That justifying the appropriateness of the tax inducement.

b) Identification of the planning permission, declaration of responsibility, or prior notification, or if appropriate of the order for enforcement permitting the carrying out of the constructions, installations, and works.

c) A breakdown of the budget for the constructions, installations, or works or of that part of the same for which the tax inducement is applicable.

3. If the inclusion of said constructions, installations, or works in any of the cases subject to rebate should depend on rulings or assessments that must necessarily occur subsequently, it will be sufficient to prove the initiation of the stages intended to obtain it. In this case the rebate will be conditioned to its pertinent justification to the administration office for the tax, which must be implemented within the deadline of one month from the obtaining of the assessment or document proving its inclusion in the corresponding case.

4. If the application for rebate does not include the requirements indicated or if these are insufficient for the pertinent resolution to be adopted, the applicant will be summonsed to make good the lack of or

submit the mandatory documentation within a deadline of thirty days, with the indication that if this is not done it will be understood that the application is abandoned and it will be shelved with no further proceedings under the terms of Article 89 of the General Regulations of the actions and procedures of tax administration and inspection and of the development of the common rules of the procedures of tax application approved by Royal Decree 1065/2007 of 27th July.

In this case the bodies administrating the tax will proceed, if appropriate, to implement a provisional settlement for the amount of the rebate incorrectly applied and with the pertinent interest and surcharges, without detriment to the penalties that may arise if the existence of a tax offence should be detected.

5. If the rebate should be rejected or the rebate percentages applied by the taxpayer in the self-assessment presented should be inadequate, a provisional settlement will be automatically issued without the rebate or with the appropriate percentage and with the corresponding interest or surcharges; all this is without detriment to the penalties that may arise if the existence of a tax offence should be detected.

6. The granting of the rebate, or if appropriate the provisional settlement containing the implicit recognition of said rebate, will be conditioned by that established in the municipal licence or that stipulated in the declaration of responsibility or the prior notification and by the justification or obtaining of the assessments or rulings demandable in order to have the right to the corresponding rebate, which will automatically lose its effect without the need for a new agreement to the contrary both in the case of failure to comply with such conditions and in that of the refusal of the permission or the ineffectiveness of the declaration of responsibility or prior notification.

7. No rebate will be appropriate for those constructions, installations, or works concerning which the tax inducement has not been applied for within the deadline established in Point 1 of this article.

Neither will rebates be granted for those constructions, installations, or works which at the time of their carrying out do not have the necessary permission, declaration of responsibility, or prior notification.

8. In any case the resolution adopted will be justified in the event of refusal.

9. The granting of any tax inducement does not prejudice the legality of the constructions, installations, and works and will be understood without detriment to the actions, penalties, or fines that may be appropriate in the field of town planning.

Article 17. The tax inducements referred to in the previous sections will be provisional while the municipal Administration has not proceeded to check the facts and circumstances which allow their enjoyment and the corresponding definitive settlement is issued, and has not approved if appropriate the corresponding proceedings of agreement, or the periods established for said checking have passed.

CHAPTER V. GROSS TAX BASE

Article 18. The gross tax base of the tax consists of the actual effective cost of the construction, installation, or works, with the actual effective cost to the effects of the tax being understood to mean the cost of the material execution of the former.

The gross tax base does not include Value Added Tax and other similar taxes characteristic of special systems, levies, public rates, and other local public charges related, if appropriate, to the construction, installation, or works, and likewise does not include professional fees, the cost of the execution of items relating to health and safety during the execution of the works, the business profit of the contractor, or any other item that is not strictly part of the material cost.

CHAPTER VI. CHARGE AND TYPE OF ENCUMBRANCE

Article 19.1. The charge of the Tax on Constructions, Installations, and Works will be that resulting from applying the type of encumbrance to the gross tax base.

2. The type of encumbrance will be 4 per cent of the gross tax base.

CHAPTER VII. ACCRUAL

Article 20.1. The tax is accrued at the time of the initiation of the construction, installation, or works, even when permission has not been obtained or the corresponding declaration of responsibility or prior notification has not been submitted.

2. For the purposes of this tax the constructions, installations, or works will have been considered to have been initiated in the absence of proof to the contrary:

a) When the mandatory municipal licence has been granted or the administrative ruling has been issued to authorise the execution of the construction, installation, or works, on the date of the notification of said concession or authorisation, or if notification is not possible 30 days after the date of the Decree granting the permission or authorising the ruling.

To the above effects, administrative rulings authorising the execution of the construction, installation, or works will be considered to be the orders of execution, the provisional licences for the initiation of the works of the hollowing out or construction of retaining walls, the first of the partial authorisations of an authorisation programme by independent parties, public concessions, or the corresponding favourable reports, in the case of works declared urgent or of exceptional public interest promoted by the Public Administrations and any other similar ones.

b) When a declaration of responsibility or prior notification has been presented on the date that the same is recorded on the Register of the City Council of Madrid.

c) When without the City Council having granted the mandatory licence or the authorising administrative ruling referred to in letter a) above or without any declaration of responsibility or prior notification having been presented, the taxpayer carries out any kind of material or legal proceedings with a view to the carrying out of the constructions, installations, or works.

CHAPTER VIII. ADMINISTRATION OF THE TAX

Article 21.1. The tax will be demanded by means of the self-assessment system except for those cases of works on the public thoroughfare in which the former is administered in accordance with that set down in Article 103.1 of the revised text of the Law regulating Local Properties.

Notwithstanding the foregoing, the exception will not include works on the public thoroughfare carried out by private individuals for the construction, replacement, or repair of rights of way, for which the tax will be demanded according to the general self-assessment system.

2. Taxpayers will be obliged to apply self-assessment for the tax on the form provided for the purpose by the municipal Administration and to pay it:

a) Within the deadline of one month from the date of notification of the granting of planning permission or the administrative ruling authorising the execution of the construction, installation, or works.

Under no circumstances May the permission granted or the authorising administrative ruling be withdrawn if proof of having made the corresponding self-assessment and paid its amount is not provided.

b) When the declaration of responsibility or prior notification is presented.

c) In any case the self-assessment will be paid within the deadline of one month counting as from the time when the construction, installation, or works are initiated, even when permission has not been applied for, granted or rejected or the declaration of responsibility has not been presented or the prior notification made, without the payment made involving any kind of presumption or ruling declaring rights in favour of taxpayers.

3. The payment of the self-assessment presented will be provisional in nature and will be on account of the definitive settlement applied once the constructions, installations, or works have been completed, determining in the former the gross tax base depending on the budget presented by the interested parties, provided that the same has been approved by the corresponding Official Professional Association. When approval is not a mandatory requirement said base will be determined depending on the modules which are established in the Annex of this ordinance for each type of works or installations, or when this is not feasible depending on the budget presented by the interested party.

4. When the project of the construction, installation, or works is modified and its budget is increased, once the modification has been accepted by the municipal Administration the taxpayers must present a complementary self-assessment for the difference between the initial budget and the modified one subject to the deadlines, requirements, and effects indicated in the previous points.

5. In those cases in which in order to grant permission or present the declaration of responsibility the submitting of a project approved by an Official Professional Association is required, the taxpayer will be obliged to present together with the self-assessment, which it must submit to the effects of this tax, a photocopy of the budget of the construction, installation, or works to be carried out.

6. When taxpayers have not paid the corresponding self-assessment for the tax within the deadlines mentioned above, or if it has been presented and a lower amount paid than the charge resulting from the budget provided, the municipal Administration may carry out and notify a provisional settlement for the appropriate amount.

7. To the effects of that set down in Article 16.1, taxpayers may apply the deduction of the rebates that correspond to them if appropriate when the corresponding self-assessment is carried out.

Article 22.1. Once the constructions, installations, or works have been completed, within one month counting from the day following their completion taxpayers must present at the Tax Administration Office, or if appropriate in the corresponding District, a tax return of their actual and effective cost, accompanied with the documents they consider appropriate to the effects of justifying the cost expressed.

2. When the actual and effective cost of the constructions, installations, or works is higher or lower than that which served as the gross tax base in the self-assessment or previous self-assessments that have been presented and paid for the former, taxpayers must present simultaneously with said tax return and pay if appropriate, in the manner laid down in the previous article, a complementary self-assessment of the tax for the difference, whether positive or negative, which is declared and which will be carried out on the form that will be provided for the purpose by the municipal Administration.

3. Taxpayers are equally obliged to present the declaration of the actual and effective cost of the constructions, installations, or works completed and to pay the corresponding self-assessment, even when no self-assessment has previously been paid for the former for the tax, which they should do within the deadline indicated in the previous points of this article.

4. To the effects of the preceding points, the date of completion of the constructions, installations, and works will be that determined by any acceptable means of proof in law and in particular by that resulting from Article 196 of Law 9/2001 of 17th July on the Land of the Region of Madrid and those concordant of the municipal ordinance of the processing of planning permission.

5. When the documentation indicated in Point 1 above cannot be presented within the deadline, within the same period an extension of one month may be applied for in order to produce it.

Article 23. In view of the documentation provided or of any other relating to these constructions, installations, or works and of those actually carried out together with the actual and effective cost of the same, the City Council by means of the appropriate administrative verification will modify, if appropriate, the gross tax base previously applied, carrying out the corresponding definitive settlement and requiring of the taxpayer or refunding the latter as appropriate the resulting amount, without detriment to applying the penalties applicable in accordance with that set down in Chapters IX and X of this ordinance.

Article 24. In those cases in which during the carrying out of the constructions, installations, or works changes occur in the persons or entities that may be taxpayers of the tax, the definitive settlement referred to in the previous article will be made by the party who is the taxpayer at the time of the completion of the former.

CHAPTER IX. COLLECTION AND INSPECTION

Article 25. The collection and inspection of the tax will be carried out in accordance with that contemplated in the General Law on Taxation and the precepts complementing it and developing it and in the General Tax Ordinance of Administration, Collection, and Inspection.

CHAPTER X. TAX OFFENCES AND PENALTIES

Article 26. In everything relating to tax offences and their various categories, and also to the penalties corresponding to the same in each case, the rules of the General Tax Ordinance of Administration, Collection, and Inspection will be applied.

FINAL PRECEPTS

One. For everything not specifically regulated in this ordinance the rules contained in the General Tax Ordinance will be applicable.

Two. This ordinance will come into effect on 1st January 1999 and will remain valid until it is expressly modified or repealed. ⁽²⁾

⁽²⁾ The text of the ordinance transcribed is that of its current wording together with the modifications approved by the Plenary Session of the City Council by means of an agreement of 29th December 2016 which will come into effect as from 1st January 2017 (BOCM - Official Bulletin of the Region of Madrid - no. 315 of 31/12/2016).

ANNEX MENTIONED IN ARTICLE 21.3 OF THIS ORDINANCE

In accordance with that set down in Article 21.3 of this ordinance, the modules applicable for the determination of the gross tax base of the Tax on Constructions, Installations, and Works (Impuesto sobre Construcciones, Instalaciones, y Obras, ICIO) in the provisional settlements for the tax when the submitting of the project and the budget approved by the corresponding Official Professional Association is not mandatory, which are exclusively those referred to in works in buildings relating to those of restoration, preservation, reconditioning, and exteriors, to the works on the public thoroughfare for the construction or suppression of rights of way, are as follows:

TAX ORDINANCE REGULATING THE TAX ON THE INCREASE IN VALUE OF URBAN LAND

Current text in accordance with the modifications approved by the agreement of the City Council Plenary on 19th December, 2014

SECTION I. GENERAL PROVISION

Article 1. The tax on the Increase in Value of Urban Land is a direct tax, authorised by article 59.2 of the revised text of the Law regulating Local Taxes, approved by Legislative Royal Decree 2/2004, dated 5th March, and regulated by the terms of articles 104 to 110 of the above mentioned revised text and by those of this ordinance.

SECTION II. LIABILITY

Article 2.1. The liability is constituted by the increase in value of urban land and manifest by the transfer of its ownership by any kind of deed or by the constitution or transfer of any real limited possession rights, on the said property.

2. The previous paragraph refers to an event, act or contract, of whatever nature, which originates a change to the property owner of the rights to possess or use a piece of land takes place by law, by cause of death or inter vivos, for payment or free of charge.

Article 3. The definition urban land is to refer to land as defined in the Property Registry regulations.

Article 4.1. In the following cases the tax will not be payable; urban land which is transferred due to:

a) mergers or divisions of companies, such as non monetary contributions of branches of activity, which will be subject to the tax regime established in Chapter VIII of Section VII of the revised text of the Company Tax Law, approved by Royal Legislative Decree 4/2004, dated 5th March,

except for those concerning land which is covered by the terms of article 94 of the above mentioned revised text when not included in a branch of activity⁽¹⁾.

b) Operations regarding the process of registration of a Sporting Limited Company of new creation, provided it is fully adjusted to the regulations laid out in Law 10/1990, dated 15th October and Royal Decree 1084/1991, dated 5th July.

c) Operations distributing profits and contributions of the owners, included in action of urban development, or due to seizure, and the allocations in favour of said owners in proportion to the land contributed, in accordance with article 18.7 of the revised text of the Building Code, approved by Legislative Royal Decree 2/2008, dated 20th June ⁽²⁾.

d) Contributions of assets and rights carried out by the couple to the marital partnerships, allocations which in their favour and in payment of the same are verified, and transfers made to the married couple in payment of their common assets.

Nor will the subject to tax in the cases of transfers of real property between spouses or in favor of the children, as a consequence of the fulfillment of sentences in cases of nullity, separation or divorce matrimonial, whatever the economic matrimonial regime.

e) Contributions or transfers of immovable assets made to the Sociedad de Gestión de Activos Procedentes de la Reestructuración Bancaria, S.A., regulated by additional provision seven of the Law of 9/2012, dated 14th November, regarding restructuring and resolution of credit entities, which have been transferred, in accordance with the terms of article 48 of Royal Decree 1559/2012, dated 15th November, by which the legal regime of companies controlling assets is established.

Contribution or transfers made by the Sociedad de Gestión de Activos Procedentes de la Reestructuración Bancaria, S.A. to direct or indirect investees of this Company of at least 50 percent of the capital, own funds,

⁽¹⁾ The references contained in this precept to chapter VIII of section VII of the revised text of Company Tax Law, approved by Legislative Royal Decree 4/2004, dated 5th March, are to be understood as executed by chapter VII of section VII of Law 27/2014, dated 27th November, regarding Company Tax.

⁽²⁾ The reference contained in this article to article 18.7 of the revised Building Code, approved by Legislative Royal Decree 2/2008, dated 20th June, is to be understood as executed by article 23.7 of the revised text of the Building code, approved by Legislative Royal Decree 7/2015, dated 30th October

results or voting rights of the investee at the time immediately prior to the transfer, or as a consequence of the same.

Contributions or transfers made by Sociedad de Gestión de Activos Procedentes de la Reestructuración Bancaria, S.A., or by the entities set up by this company to execute its corporate purpose, to bank asset funds, referred to by the tenth additional provision of Law 9/2012, dated 14th November.

Contributions or transfers produced between the above mentioned Funds during the period of maintenance of the exposure to the Ordered Restructuring Bank Fund to the funds, as set out in part 10 of the above mentioned additional provisions.

2. Furthermore, the following events are not subject to the tax and will not accrue:

a) Transformation of collective, limited or limited liability companies, by imperative of Legislative Royal Decree 1564/1989, dated 22nd December, regulating the revised text of the Limited Company Law.

b) Adjudication of flats or premises verified by the Building Co-operatives in favour of the co-operative partners.

c) Retention or reserve of the beneficial interest (usufruct) and extinction of the above mentioned real right, be it due to death of the usufructuary or the length of the time frame for which it was constituted.

3. The tax does not apply to the increase in value of land that is deemed rustic, in terms of the Tax on Immovable Assets. As a consequence, the increase in value of land that is deemed urban is subject to the aforementioned Tax on Immovable Assets, regardless of whether these are considered thus in the Land Registry or the Register of Inhabitants. With regards to this tax, the increase in value undergone by land included in those immovable assets classified as of special characteristics with regards to the Tax on Immovable Assets.

SECTION III. EXEMPTIONS

Article 5. The increase in value resulting from the following are exempt from the tax:

a) The constitution and transfer of rights of way:

b) Transfer of assets which, in the conditions established in this article, they are located within the perimeter considered Historical and Artistic

TAX ORDINANCE REGULATING THE TAX ON THE INCREASE IN VALUE OF URBAN LAND

Patrimony or have individually been declared of cultural interest and are included in the General Catalogue of Listed Buildings referred to in the PGOUM Planning Regulations. With regards to this, the owners or holders of specific rights are to prove that they have paid for conservation, improvements or rehabilitation of these properties since the effective date of Law 50/1998, dated 30th December, regarding Fiscal, Administrative and Social Measures, the budget for which is in excess of the result of applying the following percentages to the total cadastral value of the property, in accordance with the different levels of protection determined by the corresponding planning instruments:

<u>Levels of Protection</u>	<u>Percentage on the Cadastral Value</u>
Level 1:	
- Assets individually declared of cultural interest	5%
- Assets not individually declared of cultural interest	25%
Level 2:	50%
Level 3:	100%

The work carried out must be accredited by presenting the budget for execution and the justification of the outlay, the final certification of the work stamped by the official school corresponding, as laid down by article 2 of Royal Decree 1000/2010, dated 5th August, regarding compulsory stamps, each one being identified by the municipal building licence or execution order, covering the carrying out of the construction work, installations and other work.

c) And, as of 1st January, 2014, and also for non-expired liabilities prior to this date, transfers made by natural persons in lieu of payment of the habitual dwelling of the mortgage holder or guarantor of the same, for the cancellation of debts guaranteed by a mortgage on the same, taken out with credit entities or any other professional entity granting loans or mortgages.

Furthermore, transfers of dwelling which conform to the above stipulations will be exempt from the tax, if carried out as foreclosure.

To have the right to exemption, the debtor or guarantor or any other

member of the family unit is required not to have at the time of foreclosure, sufficient other assets to satisfy the whole amount of the mortgage debt. This requirement is to be presumed. However, if this were proven not to be the case at a later date, the amount of tax due will be payable.

To this effect, the habitual abode is deemed to be that where the taxpayer has been registered continually for at least two years prior to the transfer or from the moment of acquisition if this period of time were less than two years.

With regards to the concept of family unit, this refers to the terms of the Personal Income Tax Law, 35/2006, dated 28th November and to the partial modification of the Company Tax Laws, the Income of Non Residents and Property Laws. To this effect, common law marriage will be comparable to legally registered marriages.

Article 6. Exemption from this tax on the increased value when the obligation of satisfying this falls on the following persons or entities:

- a) The State and its Autonomous Organisms.
- b) The Madrid Autonomous Community and its public right entities of similar nature to the State Autonomous Organisms.
- c) Madrid City and its public right entities of similar nature to the State Autonomous Organisms.
- d) All institutions with status of charities or teaching charities.
- e) Managing bodies of the Social Security and Friendly Societies, governed by the revised text of the Law of Ordering and Supervision of Private Insurance, approved by Legislative Royal Decree 6/2004, dated 29th October.
- f) Holders of reversible administrative concessions related to the land affected by the same.
- g) Cruz Roja Española (Spanish Red Cross).
- h) Persons or Entities who have been deemed exempt by means of international Treaties or Agreements.
- i) Non-profit organisations and those other entities recognised by Law 49/2002, dated 23rd December, within the terms and requirements of the said law and the Regulations for the application of the tax regime of the above mentioned entities approved by Royal Decree 1270/2003, dated 10th October, establish.

With regards to the entities referred to in this section which are obliged to communicate the exercise of the option of the special tax regime contemplated in section II of said Law 49/2002, dated 23rd December, and thus be exempted, this must be communicated to the City Council before the end of the natural year in which the liability for this tax occurred.

However, regarding transfer of land or constitution or transfer of specific rights to limited possession for a profit, the above mentioned communication may be made in the corresponding period of time during which self assessment is to be made, or, if pertinent, a statement is to be made, and as indicated in points a) and b) of article 24.1 of this ordinance, if the end of this period exceeds the end of the natural year referred to in the previous paragraph.

The communication sent to the Council is to expressly indicate the exercising of the option to apply for the special tax regime established in section II of Law 49/2002, dated 23rd December, and should be accompanied by proof of presentation of the register declaration to the corresponding tax Administration.

Article 7. Any fiscal benefits established with regards to the above mentioned discretion regarding the Increase in Value of Land, both generic and specific, regarding any kind of provision different from those of the Local Tax regime, and its previous validity may not, therefore, be invoked with regards to this Tax, which is governed by the revised text of the Law regulating Local Tax, and this ordinance.

SECTION IV. TAXPAYERS

Article 8.1. The following are deemed taxable persons, and therefore taxpayers:

a) In transfers of land or the constitution or transfer of specific rights to limited property rights or a profit, or the entity referred to in article 35.4 of the General Tax Law 58/2003, dated 17th December, which acquires the land or in whose favour the specific right in question is constituted or transferred.

b) In transfers of land or the constitution or transfer of limited property rights for payment, the natural or legal person, or the entity referred to in article 35.4 of General Tax Law 58/2003, dated 17th December, transferring the land or constituting or transferring the specific right in question.

2. In the cases referred to in letter b) of the previous section, the status of replacement taxpayer will be given to the natural or legal person, or the entity referred to in article 35.4 of the General Tax Law, who acquires the land or in whose name the specific right is constituted or transferred, when the taxpayer is a natural person who does not reside in Spain.

SECTION V. TAX BASE

Part 1. Tax base

Article 9. The tax base is constituted by the increase in value of land, manifest at the time of accrual and experienced over a maximum period of twenty years.

Article 10.1. To determine the amount of the increase in value of the land at the time of accrual and estimated in accordance with part 2 of this section. The percentage depending on the tax period is indicated below:

Duration of the tax period	Percentage increase
1 year	2
2 years	4
3 "	6
4 "	8
5 "	10
6 "	15
7 "	17,25
8 "	20
9 "	22,5
10 "	25
11 "	30,8
12 "	33,6
13 "	36,4
14 "	39,2
15 "	42
16 "	48
17 "	51

TAX ORDINANCE REGULATING THE TAX ON THE INCREASE IN VALUE OF URBAN LAND

Duration of the tax period		Percentage increase
18	"	54
19	"	57
20	"	60

2. To determine the number of years the increased value has been apparent, only full years included in this period will be taken into account, and fractions of a year may not.

Article 11. When the land was purchased by the transferer in installments or portions on different dates, multiple tax bases and purchase dates will be designated and the base calculated in the following manner:

a) The value of the land will be distributed proportionally to the portion or amount purchased on each date.

b) The percentage increase will be applied to each proportional part corresponding to the respective period of generation of the increased value.

Part 2. Value of the land

Article 12.1. The value of the land at the time of accrual will be that determined at that time for the purpose of Property Tax, and therefore forgoing the value of buildings. To apply this regulation correctly, the following points are to be taken into account:

a) Whereas regarding the transfer of indivisible parts of land or buildings, their value is to be proportional to the portion or amount transferred.

b) Whereas regarding the transfer of flats or premises which are condominiums, their value will be that of the specific value of the land that each flat or premises determined by the Property Tax, and if this value had not yet been established, its value would be estimated as the proportion of the co-ownership attributed to the value of the property and its common elements.

c) Whereas, when this value is consequence of a Valuation Report which does not reflect any modifications of the plans approved after the approval of the above mentioned Report, this tax may be provisionally settled in accordance with this. In these cases, the value of the land would be added to the definitive settlement once the collective valuation has

been confirmed, referring to the date of accrual.

d) Whereas, when the land, despite being of urban nature or included in property with special characteristics at the time of accrual, does not have a determined cadastral value, or, if it did have, this did not coincide with the real value of the property transferred, due to any alterations to its features not reflected in the Land Registry or the Property Tax Register, which should imply the assignation of their cadastral value, the Council may ask for settlement when the above mentioned cadastral value is determined, in reference to the said value at time of accrual.

2. In the event of compulsory expropriation, the value will be estimated as the fair price of the land, unless the value defined in the paragraph above were less, in which case this would prevail over the fair price.

Article 13. With regards to constitution or transfer of real limited use rights on the domain, their value will be determined, in turn, by the application of the definitive value of the article above, at a percentage estimated in accordance with the following regulations:

a) The temporary usufruct, at 2 per cent for a period of one year, not to exceed 70 per cent.

b) Life interest, at 70 per cent when the usufructuary is less than 20 years old, decreasing with age in the proportion of 1 per cent less each year, with a minimum limit of 10 per cent.

c) Legal persons made usufructuaries for longer than 30 years, or an indefinite period, are deemed, for fiscal purposes, as benefitting from a full property transfer subject to a condition subsequent and will therefore have a value of 100 per cent of the value of the land.

d) For transfer of a previously acquired usufruct, the same percentage will be applied as that was attributed on the date in accordance with the preceding regulations.

e) Bare legal title will be calculated by the difference between the 100 per cent corresponding to full domain and the percentage corresponding to the usufruct in accordance with the preceding regulations.

f) The real rights of use and habitation will be estimated at 75 per cent of the percentages corresponding to temporary or life interest, in accordance with the preceding regulations.

Article 14. The real rights not included above will be apportioned according to the capital, price or value that the parties pacted when constituting the same, if this were equal to or greater than the result of the

capitalisation of the legal interest of the money from the annual rent or pension, or the former if the amount were less. In no case may the value be greater than the value defined in article 12, and, wherever feasible, it will be automatically limited to the product of multiplying the latter by a fraction whose numerator is the imputed value to the right and the denominator the value attributed to the property in the deeds.

Article 15. In the constitution or transfer of the right to elevate one or more floors over a building or plot or the right to build below ground without implicating the existence of a real tenancy right, the proportional amount fixed in the transfer deed will be applied to the value defined in article 12, or, failing this, the percentage resulting from establishing the ratio between the area or volume of the floors to be constructed in overhang or in the subsurface or volume of the floors to be built and the total surface or volume built after this.

Article 16.1. If the right to life state is constituted simultaneously and successively in favour of two or more usufructuaries, the percentage will be calculated taking only into account the youngest usufructuary.

2. In the event of there being two or more successive life usufructuaries, the percentage applicable to each of these will be estimated taking into account the age of the respective usufructuary; the residual percentage of lesser value will be applied to the bare ownership.

3. For trusts created in wills, the tax will be liable on the institution and on each trust, applying in each case the estimated percentage according point two above, unless acquiring party had the power to dispose of the assets, in which case the tax on full property rights would apply.

SECTION VI. TAX LIABILITY

Part 1. Type of tax and amount

Article 17. The entire amount of this tax is the result of applying to the tax base, or bases, the tax rate of 29%.

Part 2. Rebates

Article 18.1. Where the increase in value is expressed due to death, with regards to the transfer of the property which is the habitual abode of the originator, of the premises affected by the economic activity exercised or the constitution or transmission of real limited rights to the assets in question, in favour of natural or adopted descendants or ascendants and of the spouse, the full amount of the tax is to be liable in accordance with

the cadastral value of the land corresponding to this property, regardless of the value attributed to the right, by the application of the following reductions:

- a) 95 per cent if the cadastral value of the land is less or equal to 60.000 euros.
- b) 75 per cent if the cadastral value of the land is more than 60.000 euros and does not exceed 100.000 euros.
- c) 50 per cent if the cadastral value of the land is more than 100.000 euros and does not exceed 138.000 euros.
- d) 15 per cent if the cadastral value of the land is more than 138.000 euros.

2. With regards to the rebate, this will be conferred to the partner who has lived with the applicant in a similar relationship and can provide proof of this, by means of a certificate of registration as such in the Civil Partnerships Registry of Madrid, issued to this effect.

3. In any case, in order to be eligible for the rebate, as the article refers to premises affected by the exercise of individual or family activity or professional business of the deceased, the successor is to acquire and exercise the economic activity over the following five years, unless he/she were to decease during this period.

If the above mentioned continuance clause were not adhered to, the taxpayer would be obliged to pay the part of the tax which had not been paid as a consequence of the rebate and the accrued interest, within one month of the transfer of the premises or the termination of the activity, presenting for the purposes of the same the relevant self assessment.

4. In those cases where the habitual abode were comprised of two or more properties grouped together, the rebate will only be applicable regarding the property where the applicant is registered as living, with the exclusion of the others. However, if the applicant were not registered as living in any of them, this rebate would be applied to the property with the greatest rebate, and if all were of equal value, on any of them, with the exclusion of the others.

5. Regarding the application of the rebate, in no case will urban property rented or sold be considered premises linked to the economic activity engaged in by the applicant.

SECTION VII. ACCRUAL AND TAX PERIOD

Part 1. Accrual of the tax

Article 19.1. The tax is levied:

a) When the property is transferred either free or against payment, inter vivos or due to death, on the date of the transfer.

b) When there exists any real right to limited use of the domain or this is transferred, on the date of the creation or transfer of the right.

2. Concerning the above conditions, the following will be deemed the transfer date:

a) Acts or contracts inter vivos, the date of the issue of the public document, and in the case of private documents, the date of its presentation to the Municipal Tax Administration authority.

b) On legal, administrative or notarial auctions, as an exception, the date of the ruling approving this decision if this contains proof of the handing over of the property. In all other cases, it will be registered as the date of the public document.

c) On compulsory expropriations, the date of the certificate of occupancy and payment.

d) On transfers due to death, the date of the applicant's decease.

Article 20.1. When the annulment, rescission or termination of the act or contract determining the transfer of the land or the constitution or transfer of the real right to the latter is declared or recognised by the court or administration by firm ruling, the taxpayer will have the right to reimbursement of the tax paid, provided this deed or contract did not produce any profit and the reimbursement is requested within five years from the firm ruling, profit being understood in this context to be when the interested parties make the reciprocal refunds referred to in article 1.295 of the Civil Code without justification. Although the act or contract has not produced a profit, if the rescission or termination is declared as due to breach of duty on the part of the taxpayer, no reimbursement will be due.

2. If the contract is made ineffective by mutual consent of the parties or contracting parties, reimbursement of the tax paid will not be due and will be considered as a new act subject to taxation. Compromise at conciliation acts and the mere settlement will be considered mutual agreement.

3. Acts or contracts including specific conditions will be classified in

accordance with the regulations contained in the Civil Code. In the case of suspensive conditions, the tax would not be paid until a decision has been reached. If the condition were resolutive, the tax would be liable as of that moment pending reimbursement in due course in accordance with the regulation mentioned in part 1 above.

Part 2. Tax period

Article 21. The tax period covers the number of years during which the increase in value of the land is manifest and will be calculated from the chargeable event immediately before the tax, with a maximum limit of twenty years.

Article 22. In the event of later transfer of the land referred to by non subject acts mentioned in parts 1 and 2 of article 4, the number of years the increase in value has been manifest has not been interrupted by the same and therefore the date of the last accrual will be taken as the initial date of the tax period.

Article 23. For purchase of property in the exercise of pre-emptive rights, the date of the start of the tax period will be considered the one taken or which should have been taken as that of the verified transfer in favour of the person having the said rights.

SECTION VIII. TAX CONTROL

Part 1. Material and formal obligations

Article 24.1. Taxpayers are obliged to self assessment on the tax and to pay the amount in to the municipal Administration or the bank entity designated by the latter, within the following time frames:

a) For inter-vivos transfers and the constitution of real rights or donations, within 30 natural days following the taxable event.

b) In mortis-causa transfers, within six months counting from the date of the death of the applicant or, in the event, within the prorogation period referred to in the following paragraph.

Before the six month period mentioned above is up, the taxpayer may request a prorogation of a further maximum of six months, which will be understood to be granted for the specific length of time requested.

2. In the case of mortis-causa transfers mentioned in article 18.1 of this ordinance, the rebate is to be requested within the same period of six months, which can be extended by a further six referred to in point b) above. This request will be understood to have been provisionally granted,

notwithstanding the verification and practice of the definitive settlement due, when, within these periods, the taxpayer applies self assessment or, for the cases detailed in the next paragraph of this article, present the corresponding tax return.

3. When the urban property or property with special characteristics transferred do not have a specific cadastral value regarding Property Tax, or if, having this value, it does not coincide with that of the property transferred, as a consequence of alterations in its features not reflected in the Land Register or the Property Tax Records, which are to carry the assignation of the cadastral value of the latter, the taxpayer will be obliged to present the tax return at the Municipal Offices, on the printed form and in the period of time mentioned in the previous point and accompanied by the documentation mentioned below, in order that the Municipal Administration can calculate the corresponding settlement(s) due.

Article 25. The self assessment, which is to be of provisional nature, will be done on the printed form provided by the Municipal Administration and will be signed by the taxpayer or his/her legal representative, and accompanied by a simple copy of the notarial, court or administrative document showing the act, deed or contract giving rise to the payment of the tax and, regarding transfers due to death, duplicate or photocopy of the deed written to the solicitor handling the Tax on Successions and Donations or written proof of having carried out self assessment.

Article 26. When the taxpayer deems that the verified transfer, or in the event, the constitution of real rights, should be declared exempt, extinguished or not subject to tax, he/she is to present a statement to the Municipal Tax Administration within the period of time mentioned in article 24, fulfilling the requirements and accompanied by the documents mentioned in article 25, as well as that required to prove this claim. If the Municipal Administration were to deem the allegations inadmissible, the definitive settlement would be established and the interested party notified.

Article 27.1. Regardless of the above mentioned articles, the taxable event is to be communicated to the City Council within the same time frames as the taxpayer in the following cases:

- a) In the cases contemplated in letter a) of article 8 of this ordinance, provided there has been legal business between living persons, the donor or the person who constitutes or transfers the real right in question.
- b) In the cases contemplated in letter b) of the above mentioned article 8, the purchaser or person in whose name the real right in question is

constituted or transferred.

2. The communication is to contain at least the following data: name and public notary authorising the deed, protocol number and date, or sufficient identifying data in the case of non notarial documents; name and surname or address of the transferer and purchaser; ID card or tax identification card number of the latter and addresses; name and surnames and address of the representative, in the event; location of the property, part purchased and ratio of co-ownership in the case of condominiums.

Article 28. Furthermore, in accordance with the terms of article 110.7 of the revised text of the Law regulating Local Taxes, notary publics are obliged to send the Council, within the first fortnight of each quarter, an index or comprehensive list of all the documents authorised by them in the previous quarter, which contain facts, acts or legal affairs showing taxable events related to this Tax, with the exception of wills. They are also obliged to send in, within the same period, a comprehensive list of the same facts, acts and legal affairs which have been presented to them for recognition or legitimising of signatures. The terms of this section are understood to be notwithstanding the general duty of collaboration established by the General Tax Law.

The lists or indexes mentioned above are to contain at least the above mentioned data as indicated in point 2 of the previous article, and also the name and surname of the purchase, his/her ID card, Tax card number and address.

In the list or index sent by the notary public to the Council, the property register reference of the property is to be indicated, when this reference corresponds to those being transferred.

The notaries will expressly warn the persons referred to in these documents of the period of time in which they are obliged to self assessment and pay in the money, or failing this, to present the tax statement, and also remind them of the consequences of not paying the said amount or presentation of statements.

Part 2. Verification of self assessments

Article 29.1. The Municipal Administration will check that the self assessment has been done by the correct application of the terms of this ordinance and therefore that the amounts attributed and bases are the result of applying the above mentioned regulations.

2. If the Municipal Administration is not in agreement with the self

assessment, it will establish the definitive amount to be satisfied by rectifying those elements or data incorrectly applied and any arithmetical errors, will calculate the deferred interest and impose the relevant sanctions. It will also set the amount of settlement for the taxable events contained in the document which had not been declared by the taxable person.

Article 30. The taxpayers will be informed of the settlements established by the Municipal Administration and the time periods and rights of appeal indicated.

Article 31. Taxpayers may request that the Municipal Administration agree with the self assessment or its rectification and replacement, in the event, of amounts unduly paid in before receiving the definitive settlement amount, or, failing this, before both the right of the Administration to determine the tax debt by fixing the amount of the settlement or the right to reimbursement of taxes or incorrect charges has expired. If, six months later the tax authorities have not notified the interested party of the decision, he/she may wait for the express result of the request or consider that it has been rejected, with regards to placing an economical-administrative appeal which is to be processed and resolved by the Madrid Municipal Economic and Administrative Tribunal, or, present in advance an administrative appeal.

Part 3. Infringements and sanctions

Article 32.1. With regards to all kinds of tax infringements and the determining of the corresponding sanctions for each, the terms regulated by the General Tax Law will be applied, as well as its additional provisions, and the General Tax Ordinance regarding Control, Collection and Inspection.

2. The non fulfilment of the duties referred to in article 28 of this ordinance by notaries will be deemed a serious infringement and be liable to sanction under the terms of article 199.4 of the General Tax.

However, where there is resistance, obstruction, excuse or refusal by the Notaries to answer to any requirement of the municipal administration duly notified to them and referring to the obligation to provide data, reports or precedents related to taxes, in accordance with the terms of articles 93 and 94 of the General Tax Law, this conduct will also be considered a serious infringement and the sanction will consist of the fine referred to in article 203.5, notwithstanding the terms of articles 186.3, both regarding the General Tax Law.

SECTION IX. CLOSE OF REGISTRATION

Article 33.1. In accordance with the terms established in Additional Provision Six of Law 22/2006, dated 4th July, regarding the Special Regime of Madrid as Capital City, the Property Register will not register any document that contains act or contract determining tax liabilities related to this Madrid City Council Tax without the presentation of any of the documents listed below:

- a) The original copy of self assessment with the bank record of the payment.
- b) Tax return duly stamped by the municipal offices.
- c) The notification referred to in article 27 of this ordinance, which may be carried out directly at the Offices of the Property Register on the correct printed form.

2. The Property Register will file a copy of the self assessment or tax return presented and will, in addition, when the document presented is a notification, another copy will be sent by the Council Register, using telematics means whenever possible. The file copy may be paper or digital.

TRANSITORY PROVISION

In the case of seizure of assets by legal entities in lieu of the same amounts due, related to the Equivalence modality of the expired Arbitration on the Increase in Value of Land, settlement will be fixed by taking the original date of the purchase of said assets (limit of 20 years), and deducting the whole amount or amounts effectively paid by this modality during the tax period.

FINAL PROVISION

This ordinance will come into effect as of 1st January, 1999 and remain valid until its express modification or repeal⁽³⁾.

⁽³⁾ The text of the transcribed ordinance is that of the current version, including the modifications approved by the Council Plenary by agreement dated 19th December, 2014, and coming into effect as of 1st January, 2015 (BOCM No. 310 dated 30/12/2014).

TAX ORDINANCE REGULATING THE MUNICIPAL TAX ON SUMPTUARY EXPENSES

Current text approved by agreement of the City Council Plenary on 15th October, 1991

I. NATURE AND BASIS

Article 1. The levy of the Municipal Tax on Sumptuary Expenses, regulated by the Third Transitory Provision of Law 39/88, regulating Local⁽¹⁾ Taxes, according to the text of Law 6/91, dated 11th March, articles 372.d), 373.d), 374.d and 376.c) of Legislative Royal Decree 781/1986, dated 18th April, and further complementary provisions regarding the same are to be governed by the following articles:

II. USE OF PRIVATE HUNTING AND FISHING GROUNDS

Article 2. Taxable event. The tax on sumptuary expenses will be levied on the use of private hunting and fishing grounds, regardless of the form of exploitation or benefit of this use.

Article 3. Taxpayers. 1. The owners of the hunting or fishing grounds or those with rights to the same under any title or value at the time the tax is due, are required to pay this tax and considered taxpayers.

2. The owner of the grounds is to be considered the replacement of the taxpayer and has the right to demand that the person licensed to use the grounds pay the amount of the tax, which is payable to the Municipality where the hunting or fishing grounds are located or that which the largest part of the grounds lie within.

Article 4. Tax basis. 1. The basis of this tax will be the value of the use of the hunting or fishing grounds.

2. The means of determining the value of the above mentioned use of the grounds will be established by the same procedure set out by the Law for the approval of Tax Ordinances, subject to the pertinent provisions established by the Ministry of the Interior, after consultation with the Ministry of Agriculture.

⁽¹⁾ The reference contained in this Article of the Third Transitory Provision of Law 39/1988, dated 28th December, regulating Local Taxes, text given in Law 6/91, dated 11th March, is to be understood to have been effected by the Sixth Transitory Provision of the revised text of the Law regulating Local Taxes, approved by Legislative Royal Decree 2/2004, dated 5th March.

TAX ORDINANCE REGULATING THE MUNICIPAL TAX ON SUMPTUARY EXPENSES

Article 5. Amount of tax due. The tax due is the result of the application of a 20 percent tax basis.

Article 6. Accrual. The tax is an annual amount, which may not be reduced, and payable on 31st December of each year.

Article 7. Liabilities of the taxable person. The owners of hunting or fishing grounds who are liable to this tax, are to present to the local administration during the first month of each year, a statement by whomsoever owns the licence to hunt or fish on these grounds. This statement, which is to be based on the model drawn up by the Town or City Council, is to include the specific data regarding the licence and use of the grounds and regarding the holder.

Article 8. Payment. Once the above mentioned statement has been received, the local Council will check that it is in order and that the tax is due. The replacement taxpayer will be notified of this and should, notwithstanding the corresponding right to appeal, make the payment within the period of time specified.

III. TAX INFRINGEMENTS AND SANCTIONS

Article 9. With regards to all tax infringements and their gradings, together with the corresponding sanctions in each case, the regulations of the General Tax Ordinance are to be applied.

FINAL PROVISIONS

First. For points not specifically regulated by this Ordinance, the regulations contained in the General Tax Ordinance are to be applied.

Second. This Ordinance will come into effect as of 1st January, 1992, and will remain valid until its repeal or modification.

RATES

For the provision of services and activities

TAX ORDINANCE REGULATING THE TAX ON SERVICES RELATED TO THE CIRCULATION OF SPECIAL TRANSPORT VEHICLES

Current text in accordance with the modifications carried out by the City Council Plenary held on 21st December, 2012

Article 1. In use of the powers granted by articles 4 and 106 of Law 7/1985, dated 2nd April, regulating the Local Tax Bases, and in accordance with the terms of articles 15 to 19 of the revised text of the Law regulating Local Taxes, approved by Legislative Royal Decree 2/2004, dated 5th March, this City Council establishes the levy on services provided regards the circulation of special transport vehicles, to be governed by this ordinance.

I. LIABILITY

Article 2. This tax is applicable where the Municipal Police provide driving, monitoring and escorting services for vehicles deemed as special transport within the city. To this effect, vehicles are to be considered special transport when their maximum authorised axle loads and maximum authorised dimensions exceed those established in Annexure IX of the General Vehicle Regulations, approved by Royal Decree 2822/1998, dated 28th December.

Article 3. The providing of said services is to adhere strictly to the regulations set down by the Government Safety and Mobility Department, taking into account the nature of the transport in question, and is to be carried out, save in exceptional circumstances, at night and within the hours of midnight and six a.m.

II. TAXPAYERS

Article 4. Both legal and natural persons and the entities referred to in article 35.4 of General Tax Law 58/2003, dated 17th December, who own the vehicles requiring special services, are to be esteemed taxable persons, in the capacity of taxpayers.

III. TAX BASE AND AMOUNTS DUE

Article 5.1 The amount of tax due is to be determined in accordance with the number of vehicles and persons required to provide this service.

2. To this effect, the following rates will be applicable:

	<u>Euros</u>
a) For each municipal vehicle with two agents	148,50
b) For each additional person or vehicle	59,75

IV. ACCRUAL

Article 6. The charge becomes payable and the liability is created on the date of authorisation to drive within the city.

V. CONTROL AND PAYMENT REGULATIONS

Article 7. The tax is to be paid by self assessment and payment is to be proven before the authorisation for the service is handed over.

VI. EXEMPTIONS

Article 8. Services provided for vehicles owned by the State, Autonomous Community of Madrid and the Madrid Autonomous Organisms and Companies dependant on the City Council are exempt from the payment of this tax.

VII. TAX INFRINGEMENTS AND SANCTIONS

Article 9. With regards to any kind of tax infringement and the corresponding sanctions, the regulations of the General Tax Law and the General Tax Ordinance will be applicable.

FINAL PROVISION

This ordinance will come into effect as of 1st January, 1996, and remain in force until it is expressly modified or repealed⁽¹⁾.

⁽¹⁾ The text of the transcribed ordinance is that of its current text, included into the modifications approved by the City Council Plenary by means of agreement on 21st December, 2012, coming into effect as of 1st January 2013 (BOCM number 309 date 28/12/20012).

TAX ORDINANCE REGULATING THE TAX ON REMOVAL OF VEHICLES FROM THE PUBLIC THOROUGHFARE

The current text conforms to the modifications approved by agreement at the City Council Plenary on 21st December, 2012

Article 1. In use of the powers granted by articles 4 and 106 of Law 7/1986, of 2nd April, regulating the Bases for Local Taxes, and conforming with the provisions of articles 15 to 19 of the revised text of the Law regulating Local Taxes, approved by Legislative Royal Decree 2/2004, of 5th March, this Council establishes the tax for removal of vehicles from the public thoroughfare, which is to be governed by the present Tax Ordinance, the regulations of which are established in articles 20 and following of the above mentioned revised text.

1. LIABILITY

Article 2.1. The tax liability derives from the immobilization, removal from the public thoroughfare and depositing in the municipal pound of parked vehicles which have to be removed by the municipal Administration, in accordance with current legislation.

Specifically, the following services are subject to tax:

a) Removal and impounding of those parked vehicles which prevent traffic flow, constitute a danger to traffic, are a serious threat to circulation or cannot be driven by their users in their current state, in application of article 25 of the General Regulations for Circulation, approved by Royal Decree 1428/2003, of 21st November.

b) The removal and impounding of those vehicles parked on the public thoroughfare in such a way as to indicate deliberate and rational abandonment.

c) The removal and impounding of vehicles which is necessary in order to carry out road works or any other kind of work or action on the public thoroughfare which has obtained the necessary administrative authorization or licence.

2. In accordance with the terms established in letter a) above, a vehicle is deemed to be a serious threat to circulation when one of the following occur, as set out in article 71 of the articulated text of the Law of Traffic,

Circulation of Motor Vehicles and Road Safety, approved by Legislative Royal Decree, 2nd March; in articles 91 and 94 of the General Circulation Regulations and article 92 of the Mobility Ordinance for the City of Madrid⁽¹⁾.

3. Those vehicles which are correctly parked but have to be removed because they constitute an impediment or obstacle to the carrying out of a public service of an urgent nature, such as fire fighting, rescue or actions of a similar nature are not subject to this tax.

II. TAXPAYERS

Article 3.1. Both natural and legal persons, including the entities referred to in article 35.4 of the General Tax Law 58/2003, 17th December, who request or are required to use this service, are taxpayers.

2. In all events, a person will be liable to tax in the following cases:

a) Where the parked vehicles are blocking the traffic and constitute a danger or cannot be driven in a correct manner by the user, or, in the case of abandoned vehicles, by the owner of these, except in the case of stolen vehicles, in which case a copy of the report of the theft is to be provided, notwithstanding the checks made by the Municipal Police or Mobility Agents.

b) When the service is provided with the object of permitting road works on the public thoroughfare or other actions which require the relevant administrative authorization, the company or organism requesting the removal of the vehicle, except in those cases where it was clearly signaled that parking was forbidden in the terms and conditions established by the Mobility Ordinance for the City of Madrid, in which event the liable party is the owner of the vehicle.

III. ACCRUAL

Article 4. The charge becomes payable and payment is due when the service is provided. Specifically:

a) In removal of the vehicle from the public thoroughfare, the service

⁽¹⁾ The references contained in this precept of article 71 of the articulated text of the Law for Traffic, Circulation of Motor Vehicles and Road Safety, approved by Legislative Royal Decree 339/1990, 2nd March, is to be deemed to executed by means of article 105 of the articulated text of the Law for Traffic, Circulation of Motor Vehicles and Road Safety, approved by Legislative Royal Decree 6/2015, 30th October.

will be deemed to have commenced when the tow truck begins to load the vehicle.

b) With regards to impounding, the service will be deemed to have commenced on arrival of the vehicle at the corresponding municipal facilities.

However, in the cases referred to in the second paragraph of article 7 of this ordinance, where more than one month has gone by since the vehicle was taken to the municipal pound, after the initial accrual, successive payments are to be made in the following year, and these will be due on the 1st January of each year after the initial impounding.

c) In the case of immobilization of vehicles or complementary transport, the accrual will be due at the time the services are provided.

IV. TAX BASE AND QUARTERLY CHARGES

Article 5. The amount of tax due will be determined according to the application of the following list of charges:

Section 1. Removal of vehicles from the public thoroughfare⁽²⁾

	<u>Euros</u>
a) For removal of motorcycles, mopeds, bicycles, carts and similar:	
1. When on call-out, the work necessary for the transfer of the vehicle cannot be carried out due to presence of owner.....	13,00
2. When the full service is completed, and the vehicle has been transferred to the municipal pound.....	60,40
3. When, in the cases contemplated in section 2.b. of article 3 the service is carried out, moving the vehicle between streets or on the public thoroughfare, without it being taken to the pound...	33,95
b) For removal of cars and other vehicles with similar characteristics:	

⁽²⁾ Any conflict arising from the type of vehicle and its tonnage will be resolved in accordance with current regulations.

TAX ORDINANCE REGULATING THE TAX ON REMOVAL OF VEHICLES FROM THE PUBLIC THOROUGHFARE

	<u>Euros</u>
1. When on call-out, the work necessary for the transfer of the vehicle cannot be carried out due to presence of owner.....	73,00
2. When the full service is completed, and the vehicle has been transferred to the municipal pound.....	147,55
3. When, in the cases contemplated in section 2.b. of article 3 the service is carried out, moving the vehicle between streets or on the public thoroughfare, without it being taken to the pound...	73,75
c) For the removal of lorries, tractors, trailers, pick ups, SUV, vans, minivans, and other similar vehicles:	
1. When on call-out, the work necessary for the transfer of the vehicle cannot be carried out due to presence of owner.....	73,00
2. When the full service is completed, and the vehicle has been transferred to the municipal pound.....	181,60
3. When, in the cases contemplated in section 2.b. of article 3 the service is carried out, moving the vehicle between streets or on the public thoroughfare, without it being taken to the pound...	73,75
d) For removal of all kinds of vehicles with tonnage in excess of 5.000 kilograms, there is an increase of 28,65 euros per 1.000 kilograms or fraction wich exceeds 5.000 kilograms.	

To the above rates, the impounding and storage fees are to be added, in accordance with the terms established by the ordinance, as well as additional fees for transfer of the said vehicles to other sites which may be set up within the city. This transfer may be carried out when there are not enough spaces available in the pound they have been taken to and not before six hours from the time of collection.

Furthermore, the fees for transfer of these vehicles to other sites which may be set up in the outskirts when there are not enough spaces in the existing city pounds may also be applicable.

In no circumstances will more than two additional transfer fees be applicable.

Section 2. Vehicle pound ⁽³⁾

	<u>Euros</u>
Motorcycles, mopeds, bicycles, carts and similar	
Per hour or fraction	0,85
Maximum per day	8,45
Cars and vans, minivans and other similar vehicles:	
Per hour or fraction	1,85
Maximum per day	19,20
Lorries, tractors, trailers, pick ups, vans, SUV, and other similar vehicles with tonnage of over 1.000 kilos and not exceeding 5.000 kilos:	
Per hour or fraction	3,75
Maximum per day	38,50
All kinds of vehicles with tonnage in excess of 5.000 kilos:	
Per hour or fraction	4,40
Maximum per day	68,00

⁽³⁾ Any conflict arising from the type of vehicle and its tonnage will be resolved in accordance with current regulations.

Section 3. Additional transport

	<u>Euros</u>
Motorcycles, mopeds, bicycles, carts and similar:	
Between pounds within the city	10,25
To pounds outside the city limits	13,45
Cars and vans, minivans and other similar vehicles:	
Between pounds in the city centre	57,05
To pounds on the outskirts	68,00
Lorries, tractors, trailers, pick ups, vans, SUVs, and other similar vehicles with tonnage of over 1.000 kilos and not exceeding 5.000 kilos:	
Between pounds in the city centre	83,00
To pounds on the outskirts	113,45
All kinds of vehicles with tonnage in excess of 5,000 kilos:	
The fees will be as shown in the previous section, increased by 33,75 euros per additional 1.000 kilos or fraction in excess of 5.000.	

Section 4. Immobilisation of vehicles

	<u>Euros</u>
Per vehicle immobilized	61,25

V. EXEMPTIONS

Article 6. No other exemptions or rebates will be allowed other than those expressly contemplated in law or those deriving from the application of International Treaties.

VI CONTROL AND PAYMENT REGULATIONS

Article 7.1. As a general rule, payment of the tax is to be made, prior to the handing over of the vehicle to the owner, at the premises of the Tow-truck Unit where the latter has been impounded, or to the agents acting in the event of the service not being provided due to presence of the user. In this regard, the settlement is to be made by the liable party when the latter goes to claim the vehicle.

In any case, and based on the terms of article 71.2 of the articulated text of the Law on Traffic, Circulation of Motor Vehicles and Road Safety and of article 93 of the Mobility Ordinance for the city of Madrid, the vehicle will not be handed back to the owner until proof has been given of the payment of the tax or provided sufficient guarantee, notwithstanding the right to appeal to which he/she is entitled and the possibility of passing on this expense to the person responsible for the accident or for the offense which led to the removal of the vehicle ⁽⁴⁾.

2. After a period of one month from the impounding of the vehicle at the municipal facilities, if there has not been a request to return the vehicle, the municipal Administration will proceed to process the corresponding charges for immobilization, removal and period of time the vehicle has been impounded and for any additional transfer which may have been incurred.

After this time, and whilst the vehicle remains in the pound, the charges for this concept will be charged on a monthly basis, at the rate corresponding to the month before.

The taxable person will be duly notified of the amounts referred to in the previous paragraphs and the former is to pay them within the terms and time limits established in the General Tax Ordinance on Control, Collection and Inspection.

Furthermore, on arrival at the pound to withdraw the vehicle, any amount pending due to the pound is to be satisfied and this is to be in accordance with the terms of section 1 of this article.

In no case will the vehicle be handed back unless the full payment of

⁽⁴⁾ The references contained in this precept of article 71 of the articulated text on the Law of Traffic, Circulation of Motor Vehicles and Road Safety, approved by Legislative Royal Decree 339/1990, 2nd March, are understood to have been executed by article 105 of the articulated Law of Traffic, Circulation of Motor Vehicles and Road Safety approved by Legislative Royal Decree 6/2015, 30th October.

the tax due for all related concepts has been satisfied and proven.

3. The above mentioned payment does not exclude the obligation to pay any sanctions or fines which may have been incurred regarding traffic offenses or urban policing.

4. If the taxable person were a company or organism authorized to carry out road works or other actions on the public thoroughfare, and on whose request the correctly parked vehicles were removed, these will be handed back at no expense to the owner on request of the latter.

In these cases, the taxable person will be notified of the amount to be paid for the removal of the vehicle and the time it was impounded and this amount paid according to the terms and time limits established by the General Tax Ordinance for Control, Collection and Inspection.

VII. TAX INFRINGEMENTS AND SANCTIONS

Article 8. With regards to all tax infringements and their different categories, as well as the corresponding sanctions, these are to be applied in accordance with the regulations established in the current General Tax Law and the General Tax Ordinance.

FINAL PROVISIONS

First. This ordinance will come into effect as of 1st January, 1999, and remain valid until its modification or express repeal⁽⁵⁾.

Second. From 1st January 2008, vehicles which, before this date, have been removed and taken to the municipal pound by court or administrative injunction from any public Administration will accrue the impoundment fee and, if pertinent, the fee for additional transport and this will be payable according to the terms of this ordinance.

With regards to the paragraph above, the impoundment fee is understood to be payable where the vehicle entered the municipal pound on 1st January, 2008.

⁽⁵⁾ The text of the transcribed ordinance is that of the current text, including the modifications approved by the City Council Plenary by agreement reached on 21st December, 2012, coming into effect as of 1st January, 2013 (BOCM No. 309, 28/12/12).

TAX ORDINANCE REGULATING THE FEES FOR PROVIDING SERVICES RELATED TO LICENCES, AUTHORISATIONS AND OTHER ADMINISTRATIVE DOCUMENTS FOR TAXI CABS

Current text in accordance with the modifications approved by agreement of the City Council Plenary of 20th December, 2013

Article 1. In use of the faculties granted by articles 4 and 106 of Law 7/1985, regulating the bases for Local Tax Scheme, and in accordance with the terms of articles 15 to 19 of the revised text of the Law regulating Local Tax, approved by Legislative Royal Decree2/2004, 5th March, this Council establishes the Fees for Providing Services related to licences, authorisations and other administrative documents for taxi cabs.

1. LIABILITY

Article 2. The tax liability of this fee is on services provided and the carrying out of activities related to licences, authorisations and administrative documents for taxi cabs, as laid out below:

- a) Granting and issuing of licences.
- b) Authorisation for the issue of licences where this is pertinent in accordance with the current legislation.
- c) Municipal revision: annual administrative revision, revision of replacement and checking of bulkhead.
- d) Authorisation of use of new models of cars or other elements.
- e) Authorisation for standardising of advertising platform.
- f) Authorisation to display and hand out advertising.
- g) Issue of duplicate licences, municipal taxi cab driving permits and driver identification card.
- h) Issue and renewal of municipal taxi drivers licence and right to take the preceptive exam.
- i) Issue and renewal of driver identification card.

TAX ORDINANCE REGULATING THE FEES FOR PROVIDING SERVICES RELATED TO LICENCES,
AUTHORISATIONS AND OTHER ADMINISTRATIVE DOCUMENTS FOR TAXI CABS

- j) Issue and renewal of multiple driver identification cards.
- k) Issue of duplicate multiple driver identification cards.
- l) Issue of reports containing registration data concerning the licence.
- m) Annotations and cancellations on request, at the licence Registration Department, Municipal Taxi Office.
- n) Issue of tri-fold list of charges.
- o) Issue of stickers with the coat of arms of Madrid City Council.
- p) Issue of eco-taxi stickers.
- q) Complaints book records.

II. TAXPAYERS

Article 3. Both natural and legal persons are deemed taxable persons (taxpayers) as well as the companies referred to in article 35.4 of the General Tax Law 58/2003, 17th December, determined as follows:

1. The persons in whose name the licence was issued, after the latter was granted.
2. The persons in whose name the transfer of the licence was granted, with regards to authorisation of transfer of licence.
3. The holder of the licence in the cases referred to in letters c), f), g), i), j), k), n), p) and q) of the previous article.
4. The applicant for the authorizations of services referred to in points d), e), h), l), m) and o) of the previous article.

III. CHARGES

Article 4. The tax rate is to be determined by a fixed rate indicated by the nature of the service or activity and in accordance with the following tariffs:

TAX ORDINANCE REGULATING THE FEES FOR PROVIDING SERVICES RELATED TO LICENCES,
AUTHORISATIONS AND OTHER ADMINISTRATIVE DOCUMENTS FOR TAXI CABS

With regards to provisions mentioned in letters d) and e) in section 6, “multiple driver identification card” is to refer to all official documents issued by the Madrid City Council which identify the driver of the vehicle providing services with two or three taxi cab licences.

IV. EXEMPTIONS

Article 5. No other tax benefits may be recognised other than those expressly established by the regulations with status of law or those derived from the application of International Treaties.

V. ACCRUAL

Article 6. Accrual will be produced and the tax liability created on presentation of the application requesting the start of the action or record, which will not be processed until the corresponding payment has been made.

VI. CONTROL AND PAYMENT REGULATIONS

Article 7. The rates regulated by this ordinance are considered to be self assessments. To this regard, the taxpayers are to satisfy this self assessment by use of the forms provided for this purpose by the municipal Administration and payment made at any of the authorised bank entities, and accredited at the time the corresponding application is made.

VII. INFRINGEMENTS AND SANCTIONS

Article 8. With regards to all tax infringements in their various categories and the corresponding sanctions in each case, the terms established in the General Tax Law and the additional provisions set out in the General Tax Ordinance on Control, Collection and Inspection are to be applied.

FINAL PROVISIONS

This ordinance will come into effect as of 14th October, 1997, and remain valid until express modification or express repeal⁽¹⁾.

⁽¹⁾ The text of the transcribed ordinance is that of the current text, including the modifications approved by the City Council Plenary agreement, 20th December, 2013, and coming into effect as of 1st January, 2014 8BOCM No. 308 dated 28/12/2013).

TAX ORDINANCE REGULATING THE CHARGES FOR ISSUE OF ADMINISTRATIVE DOCUMENTS

Current text including the modifications approved by agreement of City Council Plenary held on 21st December, 2012

I. NATURE AND BASIS

Article 1. In use of the powers conferred by articles 133.2 and 142 of the Constitution and article 106 of Law 7/1985, dated 2nd April, regulating the Local Tax Bases, and in accordance with the terms established in articles 15 to 19 of the revised text of the Law regulating Local Taxes, approved by Legislative Royal Decree 2/2004, dated 5th March, the Charges for issue of administrative documents are hereby established, and will be governed by this tax ordinance, the regulations of which are contained in articles 20 and following of the above mentioned revised text

II. LIABILITY

Article 2. All administrative activity carried out regarding processing, on request, of the paperwork necessary for the issuing of these documents by the Municipal Administration or Organs constitute the right to charge:

- a) Issue of type 4 arms licenses as referred to in articles 3 and 105 of Royal Decree 137/1993, dated 29th January.
- b) Issue of annual license for transport of rubble and soil within the municipal area of Madrid.
- c) Power of attorney granted by Municipal Legal Department.
- d) Issue of certificates from the Food Safety Inspection Department.
- e) Issue of reports on actions carried out by the Municipal Police and Mobility Agents services.
- f) Issue of administrative document for filming, documentaries and articles in the local public domain.
- g) Issue of complementary authorisations for the circulation of vehicles used as special transport.
- h) Issue of administrative authorisations for the reservation of space in the local public domain for exclusive parking of vehicles or for occupancy

with other types of machinery, equipment, huts or other elements.

i) Issue of administrative authorisations for the deposit of waste generated by industries, shops, offices and services at any of the Permanent Waste Facilities belonging to the Madrid City Council Network.

III. TAXPAYERS

Article 3. Both natural and legal persons, estates of deceased persons, communities of property and other entities referred to in article 35.4 of the General Tax Law 58/2003, dated December 17th, who request the document in question, are considered taxpayers and therefore taxpayers.

IV. ACCRUAL

Article 4. The charge becomes payable and is to be satisfied when the administration commences the activity, on receipt of the request for issue of the document.

V. TAX BASE AND CHARGES

Article 5. The amount payable is determined in accordance with the application of the following tariffs:

	<u>Euros</u>
a) Issue of category 4 arms licences referred to in articles 3 and 105 of Royal Decree 137/93, dated 29th January.....	20,75
b) Issue of annual licence for transport of rubble and soil within the municipal area of Madrid	6,95
c) Power of attorney issued by the Municipal Legal Department.....	25,60
d) Issue of certificates from Food Safety Inspection:	
1) Official document format	
Health Dept. document for circulation of food products, recognised by the Health Inspector	4,95
2) Other documents	

TAX ORDINANCE REGULATING THE CHARGES FOR ISSUE OF ADMINISTRATIVE DOCUMENTS

	<u>Euros</u>
a) Certificates of food suitability on request, following inspection by the Food Safety Unit, issued on City Council letterhead document. Per 500 kilos or fraction	4,95
b) Certificates of destruction of non-suitable products, under vigilance of the Food Safety Unit, issued on City Council letterhead document. Per 500 kilos or fraction	4,95
e) For each report issued regarding actions by Municipal Police or Mobility agents.....	32,85
f) Issue of administrative document, authorising filming, documentaries and reports in the local public domain	48,65
g) Complementary authorisations for the circulation of special transport vehicles:	
- For issue of the authorisation.....	38,20
- For modification of a previously granted authorisation	7,60
h) Issue of administrative authorisations for reservation of space in the local public domain for exclusive parking of vehicles or occupancy by machinery, equipment, huts or other elements.....	49,05
i) Issue of administrative authorisation for deposit of waste generated by industries, shops, offices and services at any of the Permanent Waste Facilities belonging to the Madrid City Council Network	53,10

The authorisations referred to in letter i) of this article are to be granted for one year, on request by the interested parties, for the deposit of waste generated by industries, shops, offices and following services:

TAX ORDINANCE REGULATING THE CHARGES FOR ISSUE OF ADMINISTRATIVE DOCUMENTS

<i>Type of waste</i>	<i>Maximum amount permitted per week</i>
- Rubble	120 kg
- Electrical appliances	5 units
- Furniture, wood and dismantled belongings	60 kg
- Metals	60 kg
- Folded cardboard	60 kg
- Non flat glass	60 kg
- Vegetable oil (domestic origin)	20 litres
- Used clothing and footwear	15 kg
- Mattresses	5 units

VI. EXEMPTIONS AND REBATES

Article 6. No other exemptions or rebates may be granted other than those expressly established in law or deriving from the application of International Treaties.

VII. CONTROL REGULATIONS

Article 7. The rates regulated by this ordinance are considered to be self assessments. To this regard, the taxpayers are to satisfy this self assessment by use of the forms provided for this purpose by the municipal Administration and payment made at any of the authorised bank entities, and accredited at the time the corresponding application is made.

VIII. TAX INFRINGEMENTS AND SANCTIONS

Article 8. With regards to any kind of tax infringement and the corresponding sanctions, the regulations of the General Tax Law and the General Tax Ordinance will be applicable.

FINAL PROVISIONS

First. For all points not expressly regulated by this ordinance, the General Tax Ordinance is to be applicable.

Second. This ordinance is to come into effect on 1st January, 1997 and will remain valid until it is expressly repealed or modified ⁽¹⁾.

⁽¹⁾ The text of the transcribed ordinance is its current version and includes the modifications approved by the City Council Plenary on agreement dated 21st December, 2012, to come into effect as of 1st January, 2013 (BOCM No. 309 dated 28/12/2012)

TAX ORDINANCE REGULATING LEVIES FOR SERVICES AND ACTIVITIES RELATED TO THE ENVIRONMENT

Current wording in accordance with the modifications approved by agreement of the Plenary Session of the City Council of 29th December 2016

Article 1. *Establishing of the levies for services and activities related to the Environment.* Using the powers granted by Articles 4 and 106 of Law 7/1985 of 2nd April regulating the Local System Conditions and in accordance with that set down in Articles 15 to 19 of the revised text of the Law regulating Local Properties, approved by Royal Legislative Decree 2/2004 of 5th March, this City Council establishes the levies for services and activities related to the Environment, which will be governed by this tax ordinance, the rules of which are in keeping with that contemplated in Articles 20 and the following of the aforementioned revised text.

CHAPTER I. OBJECTIVE AND TYPES

Article 2. *Objective.* The objective of the levies for services and activities related to the environment, both the providing of the public services established for the administration of the municipal powers on the Environment and the carrying out by the municipality of those activities caused by actions and omissions of the taxpayer including those not contravening the precepts contained in the Ordinance for the Cleaning of Public Spaces and Waste Management or in the General Ordinance for the Protection of the Urban Environment, is the carrying out of the necessary material actions for the conservation or re-establishment of the conditions of the Environment prior to the occurring of the action or omission.

Article 3. *Types of the Levies for services and activities related to the Environment.* The following are levies for services and activities related to the Environment:

- a) Levy for providing the service of urban waste management of activities.
- b) Levy for providing other services and activities related to the Environment.

CHAPTER II. LIABILITY

Article 4. *Liability*. 1. The liability of the levy for the providing of the service of urban waste management of activities consists of the providing of the obligatory reception service of the management of urban waste that is generated or may be generated in accommodation, buildings, premises, and installations of all kinds, in which are carried out business, industrial, professional, artistic, administrative, service, healthcare, or any other activities whether public or private, provided that said properties have a cadastral use other than residential or that of storage-parking.

Said service not only includes the collecting of said waste but also the action concerning its treatment, which includes its assessment and elimination.

To these effects urban or municipal waste will be considered to be that defined as such in the Ordinance of the Cleaning of Public Spaces and Waste Management.

2. The liability of the levy for the providing of other services and activities related to the Environment constitutes the providing of the services and the carrying out of the activities indicated below:

a) The removal of waste and rubble from building sites which appear dumped or abandoned on public thoroughfares and from containers that have not been removed by the authorised companies within the deadlines established or which lack authorisation.

b) The use of services of the landfill plant for the depositing, treatment, and elimination of waste when its collection is not covered by the obligatory providing of the service.

c) The revision of the vehicles violating the General Ordinance of the Protection of the Urban Environment.

d) The determination of sound powers at the Municipal Acoustic Centre.

e) Other services and activities not covered in the previous letters when their carrying out or providing make up the liability described in this article and which are specified in the rates regulated in Annex B) of this ordinance.

3. To the effects of these levies it makes no difference whether the service is provided by direct municipal management, i.e. through a municipal body or municipalised companies, or by indirect management.

Article 5. *Cases of exemption.* 1. In the levy for the providing of the service of urban waste management of activities, the cases indicated below will not be subject to it:

a) When the building has been declared a ruin.

b) In the case of waste generated on properties on which the activities referred to in Article 4.1 of this ordinance are carried out, as from the moment when the Government Area for the Environment and Mobility issues a favourable report and when prior to this the possessors or producers have provided documentary proof of the delivery of the totality of the waste they generate to a manager or haulier authorised or registered by the Region of Madrid; without detriment to the obligation to pay if appropriate the rate corresponding to the services of the treatment and elimination of waste on the Municipal Dump in the terms indicated in Annex B) of this ordinance.

2. The levy for the providing of other services and activities related to the Environment does not extend to the collection of dead animals which takes place at the request of the following:

a) Societies for the protection of animals recognised by the City Council.

b) Owners of domestic animals in the terms established in the Ordinance of the Cleaning of Public Spaces and Waste Management.

CHAPTER III. EXEMPTIONS

Article 6. *Exemptions.* No further exemptions or rebates will be granted other than those expressly contemplated in the Laws and those deriving from the application of the International Treaties.

CHAPTER IV. TAXPAYERS

Article 7. *Ratepayers.* The taxpayers and ratepayers of the levies regulated in this ordinance are the natural and physical persons together with the entities referred to in Article 35.4 of Law 58/2003 of 17th December on General Taxation, which apply for or benefit from or are affected by the providing of service or the carrying out of the activity at the time of accrual.

Article 8. *Replacements*. In the services or activities benefitting or affecting the occupants of accommodation, buildings, premises, and installations of all kinds, the replacements of the ratepayer will be considered to be the owners of the same at the time of accrual, who may if appropriate be affected by the charges on their respective beneficiaries.

Nevertheless, in those cases in which owing to a confusion of taxpayers replacement cannot occur, the levy will be directly demandable to the taxpayer and ratepayer indicated in the previous article.

CHAPTER V. ASSESSABLE PERIOD AND ACCRUAL

Article 9. *Assessable period*. 1. The levy for the providing of the service of the urban waste management of activities is periodic in nature.

2. Its assessable period coincides with the natural year, with the exception of the cases of the initiating or abandoning of the providing of the services, in which case the assessable period will be as follows:

a) In the cases of initiation, from the day when this takes place to 31st December.

It will be understood that the providing of the service is initiated on the date of the granting of the licence of first occupation and operation, or if appropriate from the time when it is to be understood that the activity has been initiated.

b) In the cases of abandonment, from 1st January to the day on which this occurs.

3. When the assessable period of the levy demanded for the providing of the service of the urban waste management of activities is less than the calendar year, its amount will be apportioned by natural quarters, calculating as complete that of the initiation or abandonment of the providing of the service.

4. The events, acts, and businesses that must be subject to declaration or notification to the Property Register will come into effect on the accrual of this levy immediately subsequent to the time when the cadastral effects occur.

5. The levy for the providing of other services and activities related to the Environment is instantaneous.

Article 10. *Accrual*. 1. The levy for the providing of the service of the urban waste management of activities is accrued on the first day of the assessable period.

2. The levy for the providing of other services and activities related to the Environment is accrued when the providing of the service or carrying out of the activity is initiated.

Nevertheless, the prior depositing of the amount may be demanded before the providing of the service or the carrying out of the activity.

CHAPTER VI. QUANTIFICATION

Article 11. *Tax charge of the levy for the providing of the service of the urban waste management of activities.* 1. The tax charge of the levy for the providing of the service of the urban waste management of activities will consist of an annual amount, which depending on the cadastral value band of the property and depending on the cadastral use attributed to it of those established in the cadastral regulations for the valuation of the constructions or when the real estate in question is of special characteristics, will be the result of adding to the charge for the rateable value the generation charge included in Annex A) of this ordinance.

For the uses of Offices and Outstanding Buildings the tax charge will coincide with the charge for the rateable value.

In the case of properties with a rateable value exceeding the amount established for each use in Annex A) of this ordinance, both the charge for the rateable value and the generation charge, if appropriate, will be obtained by multiplying the rateable value by the rates detailed in said annex.

Under no circumstances may the resultant charge exceed 20.000 euros.

2. If to the effects of Property Tax the rateable values have not been individualised, the individualisation of the receipts or settlements of this charge will not be fitting either; the use of the corresponding cadastral unit will prevail.

3. In the case of properties which have not established the rateable value that is to correspond at the time of accrual, the City Council may carry out the settlements when said value has been determined.

Article 12. *Reductions to the Levy for the providing of the service of the urban waste management of activities.* The charge of the levy for the providing of the service of the urban waste management of activities will be reduced by 100 per cent when the levy falls on the following persons or entities as ratepayers:

a) Non-profit-making entities and the Catholic Church or other churches, faiths, and religious communities referred to in Article 2 and the ninth additional precept of Law 49/2002 of 23rd December on the Tax System of Non-Profit-Making Entities and Tax Incentives for Patronage, except in the case of properties affected by economic exploitations not exempt from Business Tax according to that set down in the aforementioned Law.

With regard to those entities referred to in this letter a) which have the obligation of notifying the exercising of the option of the special tax system contemplated in Title II of the aforementioned Law 49/2003 of 23rd December, the reduction will be enjoyed as from the assessable period coinciding with the calendar year in which the aforementioned notification is addressed to this City Council.

The notification to the City Council must expressly indicate the exercising of the option of the application of the special tax system contemplated in Title II of the aforementioned Law 49/2003 of 23rd December, and must be accompanied by proof of having presented the census declaration at the corresponding Tax Administration.

b) Public research bodies or teaching institutions at all levels in the same terms in which Article 82.1.e) of the revised text of the Law regulating Local Properties is applicable.

For the application of the reductions established in the previous point, a necessary requirement will be for the property to have cadastral individualisation in the year immediately preceding that in which it is to come into effect.

Article 13. Tax charge of the Levy for providing other services and activities related to the Environment. 1. The tax charge of the levy for the providing of other services and activities related to the Environment will consist of a fixed amount, the amount of which will be determined as follows:

a) By specific indication in the corresponding rates.

b) By the addition of partial charges corresponding to each of the stages into which the providing of the service or the carrying out of the activity is divided.

2. The charges referred to in this article are those fixed in the rates included in Annex B) of this ordinance.

CHAPTER VII. RULES OF ADMINISTRATION

Article 14. *Administration and settlement of levies.* 1. The levy for the providing of the service of the urban waste management of activities will be administered by means of a census or register, except in the cases of becoming liable for tax, which will be administered by carrying out a settlement that will be individually notified.

To this effect, in the cases of registering for tax the taxpayer must present a return in which it declares its addressing the liability and notifies the necessary details so that the Municipal Administration can quantify the tax obligation by means of the carrying out of the corresponding settlement.

In any case taxpayers must inform the Municipal Administration of any unforeseeable modification that may lead to a cancellation on or alteration to the census, according to that contemplated in Article 9 of this ordinance. Said obligation must be complied with within two months from the occurrence of the circumstance determining the modification.

2. The levy for the providing of other services and activities related to the Environment will be subject to definitive settlement after the providing of the service or the carrying out of the activity.

The Municipal Administration may carry out a provisional settlement prior to the providing of the service or the carrying out of the activity, with the objective of demanding its deposit. If appropriate the amount paid in will be deducted from the charge deriving from the definitive settlement.

Article 15. *Payment of levies.* 1. The annual charges of the levy for the providing of the service of the urban waste management of activities must be paid during the period extending from 1st October to 30th November or the working day immediately after it.

Notwithstanding that set down in the previous paragraph the amount of the levy can be divided into two instalments. The first is paid in advance on 30th June or the working day immediately after it and consists of 65 per cent of the charge corresponding to the previous period, corrected if appropriate with the details in the possession of the Municipal Administration at the time of making its calculation and which have been formally notified to the taxpayer; and the second on 30th November or the working day immediately after it, which will consist of the difference between the amount of the receipt corresponding to the present accounting period and the amount paid in the first instalment, deducting in its turn the amount of the rebate referred to in the following paragraph.

In the cases of the downwards modification of the debt, in order to prevent the amount of the first instalment from exceeding that of the definitive settlement and consequently the corresponding refund, a control is established that allows the calculating of the amount to pay in the first instalment according to the estimated net tax payable of the current accounting period so that the surplus does not occur.

Those choosing this payment system will enjoy a rebate of 3,25 per cent of the tax charge. Under no circumstances may the amount of this rebate exceed 15,00 euros.

The choosing of this payment method will require the payment of the levy to be made by direct debiting from a bank or savings bank and the formulation of the appropriate application on the form established for the purpose. The form for its application duly filled in will be understood to have been automatically granted from the same day on which it is presented and will come into effect as from the following assessable period. It will be valid for an indefinite period and as long as there is no manifestation to the contrary by the interested party and the payments continue to be made in the terms established in the second paragraph of this point.

Nevertheless, if the application is made either by means of telecommunication techniques or telematically, or in person at the municipal offices made available to citizens by the City Council of Madrid for the purpose, from 1st January to 30th April, it will also come into effect for the accounting period in which the application is made.

If the application is made by these same means, subsequent to 30th April and before the expiry of the period for the voluntary payment of this levy, it will be automatically understood that the payment will be made by direct debiting for the accounting period in which it is applied for without using the special payment system until the following accounting period. An exception will be made when the application is made once the registration of the tax has been approved and current direct debiting has been established; in this case the effects will be as from the following accounting period.

In any case, for anything not set down in this point regarding the special payment system that established in Article 21 of the Tax Ordinance regulating Property Tax will be applicable.

This levy can be paid by using the a la Carte Payment system regulated in the General Tax Ordinance of Administration, Collection, and Inspection.

2. The remaining levies regulated in this ordinance will be paid within the deadlines and under the conditions established in the General Tax Ordinance of Administration, Collection, and Inspection.

CHAPTER VIII. OFFENCES AND PENALTIES

Article 16. *Tax offences and penalties.* In everything relating to tax offences and their various categories, together with the penalties corresponding to the same, the rules established in Law 58/2003 of 17th December on General Taxation and in the General Tax Ordinance of Administration, Collection, and Inspection will be applicable.

Article 17. *Compatibility.* The exaction of the levies established in this ordinance are established, and the penalties that may be imposed if they are not complied with, do not include the payment of the penalties that may be appropriate as a result of the violation of the Ordinance of Cleaning of Public Spaces and Waste Management or of the General Ordinance of the Protection of the Urban Environment and other current regulations on the subject.

SINGLE PROVISIONAL PRECEPT

During the 2016 period the administration of the levy for the providing of the service of the urban waste management of activities will be initiated automatically by the municipal Tax Administration, which will proceed to the individual notification of the corresponding settlements for their inclusion in the census or on the register of the levy and for the periodic payment and the collective notification of the settlements corresponding to the successive periods.

FINAL PRECEPTS

One. The definitions and rates appearing as an annex are to be considered to all effects as an integral part of this Tax Ordinance Regulating the Levies for services and activities related to the Environment.

Two. This ordinance will come into effect as from 1st January 1999 and will remain current until its express modification or repeal ⁽¹⁾.

⁽¹⁾ The text of the ordinance transcribed is that of its current wording together with the modifications approved by the Plenary Session of the City Council by means of an agreement of 29th December 2016 which will come into effect as from 1st January 2017 (BOCM - Official Bulletin of the Region of Madrid - No. 315 of 31/12/2016).

TAX ORDINANCE REGULATING PROVISION OF SERVICES OF REMOVAL, TRANSPORT AND STORAGE AT THE CITY WAREHOUSE

Current text according to the modifications approved by agreement of the City Council Plenary dated 20th December, 2013

Article 1. By virtue of the powers granted by articles 4 and 106 of Law 7/1985, dated 2nd April, regulating the bases of Local Taxes and in accordance with articles 15 to 19 of the revised text of the Law regulating Local Taxes, approved by Legislative Royal Decree 2/2004, dated 5th March, this City Council established the Charges for Provision of Services of Removal, Transport and Storage at the City Warehouse, which is to be governed by the present Tax Ordinance, the regulations of which are based on articles 20 and henceforth of the above mentioned revised text.

I. LIABILITY

Article 2. The liability derives from the charge for removal, transport and storage at the City Warehouse of any item occupying the public thoroughfare, where the providing of these services is caused directly or indirectly by the unfulfilment by the owners, possessors or persons responsible for care and custody of these, of the Municipal Ordinances and police regulations regarding the use and occupation of the public thoroughfare.

II. TAXPAYERS

Article 3. Both natural and legal persons, as well as the entities referred to in article 35.4 of the General Tax Law 58/2003, dated 17th December, who request, benefit or are affected by the providing of this service.

III. ACCRUAL

Article 4. The charge is payable and is created when the service provided commences.

IV TAXABLE BASIS AND CHARGES

Article 5.1. The taxable basis is to be determined in accordance with the volume of the item removed and the transport and storage in accordance with the following list of charges:

Section 1. Removal and transport of furniture and personal belongings from the public thoroughfare.

	<u>Euros</u>
Up to 8 m ³ , or fraction, of the material removed and transported	150,14
For each m ³ , or fraction, in excess of the above	18,76

Section 2. Storage of furniture or belongings at the City Warehouse

	<u>Euros</u>
For each m ³ , or fraction, of the material stored per day.....	0,42

2. The charge for storage of furniture or effects at the City Warehouse will be reduced by 100% when it is payable on taxpayers who have been the object of eviction from their habitual abode, due to non payment of the amounts due on mortgage or rent.

3. Furthermore, the charges will be reduced by 100% for those persons who have had to leave their habitual abode due to ruin, fire, forced demolition or any other similar cause, provided the former are unemployed persons, pensioners, persons in paid employment or self-employed, whose annual income, including any persons officially registered as living in the same abode, do not exceed the amount obtained by multiplying by 1.4 the Multiple Effects Public Income Indicator (IPREM) during the natural year prior to the circumstance. If the number of persons registered is more than two, the amount may not exceed IPREM multiplied by 1,7 and, if the number of persons registered is more than four, it may not exceed the amount resulting from multiplying IPREM by 2,2

To this regard, annual income is considered to be the integral earned income and the capital and property gains, in addition to earnings from economic activities referred to in articles 17, 25, 22 and 27 respectively, of Law 35/2006, dated 28th November, regarding Personal Income Tax and the partial modification of the Company Tax Laws, regarding the Income of non-residents and on Assets.

Where the option of making a joint tax return has been chosen and only

one of the spouses is registered in the abode, his/her income will be determined by the result of dividing the sum of the incomes included in the above mentioned joint tax return by two.

Under no circumstances will payment in kinds, payment of company retirement plans, company welfare plans or friendly societies, attributed the taxable person, be taken into account; nor contributions to protected patrimony of disabled persons where the bearer is the taxpayer himself.

Regarding economic activities, the following will be considered as income:

a) The net earnings obtained in accordance with the regulations contained in articles 28 and 30 of Law 35/2006, dated 28th November, where the means of determining the same is that of direct calculation. Furthermore, in order to calculate the net earnings of those economic activities where the simplified calculation method is applicable, the special items established by article 30 of the Regulations on Income Tax, approved by Royal Decree 439/2007, dated 30th March, are to be taken into account.

b) The prior net earnings calculated in accordance with the Instructions for the application of the signs, indexes or modules in Personal Income Tax for the corresponding exercise, where this is calculated using objective estimation.

The reduction will not be applied where any of the persons registered as living in the abode, obliged by the terms established in Law 35/2006, 28th November, regarding Personal Income Tax and the partial modification of Company Laws, the Income of Non Residents and Patrimony, to make a tax return, have failed to present their Income Tax return for the exercise in question.

V. EXEMPTIONS

Article 6. No other exemptions or subsidies may be granted other than those expressly established in law or deriving from the application of International Treaties.

VI. CONTROL REGULATIONS

Article 7. The payment of the charges is to be made in the manner and periods established by the General Control, Collection and Inspection Ordinance.

VII. TAX INFRINGEMENTS AND SANCTIONS

Article 8. With regards to any kind of tax infringement and the corresponding sanctions, the regulations of the General Tax Law and the General Tax Ordinance will be applicable.

EXEMPTION CLAUSE

Section II of the Tax Ordinance regulation the Charges for use of Municipal Dumps and other special services pertaining to the Area for the Environment and the Charge for Providing Services of Removal, Storage and Deposit of effects in the City Warehouse has been repealed, in addition to any precepts which are opposed, contradictory or incompatible with the terms established in the present ordinance.

FINAL PROVISION

This ordinance is to come into effect as of 1st January, 2001, and remain valid until its express modification or repeal⁽¹⁾.

⁽¹⁾ The transcribed text of the ordinance is the current and valid version, including the modifications approved by the City Council Plenary by agreement dated 20th December, 2013, coming into effect as of 1st January, 2014. (BOCM No. 308, dated 28/12/2013).

TAX ORDINANCE REGULATING THE CHARGES FOR PROVIDING URBAN SERVICES

Current text in accordance with the modifications approved by agreement
at the City Council Plenary dated 21st December, 2012

SECTION 1. NATURE AND BASIS

Article 1. By the powers granted by articles 4 and 106 of Law 7/1985, dated 2nd April, regulating the Local Tax Bases and in accordance with articles 15 to 19 and 20.4 of the revised text regulating Local Tax, approved by Legislative Royal Decree 2/2004, dated 5th March, the charge for providing urban services is established as contained in this tax ordinance.

SECTION II. LIABILITY

Article 2.1. The liability is created by the carrying out of technical or administrative activity which refers to, affects or benefits the taxpayer in a particular way and which is necessary for the providing of the following urban services:

- a) Processing of prior consultation and urban report requests and the issuing of urban certificates.
- b) Issue of urban permit cards.
- c) Processing of compulsory expropriation orders on behalf of individuals.
- d) Marking of alignments.
- e) Processing of planning permission.
- f) Processing of contradictory declarations of condemned buildings.
- g) Processing of records of change of owner of planning permission.
- h) Processing of verifications of execution of work and the exercise of

activities in accordance with the permit.

i) Enforcement orders due to non fulfilment of conservation measures.

2. The liability will not be deemed fulfilled when it is the result of applying the processes regulated by the Ordinance establishing the Control Region of Urban Planning Permission dated 29th June, 2009.

SECTION III. TAXPAYER

Article 3.1. Natural and legal persons, estates of deceased persons, community of property and other entities referred to in article 35.4 of the General Tax Law 58/2003, dated 17th December are deemed taxpayers when they request, provoke or in whose interest the contributions referred to in this ordinance fall on.

2. Builders and contractors will have the condition of substitute taxpayers with regards to the taxes established for processing of planning permission laid out in the regulations on land and town planning.

SECTION IV. ACCRUAL

Article 4. This tax is accrued when the urban service commences, with the processing of the relevant record, on request of the interested party or ex officio request by the Municipal Administration.

SECTION V. BASES, TYPES OF TAX AND CHARGES

Article 5. The amount of tax payable for the charges corresponding to each of the urban services specified in article 2 are to be determined by the application of the following list of fees:

Section A) Processing of prior Consultations, urban reports and certificates

Article 6.1. For the processing of each one of the questions related to prior consultations and urban reports and for the issue of urban certificates, the charge will be 52,85 euros.

2. For the processing of each one of the questions contained within a

special urban consultation, the amount payable will be that resulting from the application of 75% on the cost of the processing of a project presented as planning permission, with a minimum charge of 347,35 euros.

Section B) Issue of Urban Documents

Article 7. For the issue of each of the Urban Documents processed in accordance with the terms of the special ordinance regulating the same, the fee will be 87,25 euros.

Section C) Processing of Compulsory Expropriation on behalf of individuals

Article 8.1. For each expropriation order on goods and services on behalf of individuals processed, the fee resulting from the application of the fees shown in the table below are to be paid, establishing, in all events, a minimum fee of 728,11 euros.

Square metres per area	Rate in Euros per 50 m ² or fraction
Up to 50.000 m ²	3,37
From 50.000 to 100.000 m ²	2,73
From 100.000 to 250.000 m ²	2,00
From 250.000 to 500.000 m ²	1,33
From 500.000 to 1.000.000 m ²	0,71
More than 1.000.000 m ²	0,35

2. Where the land affected by the expropriation is built upon or cultivated the result of the above mentioned fees is to be multiplied by 1,40.

Section D) Marking of Alignments

Article 9. For each alignment marked, both indoors and outdoors, a fee is payable depending on the linear metres of the facade, that is 63,35 euros per section of 10 metres or fraction which may be added to the above mentioned metres of the facade, and the amount mentioned above

is the minimum fee payable in any case.

Rehabilitations carried out before the planning modifications which have not been altered are not subject to this tax.

Section E) Processing of Planning Permission

Article 10. For each planning permission licence processed in accordance with articles 1.4.6. and following of the Planning Regulations contained in the Urban Planning of Madrid and the Municipal Planning Permission Licences Ordinance, the sum of the charges shown below with applicable, according to the type of work or activity referred to therein.

Euros

1.- Work in buildings:

a) Rehabilitation work of one-time refurbishing nature:

When the area affected has an area of up to 150 m ²	202,25
--	--------

When the area affected by this work exceeds the first 150 m ² , the above charge will be increased per 50 m ² , or fraction above this by	39,65
---	-------

b) Conservation, consolidation, restoration and reconfiguring work:

When this affects an area of up to 500 m ²	247,60
---	--------

When the area affected by this work exceeds the first 500 m ² , the above fee will be increased, for each 100 m ² , or fraction in excess.....	45,25
--	-------

c) Rehabilitation work for one time partial or general refurbishing and restructuring:

When this affects an area of up to 250 m ²	607,00
---	--------

When the area affected by this work exceeds the first 250 m ² , the above fee will be increased, for each 100 m ² , or fraction in excess.....	80,90
--	-------

d) General, partial or total restructuring:

The fee payable will result from the application of the fees established for new work.

TAX ORDINANCE REGULATING THE TAX ON PROVIDING URBAN SERVICES

e) Outdoor work:

Payable for each floor of the buildings or blocks affected by the same	57,65
--	-------

In each case, the minimum fee will be 123,70 euros.

2.- Demolition work:

When an area of up to 50 m ² is affected, the fee will be	242,75
--	--------

When the area affected by this work exceeds the first 50 m ² , the above charge will be increased per 100 m ² , or fraction above this by	121,35
---	--------

In the case of demolition work in buildings exclusively engaged in industrial activities or equipment, a reduction of 25 per cent on the above mentioned fees will be applied.

3.- New construction work:

a) New building work:

a') Building of residential, tertiary or urban services or infrastructural buildings, as well as all other new building work not included in the sections above, for areas of up to 500 m ² , the fee will be.....	1.011,70
---	----------

When the area affected by this work exceeds the first 500 m ² , but do not exceed 20.500 m ² , the fee above will be increased, for each 100 m ² , or fraction of the same will be	161,90
---	--------

When the area affected exceeds 20.500 m ² , the fees shown above will be increased for each 100 m ² , or fraction, by	80,90
---	-------

b') In buildings exclusively engaged in industrial activities or equipment, the fee for an area of up to 500 m ² will be	660,40
---	--------

When the area affected by this work exceeds the first 500 m ² , but does not exceed 20.500 m ² , the above mentioned fee will increase, for each 100 m ² , or fraction in excess by	117,35
--	--------

When the area affected exceeds 20.500 m ² , the fee	58,65
--	-------

TAX ORDINANCE REGULATING THE TAX ON PROVIDING URBAN SERVICES

from the two previous points will be applied for each 100 m², or fraction in excess by.....

	<u>Euros</u>
c') Construction of detached homes, with an affected area of up to 150 m ² , the fee will be.....	1.214,10
When the area affected by this work exceeds the first 150 m ² , but does not exceed 2.750 m ² , the fee will increase for each additional 100 m ² , or fraction of the same	202,25
When the area affected exceeds 2.750 m ² , the two previous points will be applied for each 100 m ² , or fraction in excess by	101,10
b) Replacement work:	
The amount payable will be the sum of the amounts resulting from the application of the demolition fees plus the new work fees, as established in the relevant points above.	
c) Special reconstruction work and typological recovery:	
The amount payable is that resulting from the application of the area affected by the fees established for new work.	
d) Expansion work:	
When the area to be extended does not exceed 25 m ²	242,75
When the area to be extended exceeds the first 25 m ² , the charge shown above is increased, for each 50 m ² , or fraction, by	161,90
4.- Other kinds of planning permission:	
For other kinds of planning permission not included above and contained in article 1.4.11 of the Madrid General Town Planning Ordinance, not included in the communication procedure:	
For carrying out of permanent work, the charge	247,60

TAX ORDINANCE REGULATING THE TAX ON PROVIDING URBAN SERVICES

will be

a) For carrying out of provisional work, the charge
will be 165,05

With regards to payment of the charges, point 4.a) of this article is to include licences authorising the breaking up of a service gallery and those authorising sanitation work in tunnels in point 4.b), notwithstanding the charges or public prices payable in accordance with the Tax Ordinance regulating the Charges for Exclusive or Special Use of Local Public Domain and the Public Prices Ordinance regarding services or activities related to Public Prices for Work on the Public Thoroughfare.

5.- For installation of activities, the following charges will be applicable:

Euros

1. Installation of activities which are not subject to any kind of environmental evaluation process:

A fixed charge will be payable 414,00

2. Installation of activities subject to any kind of environmental evaluation process:

An amount will be payable, corresponding to the sum of the established charges, depending on the area affected by the activity and the nominal power to be authorised for this, expressed in kilowatts, according to the following table:

a) Area affected by the activity

Up to 50 m² 696,10

From more than 50 to 100 m²..... 1.099,10

From more than 100 to 500 m²..... 1.546,85

When the area affected by the activity exceeds the first 500 m², but is less than 20.000 m², the charge above will be increased, per 100 m², or fraction exceeding this, by 81,35

When the area affected by the activity exceeds 20.000 m², the charge from the above points will be increased, for each 100 m², or fraction exceeding this, by 40,60

TAX ORDINANCE REGULATING THE TAX ON PROVIDING URBAN SERVICES

b) Nominal power:

Up to 10 kw	204,90
From over 10 to 20 kw	286,10
From over 20 to 50 kw	409,85
From over 50 to 100 kw	657,35
	<u>Euros</u>

When the power exceeds the first 100 kw, up to 2.500 kw, the above charge will be increased for each 10 kw, or fraction exceeding this, by 20,45

When the power exceeds 2.500 kw, the charge from the above points will be increased for every 10 kw, or fraction exceeding this by..... 10,20

The nominal power of an activity will be obtained by adding the electrical power, expressed in Kw., of all the installations, machinery, apparatus in question, as designated on the respective technical data sheets.

When the power pending authorisation is expressed, partially or wholly, in Metric Horse Power, this is to be mathematically reduced to Kilowatts, using the ratio:
1 MHP = 0,736 kw.

3. Exceptionally, the authorisations for elements transforming electrical energy, belonging to Companies selling the latter, are to pay the charges resulting from the sum of the charges established in accordance with the area of the activity and the power installed, expressed in Kaveas, as shown below:

a) Area of the activity:

The same charges established will be applied, depending on the area of the activity mentioned above.

b) Power:

Up to 250 kva	386,70
From over 250 to 500 kva	461,20

TAX ORDINANCE REGULATING THE TAX ON PROVIDING URBAN SERVICES

From over 500 to 1.000 kva	580,20
From over 1.000 to 2.000 kva.	677,05
For more than 2.000 kva, the charge shown above will be increased, for each 50 kva, or fraction in excess, by	20,30
6.- Authorisation for use and works deemed of provisional nature, in accordance with article 2.2.7 of the General Town Planning Plan and 26 of the Municipal Ordinance on Planning Permission Licences will be charged at the rate of 149,45 euros.	
7.- For each fragmentation, segregation or grouping processed, a charge of 43,55 euros will be payable on each of the properties provided or resulting, with a minimum charge of 87,25 euros.	
8.- Actions subject to communication procedure:	
1) Actions included in points 1, 2 and 3 of article 49 of the Municipal Town Planning Permission Ordinance which do not include building work:	
A fixed rate of.....	414,00
2) Actions included in points 1, 2 and 3 of article 49 of the Municipal Town Planning Permission Ordinance including work subject to the communication procedure.....	619,95
3) Outdoor work regulated by article 49.6 of of the Municipal Town Planning Permission Ordinance:	
For each floor of the buildings	57,65
In any case a minimum charge of	123,70
4) Conservation, refurbishment and restoration work included in points 4, 5 and 7 of article 49 of the Municipal Town Planning Permission Ordinance:	
When this affects an area of up to 500 m ²	287,70
When the area affected by this work exceeds the first 500 m ² , the above charge will be increased, for each 100 m ² , or fraction, by	42,80
5) Work regulated by article 49, points 8, 9, 15 and 16 of the Municipal Town Planning Permission Ordinance:..	247,60

6) Work regulated by article 49, points 10, 11, 12, 13 and 14 of the Municipal Town Planning Permission Ordinance	165,05
---	--------

Article 11. Permits which modify other previous ones are considered, regarding the charges, as new permits which will be taxed in accordance with the charges corresponding to the type of authorisation and the area or power affected by the modification with a minimum charge of 225,95 euros.

Section F) Processing of contradictory condemned building procedures

Article 12. For each contradictory condemned buildings procedure processed, in accordance with the terms established in articles 45 to 56 of the Conservation, Rehabilitation and Dilapidation of Buildings, the charge will be as shown below:

	<u>Euros</u>
When the area affected by the procedure processed does not exceed 200 m ² , the charge for each m ² , or fraction will be	11,15
When the area affected exceeds the first 200 m ² , but does not exceed 500 m ² , the above mentioned charge will increase, for each m ² , or fraction, by	9,60
When the area affected exceeds 500 m ² , but does not exceed 1.000 m ² , the above mentioned charge will increase, for each m ² , or fraction, by	8,95
When the area affected exceeds 1.000 m ² , but does not exceed 2.000 m ² , the amount resulting from the three points above, the charge will increase, for each m ² , or fraction, by	7,40
When the area affected exceeds 2.000 m ² , the amount resulting from the four points above, the charge will increase, for each m ² , or fraction, by	6,65

Section G) Procedure for recording the change of ownership of planning permission

Article 13. For the processing of recording the change of ownership of planning permission, the charge will be 104,10 euros.

Section H) Procedure for verification of execution of works and the exercise of activities listed on the permit

Article 14.1. *Licence for first occupation and function: verification.* For each verification of this nature processed in accordance with the terms of article 59 of the Municipal Ordinance on Planning Permission Permits by this City Council, the charge will be estimated by calculating the square metres of the building or activity in question, in accordance with the table of charges shown below. In the first instance of verification, the amounts shown in the table; for each new verification of the correction of deficiencies or non conformity indicated previously, the charge will be increased by 10%.

a) Verification of execution of works:

<u>Square metres area to be verified</u>	<u>Fee in Euros</u>
Up to 500 m ²	206,55
When the area exceeds the first 500 m ² , but does not exceed 20.500 m ² , the above charge will increase, for each 100 m ² , or fraction, by	49,45
When the area exceeds 20.500 m ² , the above charge will increase, for each 100 m ² , or fraction, by	24,70

For each of the verifications of the state of the replanting, structure at street level and termination of the structure carried out by the Municipal Administration, in new construction and complete restructuring work, the fee will be the result of adding 10 per cent to the above charges.

b) For verification of the installation of activities:

<u>Square metres area affected by the activity verified</u>	<u>Euros</u>
Up to 50 m ²	142,05
When the area affected exceeds 50 m ² but does not exceed 100 m ²	224,40

TAX ORDINANCE REGULATING THE TAX ON PROVIDING URBAN SERVICES

<u>Square metres area affected by the activity verified</u>	<u>Euros</u>
When the area affected exceeds 100 m ² but does not exceed 250 m ²	315,75
When the area affected exceeds the first 250 m ² , but does not exceed 5.000 m ² , the fee above will increase, for each 100 m ² , or fraction, by	24,80
Cuando la superficie afectada exceda de 5.000 m ² , se incrementará la cuota resultante de los dos apartados precedentes, por cada 100 m ² , o fracción de exceso en...	12,35

2. *Verification of work on the public thoroughfare: quality control.* For the verification of densities reached in reinforcement of trenches and quality control of pavements replaced during the tests that the Administration considers pertinent, the licence holder will be obliged to pay a fee of 4 per cent of the real cost of the work.

Part I) Execution orders due to conservation neglect

Article 15. For each execution order the amount due will be:

	<u>Euros</u>
a) Execution order related to structural defects.....	1.042,35
b) Execution order related to other, non structural defects	347,35

Article 16. When the renewal of a licence which has expired is requested, the fee will be equivalent to 25 per cent of the amount which would have been due under the current ordinance, with a minimum fee of 225,95 euros.

SECTION VI. EXEMPTIONS AND REBATES

Article 17. No other exemptions or rebates will be granted apart from those expressly contemplated by the law or those deriving from the application of International Treaties.

SECTION VII. CONTROL REGULATIONS

Article 18.1. The fees for providing urban services are to be paid by self

TAX ORDINANCE REGULATING THE TAX ON PROVIDING URBAN SERVICES

assessment, when requested by the interested party and, if the services were provided ex officio, by settlement demanded by the municipal Administration.

2. In the first case, the taxpayers subject to self assessment should use the forms provided for this purpose by the municipal Administration and payment made into any authorised banking entity. Proof of payment is to be presented at the same time as the application form.

3. When the municipal services discover that building work or construction has been done or that any kind of activity is being carried out without the necessary licence, the verification will be deemed the commencement of the processing of said licence, and the taxpayer is to pay the established fee, notwithstanding the imposition of a sanction for the infringement committed or the adoption of the measures necessary for the correct development of the General Urban Planning Ordinance.

4. The self assessment payment, presented by the interested party or the initial settlement demanded by the municipal Administration will have provisional nature and on account of the definitive settlement.

Article 19. The municipal Administration, once the action has been carried out regarding the urban services, and once these have been verified and the self assessment presented or the settlements made, will issue the corresponding definitive settlements, where pertinent.

Article 20. 1. The amount due is that resulting from the application of the sum of the corresponding fees for each of the authorised actions, in accordance with this ordinance, which has been processed ex officio or on request of the taxpayer.

2. However, when after the corresponding process has been completed in accordance with the relevant planning regulations for each case, and has been refused, the amount due will be reduced to 75 per cent of the amount due according to the paragraph above.

3. Furthermore, if the interested party should withdraw the application before the licence is granted or the municipal activity completed, the amount due would be reduced to 25 per cent of the fee resulting from the application of part 1 of this article.

With regards to the above, if the documentation required by the

Municipal Administration which has to be accompany the licence request has not been provided within the established time limit, the interested party will be understood to have withdrawn the application, even if he/she has not expressly said so. This also applies to cases where the application is closed due to lack of action on the part of the interested party.

4. When the application is presented for an incorrect procedure, in those cases which are redirected towards the correct procedure, after modification and correction of the application form by the interested party and on request of the Municipal Administration, the fee due will be that which is due on the new procedure.

In the above mentioned cases, where the interested party does not modify and correct the application within the period of time stipulated, the request will be considered withdrawn.

Article 21. The settlement(s) due as a result of the application of the articles figuring above are independent from the payment of the same. The developer is to pay the amount of the compulsory notifications established by the Land Law.

SECTION VIII. TAX INFRINGEMENTS AND SANCTIONS

Article 22. With regards to all kinds of tax infringements and the corresponding sanctions in each case, the regulations laid out in the General Tax Ordinance and the General Tax Law are to be applied.

FINAL PROVISIONS

First. For all points not expressly regulated by this ordinance, the General Tax Ordinance is to be applicable.

Second. This ordinance will come into effect as of 1st January, 1998 and will remain valid until its express modification or repeal⁽¹⁾.

⁽¹⁾ The text of transcribed ordinance is the current version, including the modifications approved by the City Council Plenary by agreement on 21st December, 2012, coming into effect as of 1st January, 2013 (BOCM No. 309 dated 28/12/2012).

TAX ORDINANCE REGULATING LEVIES FOR THE PROVIDING OF SERVICES IN MUNICIPAL GALLERIES

Current wording in accordance with the modifications approved by agreement of the Plenary Session of the City Council of 29th December 2016

Article 1. Using the powers granted by Articles 4 and 106 of Law 7/1985 of 2nd April regulating the Local System Conditions and in accordance with that set down in Articles 15 to 19 of the revised text of the Law regulating Local Properties, approved by Royal Legislative Decree 2/2004 of 5th March, this City Council establishes the levies for the providing of services of municipal maintenance galleries which will be governed by this tax ordinance, the rules of which are in keeping with that contemplated in Articles 20 and the following of the aforementioned revised text.

I. LIABILITY

Article 2.1. The liability of the levy consists of the providing of the municipal services consisting of the security, upkeep, repair, setting out, visiting, and any others carried out in municipal galleries and which affect the users of the same.

To the above effects the services of the security, upkeep, and maintenance are periodic in nature and affect the totality of the elements installed in the interior of municipal galleries.

The services of setting out and visiting are provided by the City Council of Madrid at the request of the users of the galleries.

2. The exaction of this levy is in any case compatible with the demanding of levies for the exclusive use or special exploitation of the local public domain, whether these are paid separately or as a whole, by means of the payment of a percentage of the annual gross receipts in the case of companies exploiting supply services.

II. TAXPAYER

Article 3. The taxpayers of the levy are the natural and corporate persons and the entities referred to in Article 35.4 of Law 58/2003 of 17th

December on General Taxation which are users of the services provided in municipal galleries.

To the above effects the users of the municipal galleries are the holders of the pipes, conductor wires, cables, or any other element installed.

2. Likewise users will be considered to be those requesting the providing of any of the services of visiting and setting out.

III. ASSESSABLE PERIOD AND ACCRUAL

Article 4.1. For the services of security, upkeep, and repair in general, the levy is periodic in nature and is accrued on the first day of the assessable period coinciding with the natural year except in the cases of the initiation or abandonment in the providing of the service, in which case the accrual will occur when the use of the service is initiated or abandoned.

In the cases in which the assessable period does not coincide with the natural year, the tax charge will be apportioned by calendar periods of six months.

2. For the main services carried out in the municipal galleries which are not provided periodically, the levy will be instantaneous and will be accrued when the providing of said service is applied for.

IV. GROSS TAX BASE AND TAX CHARGE

Article 5.1 The tax charge corresponding to the services of security, upkeep, and repair will be determined in accordance with the following rate:

Euros

For each linear metre or fraction thereof of pipes, conductor wires, cables, or any other similar element installed, per period of six months or fraction thereof	0,540911
---	----------

In the case of conductor wires or cables, the unit will be the linear metre or fraction of the conductor wire, provided that the latter does not form a unit with other conductor wires in the form of a cord and protected by a common casing throughout its length and which can be called cable from a habitual point of view, in which case the measurement unit will be

the linear metre of cable.

2. For the services provided at the request of interested persons, the following charges will be paid:

	<u>Euros</u>
For each setting up.....	287,00
For each visit.....	148,85

V. EXEMPTIONS AND REBATES

Article 6. No further exemptions or rebates will be granted than those expressly contemplated in the laws or those deriving from the application of International Treaties.

VI. RULES OF ADMINISTRATION

Article 7.1. In those cases of the providing of periodic services, the natural or corporate persons interested in the use of the same will present at the General Register, together with at other registers or places indicated in the legislation on the common administrative procedure of the Public Administrations, an application addressed to the competent administrative unit on public lighting and special installations, specifying the type of laying, length, section, volume, location, and other necessary characteristics for identifying the element to be fitted, and will likewise add a sketch or plan of the installation.

2. Once the laying has been carried out after the authorisation and setting up by the competent body, the administrative unit referred to in the previous section will notify the administration office for the levy, within the first fifteen days of each natural period of six months, of the authorisations for laying that have been granted in the period of six months immediately before with mention of the natural or corporate persons authorised, the elements fitted, their situation, length, section, volume, and whatever details may be necessary for the settlement, together with the cancellation of laying that has occurred over the period of time mentioned.

Taking into account the details existing in the previous period of six months and those provided by the aforementioned administration unit, the

latter will carry out the corresponding settlement on a half-yearly basis in accordance with that established in the above rules and the notification in due form to the interested party.

3. Cancellation on the tax register will not be carried out until the date of the dismantling of the corresponding installations, which will be notified by the competent body to the administration office for the levy.

4. The charge resulting from the settlement will be paid within the deadlines determined in the General Collection Rules for tax debts.

Article 8. The levy for the providing of the services applied for individually by interested persons will be demanded by the self-assessment system. To this effect taxpayers will be obliged to carry out the self-assessment on the forms provided for the purpose by the municipal Administration and to make the resultant payment through any authorised bank, which must be justified when presenting the corresponding application.

VII. OFFENCES AND PENALTIES

Article 9. In everything relating to tax offences and their various categories, together with the penalties applying to the same, the rules established in the General Law on Taxation and in the General Tax Ordinance will be applied.

FINAL PRECEPT

This ordinance will come into effect as from 1st January 1999 and will remain current until its express modification or repeal⁽¹⁾.

⁽¹⁾ The text of the ordinance transcribed is that of its current wording together with the modifications approved by the Plenary Session of the Town Council by means of an agreement of 29th December 2016 which will come into effect as from 1st January 2017 (BOCM - Official Bulletin of the Region of Madrid - No. 315 of 31/12/2016).

TAX ORDINANCE REGULATING THE CHARGES FOR PROVIDING HYGIENE AND PUBLIC HEALTH SERVICES

Current text in accordance with the modifications approved by
agreement of City Council Plenary on 20th December, 2013

Article 1. By the powers granted by articles 4 and 106 of Law 7/85, dated 2nd April, regulating the Local Tax Regime, and in accordance with the terms of articles 15 to 19 of the revised text of the Law regulating Local Taxes, approved by Legislative Royal Decree 2/2004, dated 5th March, this Council establishes the Charges for Providing Hygiene and Public Health Services, which includes the services of the Municipal Public Health Laboratory, Veterinary Services and Environment Department Services of Madrid Salud, which are governed by this tax ordinance, the regulations of which conform to those of articles 20 and following of the above mentioned revised text.

I. LIABILITY

Article 2. The liability is constituted by the providing of the different services of the Municipal Public Health Laboratory, Veterinary Services and Environment Department Services of Madrid Salud, as detailed below:

A. Analysis of food, beverages and products of interest to hygiene and health.

B. Animal health Control.

C. Disinfection, insect and rat control of plots, buildings or premises belonging to the Administration.

Article 3. Services provided for the benefit of the neighbourhood or a considerable part of the same are not subject to the charges, such as those indicated as examples below:

- Disinfection, Insect and Rat Control provided for vectors with health, epidemics and public calamities.
- When the administrative investigations and analytical results of a

TAX ORDINANCE REGULATING THE CHARGES FOR PROVIDING SERVICES OF
HYGIENE AND PUBLIC HEALTH

sample, provided by a private person, show a public health interest in the defence of consumers and users.

II. TAXPAYERS

Article 4. The charges are payable by natural and legal persons, as taxpayers, and also the entities referred to in article 35.4 of the General Tax Law 58/2003, dated 17th December, who request or who benefit or are affected by the providing of the different services offered by the Municipal Public Health Laboratory, Veterinary Services and Environmental Health Services.

III. ACCRUAL

Article 5. The charge is accrued when the request for services is made or on commencement of the service or carrying out of the activity.

IV. BASES, FEES AND TARIFFS

Article 6. The corresponding fee for providing each of the services referred to in this ordinance will be determined by a fixed amount or in function of the elements or factors indicated in the following list:

Section A) Analysis of food, beverages and products of interest to health and hygiene

Euros

1. Well waters:

a) Control Analysis: Including the following parameters:

Smell, Turbidity, Colour, Ph, Conductivity, Nitrites, Nitrates, Ammonium, Free Chlorine, Combined chlorine, Oxidability to permanganate, Sulphates, Chloride, Coliform Test, Escherichia coli, Enterococci and Clostridium perfringens (including spores).....

151,30

b) For each physical test (conductivity, pH, dry residue, turbidity).....	13,49
4. Biological and parasite analysis of food and waters:	
a) Analysis of a single microbiological germ.....	20,13
b) Analysis of a microbiological germ with confirmation test	39,16
c) Trichina diagnosis	27,85
d) Brucellosis diagnosis	15,94
e) Detection of inhibitors	43,31
f) Botulism diagnosis.....	44,82
g) Detection of lipophilic toxins.....	44,82
h) Detection of paralyzing biotoxins	44,82
i) Detection of nematodes of the anisakidae family	22,41
j) Determination of genetically modified products	330,51
k) Detection of spp legionella genome and Legionella pneumophila in environmental sample - waters -	68,27
5. Physical and chemical analysis of waters, food and beverages:	
a) Analysis of metal elements in food, beverages and containers:	
1 st . Metals for F-AAS (Sodium , Potassium, Calcium, Magnesium, Zinc, Iron, Copper, Aluminium, Lead, Cadmium, Tin), for each one	30,67
2 nd . Cession tests on objects used in foods (Lead, Cadmium, Chrome and Nickel), each one	30,67
3 rd . Metals with hydride generating / cold steam systems (Mercury, Arsenic, Antimony and Selenium), each one	79,31
b) Analysis of MS-MS detection residue in foods and beverages:	
1 st °. Acrylamide, Cloramphenicol and Sulfonamides, each one	46,97
2 nd . Plaguicide residue (Public Test List), due to CGasses/MS	104,63

HYGIENE AND PUBLIC HEALTH

	<u>Euros</u>
h) Physical and chemical analysis by volumetric, spectrophotometric, refractometric techniques, and others:	
1 st . Acidity of fat (free acidity), Total acidity, pH, Spectrophotometric test in ultraviolet for oils, peroxide index, sulphur dioxide and Chlorides, lactose, each one	15,81
2 nd . Boric acid, Phosphates, Brix degrees, Fat, Hydroxiprolin, Proteins, Basic Volatile Nitrogen, starch, carbon monoxide, each one	26,68
3 rd . Nutritional Analysis, (Energy value, Protein, Fat, Carbohydrates), each one	73,14
4 th . Unsaponifiable matter content, colourings by chromatography on fine layer, each one.....	33,74
5 th . Fibre.....	89,87
6 th . Volumetric alcohol degree (aerometry or electronic densimetry)	26,68

Application regulations for section A)

1. The certificates issued by the Laboratory only attest the samples presented for analysis.

2. When none of the charges specifically defined in section A) above appear, nor the products presented for analysis, nor tests that lead to the providing of the services requested, whichever charge which is related, by the nature of the analysis to be carried out, or substantial similarity from the technical point of view will be levied.

3. The charges derived from the contradictory analysis will be payable by those who commission them; those originating from the initial and decisive analysis will be payable by the company being prosecuted, unless the results of the decisive analysis rectify the initial ones, in which case they will be paid for by the Administration.

4. The remainder of the samples analysed and which conform to legislation will be returned together with the certificate, if the interested party should wish.

5. The above mentioned charges may be subject to rebates, as indicated below:

TAX ORDINANCE REGULATING THE CHARGES FOR PROVIDING SERVICES OF
HYGIENE AND PUBLIC HEALTH

a) 15%, if the taxable person is the State or any of its autonomous organisms, an Autonomous Community or Local Entity or the entities of public right of a similar nature to the State autonomous organisms, of the said Autonomous Communities or Local Entities.

b) Depending on the number of samples presented for analysis, the following rebates will be applied:

- 10%, when there are 3 or 4 samples.
- 15%, when there are 5 or 6 samples.
- 20%, when there are 7 or 8 samples.
- 25%, when there are 9 samples.
- 30%, when there are 10 or more samples.

6. The rebates referred to in points a) and b) above will be compatible with each other, and will be applied in the order in which they appear. In this case, the second rebate will be made on the charge resulting from the application of the preceding charge.

Section B) Animal health Control

	<u>Euros</u>
1. Rabies observation at the home of the animal	61,28
2. Observation at the Animal Protection Centre	53,42
3. Removal on the public thoroughfare and/or at the home of identified animals and/or with owner	48,16
4. Maintenance of the animal at the Animal Protection Centre, per day, or fraction	4,78
5. Euthanasia for pets.....	14,79
6. Handing over of animals by their owners at the Animal Protection Centre.....	33,41

TAX ORDINANCE REGULATING THE CHARGES FOR PROVIDING SERVICES OF
HYGIENE AND PUBLIC HEALTH

**Section C) Disinfection, Insect and Rat control of plots and/or
buildings or premises belonging to the Administration and of public
service vehicles**

a) Disinfection

GROUP ONE

	<u>Euros</u>
Environmental insect control (per cubic metre or fraction)	0,17
For each call out and handling	40,99

GROUP TWO

	<u>Euros</u>
Removal of wasps nests and hives in public places:	
For each service, including call out	75,94

b) Disinfection

	<u>Euros</u>
Environmental disinfection, per cubic metre or fraction	0,06
For each call out and handling	40,99

c) Rat control and extermination

	<u>Euros</u>
For each point of rat poison treatment	3,34
For each point of mouse poison treatment	3,34
For each call out and handling	40,99

*d) Identification of biological samples. Goods allegedly
contaminated by vectors*

	<u>Euros</u>
For each action	41,69

V. EXEMPTIONS AND REBATES

Article 7. No other exemptions or rebates will be granted apart from those established in law or those deriving from the application of International Treaties.

VI. CONTROL REGULATIONS

Article 8.1. The payment of the charge is to be made within the period of time established in the General Tax Ordinance on Control, Collection and Inspection, except when the service is provided on private request, which is to be paid on presentation of the request, otherwise the service will not be provided.

2. When, for causes outside the control of the taxpayer, the service is not provided, the corresponding amount will be reimbursed.

VII. INFRINGEMENTS AND SANCTIONS

Article 9. With regards to all tax infringements of whatever category, and regarding the corresponding sanctions, the terms established in the current General Tax Law and the General Tax Ordinance will be applied.

FINAL PROVISION

This ordinance will come into effect as of 1st January, 1999 and remain valid until its express modification or repeal⁽¹⁾.

⁽¹⁾ The text of the transcribed ordinance is that of the current version, including the modifications approved by the City Council Plenary by agreement dated 20th December, 2013, and to come into effect as of 1st January, 2014 (BOCM No. 308 dated 28/12/2013).

TAX ORDINANCE REGULATING THE CHARGES FOR PROVIDING HEALTH SERVICES

Current text including the modifications approved by the City Council
Plenary of 21st December, 2012.

Article 1. In use of the powers granted by articles 4 and 106 of Law 7/1985, dated 2nd April, regulating the Bases for Local Tax, and in accordance with the terms of articles 15 to 19, 20.4.n) and 57 of the revised text of the Law regulating Local Taxes, approved by Legislative Royal Decree 2/2004, dated 5th March, the Charges for Providing Health Services are established.

I. LIABILITY

Article 2.1. The liability is constituted by the charge for providing health services of assessment, initial care and/or health transport for injured or ill persons as a result of road, work or school accidents and covered by Insurance Entities or Companies and the coverage programmed for situations of foreseeable risk.

2. Services provided in benefit of the general neighborhood or a considerable part of the same, such as those provided in officially declared states of emergency, such as the coverage of foreseeable risk during the holding of civic, political, trade union or religious events, or other popular events which are free of charge to the general public.

II. TAXPAYERS

Article 3.1. Both natural and legal persons, as well as the entities referred to in article 35.4 of the General Tax Law 58/2003, dated 17th December, who request or benefit or are affected by the respective services, are to be considered taxpayers in the capacity of taxpayers.

2. When these persons do not directly have the capacity of taxpayers, the Entities or Insurance Companies which cover the risks deriving from the provision of the services specified in this ordinance will be considered substitute taxpayers.

III. ACCRUAL

Article 4. The charges regulated by this ordinance will become payable as soon as the services commence, except in the case of programmed emergency health care which will be payable from the moment this service is requested.

IV. TAX BASE AND CHARGES

Article 5. For providing the services detailed below, the following charges will be applicable:

A) Assessment services, initial care and/or health transport for injured or ill persons involved in road, work, school or other similar accidents:

	<u>Euros</u>
a) Assistance and discharge by the medical Unit (without transport)	137,87
b) Assistance from the medical Unit, followed by transfer provided by the same Unit, or a Basic Unit	206,82
c) Use of the Basic Life Support Unit, with or without transfer	91,81

B) Programmed coverage in situations of foreseeable risk, except for the provisions of part 2 of article 2:

	<u>Euros</u>
a) Ambulance life support coverage including material and staff, per hour or fraction	157,56
b) Medical unit coverage with material and staff, per hour or fraction.....	262,60
c) For assembly and use per day of field hospital; the definition of which is a structure with capacity for caring and provisional hospitalisation of injured or ill persons, with capacity for 10 patients	245,10

TAX ORDINANCE REGULATING CHARGES FOR PROVIDING HEALTH SERVICES

	<u>Euros</u>
d) Providing of material and the following staff: a doctor, a qualified nurse with a university degree, three health transport staff, four volunteers, necessary for the functioning of the above mentioned field hospital, per hour or fraction.....	175,05
e) For each additional doctor in the unit, per hour or fraction.....	8,59
f) For each additional Nurse in the unit, per hour or fraction.....	5,59
g) For each additional nursing assistant in the unit, per hour or fraction.....	3,48
h) For each additional volunteer.....	2,08

V. CONTROL REGULATIONS

Article 6.1. In accordance with the services provided, notification will be given of the amount due for its settlement within the periods of time established by article 115.1.a) and b) of the General Tax Ordinance, except for the services corresponding to the “programmed coverage of emergency health care in situations of foreseeable risk”, payment of which is to made prior to the providing of the service.

2. In accordance with the terms of article 27.2 of the revised text of the Law regulating Local Tax and with the terms established in article 92 of the General Tax Law, collaboration agreements may be made with institutions, entities and organisations representing the insurance companies and friendly societies, with the aim of simplifying the fulfilment of the formal and material obligations derived from this charge. The above mentioned Agreement will only regulate the Companies and Entities which adhere to it. The remainder will be subject to the charges established in the sections above.

VI. EXEMPTIONS AND REBATES

Article 7. No other exemptions or rebates will be granted other than those

expressly contemplated by the laws or deriving from the application of International Treaties.

VII. TAX INFRINGEMENTS AND SANCTIONS

Article 8. With regards to any kind of tax infringement and the corresponding sanctions, the regulations of the General Tax Law and the General Tax Ordinance will be applicable.

FINAL PROVISIONS

First. For all points not expressly regulated by this ordinance, the General Tax Ordinance is to be applicable.

Second. This ordinance is to come into effect on 1st January, 1997 and will remain valid until it is expressly repealed or modified ⁽¹⁾.

⁽¹⁾ The text of the transcribed ordinance is its current version and includes the modifications approved by the City Council Plenary on agreement dated 21st December, 2012, to come into effect as of 1st January, 2013 (BOCM No 309 dated 28/12/2012).

TAX ORDINANCE REGULATING THE CHARGES FOR MAINTENANCE OF THE EMERGENCY SERVICES PROVIDED BY THE MADRID CITY FIRE SERVICE

Approved by agreement of the City Council Plenary on 22nd December, 2011.

Article 1. By the powers granted by article 4 and 106 of Law 7/1985, dated 2nd April, regulating the Bases of Local Tax, and in accordance with articles 15 to 19, 20.4.k) and 57 of the revised Law regulating Local Taxes, approved by Legislative Royal Decree 2/2004, dated 5th March, and with articles 11.1.d) and g) and 48 of Law 22/2006, dated 4th July, regarding the Special Regime of Madrid as Capital, the charges for the maintenance of the emergency services provided by the Madrid City Fire Service.

I. LIABILITY

Article 2. The liability for these charges arise from the maintenance of the emergency services provided by the Madrid City Council Fire Services, regardless of whether a direct and specific service is requested or not, and the charges are payable as a consequence of the existence of these services and their permanent availability, both in terms of material and members of the fire service, capable of acting in situations of risk. Emergency services are understood, to this effect, as prevention and extinguishing of fires, prevention of ruin, construction and demolition, rescue and, in general, services of protection of persons and goods, dependent on the Madrid City Council Fire Department.

II. TAXPAYERS

Article 3. Taxpayers. Both natural and legal persons, as well as the entities referred to in article 35.4 of the General Tax Law 58/2003, dated 17th December, who benefit from or are affected by the maintenance of the emergency services referred to above, are to be considered taxpayers in the capacity of taxpayers.

Article 4. Substitutes. Notwithstanding the above article, insurance entities or companies covering risk in the city of Madrid will be considered substitute taxpayers and will be obliged to pay these charges.

III. TAX PERIOD AND ACCRUAL

Article 5.1. The charge for the maintenance of the emergency services provided by the Madrid City Council Fire Service will be payable on a periodic basis.

2. The tax period coincides with the natural year and accrual falls on the first day of the tax period.

IV. CHARGES

Article 6.1. The calculation of the amount of tax payable corresponding, on an individual basis, to each taxpayer will be determined by the application of the following formula:

$$\text{Amount of tax} = \frac{C_g \times V_{Ci}}{V_{Ct}}$$

Where C_g is the cost of maintenance of the emergency services provided by the Madrid City Council Fire Service in the exercise immediately prior to the accrual; V_{Ci} is the cadastral value as shown on the Property Tax receipt in the exercise immediately prior; and V_{Ct} represents the sum of the cadastral values of the total number of properties appearing on the register of property tax for the urban area, those with special characteristics and those in country areas, in the exercise immediately prior to the accrual.

With regards to the paragraph above, for cost of the maintenance of the emergency services provided by the Madrid City Council Fire Department, the amount determined by the Madrid Tax Agency will be established by means of the criteria defined in the technical and economic study which forms part of the records for the adoption of the agreement for establishing the tax.

2. In any event, the amount due from insurance entities or companies, as substitute taxpayers is to be equivalent to 5 percent of the premiums collected regarding insurance against fire during the exercise immediately prior to the accrual; in all cases, there is to be a limit of 90% of the annual cost to the City Council for maintenance of the emergency services notwithstanding the joint annual income from the fees that may result from the provisions of article 8.3 of this ordinance. All remaining taxpayers are to be charged by the application of the same proportion and with the corresponding limit.

V. EXEMPTIONS AND REBATES

Article 7. No other exemptions or discounts will be granted other than those expressly contemplated by the laws or deriving from the application of International Treaties.

CONTROL AND PAYMENT REGULATIONS

Article 8.1. First of all, the insurance entities are obliged to pay, by the self assessment mechanism and before 1st April of each year, 5 percent of the premiums for fire insurance collected in the exercise prior to the one before accrual. This will be discounted from the total charge.

Next, before 15th October of each year, insurance entities are obliged to communicate to the Municipal Administration the full amount of the premiums collected for fire insurance, in the exercise immediately prior to the accrual, in order to make the opportune settlements or, in the event, repayment which may be due if the payment made is in excess of the charge.

2. The taxpayers will be notified of the amount of the tax settlements in the terms established in the General Tax Law and the General Tax Control, Collection and Inspection Ordinance.

The payment is to be made within the periods of time established by the General Tax Law and the General Collection Regulations.

3. In accordance with the terms of article 27.2 of the revised text regulating Local Tax and with the terms established in article 92 of the General Tax Law 58/2003, dated 17th December, collaboration agreements may be signed with institutions, entities and organisations representing the insurance companies and friendly societies, with the aim of simplifying the fulfillment of the formal and material obligations deriving from this charge. The above mentioned agreement will only govern those companies and entities which adhere to it. The remainder will be subject to the control, settlement and payment established by this ordinance.

VII INFRINGEMENTS AND SANCTIONS

Article 9. With regards to any kind of tax infringement and the corresponding sanctions, the regulations of the General Tax Law and the General Tax Ordinance on Control, Collection and Inspection will be applicable.

TAX ORDINANCE REGULATING THE CHARGES FOR THE MAINTENANCE OF THE EMERGENCY SERVICES
PROVIDED BY THE MADRID CITY COUNCIL FIRE SERVICE

ADDITIONAL PROVISION

The charges regulated by this ordinance are not compatible with the charge of the special tax on installation, amplification or improvement of the fire fighting services levied on entities or companies which cover assets located in the municipal area of Madrid against fire, and they are excluded from paying this special tax in the event.

FINAL PROVISION

This ordinance will come into effect as of 1st January, 2012, and remain valid until its express modification or repeal⁽¹⁾.

⁽¹⁾ (BOCM No. 308 dated 28/12/2011).

TAX ORDINANCE REGULATING THE LEVY FOR ENTERING AND VISITING THE MADRID PLANETARIUM

Current wording in accordance with the modifications approved by agreement of the Plenary Session of the Town Council of 29th December 2016

Article 1. Using the powers granted by Articles 4 and 106 of Law 7/1985 of 2nd April regulating the Local System Conditions and in accordance with that set down in Articles 15 to 19, 57, and 20.4 w) of the revised text of the Law regulating Local Properties, approved by Royal Legislative Decree 2/2004 of 5th March, this Town Council establishes the levies for entering and visiting the Madrid Planetarium.

I. LIABILITY

Article 2.1. The liability of the levy referred to in this ordinance consists of the providing of the services established for the enjoyment and visiting of the Madrid Planetarium.

2. Special sessions devoted in particular to teachers so that they may become familiar with what will subsequently be conveyed to groups of children will not be subject to the payment of the levy.

II. TAXPAYERS

Article 3. The taxpayers and ratepayers for the levy referred to in this ordinance are the natural and corporate persons together with the entities referred to in Article 35.4 of Law 58/2003 of 17th December on General Taxation that request or benefit from the respective services.

III. ACCRUAL

Article 4. The levy regulated in this ordinance is accrued when the providing of the service is initiated, which will be understood to occur with the access or entry to the corresponding enclosure or installation, without said providing of the service being appropriate without the prior payment of the pertinent rate.

IV. CONDITIONS, CHARGES, AND RATES

Article 5. The corresponding charge to be paid for the providing of the service referred to in this ordinance will be determined in accordance with the following rates:

	<u>Euros</u>
a) Adults.....	4,00
b) Groups of more than 15 people.....	3,00
c) Children (aged 2 to 14)	2,00
d) People aged over 65, unemployed people, and disabled people	2,00
e) Special sessions for students, per pupil	2,00

For every 15 pupils a teacher enters free.

V. RULES OF ADMINISTRATION

Article 6.1. The levy referred to in this ordinance must be paid when the service is initiated; without this requirement its providing will not be appropriate.

2. When for reasons not imputable to the taxpayer the service is neither provided nor carried out, the refunding of the corresponding amount will be appropriate.

VI. EXEMPTIONS AND REBATES

Article 7. No further exemptions or rebates will be granted than those expressly contemplated in the laws or those deriving from the application of International Treaties.

VII. OFFENCES AND PENALTIES

Article 8. In everything relating to tax offences and their various categories, together with the penalties applying to the same, the rules established in the current General Law on Taxation will be applied.

FINAL PRECEPTS

One. For everything not expressly regulated in this ordinance the General Tax Ordinance on Administration, Collection, and Inspection will be applicable.

Two. This ordinance will come into effect as from 1st January 1999 and will remain current until its express modification or repeal⁽¹⁾.

⁽¹⁾ The text of the ordinance transcribed is that of its current wording together with the modifications approved by the Plenary Session of the Town Council by means of an agreement of 29th December 2016 which will come into effect as from 1st January 2017 (BOCM - Official Bulletin of the Region of Madrid - No. 315 of 31/12/2016).

TAX ORDINANCE REGULATING THE CHARGES FOR OBTAINING COPIES, CARTOGRAPHY, PHOTOGRAPHS AND MICROFILM

V. CONTROL REGULATIONS

Article 6. The charges regulated by this ordinance are to be paid in full before the services or activities are provided.

VI. EXEMPTIONS AND REBATES

Article 7. No other exemptions or rebates will be given apart from those expressly established by the law or those deriving from the application of International Treaties.

VII. TAX INFRINGEMENTS AND SANCTIONS

Article 8. With regards to all infringements and the corresponding sanctions of whatever category, the regulations established by the current General Tax Law will be applicable.

FINAL PROVISIONS

First. For all that which is not expressly regulated by this ordinance, the General Tax Ordinance is to be applicable.

Second. This ordinance will come into effect as of 1st January, 1999 and will remain valid until its express modification or repeal⁽¹⁾.

⁽¹⁾ The text of the transcribed ordinance is that of its current version, including the modifications approved by the City Council Plenary by agreement on 20th December, 2013, to come into effect as of 1st January, 2014 (BOCM No 308 dated 28/12/2013).

TAX ORDINANCE REGULATING THE CHARGES FOR EXAM RIGH

Current text including the modifications approved by agreement by the City Council Plenary on 28th April, 2015.

Article 1. By virtue of the powers granted by articles 4 and 106 of Law 7/1985, dated 2nd April, regulating the Bases of Local Regime and in accordance with articles 15 to 19, 20.4 and 57 of the revised text of the Law regulating Local Taxes, approved by Legislative Royal Decree 2/2004, dated 5th March, the charges for Exam Rights is established.

I. LIABILITY

Article 2. The tax liability is created by technical and administrative activity leading to the selection of civil servants or staff who have requested to participate in the corresponding admission or promotion tests to the Body or Levels of Civil Servants or to the categories of staff convoked by this City Council.

II. TAXPAYERS

Article 3. Natural persons who apply to register for the selection tests referred to in the previous paragraph will be subject to this charge.

III. ACCRUAL

Article 4.1. Accrual is produced at the time of application for registration for the selection tests.

2. Registration applications will not be processed until the charge has been paid, in the terms established in article 6 of this ordinance.

IV. TAX BASE AND CHARGE

Article 5.1. The charges corresponding to the services regulated by this ordinance are to be as follows:

TAX ORDINANCE REGULATION THE CHARGES FOR EXAM RIGHTS

	<u>Euros</u>
Subgroup A1.....	27,70
Subgroup A2.....	19,35
Subgroup C1	13,85
Subgroup C2	8,30
Professional Groups which make reference to the seventh additional provision of Law 7/2007, dated 12 th April, of the Basic Public Employee Statute	5,50

2. In those cases where the taxable person has been registered as a job seeker for a period of at least two years, with reference to the publication of the competitive exams in the Official State Bulletin, a reduction of 50% in the charges will be applicable.

In order for the above mentioned reduction in charge to be applied, the taxable person is to prove the circumstances described above, by means of presentation of the certificate of unemployment, issued by the National Employment Institute, or if pertinent, the corresponding Regional Employment Service.

V. CONTROL REGULATIONS

Article 6.1. The charges regulated by this ordinance are to be self assessment.

The taxable persons are to make the self assessment by use of the printed forms issued to this effect by the Municipal Administration, and pay the amount at any bank entity authorised before presenting the application for registration to sit the competitive exams, which is to be accompanied by the proof of payment.

However, the taxable persons will have a single and non-renewable period of ten business days, counting from the day after the publication of the Decree by which the provisional list of those accepted or rejected, to remedy the lack of payment or any other defect related to the payment of the charge which may have led to rejection or non inclusion in the said list.

Lack of proof of payment of the whole amount of the exam rights will mean the definitive exclusion of the applicant from the selective process.

2. If the taxable person is one of those mentioned in articles 5.2 or 7 of this ordinance, the documents indicated in these is to accompany the application.

3. In the event, due to causes beyond the control of the taxable person, the technical and/or administrative activity giving rise to the charge were not carried out, the corresponding amount will be reimbursed. Therefore, charges for exam rights will not be reimbursed if the candidate were rejected for the selective tests due to reasons within his/her control.

VI EXEMPTIONS AND REBATES

Article 7.1. The victims of terrorism, the spouse and their ancestors or descendants, by nature or adoption, are exempt from payment of the fee.

In order to be eligible for this exemption, the spouse who lives together or had lived together with the said victim with similar relationship is to prove this by means of a certificate proving registration with the Register of Common Law Spouses in the corresponding Autonomous Community.

For the application of this exemption, the taxable person is to provide the certificate issued by the relevant organ of the Ministry of the Interior, showing the identity of the victim, and in the event, his/her kinship.

2. Taxable persons who are, on the last day for presentation of applications, members of large families, in accordance with the terms established in Law 40/2003, dated 18th November, regarding the Protection of Large Families and other similar regulations, will be entitled to a rebate on this charge, in accordance with the following:

a) General category large families: 50 per 100.

b) Special category large families: 100 per 100.

TAX ORDINANCE REGULATION THE CHARGES FOR EXAM RIGHTS

For the application of this bonus, the taxpayer must provide a certificate or photocopy of the current valid family card issued by the competent body.

VII TAX INFRINGEMENTS AND SANCTIONS

Article 8. With regards to any kind of tax infringement or sanction, as well as the corresponding sanctions arising, the regulations established in the current General Tax Law are to be applicable.

FINAL PROVISIONS

First. For all that which is not expressly regulated by this ordinance, the General Tax Ordinance is to be applicable.

Second. This ordinance will come into effect the day after its publication in the Madrid Community Official Bulletin ⁽¹⁾.

⁽¹⁾ The text of the transcribed ordinance is the current text, including the modifications approved by the City Council Plenary by agreement dated 28th April, 2015, to come into effect as of 9th May, 2015 (BOCM number 108 dated 8th May, 2015).

TAX ORDINANCE REGULATING THE CHARGES OF THE OFFICE MADRID CITY COUNCIL BULLETIN

Current text in accordance with the modifications approved by agreement of the City Council Plenary on 28th November, 2007

Article 1. By the powers granted by articles 4 and 106 of Law 7/1985, dated 2nd April, regulating the Bases of Local Taxes and in accordance with the terms of articles 15 to 19, 20.4 and 57 of the revised text of the Law regulating Local Taxes, approved by Legislative Royal Decree 2/2004, dated 5th March, the charges for the Madrid City Council Bulletin are hereby fixed.

I. LIABILITY

Article 2. Liability is created by the providing of the following services:

- a) The placing of mandatory advertisement of tenders and adjudication of contracts of the Madrid City Council.
- b) The placing, on request of another Public Administration, or on request of private persons, of other announcements the insertion of which is not imposed by legal provision or regulation, or when, being mandatory, benefits or affects a person specifically.
- c) The supply of back issues of the Madrid City Council Bulletin, prior to 1998.

II. TAXPAYERS

Article 3. Natural and legal persons are liable to payment of the charges, in addition the entities referred to in article 35.4 of the General Tax Law 58/2003, dated 17th December, who request or either benefit or are affected by the services or activities constituting the liability.

III. ACCRUAL

Article 4. Accrual takes place on request for the service or placing of the advertisement in the Bulletin.

IV. TAX BASE AND CHARGES

Article 5.1. The fees for the services regulated in this ordinance are as follows:

	<u>Euros</u>
A) For the placement of announcements:	
For each line, 8.2 cm wide and 1 mm high	1,41
B) For each separate issue of the Official Madrid City Council Bulletin prior to 1998	0,77
2. Paper copies of the Official Madrid City Council Bulletin prior to 1997 may be obtained, the charge for which will be that corresponding to “ <i>obtaining of copies</i> ” contained in the Tax Ordinance regulating the Charges for Obtaining Copies, Cartography, Photographs and Microfilm.	

V. CONTROL REGULATIONS

Article 6. The charges regulated by this ordinance are to be self assessment. In the case of parts 1.B) and 2 of article 5, the taxpayer is to prove payment of the total amount of the charge due at the time the request for the service is made.

VI. EXEMPTIONS AND REBATES

Article 7. No other exemptions or rebates will be granted other than those established by laws or those deriving from the application of International Treaties.

VII. TAX INFRINGEMENTS AND SANCTIONS

Article 8. Regarding all types of tax infringements and the corresponding sanctions, the regulations established in the current General Tax Law will be applicable.

FINAL PROVISIONS

First. For all points not expressly regulated by this ordinance, the General Tax Ordinance will be applicable.

TAX ORDINANCE REGULATING THE CHARGES FOR THE OFFICIAL
MADRID CITY COUNCIL BULLETIN

Second. This ordinance will come into effect as of 1st January, 2001, and remain valid until its express modification or repeal⁽¹⁾.

⁽¹⁾ The text of the transcribed ordinance is the current version, including the modifications approved by the City Council Plenary by agreement dated 28th November, 2007, coming into effect as of 1st January, 2008 (BOCM number. 297 dated 13/12/2007).

TAX ORDINANCE REGULATING THE CHARGES FOR PROVIDING CIVIL MARRIAGE SERVICES ON SATURDAYS

Approved by agreement of the City Council Plenary
on 21st December, 2012

Article 1. By the powers granted by articles 4 and 106 of Law 7/1985, dated 2nd April, regulating the Bases of Local Tax, and in accordance with the terms established in articles 15 to 19 and 57 of the revised text of the Law regulating Local Tax, approved by Legislative Royal Decree 2/2004, dated 5th March, and with articles 11.d) and g) and 48 of Law 22/2006, dated 4th July, regarding the Special Status of Madrid as Capital City, the Charge for providing services of civil marriages on Saturdays is established.

I. LIABILITY

Article 2. The liability for this charge is created by the providing of civil marriages on Saturdays by the relevant municipal authorities, in the places designated to this effect by the Madrid City Council.

II. TAXPAYERS

Article 3. Natural persons are deemed taxpayers and therefore subject to payment of the charges when they are provided with the service of civil marriage on Saturday, in accordance with the terms of the above mentioned article; that is to say, the contracting parties.

III. CHARGES

Article 4. The fee corresponding to the service provided mentioned in article 2 of this ordinance is to be set at 120 euros.

IV. EXEMPTIONS

Article 5. No other exemptions or rebates will be made other than those expressly established by the Laws and deriving from the application of International Treaties.

V. ACCRUAL

Article 6. Accrual and the obligation to pay will arise when the application to receive the service is made, and this will not be provided unless the fee has been paid.

VI. CONTROL, SETTLEMENT AND PAYMENT

Article 7. The payment of the fee is to made prior to the celebration of the marriage, therefore the service will not be provided unless proof is given of said payment.

The Municipal Administration will issue the preceptive settlement, and the amount of the fee is to be paid into any of the collaborating financial entities, within the time limits established by the General Ordinance on Control, Collection and Inspection, and in all events, before the service is provided.

VII. TAX INFRINGEMENTS AND SANCTIONS

Article 8. With regards to tax infringements, of all categories, and their corresponding sanctions, the regulations established by the current General Tax Law will be applicable.

FINAL PROVISION

This ordinance is to come into effect as of 1st January, 2013, and remain valid until its express modification or repeal ⁽¹⁾.

⁽¹⁾ (BOCM No. 309 dated 28/12/2012).

TAX ORDINANCE REGULATING THE CHARGES FOR PROVIDING TEACHING SERVICES FOR THE COURSES FOR ENTRANCE OR PROMOTION FOR CIVIL SERVANTS BELONGING TO THE LOCAL POLICE FORCE

Approved by agreement of the City Council Plenary held on 19th
December, 2014

I. NATURE AND BASIS

Article 1. By the powers granted by articles 4 and 106 of Law 7/1985, dated 2nd April, regulating the Bases of Local Tax and in accordance with the terms established in articles 15 to 19 and 57 of the revised text of the Law regulating Local Taxes, approved by Legislative Royal Decree 2/2004, dated 5th March and articles 11.d) and g) and 48 of Law 22/2006, dated 4th July, on the Special Regime of Madrid as Capital City, the charges for providing teaching services for the courses for entrance or promotion of civil servants belonging to the Local Police force are established.

II. LIABILITY

Article 2. The liability for the charges is created by the providing of teaching services for the courses for entrance or promotion of civil servants belonging to the Local Police force.

III. TAXPAYERS

Article 3. The municipalities requesting the teaching services producing the liability are deemed taxpayers and liable to pay the charges.

IV. ACCRUAL

Article 4. Accrual is created and the charges are to be paid when the application to register for the entrance and promotion courses is made.

V. TABLE OF CHARGES

Article 5. The charges will be as follows:

<u>COURSES</u>	<u>Euros/pupil</u>
a) Courses for corporals	840.00
b) Courses for sergeants	840.00
c) Courses for NCOs	840.00
d) Courses for officers	2.360,00
e) Courses for deputy inspectors	2.360,00
f) Courses for inspectors	2.360,00

VI. EXEMPTIONS AND REBATES

Article 6. No other exemptions or rebates will be granted other than those expressly established in law or deriving from the application of International Treaties.

VII. CONTROL, SETTLEMENT AND PAYMENT REGULATIONS

Article 7.1. The payment of the charge is to be made prior to the start of the course, and therefore the service will not be provided unless proof of payment has been made.

The Municipal Administration will issue the mandatory settlement and this amount is to be paid into any of the collaborating financial entities, within the period of time established by the General Tax Ordinance on Control, Collection and Inspection and in all cases, payable before the service is provided.

2. When, for reasons beyond the control of the taxpayer, the course does not take place, the corresponding amount will be reimbursed.

VIII. TAX INFRINGEMENTS AND SANCTIONS

Article 8. With regards to all types of tax infringements of whatever category, and the corresponding sanctions, the terms established in the

TAX ORDINANCE REGULATING THE CHARGES FOR PROVIDING TEACHING SERVICES FOR THE
ENTRANCE AND PROMOTION COURSES FOR CIVIL SERVANTS BELONGING TO THE LOCAL POLICE

current General Tax Law and in the General Tax Ordinance on Control, Collection and Inspection will be applied.

FINAL PROVISIONS

First. For all points not expressly regulated in this ordinance, the General Tax Ordinance on Control, Collection and Inspection will be applied.

Second. This ordinance will come into effect as of 1st January, 2015 and will continue to be valid until its express modification or repeal⁽¹⁾.

⁽¹⁾ (BOCM number 310 dated 30/12/2014).

RATES

By private use or special use

TAX ORDINANCE REGULATING THE TAX ON EXCLUSIVE OR SPECIAL USE OF THE LOCAL PUBLIC DOMAIN

Current text in accordance with the modifications approved by agreement of the Council Plenary dated 29th December, 2016

Article 1. By the powers granted by articles 4 and 106 of Law 7/1985, dated 2nd April, regulating the Local Tax Bases, and in accordance with the terms of articles 15 to 19 of the revised text of the Law regulating Local Taxes, approved by Legislative Royal Decree 2/2004, dated 5th March, this Council hereby establishes the tax on exclusive or special use of the local public domain, which will be governed by this tax Ordinance, the regulations of which are in accordance with articles 20 and following of the above mentioned revised text.

I. LIABILITY

Article 2. The liability for the tax is created by exclusive or special use of local public domain of the land, underground utilities or apron by use of:

- A) Billboards, scaffolding and other utilities of a similar nature, with or without advertising.
- B) Passage of vehicles or carriages on the pavement or sidewalks.
- C) Reserving of space in the local public domain for exclusive parking of vehicles or for occupancy with other types of machinery, equipment, huts or other elements.
- D) Stalls located in separate spots on the public thoroughfare or in street markets.
- E) Terraces (open air cafés and bars).
- F) Exercise of commercial, industrial or recreational activities.
- G) Occupying of the land, apron or underground utilities for private use, with cash registers, fuel supply nozzles, manholes and transformers, cables, pipelines, rail tracks or other similar elements.
- H) Petrol pumps.
- I) Openings for test pits, wells, ditches, rail tracks, installation of posts, channeling work, supply lines and, in general, any movement of the pavement or sidewalks on the public thoroughfare.
- J) Containers, industrial sacks or other container elements for inert

waste.

K) Free distribution of newspapers or magazines.

L) Any other special use not described in this section.

II. TAXPAYERS

Article 3. Natural or legal persons or the entities referred to in article 35.4 of the General Tax Law 58/2003, dated 17th September, who use the local public domain in any way for specific or exclusive purposes as defined above, are to be considered taxpayers and liable to this tax.

Article 4.1. The owners of property and premises which give access to vehicles are to be considered substitute taxpayers with regards to this tax on the exclusive or special use of entrances for vehicles or carriages which cross the pavement and their construction, maintenance, modification or removal, and as such, are liable for this charge.

2. In those cases where the substitute taxpayer is the actual tax collecting entity, this charge will be the direct liability of the taxpayer as indicated above.

III. ACCRUAL

Article 5. The tax is accrued in accordance with its taxable nature and in accordance with the following:

a) In cases of temporary use or for periods of less than a year, when the exclusive or special use commences and the tax period is to include the length of time authorised.

b) Regarding permanent use, the first day of the tax period is the same as that of the natural year, except in cases where the exclusive or special use starts or ends at another time, in which case it will be accrued at this time and in both cases, the tax period will be adjusted to this circumstance and be divided into natural quarters.

IV. BASES, RATES AND AMOUNTS

Article 6. The amount of tax to be paid for each kind of use of the local public domain, as governed by this ordinance, will be determined by a fixed amount or depending on the tax rate applicable, as established in the relevant sections of this ordinance.

Article 7. The tax bases are those defined, according to the relevant

section describing each specific use.

Article 8.1. In order to determine the rates applicable, the roads in the municipal area will be classified into nine categories, as determined by the street index included as an attachment to the General Tax Ordinance.

2. However, when a road or part of a road does not appear in the Road Tax Index, it will be provisionally classified for tax purposes in accordance with the following rules:

a) If it is a newly opened road, it will be considered as the last category of those included in the Road Tax Index.

b) If it is a pre-existing road, it will be considered as the last category that the Road Tax Index designated to the road where it is located.

The above will not be applied where the type of road classification has been changed.

3. When the space affected by the use is at the junction of two or more public thoroughfares classified in different categories, the rate applying to the highest category will be applied.

4. Municipal parks, gardens and pastureland will be included with 1st category roads.

5. The charge for use of municipal land will be levied at the rate for the highest category this borders with, plus an increase of 20 per cent, as shown below.

Article 9. When public tender is used, the amount of tax will be determined by the value of the proposal on which the concession, authorisation or adjudication falls.

Section A) Billboards and scaffolding and other structures of similar nature, with or without advertising

Article 10.1. As a tax base, the square metres of public thoroughfare delineated or overhung by the billboards, scaffolding or other appropriate installations.

2. The rate depends on the area and overhang occupied, as well as the category given to the road or part of the road where they are located, in accordance with the following scale:

TAX ORDINANCE REGULATING THE TAX ON EXCLUSIVE OR SPECIAL USE OF THE LOCAL PUBLIC DOMAIN

	<u>STREET CATEGORY</u>								
	<u>1st</u>	<u>2nd</u>	<u>3rd</u>	<u>4th</u>	<u>5th</u>	<u>6th</u>	<u>7th</u>	<u>8th</u>	<u>9th</u>
	<u>Euros</u>								
As a general rule									
1. For each m ² or fraction of public thoroughfare occupied by billboards marking building sites, demolition sites or house refurbishment, up to three metres high, by the month or fraction.....	20,40	12,61	8,03	5,21	3,54	2,36	1,60	1,11	0,75
2. For each m ² or fraction of the public thoroughfare occupied by scaffolding or metal meshwork, overhung or supported by the ground, up to three metres high, per month or fraction	10,19	6,30	4,01	2,59	1,76	1,18	0,80	0,55	0,37
3. For each section of three metres or fraction excess height over the three initial metres, per month or fraction	5,10	3,14	2,00	1,30	0,88	0,58	0,40	0,28	0,18

3. In the case of work being done on commercial establishments or shops with billboards or scaffolding, the amount resulting from the application of the rates mentioned in this section will be multiplied by 1.5.

4. When billboards and scaffolding or metal mesh are installed

simultaneously, the rate for billboards will be applied for the first three metres and that of scaffolding for the excess height.

5. In the case of billboards and scaffolding on the public thoroughfare containing advertising, as well as the amount mentioned in the above rates, another settlement is to be paid, depending on the tax category of each road or part of the road where these are located, using the following scale:

	<u>STREET CATEGORY</u>								
	<u>1st</u>	<u>2nd</u>	<u>3rd</u>	<u>4th</u>	<u>5th</u>	<u>6th</u>	<u>7th</u>	<u>8th</u>	<u>9th</u>
	<u>Euros</u>								
For each m ² or fraction of the occupation of the apron of the public thoroughfare with awnings or advertising posters on billboards or scaffolding, per month or fraction	20,40	13,26	10,20	7,14	5,61	4,59	3,83	2,81	0,77

The area liable to tax will be the extension in square metres of the advertisement exhibited, with a maximum limit of 75 per cent of the total area of the awning or advertising poster. To this regard, the area of the advertisement exhibited will be defined by the rectangle or virtual space including all the elements of the message.

For the purposes of this section, the advertisements exhibited on the billboards and scaffolding are to be considered as advertising as understood by article 1.2 of the Ordinance Regulating Outdoor Advertising.

Section B) Passage of vehicles

Article 11.1 The amount of tax for each vehicle passing will be determined by the following formula:

Tax rate = Occupation variable + Intensity of use variable

2. The occupation variable will be the result of multiplying the occupation rate by the length, in linear metres, of the passage of vehicles.

Therefore, the occupation rate represents the value of the square metre of the area which is used specially for the passage of vehicles, and will be a fixed rate, depending on the tax category of the street where the passage

of vehicles is located, in accordance with the road classifications contained in the attachment to the General Tax Ordinance on Control, Collection and Inspection, in accordance with the following table:

	<u>STREET CATEGORY</u>								
	<u>1st</u>	<u>2nd</u>	<u>3rd</u>	<u>4th</u>	<u>5th</u>	<u>6th</u>	<u>7th</u>	<u>8th</u>	<u>9th</u>
For each linear metre per year.....	97,66	€73,24	€54,93	€41,20	€30,90	€23,18	€17,38	€13,04	€ 9,78

The length of the passage of vehicles, in linear metres, will be determined to two decimal points.

For this purpose, the length of passage will be understood to be the number of linear metres of the space free for vehicles to go in and out, adding one metre on each side or, if there were a curbside, the number of linear metres of the lower curb, if this measurement were higher.

If there are two or more adjacent passages of vehicles with a distance between each other of less than two metres or they should share a curbside, the linear metres corresponding to each one would be determined in proportion to the free space of each one with regards to the whole length of the curbside, or, if greater, the distance between the start of the free space of the first passage and the end of the free space of the last plus one metre on each side.

For passage of vehicles with no curbside at petrol stations, the total length of the existing passages may in no case exceed that resulting from multiplying the number of lines or lanes with pumps, car wash or other similar services, by ten metres.

3. Generally, the intensity of use variable quantifying the use of passage of vehicles is calculated for each square metre of the garage area, car park or premises affected by this.

In garages or car parks with rotation, the intensity of the use variable is to take this into account.

In all events, the spaces in a garage or car park are considered to be subject to rotation when they can be used alternately by different users, usually for a short or medium length stay.

The intensity of use variable will be found by multiplying the amount shown on the tables below, as per area of garage, car park or premises in square metres.

a) Garages and car parks with no rotation. The amounts established below will be applied to passage of vehicles into garages or residential car parks and those where the characteristic use of the spaces is not transitory or rotational:

	<u>STREET CATEGORY</u>								
	<u>1st</u>	<u>2nd</u>	<u>3rd</u>	<u>4th</u>	<u>5th</u>	<u>6th</u>	<u>7th</u>	<u>8th</u>	<u>9th</u>
For each square metre of the garage, car park or premises, per year	1,04 €	0,78 €	0,58 €	0,44 €	0,33 €	0,25 €	0,18 €	0,14 €	0,10 €

b) Garages and car parks with rotation. The amounts shown below are to be applied to passage of vehicles into garages or car parks where the characteristic use of the space is rotational:

	<u>STREET CATEGORY</u>								
	<u>1st</u>	<u>2nd</u>	<u>3rd</u>	<u>4th</u>	<u>5th</u>	<u>6th</u>	<u>7th</u>	<u>8th</u>	<u>9th</u>
For each square metre of area of the garage, car park or premises, per year.....	1,73 €	1,30 €	0,97 €	0,73 €	0,55 €	0,41 €	0,31 €	0,23 €	0,17 €

To determine the intensity of use variable applicable to mixed car parks or garages, where there is both rotational use and private use of the garage spaces, the area corresponding to each use will be taken into account, multiplying each of the said areas by the rates established in letters a) or b) above. The final rate will be determined by the sum of the two.

A garage or car park will be considered mixed when the area to be used for rotational purposes is clearly separated and definable from the area for private continual use.

With regards to the above, the area of the garage, car park or premises affected by the passage of vehicles will be that established by the land registry and, failing this, that shown on the relevant urban licence.

4. For those properties which due to their urban nature, have passage of vehicles for exclusive use of emergency services, the intensity of use variable referred to in point 3 above will not be applicable.

5. For properties with more than one passage of vehicles, the rate will be calculated by application of the following rules:

a) The occupation variable will be calculated separately for each one and the final amount will comprise the sum of each of the resulting amounts.

b) The intensity of use variable will be that corresponding to the passage of vehicles located in the street with the highest category.

When the garage or car park is considered mixed, the intensity of use variable will be determined in accordance with the terms established in point 3 above and the street category corresponding to the passage of vehicles will be the one with the highest category.

However, if the access to the spaces used for rotation are separate from those used for private garage spaces or with no rotation, the charge applicable to the different areas will be the one corresponding to the passage of vehicles with the highest category of those affected by each of the above mentioned areas.

c) The tax due will be the result of adding together the amounts for the occupation and intensity of use variables, calculated as laid out in letters a) and b) above.

6. The tax period for permanent passage will include the natural year, with accrual on 1st January each year, except for commencement and finalising of the use, as established in article 5.b) of this ordinance. In the case of provisional passages authorised for work sites, the amounts due resulting from the application of the charges shown in the previous section of the ordinance will be proportioned for the authorised period of time.

Section C) Reservation of local public domain space for the exclusive parking of vehicles or occupation by other types of machinery, equipment, work site huts and other elements

Article 12.1. The tax base for use of the public thoroughfare to reserve space for exclusive parking of vehicles, is to be the length expressed in linear metres, parallel to the edge of the pavement of the reserved zone.

2. The tax base for use of the public thoroughfare to reserve space for occupation by other kinds of machinery, equipment or other elements and/or work site huts will be the area expressed in square metres in the reserved area.

3. The above mentioned reservation of space will be in accordance with the following charges:

	<u>Euros</u>
1. Reserving of permanent space for parking of vehicles: Per linear metre or fraction per year	217,97
2. Reserving of temporary space for parking of vehicles: Per linear metre or fraction and day or fraction	0,58
3. Reserving of temporary space for occupation by other kinds of machinery, equipment, work huts for sales of flats, watchmen, staff clothing or other elements: Per square metre or fraction per day or fraction	0,58
4. Reserving of space established in general if related to the better ordering of urban transit is not subject to the tax, neither are those established for head and end of the line of regular collective passenger transport carrying out services within the Metropolitan Area of Madrid.	
5. Where parking at an angle is authorised, the amounts will be increased by 50 per 100.	

Section D) Stalls located in separate locations on the public thoroughfare or street markets

Article 13.1. The tax base will be the total area occupied, expressed in square metres.

2. The charge will depend on the category of the street and the different kinds of use, as indicated below:

Group 1. Permanent stalls

1.1. Permanent stalls which cannot be dismantled

Those installed for retail of articles for an annual period or more, when the installation remains in place during the whole period, are subject to the following charges:

TAX ORDINANCE REGULATING THE TAX ON EXCLUSIVE OR SPECIAL USE OF THE LOCAL PUBLIC DOMAIN

	<u>STREET CATEGORY</u>			
	<u>1st and 2nd</u>	<u>3rd and 4th</u>	<u>5th and 6th</u>	<u>7th, 8th and 9th</u>
	<u>Euros</u>			
1.1.1. Sweets and dried fruits stalls, per m ² or fraction per year	143,96	77,40	40,82	21,12
1.1.2. Newspaper and magazine stalls per m ² or fraction per year	261,52	140,63	74,15	38,37
1.1.3. Kiosks and ice cream and refreshment stands, per m ² or fraction per year	452,61	243,36	128,26	58,77
1.1.4. Chestnut and roast potato stands, per stall per year	71,98	38,70	20,40	10,58
1.1.5. Stalls for sale of articles not specifically mentioned previously per m ² or fraction per year.....	314,30	169,01	89,13	46,10

Craft goods stalls authorised on Avda. de Felipe II are to pay the charge mentioned in point 1.1.5.

1.2. Permanent stalls which can be removable.

Those installed for retail of articles for an annual period or more, when they are dismantled each day are subject to the following charges:

	<u>STREET CATEGORY</u>			
	<u>1st and 2nd</u>	<u>3rd and 4th</u>	<u>5th and 6th</u>	<u>7th, 8th and 9th</u>
	<u>Euros</u>			
1.2.1. Sweets and dried fruits stalls, costume jewellery and hand crafted products per m ² or fraction per year	119,95	64,50	34,02	17,63
1.2.2. Stalls selling articles not specified above per m ² or fraction per year.....	218,33	117,40	61,91	32,03

Group 2. Temporary stalls

1.1. Temporary stalls which cannot be removable.

Those installed for a determined period when the installation remains in place for the whole period in question are subject to the following charges:

	<u>STREET CATEGORY</u>			
	<u>1st and 2nd</u>	<u>3rd and 4th</u>	<u>5th and 6th</u>	<u>7th 8th and 9th</u>
	<u>Euros</u>			
1.1.1. Stalls selling tickets per stall and season.....	235,38	126,56	66,76	34,53
1.1.2. Kiosks or ice cream and refreshment stalls, per m ² or fraction and season fraction	282,88	152,10	80,16	36,73
1.1.3. Chestnut and roast potato stalls per stall and season.....	35,99	19,35	10,20	5,29
1.1.4. Stalls selling articles not specified in the above per m ² or fraction per month.....	21,79	11,71	6,17	3,20

1.2. Temporary stalls that can be dismantled.

Those installed for retail of articles during a determined period when removable daily are subject to the following charges:

	<u>STREET CATEGORY</u>			
	<u>1st and 2nd</u>	<u>3rd and 4th</u>	<u>5th and 6th</u>	<u>7th, 8th and 9th</u>
	<u>Euros</u>			
1.2.1. Stalls selling tickets per stall and authorised period.....	196,49	105,67	55,73	28,84
1.2.2. Stalls selling authorised articles not detailed in the other rates, per m ² or fraction per month or fraction	18,20	9,78	5,15	2,68

Group 3. Stalls in street markets

Stalls set up in street markets will be subject to the following charges:

	<u>For each stall</u>
	<u>Euros</u>
For each m ² or fraction per day or fraction.....	0,24

Group 4. Stalls in the Plaza Mayor

Use of space authorised in the Plaza Mayor, for the Christmas market, are subject to the following charges:

1. Covered stalls for the authorised period of time, at a rate of 24,27 euros per square metre or fraction.
2. Christmas tree stalls for the authorised period: each module 145,62 euros.

Group 5. Stalls in the “Rastro” Area

The area comprising the Rastro street market includes the roads and streets mentioned below, and is separated into 3 categories for the purpose of setting the tax rate:

First category. Area comprising calle Ribera de Curtidores; area comprising plaza de Cascorro, between calle de San Millán and Ribera de Curtidores and between calle Embajadores up to the corner with calle Encomienda; Ronda de Toledo, from Colegio Público Santa María 193 linear metres on the pavement (odd numbers); calle Maldonadas on the pavement (odd numbers).

Second category. Calle de Amazonas; Plaza del General Vara del Rey; calles de Carlos Arniches, San Cayetano, from number 4 to Ribera de Curtidores, Fray Ceferino González, to numbers 9 and 10 both inclusive, Mira el Sol, from Plaza del Campillo del Mundo Nuevo and calle Ribera de Curtidores; Plaza del Campillo del Mundo Nuevo; pavements of Ribera de Curtidores and those of Plaza de Cascorro.

Third category. Calles de Rodrigo de Guevara; Mira el Río Alta, between the streets Carlos Arniches and Bastero; Carnero, between the streets Ribera de Curtidores and Mira el Río Baja; Callejón del Mellizo; calle Mira el Río Baja.

The use of the Rastro area is subject to the following charges:

	<u>STREET CATEGORY</u>		
	<u>1st</u>	<u>2nd</u> <u>Euros</u>	<u>3rd</u>
1. Stalls exclusively authorised for installation on Sundays and holidays:			
1.1. Per m ² or fraction, per month	11,30	8,50	7,03
1.2. For each metre or fraction exceeding 2 m ² , per month	22,75	16,92	14,06

	<u>STREET CATEGORY</u>		
	<u>1st</u>	<u>2nd</u>	<u>3rd</u>
	<u>Euros</u>		
1.3. Similar posts to the previous ones that are authorized to the holders of the commercial establishments to be installed before the establishments and in which the activity of sale is not realized, but only expose to the public of merchandise	4,35	3,77	3,18

If in the unlikely event that the dimensions of the above mentioned stalls were exceeded, a surcharge of 100 per cent would be due.

2. For stalls authorised for one or more specific days, but no more than four days a year, the charge per square metre or fraction and day would be 2,51 euros.

Section E) Terraces and outdoor cafés

Article 14.1. For use of the public thoroughfare, municipal parks and gardens with tables, chairs, sunshades and other elements providing shade from the sun; for hedges, lattice work and other elements marking out or conditioning the terrace, the area occupied by the same is to be calculated in square metres.

2. The period will include the season or natural year and the charge will be a fixed amount, with no reductions, unless the commencement does not coincide with first day of the year or season, respectively, or if an extension licence had already been issued, the charge would be divided into natural months.

3. The amount will depend on the nature of use, street category and authorised area, in accordance with the following groups and scales:

Group 1. Ordinary occupation

	<u>STREET CATEGORY</u>			
	<u>1st and 2nd</u>	<u>3rd and 4th</u>	<u>5th and 6th</u>	<u>7th, 8th and 9th</u>
	<u>Euros</u>			
a) Ordinary occupancy with tables and chairs, per m ² or fraction and season (eight months)	73,98	39,77	20,96	10,83

b) When the use of the thoroughfare is on the Paseo de la Castellana or Paseo del Pintor Rosales, the charges will be increased by 50 per 100.

c) The following surcharges are to be applied to the charges shown above:

1.º For vertical marking of the area. When elements are installed which mark out vertically the whole or partial area occupied by the outdoor café, the highest of the rates shown below:

- 50 per 100 for lightweight constructions.

- 20 per 100 when hedges or potted plants, lattice work or other fixed or mobile separating elements are used, provided their height is not more than 1.40 metres. If any of the elements mentioned above is more than 1.40 metres high, the 50 per 100 surcharge will be applicable.

2.º Use of the apron. 20 per 100 when sunshades, awnings or any other element using the public thoroughfare apron are installed.

3.º For use of the land. 20 per 100 when wood flooring or other similar floorings are installed.

d) As a general rule, the surcharges mentioned in letter c) above will be compatible with each other and will be applied separately on the charges established in letter a) or, where applicable, to the results of applying the surcharge mentioned in letter b), and with regards to the whole area occupied by the outdoor café. However, the 50 per 100 surcharge for vertical marking of the area and the surcharge for use of the apron will not be compatible and when this applies, only the biggest surcharge will apply.

Group 2. Occupation of municipal parks, closed in gardens and meadows

For use of municipal parks, closed in gardens and meadows, the amount of the charge will be determined by the area occupied by tables and chairs, the other elements installed and the period of time authorised:

Euros

a) Per 3,24 m ² area occupied by tables and chairs (eight months).....	97,05
---	-------

b) The charge above will be liable to the same surcharges and rules for application as in letters c) and d) of group 1.

4. For outdoor cafés authorised for a full year and of the same area all year round, the rates will be as shown in this section E) elevated to twelve months. Therefore, the ratio obtained by dividing the relevant charge by eight is to be multiplied by twelve.

When, in the terms established by the Ordinance regulating outdoor cafés and refreshment stalls, the authorisations for year-round functioning permits the occupation of different sized areas depending on the time of year, the rates of this section E) will be calculated regarding the area authorised for each period of time and the amount due will be determined by the sum of the resulting amounts.

Section F) Exercise of commercial, industrial or recreational activities on the public thoroughfare or in municipal parks or meadows

Article 15. The exercise of the above mentioned activities will be subject to the rates specified for each of the following groups:

Group 1. Recreational activities carried out outside fairs or public holidays

The use of the public thoroughfare in municipal parks, gardens or meadows for recreational activities held outside public holidays are subject to the following charges:

	<u>Euros</u>
1. Enclosures and awnings used for circus performances, per m ² or fraction and day	0,31
2. Commercial tombolas, swings, roundabouts, funfair side shows, per m ² or fraction, per month or fraction	9,07
3. Dances, concerts, shows and similar entertainments, per 100 m ² or fraction and day	14,92

The additions which may pertain to large fair rides, such as home caravans, electrical supply vans, etc., storage and other similar units will be liable to similar increased charges.

Group 2. Open air dances, fairs, festivals and other recreational activities

1. The use of the public thoroughfare or municipal parks and gardens used for open air dances, fairs and festivals will be subject to the following charges:

	<u>Euros</u>
1. Enclosures and awnings used for circus performances, per m ² or fraction per day	0,79
2. Bars, picnic areas, taverns, churro stalls, refreshments, tombolas, raffles, swings, side show stalls, stalls selling toys, costume jewellery, sweets and other fairground installations, for the authorised period per m ² or fraction	24,27
3. Areas used for late night open air cafés at fairs, festivals or open air dances for the authorised period per m ² or fraction	4,85
4. Dances, concerts, performances and similar entertainment, per 100 m ² or fraction and day	39,90
5. Covered or open stalls selling books, stamps or advertising, at fairs, festivals or open air dances during the authorised period per m ² or fraction	12,13

Euros

6. Covered or open stalls selling or displaying books or stamps installed in the Parque del Retiro, during the authorised period per m² or fraction..... 12,13

2. When the use referred to above is related to Carnival or the Feasts of San Isidro, la Almudena, San Antonio, San Lorenzo, San Cayetano and la Paloma, these charges will have a 50 per cent surcharge, except for the first two, which will have a surcharge of 20 per cent.

3. The additions which may pertain to large fair rides, such as home caravans, electrical supply vans, etc., storage and other similar units will be liable to similar increased charges.

Section G) Occupation of land, underground or apron or private use, cash registers, fuel pumps, manholes and transformers, cables, pipelines, rails and other similar elements

Article 16. Except in the cases where there is a special agreement or regulation, the following charges will be applied:

Euros

- | | |
|--|-------|
| 1. Cash registers or fuel pumps, pillars, posts, lamp posts, or any other element which does not exceed half m ² , per semester or fraction | 9,39 |
| 2. The same elements exceeding that up to two m ² , per semester | 37,62 |
| 3. For each manhole, transformer or scale where occupancy of the public thoroughfare does not exceed 20 m ² , per semester | 49,78 |
| 4. All the above, when they exceed 20 m ² area, per m ² or fraction exceeding this, per semester | 1,23 |
| 5. Occupancy of the land, apron or underground on the public thoroughfare with cable or pipe lines and of rails for railway trucks or others, notwithstanding the licence rights for their installation, are to pay per linear meter or fraction, per semester | 1,37 |

Article 21.1. Any authorised use not described in this ordinance will pay the charges related to the category of the street per m² or fraction per period of ten days or fraction..

4,55	2,82	1,79	1,16	0,79	0,52	0,36	0,24	0,16
------	------	------	------	------	------	------	------	------

2. The amount of the charges in section L) will be reduced to 50% in the case of the Non Profit Organisations referred to in article 2 of Law 49/2002, dated 23rd December, on the tax regime for non profit organisations, provided the use of the public domain is directly linked to the carrying out of activities constituting their social aim or purpose and do not provide any profit to the beneficiaries or payees.

In order to benefit from the reduced rates referred to above, advance proof will be required by the corresponding municipal organ of the fulfilment of the requirements established by article 3 of the revised Law 49/2002, dated 23rd December, and the free nature of the activities to be carried out.

V. DESTRUCTION OR DETERIORATION

Article 22. When any of the uses of the local public domain lead to their destruction or deterioration, the beneficiary, notwithstanding the payment of the charges in question, will be liable for payment of the costs of repairs and replacement and the prior depositing of this amount.

If the damage were irreparable, the City Council will be compensated by an amount equal to the value of the goods destroyed or the amount of the damage.

VI. EXEMPTIONS AND REBATES

Article 23.1. The following are exempt from payment of the charges regulated in this ordinance: the State, Autonomous Communities and local Entities when they make exclusive or special use inherent to public communications services exploited directly and which are of immediate interest to public safety or national defense.

2. Apart from the above mentioned exceptions included in the revised text of the Law regulating Local Taxes, no other exemptions or rebates will be allowed other than those expressly established in law or those deriving from the application of International Treaties.

VII. CONTROL REGULATIONS

Article 24.1. The charges for permanent or temporary use implicitly granted will be made periodically by natural year or season, as applicable.

Notwithstanding the terms of the above, when new permanent use is commenced after the start of the natural year, the settlement will be issued for the period of time from the first day of the quarter when the liability is incurred and the 31st December of the same year.

For temporary use commencing after the period of settlement, this will be issued for the period running from the first day of the month when the liability is incurred and the last day of the season.

2. The charge for use of passage of vehicles referred to in section B), will be made by registration or number plate, and the payment of the annual fees is to be made during the period running from 1st April to 31st May, or

the day following immediately afterwards.

Notwithstanding the above paragraph, the payment of the amounts due may be divided up, with no additional surcharge or interest, into two parts: the first being 60 per cent of the amount due, on the ending of the voluntary payment period, and the second, the remaining 40 per cent on 30th November, or the day immediately afterwards.

If, for reasons within the interested party's control, the first payment referred to above were not made within the period, the instalment payments would rendered inapplicable. In this case, the executive period for full payment of the debt would come into effect with the corresponding surcharges, interest and costs.

This interest-free instalment payment will require that a standing order be opened at a banking entity or Savings Bank and the corresponding form filled out to this effect.

The request will become effective from the tax period after this, unless the request were made by telecommunications methods or in person at the municipal customer services offices pertaining to the Madrid City Council, before 20th February; in this case, it would apply to the exercise in which the request was made.

If the said request is made in this way after the 19th February and before the end of the period for voluntary payment of this tax, the standing order will be automatically understood to correspond to full payment within the tax period and not to the part payment system. Exception will be made where the request was formulated after the registration for the tax was made and there already is a standing order, and in this case, it will apply as of the following exercise.

In cases regarding the start of the use, which is deemed granted from the moment the passage of vehicles licence is granted, the taxpayer will be obliged to deposit the amount in advance, and therefore settlement will be issued during the quarter corresponding to the estimated date of the completion of the work up until 31st December of the same year. Settlement will be spread over natural quarters in the case of finalising of the use of the passage.

3. For permanent use, where the tax is demanded periodically by municipal or site registration, taxpayers are obliged to declare, within a

period of ten days, any changes to either the use or the benefit, as well as ownership of the premises or land, including termination and other relevant tax circumstances regarding the same. The non fulfilment of this liability will constitute a tax infringement as expressed in the General Tax Law and the provisions complementing it, as included in the General Tax Ordinance on Control, Collection and Inspection.

4. The tax on use of the public thoroughfare with hoardings, scaffolding or other similar elements will be settled and paid for in full in advance, that is to say, before the licence for any kind of work requiring these installations is handed over, in accordance with the municipal ordinances.

In the same way, when the municipal licence for display of advertisements on hoardings, scaffolding or similar elements is required, the settlement referred to in article 10.5 of this ordinance is to be paid in advance, before the collection of the corresponding licence.

The time authorised for occupancy of the public thoroughfare with any of the elements mentioned will be calculated by the Government Department for Technical Services or the corresponding Districts, depending on the complexity and features of the work to be carried out, and, in the case of advertisements placed on hoardings, scaffolding or similar elements, on the terms established in article 38.2 of the Ordinance Regulating Outdoor Advertisements.

When this period of time is not sufficient to finalise the work, the holder of the licence is to request an extension and pay the corresponding charge for the new period of time authorised, before the said period ends.

5. In the cases of use of containers described in section J), the tax is to be paid by self assessment made at the same time as the application for authorisation or communication of the use to be made of the space, as is demanded of producers of waste in accordance with the terms of article 74 of the Madrid City Council Ordinance on Mobility.

When the time for self assessment requested or notified is not sufficient, a new period is to be applied for and a new self assessment made.

6. The tax on occupancy of the land, apron or underground utilities for private use mentioned in section G) is to be controlled by municipal registration and the payment is to be made annually within the period and conditions established in the current General Tax Ordinance on Control, Collection and Inspection.

7. As a general rule and except in the cases contemplated above, the settlements are to be issued and the interested parties notified; these are to be paid within the periods established in the current General Tax Ordinance on Control, Collection and Inspection; otherwise, it is to be charged at the start of the executive period.

8. In cases of temporary use or for a period of less than one year and for start up of permanent use, where authorisation has not been requested, the taxpayer is to present either the tax return or the self assessment before the accrual mentioned in article 5 is produced.

9. When, for reasons beyond the control of the taxpayer, the right to use of the public domain cannot be made, the corresponding amount will be reimbursed.

10. Self assessment is required for the taxes referred to in this ordinance, before accrual, and the payments are to be made within the prescribed period to the collaborating entities defined in article 3.e) of the Ordinance establishing the Regime of Control of Urban Activities Licence, dated 29th June, 2009.

VIII. INFRINGEMENTS AND SANCTIONS

Article 25. With regards to tax infringements of all kind and their respective sanctions, those established in the current General Tax Law and the General Tax Ordinance are to be applied.

TRANSITORY PROVISION

First. The installation of advertising awnings or posters on hoardings, scaffolding or similar elements authorised as of 1st January, 2011, or the extension of those already existing, will pay at the rate referred to in article 10.5 of this ordinance; as of this date, those which are not at this time duly authorised are to be taxable, regardless of the disciplinary and sanctioning regime applicable to them.

Second. The corresponding charges for authorisations to use the local public domain for night time open air cafés for the months of November and December, 2011, in accordance with the Ordinance Regulating Night Refreshment Stands and Night Open air cafés will be calculated by applying the charges listed in section E) of this ordinance in instalments, as per the area authorised for each period.

Third. The settlements for passage of vehicles corresponding to 2017

will be sent individually to the taxpayers, using the data at the disposal of the Municipal Tax Administration. In general, the settlements due for the years 2018 and henceforth included in the relevant registration will be subject to collective notification, in accordance with articles 24.2 of this ordinance and also with the General Tax Ordinance on Control, Collection and Inspection.

FINAL PROVISION

This ordinance will come into effect as of 1st January 1999 and remain valid until its express modification or repeal ⁽¹⁾.

⁽¹⁾ The transcribed text of the ordinance is its current version, including the modifications approved by the City Council Plenary by agreements dated 29th December, 2016, coming into effect as of 1st January, 2017 (BOCM No. 315 dated 31/12/2016).

TAX ORDINANCE REGULATING THE TAX ON EXCLUSIVE OR SPECIAL USE OF THE LOCAL PUBLIC DOMAIN FOR SPECIAL ADVERTISING CAMPAIGNS

Current text in accordance with the modifications approved by agreement of the Council Plenary dated 20th December, 2013

Article 1. By the powers granted by articles 4 and 106 of Law 7/1985, dated 2nd April, regulating the Bases of Local Tax, and in accordance with the terms established in articles 15 to 19 and 57 of the revised text of the Law regulating Local Taxation, approved by Legislative Royal Decree 2/2004, dated 5th March, and with articles 11.d) and g) and 48 of Law 22/2006, dated 4th July, on the Special Regime of Madrid as a Capital City, the tax on exclusive or special use of the local public domain for the development of special advertising.

I. LIABILITY

Article 2.1. The liability is created by the exclusive or special use of the local public domain for the development of promotions, communication events or advertising campaigns of a commercial nature for specific brands, products or services, by marketing technique practices in said public domain ("street marketing").

With regards to this ordinance, it should be borne in mind that "street marketing" is understood to comprise the overall set of non-conventional events and techniques which include games, entertainment, shows, presentations and other similar actions, the general purpose of which is to generate a greater advertising impact, by establishing direct and interactive contact with the general public.

2. The performances listed below will not be deemed part of the taxable event and are therefore governed by their own regulations or contractual obligations:

- a) The display of advertisements on hoardings and scaffolding.
- b) The installation of advertising on urban furnishing elements owned by the public.
- c) Advertising events of institutional or charitable nature.

II. TAXPAYERS

Article 3. Natural or legal persons, as well as the entities referred to in article 35.4 of the General Tax Law 58/2003, dated 17th December, are considered taxpayers when they benefit personally or make special use of the local public domain, in accordance with the previous article.

III. ACCRUAL AND TAX PERIOD

Article 4. The tax is accrued at the start of the exclusive use of the local public domain, regardless of whether the compulsory municipal permit has been requested or not.

However, the exclusive or special use of the local public domain is understood to commence as soon as authorisation is granted or from the date credible proof exists that exclusive or special use has begun.

Article 5. The tax period will coincide with the length of the exclusive or special use of the local public domain, which, as a general rule, will appear on the authorisation.

IV. RATES

Article 6.1. The rates for the exclusive or special use of the local public domain for the organisation of marketing technique events in the local public domain ("street marketing") will be estimated by the following formula:

$$\text{Tax rate} = \text{FA} \times \text{CFS}$$

Where FA is the audience factor; and CFS is the for area factor ratio.

2. The audience factor represents the value in euros of the number of impacts the advertising event generates on an area of 100 m².

In order to estimate the audience factor, the streets and public spaces within the municipal area of Madrid where these kinds of events are held have been divided into fifteen categories, according to the Fiscal Audience Index, included as an annexure to this tax ordinance.

Depending on the street category, the following amounts are established with regards to the audience factor:

TAX ORDINANCE REGULATING THE TAX ON EXCLUSIVE OR SPECIAL USE OF THE LOCAL PUBLIC DOMAIN
FOR SPECIAL ADVERTISING CAMPAIGNS

<i>Street Category</i>	<i>Charge/day (euros)</i>
1 st	7.260,06
2 nd	6.820,06
3 rd	6.380,06
4 th	5.940,06
5 th	5.500,06
6 th	5.060,06
7 th	4.620,06
8 th	4.180,06
9 th	3.740,06
10 th	3.300,06
11 th	2.860,06
12 th	2.420,06
13 th	1.980,06
14 th	1.540,06
15 th	1.100,06

In those cases where the space in which the event is taking place is located at a junction between two or more public thoroughfares with different category classification in the Fiscal Audience Index, the highest category rate will be charged.

If the public space occupied does not appear in the Index, it will be provisionally classified as the lowest category for the District in which it is located. In the case of change in classification, the category in which it previously appeared before will be applied.

When determining the audience factor, the length of the advertising event is to be taken into account, as well as the number of days it lasts, including the installation and dismantling processes.

Fractions of a day will be considered as whole days.

3. The area factor ratio will be determined by the area of public domain used for the advertising event, expressed in square metres.

As a general rule, the total surface area, which is to include the whole

TAX ORDINANCE REGULATING THE TAX ON EXCLUSIVE OR SPECIAL USE OF THE LOCAL PUBLIC DOMAIN
FOR SPECIAL ADVERTISING CAMPAIGNS

area necessary for the correct execution of the event, and where pertinent, the reservation of another area required to hold the audience, is to coincide with that stated on the permit.

The ratio applicable is established in accordance with the following area sizes:

<i>Area size</i>	<i>Area factor ratio</i>
Up to 100 m ²	1
From 101 m ² to 250 m ²	1,2
From 251 m ² to 500 m ²	1,4
From 501 m ² to 1.000 m ²	1,6
From 1.001 m ² to 5.000 m ²	2
From 5.001 m ² to 10.000 m ²	2,5
Over 10.000 m ²	3,5

V. DESTRUCTION OR DETERIORATION

Article 7. When the exclusive or special use of the local public domain is coupled to its destruction or deterioration, the beneficiary, regardless of the rate chargeable, will be obliged to pay the total cost of the respective reconstruction or repairs and prior deposit of this amount.

If the damage is irreparable, the Council will be compensated for the full amount of the property or goods destroyed or the amount of the deterioration.

VI. EXEMPTIONS AND REBATES

Article 8. No exemptions or rebates will be granted other than those expressly contemplated in law or those deriving from International Treaties.

VII. CONTROL REGULATIONS

Article 9.1. The tax regulated by this ordinance will be paid by self

assessment.

Taxpayers are to carry out a self assessment and pay the amount in to any of the authorised banking authorities before the permit will be handed over, and is subject to proof this payment has been made.

2. When, due to causes beyond the control of the taxpayer, the right to exclusive or special use of the local public domain cannot take place, the corresponding amount will be reimbursed.

VIII. INFRINGEMENTS AND SANCTIONS

Article 10. With regards to all kinds of tax infringements and their corresponding sanctions, the terms established by the current General Tax Law and the General Tax Ordinance on Control, Collection and Inspection will be applied.

TRANSITORY PROVISION

Where the exclusive or special use of the local public domain for the organisation of this kind of advertising events is requested prior to 1st January, 2013, the tax due will be that regulated by this ordinance for the occupation as of this date.

FINAL PROVISION

This ordinance will come into effect as of 1st January, 2013, and remain valid until its express modification or repeal⁽¹⁾.

⁽¹⁾ The transcribed text is that of the current version, including the modifications approved by the Council Plenary by agreement on 20th December, 2013, coming into effect as of 1st January, 2014 (BOCM No. 308 of 28/12/2013).

TAX ORDINANCE REGULATING THE TAX ON SPECIAL USE OF LOCAL PUBLIC DOMAIN FOR THE USE OF CASH DISPENSERS BELONGING TO FINANCIAL ENTITIES

Approved by agreement of the City Council Plenary on 29th
December, 2016

I. NATURE AND BASIS

Article 1. By the powers granted by articles 4 and 106 of Law 7/1985 dated 2nd April, regulating the Local Tax Bases and in accordance with the terms established in articles 15 to 19 of the revised text of the Law Regulating Local Taxes, approved by Legislative Royal Decree 2/2004, dated 5th March, this Council establishes the Tax for exclusive or special use of the public domain for use of cash dispensers belonging to financial entities.

II. LIABILITY

Article 2. The liability for the tax on special use of the local public domain for carrying out bank operations at the cash dispensers belonging to the financial entities which are located inside the facade of the respective buildings and which only have access from the public thoroughfare.

III. SUJETOS PASIVOS

Article 3. Natural and legal persons are deemed taxpayers and therefore liable to this tax, in addition to the entities referred to in article 35.4 of the General Tax Law 58/2003, dated 17th December, who obtain special benefit from the special use of the public domain.

With regards to the above, special benefit is understood to be obtained by the owners of the financial entities where the cash dispensers are installed.

IV. TAX PERIOD AND ACCRUAL

Article 4.1. Taxable from the first day of the tax period, coinciding with the natural year, except in those cases where the use commences or finalises, in which case the tax period will be as follows:

TAX ORDINANCE REGULATING THE TAX ON THE SPECIAL USE OF LOCAL PUBLIC DOMAIN FOR THE USE
OF CASH DISPENSERS BELONGING TO FINANCIAL ENTITIES

In the case of commencement, from this day until the 31st December.

The use will be understood to commence the day the cash dispenser can be used for the first time.

In the case of finalising of the use, from 1st January until the day on which the service ceases.

2. Where the tax period does not coincide with the natural year, the tax will be divided into natural quarters.

V. CHARGES

Article 5.1. The charge consists of a fixed yearly amount per cash dispenser installed inside the facade of a building with direct access from the public thoroughfare, to be determined by the tax category of the street where it is located, in accordance with street classification listed in the annexure to the General Tax Ordinance on Control, Collection and Inspection.

2. The amount of the tax is shown below:

<u>Category of street where the cash dispenser is located</u>	<u>Euros/year</u>
1 st category.....	742,22 €
2 nd category.....	541,98 €
3 rd category.....	360,34 €
4 th category.....	235,66 €
5 th category.....	153,88 €
6 th category.....	100,60 €
7 th category.....	62,22 €
8 th category.....	40,42 €
9 th category.....	26,21 €

VI. EXEMPTIONS

Article 6. No other exemptions or rebates will be conferred apart from those expressly contemplated by the laws or deriving from the application of International Treaties.

VII. CONTROL REGULATIONS

Article 7.1. This tax will be controlled by registration, and the payment is to be made annually in the period between the 1st April and the 31st May or the next working day.

2. However, when the tax is paid for the first time, self assessment is to be made by the taxpayer, who will have ten days counting from the start of the service at the cash dispenser to pay the amount due at any of the collaborating financial entities.

3. When for reasons beyond the control of the taxpayer, the right to use of the public domain may not be exercised, the corresponding amount will be reimbursed.

VIII. INFRINGEMENTS AND SANCTIONS

Article 8. With regards to all kinds of tax infringements and the corresponding sanctions, the terms established in the current General Tax Law and in the General Tax Ordinance for Control, Collection and Inspection will be applicable.

TRANSITORY PROVISION

During the period 2017 the control of this fee will be made by settlement, and the Municipal Tax Administration will inform the taxpayers. To this effect, the financial entities will be obliged to present, within the first quarter of the year, a statement showing the cash points belonging to them which are located on the facade line and which have access from the public thoroughfare and located within the municipal limits of Madrid. This tax statement, together with the remaining data known as a consequence of checking and research actions, will form the basis for the approval of these settlements for the period of 2017 and to draft the registration of the tax for periodical payment and collective notification of the settlements corresponding to the successive periods.

TAX ORDINANCE REGULATING THE TAX ON THE SPECIAL USE OF LOCAL PUBLIC DOMAIUN FOR THE USE
OF CASH DISPENSERS BELONGING TO FINANCIAL ENTITIES

FINAL PROVISION

This ordinance will come into effect on 1st January, 2017, and remain valid until its express modification or repeal⁽¹⁾.

⁽¹⁾ (BOCM No. 315 date 31/12/2016).

TAX ORDINANCE REGULATING THE TAX ON THE EXCLUSIVE AND SPECIAL USE OF LAND, UNDERGROUND OR APRON OF THE PUBLIC THOROUGHFARE BY COMPANIES EXPLOITING SUPPLY SERVICES

Current legislation in accordance with the modifications approved by City Council Plenary, on 23rd December, 2009

Article 1. By the powers granted by articles 4 and 106 of Law 7/85 dated 2nd April, regulating the Basis of the Local Tax Regime and in accordance with articles 15 to 19 of Law 39/88, dated 28th December⁽¹⁾, this Council establishes the rates for exclusive and special use of the land, underground or apron of the public thoroughfare in favour of companies Exploiting Supply Services, governing this tax Ordinance, the regulations of which agree with the terms established in articles 20 and following of the above mentioned Law 39/88 in its current text provided by Law 25/1998 dated 13th July, modifying the Legal Regime for State and Local Taxes.

I. LIABILITY

Article 2. The liability is created by the exclusive or special use of the land, underground or apron of municipal public thoroughfares by companies Exploiting Supply Services in the general interest or affecting the main part or a considerable portion of the neighbourhood.

II. TAXPAYERS

Article 3.1. Natural and legal persons are to be deemed taxpayers and as such liable to it, in addition to the entities referred to in art. 33 of the General Tax Law⁽²⁾ owners of companies exploiting supply services, regardless of whether they are public or private, and of whether they own the corresponding networks by means of which they carry out the supply service or if they, whilst not owning the said networks, they have the right to use, access or interconnection with them.

⁽¹⁾ Any remission in this ordinance to Law 39/1988, dated 28th December, are to be deemed effected by the revised text of the Law regulating Local Taxes, approved by Legislative Royal Decree 2/2004, dated 5th March.

⁽²⁾ The reference contained in this precept to article 33 of the General Tax Law is understood to be made effective by 35.4 of General Tax Law 58/2003, dated 17th December.

TAX ORDINANCE REGULATING THE TAX ON EXCLUSIVE OR SPECIAL USE OF THE LAND,
UNDERGROUND OR APRON OF THE PUBLIC THOROUGHFARE BY COMPANIES EXPLOITING SUPPLY
SERVICES

2. To this regard, in addition to the companies exploiting these services, distributing and commercialising companies will also be included.

3. Mobile telephone services are exempted from the above mentioned regime.

III. TAX PERIOD AND ACCRUAL

Article 4. This tax is of a periodical nature, accrued on the first day of the tax period, which will coincide with the natural year, except in the case of start up or finalising of the exclusive or special use, in which the tax period will be adapted to these circumstances, an divided into full, natural quarters.

IV. BASES, TYPES AND AMOUNTS

Article 5.1. The base will comprise the net income from the annual invoicing obtained by the Companies mentioned in article 3 within the municipal area of Madrid.

2. Net income from annual invoicing within the municipal area by the above mentioned Companies is to refer to that obtained in the same period by the latter as a consequence of the supply provided to users, including that obtained from rental and conservation of equipment or installations belonging to these Companies or from users, used to provide the above mentioned services, as well as the amounts received by the owners of the networks in concept of access or interconnection to the same.

3. In any case, the invoicing is to include the amount of all the supplies provided to users in the municipal area of Madrid even when the installations set up to provide a specific supply are located outside this area or do not totally or partially occupy the public thoroughfare.

4. The following concepts will not be considered net income from invoicing:

- a) Indirect taxes that tax them.
- b) Exploitation or monetary grants, both public and private, that the Companies may receive.
- c) The amounts that may be received by donation, inheritance or any other lucrative source.

TAX ORDINANCE REGULATING THE TAX ON EXCLUSIVE OR SPECIAL USE OF THE LAND,
UNDERGROUND OR APRON OF THE PUBLIC THOROUGHFARE BY COMPANIES EXPLOITING SUPPLY
SERVICES

- d) Compensation demanded by third parties for damages.
- e) On financial products, such as dividends, interest and any other similar product.
- f) Amounts from seizure of assets and rights forming part of their estate.
- g) Third party consignments or amounts charged which do not constitute income for the entity subject to this special regime.
- h) In general, any income not deriving from invoicing within the municipal area for services which constitute the main activity of the service supply Companies.

5. The income referred to in point 2 of this article will only be reduced in the following cases:

- a) Amounts incorrectly invoiced and which have been cancelled or rectified.
- b) Amounts paid to other companies in return for access or interconnection to their networks, where external networks are used to carry out the supply.

Article 6.1. The amount of the tax will be result of applying one point five to the base rate.

2. This is compatible with the charges established for providing of services or the carrying out of activities.

V. EXEMPTIONS AND REBATES

Article 7. No other exemptions or rebates will be permitted other than those expressly established by the laws or deriving from the application of International Treaties.

VI. CONTROL

Article 8. The companies exploiting the supply of services are to present to the relevant tax office, before 30th April each year, a complete list of all the data mentioned below, which refers to the exercise immediately prior, so that the Municipal Administration may issue the above mentioned

TAX ORDINANCE REGULATING THE TAX ON EXCLUSIVE OR SPECIAL USE OF THE LAND,
UNDERGROUND OR APRON OF THE PUBLIC THOROUGHFARE BY COMPANIES EXPLOITING SUPPLY
SERVICES

settlements:

a) Amount of the gross income from invoicing to final consumers, obtained within the municipal area of Madrid, indicating the number of clients invoiced.

b) Total of the amounts received from third parties for access or interconnection rights to their networks, indicating which taxpayers have paid and the amount corresponding to each one.

c) Total amounts paid for access or interconnection rights belonging to third parties, indicating the owners of these networks and amounts.

d) Amount, in the event, of income not included in the invoices, considered third party amounts, indicating who these are.

Article 9.1. The Municipal Administration will issue quarterly settlements, and these will be of provisional nature.

The amount of each quarterly settlement will be obtained by applying 1.5% on one fourth of the gross income invoiced by the taxpayer in the municipal area of Madrid in the immediately previous exercise, and declared in accordance with the terms of this article.

The amounts settled by the taxpayer for each of the quarterly settlements will be considered as paid towards the settlement as established in part 2 of this article.

2. In view of the data declared by the taxpayer, in accordance with article 8 of this ordinance, the Municipal Administration will practice the corresponding settlement for the whole exercise.

From the amount of tax payable the corresponding amounts will be deducted regarding the quarterly settlements made in accordance with the terms of point 1 of this article.

However, if the payments made to account should exceed the amount of the tax, the excess amount would be compensated in the following quarter.

The settlement referred to herein will be of provisional nature until after the opportune verifications are made and the definitive settlement is issued or the limitation period of four years from the day after the finalising of the

TAX ORDINANCE REGULATING THE TAX ON EXCLUSIVE OR SPECIAL USE OF THE LAND,
UNDERGROUND OR APRON OF THE PUBLIC THOROUGHFARE BY COMPANIES EXPLOITING SUPPLY
SERVICES

presentation of the tax return referred to above has elapsed.

3. The rules of control referred to in this section will be of complementary nature when agreements between the Madrid Council and the Companies Exploiting Supply Services exist.

VII. INFRINGEMENTS AND SANCTIONS

Article 10. With regards to all kinds of tax infringements as well as the corresponding sanctions, the terms established in the current General Tax Law and General Tax Ordinance will be applied.

FINAL PROVISION

This ordinance will come into effect as of 1st January 1999 and remain valid until its express modification or repeal⁽³⁾.

⁽³⁾ The text of the transcribed ordinance is the current version, including the modifications approved by the Plenary by agreement on 23rd December 2009, and coming into effect as of 1st January 2010 (BOCM No. 309 dated 30/12/2009).

TAX ORDINANCE REGULATING THE TAX ON EXCLUSIVE AND SPECIAL USE OF THE GROUND, UNDERGROUND OR APRON OF THE PUBLIC THOROUGHFARE BY COMPANIES EXPLOITING MOBILE TELEPHONES

Current text in accordance with the modifications approved by agreement of the Council Plenary on 21st December, 2012

Article 1. By the powers granted by articles 4 and 106 of Law 7/1985, dated 2nd April, regulating the Local Tax Bases, and in accordance with articles 15 to 19 of the revised text of the Law regulating Local Taxation, approved by Legislative Royal Decree 2/2004, dated 5th March, and 48 of Law 22/2006, dated 4th July regarding the Special Status and Regime of Madrid as Capital City, this Council establishes the Tax on the Exclusive and Special Use of the Ground, Underground or apron of the Public Thoroughfare to companies exploiting Mobile Telephone Services, which is to be governed by this tax ordinance, the regulations of which conform to the terms established in article 24.1.a) and to the above mentioned revised text.

I. LIABILITY

Article 2. The liability is created by the exclusive or special use of the ground, underground or sides of the municipal public thoroughfares, by Companies Exploiting Mobile Telephone Services whose services are totally or partially provided by resources belonging to the latter, such as fixed aerals, micro-cells, networks or installations which materially occupy said municipal public domain.

II. TAXPAYER

Article 3. The companies or entities exploiting Mobile Telephone Services, regardless of the public or private nature of the same, and owning the corresponding aerals, micro-cells, networks or installations by which the communications are carried out, are to be deemed liable to the tax.

III. TAX PERIOD AND ACCRUAL

Article 4. This tax is of periodical nature and is accrued on the first day of the tax period, which is to coincide with the natural year, except when the commencement or end of the exclusive and special use, in which the tax period will be adjusted to these circumstances, and the amount due will be paid in natural full quarterly installments, in accordance with the following rules:

a) For commencement, the tax period is to coincide with the natural quarters remaining until the end of the exercise, counting from the date the exclusive or special use begins.

b) For ending of the services, the tax period is to coincide with the natural quarters which have passed since the beginning of the exercise, counting from the date the exclusive or special use ended.

IV. TAX AMOUNTS

Article 5. The amount of tax payable, depending on the mobile telephone resources installed in this municipality and the reference value of the municipal land, is to be quantified individually for each operator, by applying the following calculation formula:

$$TC = \text{basic } \text{€/m}^2 \times MPC \times CFA \times \text{Area} \times T \times CV$$

Where TC is the tax charge of each taxable person, fixed by the following parameters:

a) basic €/m²: 83,51 euros.

b) MWC: Weighting coefficient for mobile services with regards to the whole number of communications services provided by the taxpayer. It is expressed as a determined percentage for each operator in accordance with the number of prepaid and postpaid mobile lines over the total number of active land and mobile lines in the city at the date of the accrual. The result of applying this coefficient may not exceed 68 €/m².

c) FCA: Correction factor fixed at a coefficient of 0.25 applicable to those liable to the tax whose number of active prepaid and postpaid mobile lines in Madrid is no greater than 100.000.

TAX ORDINANCE REGULATING THE TAX ON EXCLUSIVE AND SPECIAL USE OF THE GROUND,
UNDERGROUND OR APRON OF THE PUBLIC THOROUGHFARE BY COMPANIES EXPLOITING MOBILE
TELEPHONES

d) Area: Area occupied by the operator. This will be fixed by applying the linear metres of openings or channeling carried out by the taxpayer, with regards to the data held by the Municipal Administration, the average width used for the installation of telecommunications networks of 0.65 m² per linear metre.

e) T: Time of duration of the exclusive or special use, expressed in the unit corresponding to the year, or in the event, quarterly fraction of the same (1, 0,25, 0,5 or 0,75).

f) CV: is the charge weighted on both the use of the apron made by the operators by the installation of elements such as micro-cells, relays or other similar elements on building facades, constructions and urban furnishings, such as greater traffic intensity allowing these resources to be used. It is determined by applying a coefficient on the taxable amount in accordance with the following scale:

1 to 100 elements installed: coefficient 1,05

101 to 200 elements installed: coefficient 1,10

201 elements and over: coefficient 1,15.

V. EXEMPTIONS AND REBATES

Article 6. No other exemptions or rebates will be granted apart from those deriving from the application of International Treaties.

VI. CONTROL REGULATIONS

Article 7.1. Those liable to the tax are to present to the Municipal Administration, before 31st January of each year, a comprehensive list of the data specified below, all of which refer to the accrual date, as listed in point 2 of this article:

a) Number of prepaid and postpaid mobile telephone lines which are active in the municipal area of Madrid and corresponding to subscribers with home address within the city.

b) Number of landlines active in Madrid, corresponding to subscribers with home address within the city.

c) Number of micro-cells, relays and similar elements installed within

TAX ORDINANCE REGULATING THE TAX ON EXCLUSIVE AND SPECIAL USE OF THE GROUND,
UNDERGROUND OR APRON OF THE PUBLIC THOROUGHFARE BY COMPANIES EXPLOITING MOBILE
TELEPHONES

the city.

2. The municipal administration will make quarterly charges in the months of March, June, September and December, for 25 per cent of the amount corresponding to the annual charge.

3. These charges will be deemed provisional until they have been opportunely verified and the definitive charge is made or the limitation period of four years counting from the day after the presentation limit referred to in point 1 of this article is up.

VII. INFRINGEMENTS AND SANCTIONS

Article 8. Regarding all kinds of tax infringements and their corresponding sanctions, the terms of the current General Tax Law and the General Tax Ordinance will be applied.

FINAL PROVISION

This ordinance is to come into effect as of 1st January, 2008⁽¹⁾.

⁽¹⁾ The transcribed text of the ordinance is its current version, including the modifications approved by the Council Plenary by agreement on 21st December, 2012, coming into effect as of 1st January 2013 (BOCM number 309 dated 28/12/2012).

TAX ORDINANCE REGULATING THE LEVIES FOR THE PARKING OF VEHICLES IN CERTAIN AREAS OF THE CAPITAL

Current wording in accordance with the modifications approved by agreement of the Plenary Session of the City Council of 29th December 2016

Article 1. Using the powers granted by Articles 4 and 106 of Law 7/1985 of 2nd April regulating the Local System Conditions and in accordance with that set down in Articles 15 to 19 of the revised text of the Law regulating Local Properties, approved by Royal Legislative Decree 2/2004 of 5th March, this City Council establishes the levies for the parking of vehicles in certain areas of the capital, which will be governed by this tax ordinance, the rules of which are in keeping with that contemplated in Articles 20 and the following of the aforementioned revised text.

I. LIABILITY

Article 2. The liability consists of the parking of vehicles in areas where the duration of parking is limited as regulated in the Ordinance of Mobility for the City of Madrid with the restrictions contemplated in it.

Article 3. The following vehicles are excluded from the restriction of the duration of the parking and are not subject to the payment of the levies:

1. Motorbikes, cycles, mopeds, and bicycles.
2. Those parked in areas reserved for their category or activity.
3. Taxis which are in service and when their drivers are present, public service vehicles for hire with a driver under the same conditions, and taxis adapted for the transport of persons with reduced mobility (eurotaxis), including when in order to allow suitable access to or leaving the same by the persons with reduced mobility which they transport it is necessary for the driver to leave the vehicle momentarily.
4. Those owned by duly identified Bodies of the State, Autonomous Regions, Provinces, and Municipalities during the providing of services of their competence.
5. Those intended for healthcare belonging to the Social Security, the Municipal Care Service for Emergencies and Rescue (Servicio de Asistencia Municipal de Urgencia y Rescate, SAMUR), or the Spanish Red Cross and ambulances; together with those corresponding to the providing of social services of the City Council of Madrid, such as those of telecare, laundry, meal delivery services, and day centres, providing that the parking occurs during the providing of the services that characterise them and that

they display the appropriate external markings that allow their identification.

6. Those used for transporting persons with reduced mobility which display the corresponding special authorisation subject to the prescriptions and limits established in said special authorisation and provided that the holder of said authorisation is being transported.

7. Vehicles of diplomatic representation accredited in Spain that are externally identified with diplomatic number plates and on the condition of reciprocity.

8. Those owned by municipal public employees when the parking occurs during the exercising of their public duties and provided that the corresponding authorisation issued by the City Council of Madrid is displayed in the terms established in the same.

9. Cars, light vans, vehicles with more than eight seats, and vehicles for the transport of merchandise classified on the Register of Vehicles of the General Traffic Headquarters as Battery Electric Vehicles (BEV), Range-Extended Electric Vehicles (REEV), or Plug-in Hybrid Electric Vehicles (PHEV) with a minimum range of 40 kilometres, or fuel cell vehicles, provided that by prior application they have obtained the corresponding parking authorisation granted by the City Council of Madrid for the purpose.

II. TAXPAYER

Article 4. Taxpayers of the levy are those who especially enjoy, use, or exploit the local public domain for personal benefit in the areas of parking of a limited duration.

III. ACCRUAL

Article 5.1. In general the obligation to contribute originates from the time when the vehicle is parked in the regulated parking areas.

2. Nevertheless, in the case of the annual parking of the vehicles of residents authorised to park in the spaces referred to in Point 2 of the following article of this ordinance the accrual of the levy will occur on 1st January each year.

To these effects the resident must not only hold the annual authorisation to park during the year immediately prior to that of the accrual and maintain the conditions for renewing the authorisation; he must also have paid the amount of the levy prior to the date of accrual.

3. In the cases of the groups classed as "Holders of commercial and industrial vehicles", as "Holders of car repair shops", and as "Multiuser vehicle or car sharing companies" referred to in Article 64.3 of the

TAX ORDINANCE REGULATING THE LEVIES FOR THE PARKING OF VEHICLES IN CERTAIN AREAS OF THE CAPITAL

Ordinance of Mobility for the City of Madrid, accrual will also occur on 1st January each year if the circumstances expounded in the second paragraph of the previous point arise.

4. In cases of registrations or authorisations for periods of less than one year for residents of the groups classed as "Holders of commercial and industrial vehicles", as "Holders of car repair shops", and as "Multiuser vehicle or car sharing companies", the accrual will occur on the first day of the period for which the parking is authorised.

IV. CONDITIONS, CHARGES, AND RATES

Article 6.1. To the effects of this exaction the following rates are established:

	<i>BLUE SPACES</i>			
	<i>Basic rate (euros)</i>			
<i>* SER = Regulated Parking Service (Servicio de Estacionamiento Regulado)</i>	<i>Low Emission Areas</i>	<i>Other SER*</i>	<i>Differentiated Healthcare Establishment Zone</i>	<i>Differentiated Long Stay Zone</i>
- Parking a vehicle for up to five minutes (minimum rate)	0,05	0,05	0,05	
- Parking a vehicle for twenty minutes	0,25	0,25	0,20	-
- Parking a vehicle for half an hour	0,45	0,40	0,30	-
- Parking a vehicle for an hour	1,20	1,10	0,60	0,50
- Parking a vehicle for an hour and a half	2,05	1,70	0,90	-
- Parking a vehicle for two hours...	2,95	2,75	1,20	1,00
- Parking a vehicle for two and a half hours	4,00	3,80	1,55	-
- Parking a vehicle for three hours	5,40	5,20	1,85	1,50
- Parking a vehicle for three and a half hours	6,90	6,70	2,20	-
- Parking a vehicle for four hours ..	8,40	8,20	2,75	2,00
- Parking a vehicle for five hours...	-	-	-	2,50

TAX ORDINANCE REGULATING THE LEVIES FOR THE PARKING OF VEHICLES IN CERTAIN AREAS OF THE
CAPITAL

BLUE SPACES

Basic rate (euros)

	<i>Low Emission Areas</i>	<i>Other SER*</i>	<i>Differentiated Healthcare Establishment Zone</i>	<i>Differentiated Long Stay Zone</i>
- Parking a vehicle for six hours	-	-	-	3,00
- Parking a vehicle for seven hours	-	-	-	3,50
- Parking a vehicle for eight hours.	-	-	-	4,00
- Parking a vehicle for nine hours..	-	-	-	4,50
- Parking a vehicle for ten hours ...	-	-	-	5,00
- Parking a vehicle for eleven hours	-	-	-	5,50
- Parking a vehicle for twelve hours	-	-	-	6,00

GREEN SPACES

Basic rate (euros)

	<i>Low Emission Areas</i>	<i>Other SER</i>
- Parking a vehicle for up to five minutes (minimum rate).....	0,15	0,15
- Parking a vehicle for twenty minutes	0,60	0,50
- Parking a vehicle for half an hour	1,10	0,90
- Parking a vehicle for an hour	2,35	2,05
- Parking a vehicle for an hour and a half .	3,55	3,10
- Parking a vehicle for two hours.....	4,70	4,10

Except for the first five minutes, which will not be dividable under any circumstances, the intervals of time that are intermediate between two rates will be settled by multiples of five euro cents as is detailed in the annex to this ordinance.

For the long stay rate the first sixty minutes will not be dividable.

The minimum rate of the differentiated long stay zone of 60 minutes is

TAX ORDINANCE REGULATING THE LEVIES FOR THE PARKING OF VEHICLES IN CERTAIN AREAS OF THE CAPITAL

applied from 9:00 to 21:00 hours from Monday to Friday apart from holidays, and from 9:00 to 15:00 hours on Saturdays apart from holidays, in the month of August, and on 24th and 31st December apart from holidays.

2. In order to park in the green spaces in their quarter, or in the case of boundary roads between quarters in the green spaces alongside both pavements, the residents will pay the levy corresponding to the authorisation which according to whether it is valid for a year or a month proves their status as such:

	<u>Euros</u>
Annual residents' authorisation	24,60
Monthly residents' authorisation (by month or fraction thereof).....	2,05

Said authorisation will also entitle residents to park in the blue spaces in their quarter or in the blue spaces alongside both pavements on the boundary roads between quarters, from 20:00 to 21:00 hours.

3. For the groups classed as "Holders of commercial and industrial vehicles" one of the annual or monthly rates indicated below at the request of the interested party will be applied:

<u>Duration of the parking</u>	<u>Euros</u>
a) Up to five hours per day from Monday to Saturday:	
Annual authorisation for each vehicle.....	378,00
Monthly authorisation for each vehicle (by month or fraction thereof)	31,50
b) Up to eight hours per day from Monday to Friday:	
Annual authorisation for each vehicle.....	566,40
Monthly authorisation for each vehicle (by month or fraction thereof)	47,20

In the cases of authorisations for eight hours per day, in the month of August, on Saturdays apart from holidays, and on 24th and 31st December the maximum duration of the parking will be six hours.

4. For the groups classed as "Holders of car repair shops" the annual or monthly rate given below will be applied:

TAX ORDINANCE REGULATING THE LEVIES FOR THE PARKING OF VEHICLES IN CERTAIN AREAS OF THE
CAPITAL

	<u>Euros</u>
Annual authorisation for each vehicle	378,00
Monthly authorisation for each vehicle (by month or fraction thereof).	31,50

5. For the group classed as "Multiuser vehicle or car sharing companies", the annual or monthly rate given below will be applied:

	<u>Euros</u>
Annual authorisation for each vehicle	1.800,00
Monthly authorisation for each vehicle (by month or fraction thereof).	150,00

6. The basic rates referred to in Point 1 and the annual rate applicable to the vehicles of the group classed as "Holders of commercial and industrial vehicles" referred to in Point 3 will be subject if appropriate to the corresponding surcharges and reductions according to the technology of the vehicle in accordance with the following table:

<i>TYPE</i>	<i>VEHICLE CHARACTERISTICS DEPENDING ON EMISSIONS</i>	<i>REDUCTION</i>	<i>SURCHARGE</i>
ECO	Cars, light vans, vehicles with more than 8 seats, and vehicles for transporting merchandise classified on the Vehicle Register as plug-in hybrid vehicles with a range of <40km, Hybrid Electric Vehicles (HEV), vehicles propelled by natural gas (CNG and LNG) or Liquefied Petroleum Gas (LPG). In any case they must comply with the criteria of label C.	50%	-
C	Petrol cars and light vans registered as from January 2006 and diesel cars and light vans registered as from 2014. Vehicles with more than 8 seats and for transporting merchandise, whether petrol or diesel, registered as from 2014. Those of petrol must therefore comply with the Euro 4, 5 and 6 regulations and those of diesel with the Euro 6 regulation.	10%	-

TAX ORDINANCE REGULATING THE LEVIES FOR THE PARKING OF VEHICLES IN CERTAIN AREAS OF THE CAPITAL

TYPE	VEHICLE CHARACTERISTICS DEPENDING ON EMISSIONS	REDUCTION	SURCHARGE
B	Petrol cars and light vans registered as from January 2000 and diesel cars and light vans registered as from 2006, Vehicles with more than 8 seats and for transporting merchandise, whether petrol or diesel, registered as from 2005. Those of petrol must therefore comply with the Euro 3 regulation and those of diesel with the Euro 4 and 5 regulations.	-	-
A	All vehicles not included in the above categories.	-	25%

In the case of the rates referred to in Point 2 of this article, when the vehicle is included in the ECO category the reduction contemplated in the above table will be applicable, while the vehicles included in category B and the remainder will be subject in any case to the basic rate without a surcharge.

7. In the application of the rates the following will be taken into account when appropriate:

a) Both residents and non residents are subject to the same rates for parking in blue spaces, with the exception of the case included in the last paragraph of Article 6.2 for residents.

b) The surcharges and reductions referred to in Point 6 of this precept will be applied in any case to the basic rate and the charge to pay will be the result of adding or subtracting the corresponding amounts from the basic rate.

c) In the application of the surcharges and reductions corresponding to the basic rate, once the rounding off characteristic of the rules of the euro has been applied the resulting amounts will be rounded up or down at a multiple of the nearest five euro cents.

d) The reductions or surcharges applicable owing to the technology of the vehicle will be obtained through the information provided by the parking meter by means of the corresponding connection to the details of the General Traffic Headquarters, once the registration number of the vehicle to be parked has been introduced, and in any case the remaining details requested such as the type of space or the time during which the driver wants to park.

e) In those cases in which in 18 seconds it is not possible to obtain from the parking meter the necessary information for the application, if appropriate, of the surcharges or reductions owing to the lack of communication of the parking meter itself with the computer platform, the amount corresponding to the basic rate will be paid.

The basic rate will also be applied in the case of vehicles for which the necessary details for the determining of the surcharges or reductions applicable owing to the technology of the vehicle are not available because said vehicles have not been registered with the system of the General Traffic Headquarters.

f) In those cases in which successive authorisations are requested for the same vehicle, quarter, and day the rate for the second and subsequent authorisations will be that resulting from adding the new time to that already authorised for the previous parking periods, until the maximum duration is reached according to the type of space and reducing the amount already paid.

In any case if more than 60 minutes pass between the final time of an authorisation and the initial time of the following one, the rate corresponding to the last authorisation will not take into account the time authorised in the previous ones.

g) As far as the long stay rate is concerned, in the case of requesting a first authorisation for parking during the last hour of the day for which it is demandable, said authorisation will be extended by the necessary minutes during the second daily period of regulated parking until a total of 60 minutes is reached.

8. For both green and blue spaces the supplement referred to in Article 69.3 of the Ordinance of Mobility for the City of Madrid, for an excess of up to an hour over the authorised time, will be 4 euros which cannot be divided.

V. EXEMPTIONS AND REBATES

Article 7. No further exemptions or rebates will be granted than those expressly contemplated in the laws or those deriving from the application of International Treaties.

VI. RULES OF ADMINISTRATION

Article 8.1. Except for the case of authorisations for residents and for the groups classed as "Holders of commercial and industrial vehicles", as "Holders of car repair shops", and as "Multiuser vehicle or car sharing

companies", the rate must be paid by means of the parking meters installed in the quarter where the parking occurs, or if appropriate by using the telematic means set up for the purpose.

2. The payment of the annual authorisations for residents and for the groups classed as "Holders of commercial and industrial vehicles", as "Holders of car repair shops", and as "Multiuser vehicle or car sharing companies", in the cases of the renovation of the authorisation, will be demandable during the quarter immediately prior to that of the accrual. In the cases of registration or when the assessable period does not coincide with the calendar year, it will be sufficient for the payment to be made prior to the date when the authorisation will come into effect.

In general in these cases the rate will be paid by the settlement system. The Municipal Administration will make the corresponding settlements for the purpose; authorisation will not be understood to have been obtained until payment has been made.

Nevertheless, the authorisation will be understood to have been renewed as from the payment or transfer by direct debiting in accordance with the following rules:

a) Requests for direct debiting and subsequent modifications to the details of the same must be presented up to 20th August of the year prior to that in which this will come into effect. Those presented after said date will come into effect in the second subsequent accounting period.

b) Settlements will be notified collectively by means of a census or register in the terms referred to in Article 93 of the General Tax Ordinance on Administration, Collection, and Inspection.

c) The levy will be charged to the bank account indicated by the applicant on 5th October or on the working day immediately after it.

d) Changes to the elements of the authorisation referring to the address of the holder or the authorised vehicle will not affect the details of the direct debiting which will be maintained in the same terms, unless the taxpayer makes a declaration to the contrary.

e) Once the Municipal Administration has made sure that the levy has been paid correctly it will proceed to grant the authorisations for residents and those for the groups classed as "Holders of commercial and industrial vehicles", as "Holders of car repair shops", and as "Multiuser vehicle or car sharing companies" before 1st January each year.

3. The authorisations for residents and those for the groups classed as "Holders of commercial and industrial vehicles", as "Holders of car repair

shops", and as "Multiuser vehicle or car sharing companies" may be annual or monthly according to the rates established in Article 6. Nevertheless, once authorisation has been granted for one of said periods it will not be possible to request its reduction, and the amount of the corresponding levy will not be apportionable.

VII. OFFENCES AND PENALTIES

Article 9. In everything relating to tax offences and their various categories, together with the penalties applying to the same, that set down in the current General Law on Taxation and in the General Tax Ordinance will be applied, without detriment to the application of that set down in the Ordinance of Mobility for the City of Madrid.

PROVISIONAL PRECEPT

The rate corresponding to the annual authorisations for residents and those for the groups classed as "Holders of commercial and industrial vehicles", as "Holders of car repair shops", and as "Multiuser vehicle or car sharing companies" for 2015 will be paid by the self-assessment system, the amount of which must be paid in before 20th December 2014.

FINAL PRECEPT

This ordinance will come into effect as from 1st January 1999 and will remain current until its express modification or repeal ⁽¹⁾.

⁽¹⁾ The text of the ordinance transcribed is that of its current wording together with the modifications approved by the Plenary Session of the City Council by means of an agreement of 29th December 2016 which will come into effect as from 1st January 2017. Nevertheless, on 1st June 2017 the modifications of the following articles will come into effect:

1.º Article 3.9.

2.º Article 6.1 and its annex as to the rates established for times of less than 20 minutes.

3.º Article 6.6 as to the surcharges and reductions owing to the technology of the vehicle.

4.º Article 8.2, paragraph two, as to the implementation of the settlement collection system.

(BOCM - Official Bulletin of the Region of Madrid - no. 315 of 31/12/2016).

SPECIAL LEVIES

TAX ORDINANCE REGULATING SPECIAL LEVIES

Current text including the modifications approved by agreement of the City Council Plenary on 29th October, 2004

I. TAX BASE

Article 1. The General Ordinance on Special Levies, in accordance with the terms established in the First Transitory Provision and articles 28 to 37, inclusive, of the revised text of the Law regulating Local Taxes, approved by Legislative Royal Decree 2/2004, date 5th March.

II. LIABILITY

Article 2.1. The liability regarding special levies is created when the taxable person obtains a benefit or an increase in value of his/her assets as a consequence of public works or the establishing or expansion of municipal public services, carried out by the City Council or the Entities indicated in the following paragraph.

2. The special levies may be demanded by the mere carrying out of the work or the establishing or expansion of the above mentioned services, regardless of whether they are really used or not by the taxable persons.

Article 3.1. City Council works or services are understood to include:

a) Those carried out within the area of their competence to fulfil the purposes attributed to them, with the exception of those executed as owner of its patrimonial assets.

b) Those carried out by the City Council by virtue of allocation or delegation of said works or the establishment or expansion of the services by other public Entities or those whose ownership has been assumed in accordance with the law.

c) Those carried out by other public Entities, or their licensees, with economic contributions from the Council.

2. Works or services listed in letter a) above will not cease to be considered as such even when they are carried out by autonomous Organisms or trading companies whose social capital belongs entirely to them, through licensees who contribute to the same or taxpayers associations.

3. The amounts collected from special levies may only be used to cover the expenses of the work or services giving rise to them.

III. TAXPAYERS

Article 4.1. Natural and legal persons and the entities referred to in article 35.4 of the General Tax Law 58/2003, dated 17th December, who obtain special gain from the work carried out or the establishing or expansion of municipal services giving rise to the liability for the levy are considered taxpayers.

2. The following cases will be considered reason to esteem special gain:

a) Where special levies on work or the establishing or expansion of services affects immovable property; this refers to the owners of the latter.

b) Where special levies on work or the establishing or expansion of services have a consequence on business holdings; this refers to the persons or Entities who own the latter.

c) Where special levies on work or the establishing or expansion of fire extinction services benefit, in addition to the owners of the goods affected, the insurance companies carrying out activities in this branch of insurance, within the municipal district of Madrid.

d) Where special levies on the construction of underground galleries benefit the purveying Companies which are to use them.

3. If the assets were to be subject to annual levy, the owner of the recognised domain will be liable to pay.

4. If the assets were taxed due to right of usufruct, use or occupation, the owner will have the right to be reimbursed for part of the charge, in the same proportion to the levy as the value of the corresponding real right of the capital regards the total value of the property, in the case of levies on new works or installations for the introduction of services of a permanent nature or the expansion, renovation or improvement of the same.

5. For the calculation of the real right, in the cases listed in the above point, the terms of current legislation on the Tax on Property Transfer and Documentary Duties.

Article 5. As well as the provisions mentioned above, the following rules

will be taken into account:

a) If the property improved or benefitting from the work has different owners for the direct and recognised domains, the improvements will be deemed to have been carried out by the former and with the consent of the second, with regards to any compensation due, in accordance with the current Civil Code.

b) When there is no determined owner and only a usufructuary of the assets or business benefits from the work, installations or services, the said usufructuary will be considered liable for payment of the corresponding levies.

c) In all cases of limitation or separation of domain, all notifications regarding the settlement of the levy will be sent to the owners of the property, to the bearers of the real rights or to the usufructuary, as applicable.

d) The property or land, whether transferred or not and regardless of owner, for a period of five years, counting from the creation of the liability, will be responsible for paying the corresponding levies; those assigned and not satisfied will constitute a de facto charge on the property, with legal mortgage in favour of the Council, in the manner established by article 194 of the Mortgage Law and the provisions complementing it.

IV. LIABILITY

Article 6.1. The taxable base of the special levies is set as a maximum of 90 per cent of the cost borne by the Council, in order to carry out the work or the establishment or expansion of services.

2. The cost in question includes the following concepts:

a) The real cost of the expert advice, the drafting of projects and site management, plans and technical programmes.

b) The cost of the work to be carried out or for establishment or expansion of the services.

c) The value of the land the work and service is to occupy, except for public use goods, land conceded to the Council free of charge and on a compulsory basis, or property lent under the terms established in article 77 of the State Land Law.

TAX ORDINANCE REGULATING SPECIAL LEVIES

d) Compensation from the demolition of buildings and structures, removal of plantations, works or installations, as well as those which arise from the need for demolition or occupation of those belonging to tenants.

e) Interest on the capital invested in the work or services when the Council has to resort to credit to finance the portion not covered by the special levies or the coverage of these in case of general fractioning of the same.

3. The total budgeted cost of the work or services is to be merely an estimate.

If the real cost were greater or smaller than the estimate, this will be taken into account when calculating the corresponding levies.

4. With regards to work or services, carried out by other public Entities or by their licences, using economic contributions from the Council, the taxable base for the special levies will be determined depending on the amount of these contributions, notwithstanding those that other public Administrations levy on the same work or service. In all cases, the 90 per cent limit mentioned in the first section of this article will be respected.

5. In order to determine the taxable base, the cost to the Council will be understood to be the amount resulting on subtracting from the total cost, the amount corresponding to grants or aid that the former may receive from the State or any other person or public or private Entity, if this were to exist.

6. If the above mentioned grant or aid were to be provided by a taxpayer liable for the special levy, the amount will be used, in first place, to compensate the charge to the respective person or Entity. If the value of the grant or aid were to exceed this amount, the excess would reduce the levies of the other taxpayers in proportion.

V. LEVY AND ACCRUAL

Article 7.1. The taxable base of the special levies will be shared between the taxpayers who benefit from the work, installations or services, taking into account the kind and nature of the same, in accordance with the following rules:

a) As a general rule, the linear metres, the area, the construction volume and the cadastral value of the property with regards to the Property Tax are to be applied either jointly or separately, as units for distribution of the

charge.

b) If the length of the facade of the property in question is to be considered as a unit of distribution, this is to be measured along the plot of the said properties, regardless of the way the building is laid out; overhang, open courtyards, garden zones or open spaces and, when the join between the two facades forms a bevel or a curve, for measuring purposes, half the length of the bevel or the profile of the curve is to be taken into account, and added to the lengths of the facades next to them.

c) If the distribution of the special levy is to be used for the establishing or improvement of fire protection, these are to be levied in the manner described below.

d) In the case of work referred to in part 2.d) of article 4 of this ordinance, the full amount of the special levy is to be distributed between the Companies or businesses which are to use them, in proportion to the space reserved for each one or to the total area of the same, even if they are not put into use immediately.

e) In order to determine the individual charges, not only the cost of the branch or section of the work, installation or service immediately affecting each taxpayer is to be taken into account; all the parts of the corresponding plan are to be taken into consideration when calculating the share.

f) Where appropriate, areas of the work or services may be established, depending on the extent to which there will be a benefit from said work, in order for the levy to be shared out more fairly, and with the aim of correcting these differences; this is to be inversely proportionate to the distance from the location of the works or services to the said area.

2. If a Law or International Treaty grants tax rebates, the levies corresponding to the beneficiaries would not be distributed amongst the other taxpayers.

Article 8.1. The special levies accrue as soon as the work has been executed or the service has begun. If the works are scalable, the accrual is produced for each of the taxpayers from the moment each part or section of the work has been completed.

2. Notwithstanding the above, once the specific provision and ordering agreement has been approved, the Council may request the payment of the

TAX ORDINANCE REGULATING SPECIAL LEVIES

special levies in function of the amount of the cost estimated for the following year.

The advance of a new annual amount may not be levied unless the work for which this was claimed has been carried out.

3. The time of the accrual of the special levies will be taken into account when specifying the person responsible for payment, in accordance with the terms of article 4 of this ordinance, even when he or she appears as taxpayer in the specific management agreement at the time it was approved and the former had paid the charge in advance, in accordance with point 2 of this article. When the person figuring as taxpayer in the specific management agreement, duly notified of this, transfers the rights on the goods or exploitation responsible for the levy, he or is, within the period of time running from the approval of the said agreement and the creation of the accrual, obliged to prove to the municipal Administration that this transfer has been made, within one month from this date, and if not, the above mentioned Administration may demand its payment from the person figuring as taxpayer in the said record.

4. Once the total or partial works have finalised or the service has commenced, the taxpayers will be informed of the tax base and definitive individual charges to be levied, demanding settlements where required and recognising any advance payments which may have been made.

5. If the advance payments were made by persons who are not deemed to be taxable persons on the date of accrual or have paid in excess of the corresponding definitive individual charge, the Council will make an ex officio reimbursement.

VI. TAX AND ORDINANCE

Article 9.1. The exacting of the special levies will require the prior adoption of the tax agreement by the City Council Plenary in each specific case.

2. The agreement regarding the carrying out of work or the establishing or expansion of a service which is to be paid for by special levies may not be executed until the specific ordinance has also been approved by the Plenary.

3. The above mentioned ordinance, which is of compulsory adoption, will contain the estimated cost of the work and services, the amount to be

TAX ORDINANCE REGULATING SPECIAL LEVIES

shared out amongst the beneficiaries and the share criteria, with possible reference to this General Ordinance on Special Levies, wherever applicable.

Article 10.1. Once the specific agreement on the ordinance on special levies has been approved and the amounts to be paid by the taxpayers, in application of the above, the proceedings will be published in the Comunidad de Madrid Official Bulletin, during a period of two weeks, and also placed on the City Council Decrees Notice Board. Furthermore, the taxpayers in question are to be notified where they or their addresses are known, and, failing this, by decree.

2. The interested parties may place before the City Council an administrative appeal with regards to the origin of the special levies, the percentage of the cost to be satisfied by the persons who especially gain or the amounts assigned.

VII. MEANS OF PAYMENT

Article 11. Those persons required to pay are settle the amounts assigned within the period of time established by the General Tax Regulations for Collection.

Article 12.1. During the period of voluntary payment, the taxpayer may request to pay the special levies by quarterly installments, during a maximum period of five years; to do so, a request is to be presented to the Mayoral Presidency, provided the following conditions are met:

- a) The amount due in each installment is more than 30.05 euros.
- b) The applicant agrees to pay the interest on the delayed payment current during the deferment period.
- c) The amount due for charges or interest is assured by means of one of the guarantees specified in the provisions which regulate the deferment.

2. The granting of installments will automatically be cancelled when an installment is not paid during the required period of time, and in this case, the whole amount remaining will become subject to enforced recovery, in accordance with article 60 of the General Regulations for Collection.

VIII. ADMINISTRATIVE TAXPAYER ASSOCIATIONS

Article 13.1. The owners of the property or titleholders of the companies affected by the work to be carried out or by the establishing or expansion of the services undertaken by the Council, may form an Administrative Taxpayers Association during the period that the agreement on the ordinance of special levies is on view.

2. In order to form the above mentioned Administrative Taxpayers Associations, an agreement is to be made by overall majority of those affected, provided they represent at least two thirds of the amounts to be satisfied.

Article 14.1. Once the constitution of the Administrative Taxpayers Association has been agreed upon, this is to present to the City Council, within the period the agreement is on view, with authoritative documents of the agreement reached and with the Statutes by which the Association is to be governed.

2. With the object of ensuring the fulfilment of the relevant provisions and to ensure the correct functioning of these Associations, the Mayor and the General Secretary of the City Council, where the work or service affects the whole Municipality, or the President of the District Council, and the Head of the municipal department of the same, when the work or the main part of this is to be carried out in this district are to be considered President and Secretary of these Associations, although they do not have a vote in them. These posts may be delegated to another member of the Council Corporation and to a legal officer.

3. The Municipal Government Commission is to be responsible for the approval of the Association and its Statutes, notifying of any rectification to the latter which should be introduced into them at the first signing of the document presented.

4. Once the Administrative Taxpayers Association has been constituted, none of the taxpayers may refuse to belong to it, and the agreements adopted by the Association, with the majority vote mentioned in article 14.2 of this ordinance, are to be binding for all those affected.

Article 15. All validly constituted Administrative Taxpayers Associations may request the full and direct execution of said work and services, in accordance with the project approved by the municipal administration and under the inspection of the Municipal Technical Services.

IX. PRIVATE INITIATIVE WORKS

Article 16.1. The owners of the property and title holders of the industrial and commercial establishments affected may set up their own initiative to carry out the work or establish or expand the services for the Council, committing to defray the corresponding part.

2. In order to do so, the opportune Administrative Taxpayers Association is to be constituted, with the majority, organisation and effects described above and the corresponding written request presented.

3. The Corporation will initially decide on this and the Municipal Technical Services will draw up the project and budget for the work or services or the comparison between them when presented by the interested parties, and, in the event, notify its approval.

Article 17. This corresponds to the Administrative Association referred to in the previous article:

a) The obligation to pay into the municipal coffers the total amount of the budget for the works or services before these commence, and in addition pay when due the difference which may result between the effective and estimated costs. However, when the period for the duration of the works were to exceed a year, the obligation to pay in advance could not be in excess of the amount of the corresponding annual rate.

b) The right to demand from the Council, including via urgent administrative means, the payment of the provisional and complementary amounts corresponding to each taxpayer.

X. INSTALLATION, EXPANSION OR IMPROVEMENT OF THE FIRE FIGHTING SERVICE

Article 18.1. Regarding the terms established in article 32 of the revised text of the Law regulating Local Taxes, the special levies for installation, expansion or improvement of the Fire Fighting Service is to be distributed between the Entities or Societies which cover the risk for assets located in the municipal area of Madrid, in proportion to the amount of the premiums collected in the year immediately prior.

2. The taxable base, coinciding with the amount of tax due, of this special levy is to be determined in function of the total cost that the Madrid City Council has to bear for the installation, expansion or improvement of the

firefighting services, and this will consist of 90% of the total cost.

3. If the amount required of each taxable person were to exceed 5 per 100 of the amount of the premiums collected by the same, the excess would be transferred to the successive exercises until its complete depreciation.

4. The payment of these contributions would be agreed upon provided an authorised representation of all the Insurance Companies operating in in Madrid requested this and drew up an overall declaration of all the premiums collected in the previous year.

XI. EXEMPTIONS AND REBATES

Article 19. Regarding special levies, no other tax rebates will be permitted other than those granted by provisions considered law or those contained in International Treaties.

XII. TAX INFRINGEMENTS AND SANCTIONS

Article 20. Regarding all different kinds of tax infringements and the corresponding sanctions, in each case the regulations of the General Tax Ordinance will be applied.

FINAL PROVISIONS

First. For all points not specifically regulated by this ordinance, the regulations contained in the General Tax Ordinance will be applied.

Second. This ordinance will come into effect as of 1st January 1990 and will remain valid until they are expressly modified or repealed⁽¹⁾.

⁽¹⁾ The transcribed text is that of the current version, including the modifications approved by the Council Plenary by agreement dated 29th October, 2004, to come into effect as of 1st January, 2005 (BOCM number 307 dated 27/12/2004, and ECM BOCM number 22 dated 27/01/2005).

PUBLIC PRICES

ORDINANCE REGULATING THE PUBLIC PRICES FOR PROVIDING OF SERVICES OR CARRYING OUT OF ACTIVITIES

Current text in accordance with the modifications approved by agreement
of the City Council Plenary on 29th December, 2016

CHAPTER I. CONCEPT

Article 1. In accordance with the terms of articles 41 and 127 of the revised text of the Law regulating Local Taxes, approved by Royal Legislative Decree 2/2004, dated 5th March, and exercising the regulatory power of the Madrid City Council, as a territorial Public Administration, by articles 4 of Law 7/1985, dated 2nd April, regulating the Bases of Local Tax and 48 of Law 22/2006, dated 4th July, on the Special Nature of Madrid as Capital City, the public prices are hereby established for providing services or carrying out of administrative activities as determined in the following article.

CHAPTER II. CLASSIFICATIONS OF PUBLIC PRICES

Article 2.1. The object of this ordinance is to regulate the public prices for providing services or socio-cultural or recreational activities, as described below:

I. Providing of services for socio-cultural, cultural and recreational activities.

II. Holding of ceremonies or events in municipal buildings and facilities.

Literacy courses and sessions fall outside the scope of this ordinance and are, therefore, not subject to the payment of these public prices

2. Furthermore, this ordinance is to regulate the public prices for providing by the municipal Administration, on request, of services and activities consisting of execution of work on roads and municipal public spaces for private benefit, such as the construction, reconstruction, removal or repair of passage of vehicles, removal, reconstruction or repair of pavements or installations or elements located on the land, apron or underground utilities as a consequence of the opening up of wells, test pits, ditches, railway lines or installation of posts, channels or supply lines, and, in general, any movement of the pavements, sidewalks or elements on municipal roads and public spaces, on request of taxpayers.

CHAPTER III. LIABILITY

Article 3.1. Users or beneficiaries of the respective services are liable to payment of these public prices.

2. When, for causes beyond the control of the taxpayer, the service or activity is not provided or undertaken, reimbursement will be made of the corresponding amount.

CHAPTER IV. BASES, RATES AND AMOUNTS OF THE PUBLIC PRICES FOR PROVIDING SERVICES AND SOCIO-CULTURAL AND RECREATIONAL ACTIVITIES

Article 4. The amount corresponding to each of the services referred to in this ordinance will be determined in accordance with a fixed amount or depending on the elements or factors indicated in each of the relevant sections.

Section I) Providing of Services for socio-cultural, educational, cultural and recreational activities

	<u>Euros</u>
1) For attending municipal workshops and courses on municipal management:	
a) Registration fee	8,35
b) For attending courses and workshops, depending on the weekly hours of each (per term):.....	
b.1) One hour a week.....	35,40
b.2) Two hours a week	49,10
b.3) Three hours a week.....	63,20
b.4) Four hours a week.....	77,20
b.5) Five hours a week	91,30
b.6) Six hours a week.....	105,35

Where the course or workshop is more than six hours a week, the fee per term will be increased by 14.00 euros per additional hour per week.

c) Specialised courses or workshops (fee per term).

For courses and workshops classified as specialised, as requiring personal, material or technical means of this nature, the fee per term will be 49,10 euros for courses of one hour per week, and this will be increased by 21.00 euros per additional hour per week.

d) Intensive courses and workshops.

Courses and workshops are deemed intensive when they last less than one term. The fees applicable will be those corresponding to the number of hours as shown in points b) or c) above, and dividing the total number of hours of the course by twelve.

When, in the case of points b) and c) above, the weekly length of the course or workshop contains a fraction of time of less than one hour, or when this fraction is the result of the calculation mentioned in point d), the fee nearest to the lower or higher one will be applied, or the average between the two, as corresponds, or, in the event, the higher of the two.

For courses or workshops referred to in letters b) and c), if joined after the term has commenced, the fee for the full term will be paid in addition to the registration fee.

The prices established in section 1) will be subject to a discount of 50 per cent for members of large families (general category) and 90 per cent for members of large families from the special category, provided that on the date of registration for the course or workshop the person in question holds a valid large family card, proof of which is shown by a certificate issued by the relevant organism or photocopy.

Euros/hour

2) Public Prices for use of the facilities at the Emergency Services Training Centre, Centro Integral de Formación de Seguridad y Emergencias (CIFSE):

For use of the CIFSE facilities, from 8:00 to 22:00 hours:

a) I.T. Classroom.....	17,00
------------------------	-------

	<u>Euros/hour</u>
b) Standard classroom	11,00

At weekends, the prices established in this section will increase by 100 per 100.

The minimum period for use of all the facilities will be three hours.

The above mentioned prices do not include expenses incurred by special installations of furnishings, insurance, megaphony, decoration or other extras, nor the cost of consumibles used in each training session. The prices do not include cleaning and maintenance costs at weekends. All the above will be paid for by the payee.

The above prices will not be payable in the following cases:

- Holding of institutional events, either ex officio or proposed by other public administrations, foundations, associations, companies or entities, organised or presided by the Madrid City Council.
- Holding of events organised by institutions or entities where the Council acts as host, provided its institutional participation is coupled to the providing of the installations.

In any case, the activity carried out by the user at the CIFSE installations is to be compatible with the teaching function of the Centre, and no leisure, recreational or other similar activities may be carried out there which would spoil them or alter the everyday functioning of the centre.

Users will be responsible for any damages, breakages or other deterioration caused to the installations, elements and materials as a result of misuse or negligent conduct, and the cost of repairs and possible damages are to be borne by the users in this event.

When the relevant organ of this Council signs collaboration agreements with other public or private entities, for the organisation of specific training actions, and these offer courses with a 50% discount for City Council staff, the prices established in this part 2) to be paid by these entities are to be reduced by the same percentage.

	Euros / person
3) Attending meetings, games libraries, sports, outdoor and general leisure activities:	
Meetings, up to sixteen hours per month, per person and month	5,60

a) The holding of institutional events, which either ex officio or on proposal of other Administrations, foundations, associations, companies or entities, are organised or presided by the Madrid City Council.

b) The holding of events organised by institutions or entities at which the Council acts as host, provided its institutional participation is linked to the providing of the facilities.

CHAPTER V. BASES, TYPES AND AMOUNTS OF THE PUBLIC PRICES FOR CARRYING OUT OF WORK ON THE PUBLIC THOROUGHFARE

Article 5. The amounts due for public prices regarding the providing by the municipal Administration of services and activities on municipal roads and spaces for private benefit and requested by private persons are determined by the following bases and fees:

	<u>Euros</u>
1. LIFTING AND DEMOLITION	
1.1. M. Lifting and dismantling of cast water pipes (Ø 40 - Ø 80 mm), including parts, keys and nozzles and recovery of the same, including removal and loading or supply on site, not including transport.....	2,19
1.2. M. Lifting of curb, with replacement of same, including removal and loading, or supply on site, not including transport.....	5,00

ORDINANCE REGULATING THE PUBLIC PRICES FOR PROVIDING SERVICES OR CARRYING OUT ACTIVITIES

	<u>Euros</u>
1.3. M ² Lifting of asphalt mixture paving, in layers of intermediate tread, of 12 cm, thickness or less, including removal and loading of products, without transport:	
By mechanical means (back axle, with hydraulic hammer or similar).....	2,67
With compressor	4,97
1.4. M ² Lifting of granite cobblestones, with recovery of the cobblestones, including removal and loading or supply on site, transport not included:	
On sand	3,99
On concrete and with adhesive material	4,91
1.5. M ² Lifting of granite slabs or similar, with recovery of the slabs, including removal and loading or supply on site, transport not included:	
Laid on sand base	4,63
Laid on concrete base and using adhesive material .	6,61
1.6. M ² Lifting with compressor of continuous cement paving, hydraulic or terrazo tile and adhesive material, including removal and loading of products, transport not included.....	3,88
1.7. M ³ Lifting of continuous paving, including removal and loading of products, measured by profile, transport not include:	
With granular base:	
By mechanical means (Power shovel or similar).....	9,15
With compressor	40,50
With hydraulic concrete base:	
By mechanical means (back axle, with hydraulic hammer or similar).....	33,42
With compressor	77,62

	<u>Euros</u>
1.8. M ³ Demolition of masonry, including removal and loading of products, measured on masonry, transport not included:	
Mass concrete of any kind:	
By mechanical means (back axle, with hydraulic hammer or similar).....	53,09
With compressor	104,45
Solid brick of any kind:	
By mechanical means (back axle, with hydraulic hammer or similar).....	35,12
With compressor	54,17
2. EARTHWORK	
2.1. Transport to hut or to another municipal site, including unloading of:	
M. Recovered curb	2,33
M ² Recovered slabs or tiles	4,15
2.2. M ² Honing, levelling and flattening of the earthwork by mechanical means	0,74
2.3. M ² Honing and levelling (raking) by hand of the natural earth at the bottom of ditches or cement excavated by machinery.....	2,93
2.4. M ² Intermediate shoring (alternate planks) to any depth, in ditches and wells	10,28
2.5. M ³ Excavation and loading of products, by mechanical means, on any kind of ground (except rock), measured on profile, no transport:	
Clearance, to form the earthwork, to a total excavation volume of less than 2.000 m ³	1,71
Torque	3,34

	<u>Euros</u>
2.6. M ³ Excavation of DITCH, on any kind of ground (except rock), including formation of deposits and loading of surplus products, measured on profile, no transport:	
By mechanical means:	
To 3 m in depth.....	3,05
To 6 m in depth.....	4,11
By hand or non mechanised procedures and to any depth:	40,82
2.7. M ³ Excavation in WELL, any kind of ground except rock and to any depth, including lifting and loading of surplus products, measured on profile, no transport:	
By mechanical means:	
To 3 m in depth.....	4,56
To 6 metres in depth	5,52
By hand or non mechanised procedures	45,75
2.8. M ³ Excavation in MINE, by non mechanised procedures, any kind of ground (except rock) and any depth, including hauling, lifting and loading of surplus products, measured on profile.....	152,15
2.9. M ³ Formation of slope, by mechanical means, in accordance with specification, measured on profile:	
Tolerable or appropriate ground from the site itself, including interior transport of materials, levelling and compacting:	
Foundation and nucleus	4,31
Crest, in layers not higher than 20 cm	4,78
With tolerable or appropriate ground from loans, including these and including levelling and compacting:	
Foundation and nucleus	9,82
Crest, in layers not higher than 20 cm	12,50

ORDINANCE REGULATING THE PUBLIC PRICES FOR PROVIDING SERVICES OR CARRYING OUT ACTIVITIES

	<u>Euros</u>
2.10. M ³ Extending and front flush, by hand, of bed of sandy soil from the excavation, to be a bed for water pipes or water distribution in ditches, measured on profile	5,08
2.11. M ³ Transport and unloading at the dump, outside the site, of surplus products from excavation or demolition work, measured on profile	11,94
2.12. M ³ Filling in and compacting of ditches by mechanical means, to a density, in accordance with the Specifications, measured on profile:	
With tolerable or appropriate ground from the site excavation	5,58
With appropriate soil from loans, including these	15,36
2.13. M ³ Supply, extending and compacting of gravel, from 5 to 25 mm., on bed of drain piping in ditch, in layers of 10 cm, measured on profile	37,01
2.14. Horse power-hour (HP/H) depletion, with motor pump, when necessary for excavation or concreting in any kind of work.....	1,56
3. HYDRAULIC CEMENT AND STEELS	
3.1. M ³ Supply and installation of CEMENT, mass, moulded and vibrated 40 mm. with plastic consistency:	
- For underpinning of cement, installed at any depth:	
* With HM-5/P/40.....	116,88
* With HM-15/P/40.....	149,84
- On base of roads, sidewalks, sports courts or promenades, cementing of curbs and steps, floor of wells, etc., with HM-12,5/P/40	130,41
- Walls and paraments of any shape and dimension, at any height, with HM-17/P/40.....	154,31
3.2. Kgr. Supply and installation of steel for framing in bars, including cutting, bending and trimming according to theoretical weight	1,54

	<u>Euros</u>
4. DRAINAGE AND GRANULAR BASE	
4.1. M ³ Sub-base or improved ground of coarse sand, classified (selected soils), on site and with compacting as per Specifications, measured on profile	20,70
4.2. M ³ Base of graded aggregate, classified (carriers z-1, z-2 and z-3) laid on site and compacted, measured on profile	44,83
4.3. M ³ Supply and extension of river sand.....	39,21
5. CURBS, COBBLING AND PAVEMENTS	
5.1. M. Laying of CURB, types 1 to VI and VIII (municipal norms), including base mortar and joints not including excavation or base cement and reinforcement	7,04
5.2. M. Supply and installation of CURB, including base mortar and joints, not including excavation or base cement and reinforcement:	
Straight or curved, prefabricated cement:	
Type VI of M.N., 10 x 20 cm for marking of pit frames without mesh	10,11
Type IV of M.N., 14 x 20 cm for marking of pavements with terrace, private road or green space.....	10,97
Type II of M.N, 20 x 22 cm for marking of islands	13,73
Straight, Type III of M.N., 17 x 28 cm for marking of pavements with roadway:	
Prefabricated concrete.	14,81
Granite	42,99
5.3. M ² Pavement, continuous cement, roller stamped on pavements, including tiling	13,88
5.4. M ² GRANITE COBBLING	
On SAND, including joints with fine sand:	
Installation	20,68
Supply and installation.....	68,28

	<u>Euros</u>
On CONCRETE, including bearing mortar and grouting of joints:	
Installation	24,66
Supply and installation.....	69,14
5.5. M ² Supply and installation of PREFABRICATED CONCRETE COBBLING, sinusoidal or polygonal, 6 cm. thick, laid on sand, including gravelling of joints with fine limestone sand:	
In various colours (white, red, etc.), plain or combined.....	37,54
Grey	36,21
5.6. M ² Supply and installation of HYDRAULIC TILE, including base mortar and grouting of joints:	
For pavements	22,07
For pavements with zebra crossing, with cylindrical buttons, Ordinance S.B.A., 20 x 20 cm.....	23,34
5.7. M ² . Supply and installation of FLAGSTONE, for pavements, including base mortar and grouting of joints:	
30 x 30 cm:	
Washed terrazo	25,04
Polished terrazo, embossed	42,04
0 x 40 cm:	
Washed terrazo	25,85
Polished terrazo, embossed	45,09
5.8. M ² Supply and installation of grey granite up to 6 cm thick and variable dimension, with mortar cement mortar grouting	170,53
5.9. M ² Supply and installation of black slab 4 cm thick and variable dimension, with cement mortar, grouting	210,33
5.10. M ² Supply and installation of black block slabs (red, etc.) with mortar cement grouting	220,09

ORDINANCE REGULATING THE PUBLIC PRICES FOR PROVIDING SERVICES OR CARRYING OUT ACTIVITIES

	<u>Euros</u>
5.11. Unit supply and installation of grey granite ball with diameter of 45 cm.....	537,95
6. BITUMINOUS IRRIGATION, SUPERFICIAL TREATMENTS	
6.1. M. Sealing of fissures, on existing asphalt paving, with hot rubber, including preparation and cleaning of the fissure and marking	4,97
6.2. M ² . Irrigation primer between bituminous layers	0,37
6.3. M ² . Extending of bituminous mixtures:	
•Cleaning and sweeping	0,41
•Printing irrigation:	
- On concrete base	0,65
- On granular or macadam base	1,00
6.4. M ² Supply and commissioning of slurry concrete in red or green, hand laid, including primer.....	8,36
6.5. M ² x cm thickness of asphalt paving milling, with milling machine or pavinglifter, including loading of products and cleaning, no transport included	0,79
6.6. M ² x cm. Thickness of:	
Mastic asphalt, fully finished	10,93
Bituminous mixture applied hot, for area of less than 3.000 m ² :	
Bearing layer, dense or semi dense, with siliceous arids	1,72
Intermediate layer, with thick structure, with lime or siliceous arids.....	1,40
6.7. TN. Supply and setting of bituminous mixture applied hot, D and S, with siliceous arids, hand applied in frets, resurfacing and small repairs to the paving.....	142,92
7. MASONRY WORK	

ORDINANCE REGULATING THE PUBLIC PRICES FOR PROVIDING SERVICES OR CARRYING OUT ACTIVITIES

	<u>Euros</u>
7.1. M ² Plastering and burnishing with mortar 850 kg of cement (PA-350) and river sand 1:1, in indoor settings in service galleries, waste water pipes, sewage wells and pits in general	7,24
7.2. M ² Levelled cementing with cement mortar (PA-350) and river sand 1:4 (M-350)for settings:	
•Vertical	14,66
•Horizontal	16,20
7.3. M ³ Ceramic brick, laid with cement mortar and river sand:	
Double space (H.D.) 8 or 9 cm in walls	158,75
Solid in walls and pilasters (bricks of 25 x 12 x 5 cm):	
Unseen (M.N.V.)	242,65
One face (M.V.), including pointing and cleaning (natural red brick)	301,95
8. SEWERAGE	
8.1. M. Supply and installation of vibropressed concrete pipes, 30 cm in diameter:	
Half foot solid brick braces with M-250 (PA-350).....	20,28
With bell socket for rubber joint, including elastic joints (Serie C).....	21,31
8.2. Unit. Supply and installation of cast iron rungs for access to manholes (RA-35)	8,12
8.3. Unit. Supply and installation of cast iron mesh, for absorbing well flues, Council model (RA-25)	66,76
8.4. Unit. Junction of pipelines at drain well or existing sump	90,67
8.5. Unit Sump for absorbing well, construction brick, plastering, including demolition, excavation and transport of rubble to dump, totally finished	101,01
8.6. Unit. Supply and installation of enclosure and cast iron lid for manholes:	

	<u>Euros</u>
On pavements, Council models RA-26 and RA-29 ...	198,97
On roads, Council models RA-27 and RA-29.....	209,94
8.7. Unit. Supply and installation of cast iron box and lid, for absorbing wells, Council model RA-28	239,61
9. STREET LIGHTING	
9.1. M. Polyester tube for underground channeling 110 mm diameter in accordance with UNE N586 regulations and servicing of cuffs and plugs	3,65
9.2. M. UNDERGROUND CHANNELING, including earthwork with ditching, river sand bed and PVC pipes Ø 90 x 1.8 mm, located:	
→ On PAVEMENT 0.20 m thick, in accordance with spec. AE-12 Municipal Norms (M.N) with excavation of ditch and 2 PVC pipes:	
• New construction, with machine excavated ditch. Fully finished	13,48
• Existing, maintenance, with lifting of paving and replacement of concrete base only HM-12,5/P/40 (e = 0,15 m):	
→ Hand dug ditch.....	44,79
→ Machine dug ditch.....	37,34
□ At newly constructed JUNCTIONS, paved with firm mixed type 1-A, M.N. Spec. AE-13 N.M., with hand dug ditch, 3 PVC pipes and concrete protection HM-12,5/P/40, completely finished.....	156,93
9.3. M ³ Supply, laying and compacting of classified coarse sand (certain types of ground), laid at junctions with underground street lighting, measured on profile.....	22,77
9.4. M ³ Supply, laying and manual pressing of river sand, placed in underground channeling ditches for street lighting, measured on profile	43,35
9.5. M ³ Supply and laying of mortar 350 kg of cement PA-350 and river sand (M-350), for coating of street lighting support foundations	104,17

The charges included in this section which refer to units of work on pavements or roads with an area of less than 10 m² will be increased by 12 per cent.

The minimum dimension for each action in terms of payment for work included in this section will be 3 m².

The charges established in this section which refer to units of work on pavements will be reduced by 10 per cent when they affect an area larger than 500 m². The same reduction will be applied to work on roads when the area is greater than 1.000 m².

CHAPTER VI. OBLIGATION TO PAY

Article 6. The obligation to pay the public prices regulated by this Ordinance is created, in general terms from the commencement of the service or the carrying out of the activity; it should be made in accordance with the following control regulations.

CHAPTER VII. CONTROL REGULATIONS

Article 7. The public prices established in this Ordinance are to be paid

in advance of the providing of the services or carrying out of the activity.

Article 8. The following control regulations will be applicable to the prices in section 1) part I) of article 4:

a) For the courses and workshops which coincide with the academic year, registration and the first term's fees are to be paid before the course or workshop starts, either by debit or credit card over the Internet, or in person by paying the amount in at one of the authorised bank entities accompanied by the corresponding payment document.

The remaining charges are to be paid by standing order with a bank. The charges will be sent out in advance on 5th of each month or immediate working day of the month before the start of each term, therefore, those who request registration are to inform the Madrid City Council at the same time as registration and provide precise information in order to set up the standing order for the bills.

When the course or workshop is started after the beginning of the term, the registration fees, the fees for that term and if relevant the fee for the following term, when this cannot be charged in advance, will all be paid in the manner established in the first paragraph. The remaining fees, if they are due, will be paid for by standing order.

Madrid City Council is to be informed of any change in the details for the standing order. In order to be effective by the time the next term's fee is due, this communication is to be made at least one month in advance of the date of the prior payment.

b) For courses and workshops which last less than one term, registration and the fees are to be paid by credit or debit card, over the Internet, or by payment document, at any of the authorised bank entities.

c) When the term has not yet started, deregistration may be requested from the course or workshop, and the term's fees will be reimbursed.

Once the term has started, the amount of the term's fees may only be reimbursed when deregistration is requested due to causes outside the control of the interested party and this request is made less than a month from the start of the course or workshop.

d) The payment of the registration fee gives the right to reserve a place on the course. Non payment of the fees for the course or workshop will mean the loss of this place and automatic deregistration.

TRANSITORY PROVISION

The fees regulated by points 1), 4) and 10) of section I of article 4 which are applicable to a specific academic year will be maintained until its end. Modifications to the above mentioned fees will be applied to courses started after its coming into effect.

FINAL PROVISION

This Ordinance will come into effect as of 1st January, 1999 and will remain valid until its express modification or repeal⁽¹⁾.

⁽¹⁾ The transcribed text of the ordinance is its current version, including the modifications approved by the City Council Plenary by agreements dated 29th December, 2016, coming into effect as of 1st January, 2017 (BOCM No. 315 dated 31/12/2016).

**PUBLIC PRICE FOR THE PURCHASE OF THE MADRID CITY
COUNCIL BOOK OF TAX ORDINANCES AND PUBLIC PRICES⁽¹⁾**

AGREEMENT

«One. Approval of the fixing of the public price for purchase of the Madrid City Council Handbook of Tax Ordinances and Public Prices, which is set at 5.50 euros.⁽²⁾

As of 1st January of each year, the public price established is to be updated in accordance with the Consumer Price Index of each year, and where pertinent, rounded down to the nearest figure which is a multiple of five euro cents

***Two.** On the public price established by this Agreement, the terms of articles 41 and 47 of the revised text of Local Tax Law, approved by Legislative Royal Decree 2/2004, dated 5th March and the Ordinance regulating Public Prices for Services or Activities are to be applied.*

***Three.** The terms of this Agreement are to be applied as of the day following the publication of the same in the Comunidad de Madrid Official Bulletin».*

⁽¹⁾ Approved by Council Plenary by agreement on 31st January 2007, coming into effect on 8th February 2007 (BOCM No. 32 dated 7th February, 2007).

⁽²⁾ The amount updated to 1st January, 2015 is 6.35 euros. For 2016 the public price of 2015 will not be updated, in accordance with the terms of the transitory provision of Law 2/2015, dated 30th March, on the deindexing the Spanish economy.

PUBLIC PRICES FOR PROVIDING SERVICES IN THE BUSINESS INCUBATORS ⁽¹⁾

AGREEMENT ⁽²⁾

«**One.** Approval, effective as of 1 of January 2008, of the establishing of public service prices for services provided to Business Incubators, figuring in the Annexure to this Agreement, and in accordance with the conditions of application established therein.

Two. As of 1st January of each year, the public prices established will be subject to updating in accordance with the interannual valuation of the Consumer Price Index for the month of November for the year immediately before.⁽³⁾

Three. The public prices established in this Agreement will be liable to the application of the terms of articles 41 to 47 of the revised text of the Law regulating Local Taxes, approved by Legislative Royal Decree 2/2004, dated 5th March, in the General Collection Regulations, approved by Royal Decree 939/2005, dated 29th July, and in the Ordinance regulating Public Prices for Providing Services or Carrying out Activities».

ANNEXURE

1. Object. This public price represents the amount to be paid by the beneficiaries of City Council services provided at any of the centres for business development, called Business Incubators, in the city of Madrid. As well as the right, amongst others, to use the office for the established length of time. In addition to the adjudication of offices in the corresponding building, the following services will be provided: reception, surveillance, security; cleaning and maintenance of the centre; heating, lighting and water expenses, both for the common areas such as the different offices; photocopying service; use of common areas, such as the board room or functions room with projector and screen; and technical advice, business training and information about programmes for aid and grants, as well as advertising for your business.

2. Creation of the liability. The liability is created once the Business Incubator starts to be used, and corresponds to Companies which belong to the entrepreneur or the company benefitting from the service provided.

3. Payment obligation and charges. Natural and legal persons who have been adjudicated offices for their use in a Business Incubator and

benefit from the services which are provided at the latter by the Madrid City Council, are liable to pay the corresponding public price.

The monthly charge will result from multiplying the number of square feet of the office, to two decimal points, at the rate of 7,15 euros during the first twelve months of occupancy, and of 9,53 euros as of the thirteenth month.

4. Control of payment. The Madrid City Council will approve the fee due once the service has commenced, and will confirm the precise data to determine the amount of the monthly fee and issue the corresponding invoice.

The payment is to be made monthly and will be charged in advance during the first five days of each month.

The amount corresponding to the first month will be apportioned based on the number of days remaining until the last day of the month and will be charged with the subsequent first monthly fee.

The proportional amount will also be calculated in the event of termination, unless the service were not provided due to causes beyond the control of the liable party, and when the latter does not, despite being able to do so, communicate the termination before the 10th, or the following business day, of the month before the service was terminated.

The payment of the public price is to be made by standing bank order, and therefore, those who request this service are to provide the Madrid City Council, when applying, with the precise details to appear on this document and the standing order set up. All invoices issued will be covered by this standing order standing order and the relevant document drawn up. The Council is to be informed of any changes to this information before the 10th or the business day immediately after during the month before. The Administration will jointly issue for payment any invoices which have not been paid during the period of change.

5. Authorisations. The beneficiary of the office at a Business Incubator and of the services provided therein must be authorised by means of the selection process to be made, in accordance with the bases of the public adjudication process.

These authorisations will be granted for a period of two years, which may be renewed for a further year, provided the requirements established in the adjudication process are met.

6. VAT. Value Added Tax is to be added to the corresponding charges, in accordance with current legislation.

⁽¹⁾ Approved by the City Council Plenary by agreement on 28/11/2007, to come into effect as of 1st January 2008 (supplement to the BOCM No. 297, issue I, dated 13/12/2007). At the special, urgent session, held on 20th December, 2013, the following agreement was adopted: «(...) Second.- To replace all the references made in the annexure to the agreement of 28th November, 2007, of the Madrid Council Plenary, approving the establishment of public prices for providing services at the Business Incubators from the Economic Development Agency “Madrid Emprende” by the Madrid Council which, once this agreement is published in the COMUNIDAD DE MADRID OFFICIAL BULLETIN will control the above mentioned public prices to come into effect as of 1st January, 2014» (BOCM No. 308 dated 28/12/2013). Modified by agreement on 22nd December, 2015 (BOCM No. 310 dated 30/12/2015).

⁽²⁾ Consolidated text valid on 1st February, 2016.

⁽³⁾ For 2016 the public price of 2015 will not be updated, in accordance with the terms of the transitory provision of Law 2/2015, dated 30th March, on the deindexing the Spanish economy.

**PUBLIC PRICES FOR PROVIDING SERVICES AT THE BUSINESS
INCUBATORS MANAGED BY THE
“MADRID EMPLOYMENT AGENCY”⁽¹⁾**

AGREEMENT

«One. To approve, effective as of the day after publication of this agreement in the Comunidad de Madrid Official Bulletin, the establishment of the public prices for services provided at the business development centres denominated Business Incubators, managed by the Madrid Employment Agency, with regards to the authorisations granted after the coming into effect of this agreement.

Two. The amounts and conditions of the application of the public prices, established in accordance with the previous point, will be the same as those approved by the Agreement of the Madrid City Council Plenary of 28th November, 2007, for providing services at the Business Incubators managed by the Economic Development Agency “Madrid Emprende”».

ANNEXURE

1. Object. This public price consists of the amount to be paid by those benefitting from the services provided by the Madrid City Council at any of the business development centres, denominated Business Incubators, in the city of Madrid. In addition to the right to use the office for an established time, in accordance with the regulations for organisation and functioning of the incubator, as well as the adjudication of the office within this building, the following services will be supplied: reception, surveillance and security; cleaning and maintenance of the centre; electricity, water and heating expenses, both in common areas and in the offices; photocopying service; use of the common areas, such as the board room or functions room with projector and screen; and technical advice, business training and information on programmes of aid and grants and advertising channels for the business.

2. Creation of the liability. The liability is created once the Business Incubator starts to be used, and corresponds to Companies which belong to the entrepreneur or the company benefitting from the service provided.

3. Payment obligation and charges. Natural and legal persons who have been adjudicated offices for their use in a Business Incubator and benefit from the services which are provided at the latter by the Madrid City Council, are liable to pay the corresponding public price.

The monthly charge will result from multiplying the number of square feet of the office, to two decimal points, for 9,48 euros⁽²⁾.

In addition, the prices for photocopies will be, per unit, as follows:

Size of paper	In black and white ⁽²⁾	In colour ⁽²⁾
A4	0'06 euros	0'63 euros
A3	0'09 euros	1'14 euros

4. Control of payment. The Madrid City Council will approve the fee due once the service has commenced, and will confirm the precise data to determine the amount of the monthly fee and issue the corresponding invoice.

The payment is to be made monthly and will be charged in advance during the first five days of each month.

The amount corresponding to the first month will be apportioned based on the number of days remaining until the last day of the month and will be charged with the subsequent first monthly fee.

The proportional amount will also be calculated in the event of termination, unless the service were not provided due to causes beyond the control of the liable party, and when the latter does not, despite being able to do so, communicate the termination before the 10th, or the following business day, of the month before the service was terminated.

The payment of the public price is to be made by standing bank order, and therefore, those who request this service are to provide the Madrid City Council, when applying, with the precise details to appear on this document and the standing order set up. All invoices issued will be covered by this standing order standing order and the relevant document drawn up. The Council is to be informed of any changes to this information before the 15th or the business day immediately after during the month before. The

Administration will jointly issue for payment any invoices which have not been paid during the period of change.

5. Authorizations. The beneficiary of the office at a Business Incubator and of the services provided therein must be authorised by means of the selection process to be made, in accordance with the bases of the public adjudication process.

The authorisations will be granted for a period of two years, which may not be extended.

6. VAT. Value Added Tax is to be added to the corresponding charges, in accordance with current legislation.

⁽¹⁾ Approved by City Council Plenary by agreement on 30th April, 2008, to come into effect as of 14th May, 2008 (BOCM No. 113 dated 13th May, 2008).

⁽²⁾ The amounts updated to 1st January, 2015 are:

«The monthly charge will be the result of multiplying the number of square feet of each office, calculated to two decimal points, by 10.53 euros.

(...)

Tamaño de papel	En blanco y negro	En color
A4	0,06 euros	0,70 euros
A3	0,09 euros	1,26 euros».

Size of paper A4 0.06 euros black and white 0.70 euros in colour A3 0.09 euros black and white 1.26 euros in colour».

For 2016 the 2015 public prices will not be updated, in accordance with the terms established in transitory provision of Law 2/2015, dated 30th March, on the deindexation of the Spanish economy.

**PUBLIC PRICE FOR THE PROVIDING OF SERVICES AT THE
INDUSTRIAL FACTORIES MANAGED BY THE MADRID CITY
COUNCIL⁽¹⁾**

AGREEMENT

«One. To approve, effective as of the day after publication of this agreement in the Comunidad de Madrid Official Bulletin, the establishment of the public prices for services provided at the Industrial Factories belonging to the Economic Development Agency "Madrid Empeñe", figuring in the annexure and in accordance with the conditions established therein.

Two. As of 1st January of each year, the public price established will be updated in accordance with the interannual variation of the General Consumer Price Index for the month of November of the year immediately before.⁽²⁾.

Three. The public prices established by this Agreement will be subject to the application of the terms established in articles 41 to 47 of the revised text of the Law Regulating Local Taxes, approved by Legislative Royal Decree 2/2004, dated 5th March, of the General Regulations on Collection, approved by Royal Decree 939/2005, dated 29th July, and the Ordinance regulating Public Prices for the Providing of Services or Carrying out of Activities».

ANNEXURE

1. Object. This public price is the amount to be paid by those benefitting from the services that the Madrid Council provides at the Industrial Factories in the city of Madrid.

In addition to the right to use the industrial warehouse for the established period, in accordance with the factory's internal organisation and function regulations; and the adjudication of the corresponding warehouses, the following services will be provided: technical assistance and advice for the businesses, and regarding common area, reception, surveillance, security, cleaning, maintenance and lighting, water and heating charges.

2. Creation of the liability. The liability is created from the time the Industrial Factory starts being used by the beneficiary.

3. *Payment obligations and charges.* Companies which have been adjudicated the warehouses which the Industrial Factory included, and benefit from the services provided there by the Madrid City Council, will be liable to pay the corresponding public price.

Those opting for the licences are to be small and medium sized companies (SMES) with a maximum of eight years' business life, and which have a viable business plan. They will be selected by a process which conforms to the bases established by public notification.

These licences will be conceded for a maximum period of ten years.

The monthly charge will be the result of multiplying the number of square metres of the warehouse allotted, calculated to two decimal points, by 2.70 euros⁽²⁾.

4. *Control of payment.* The Madrid City Council will approve the fee due once the service has commenced, and will confirm the precise data to determine the amount of the monthly fee and issue the corresponding invoice.

The payment is to be made monthly and will be charged in advance during the first five days of each month.

The amount corresponding to the first month will be apportioned based on the number of days remaining until the last day of the month and will be charged with the subsequent first monthly fee.

The proportional amount will be calculated in the event of termination, unless the service were not provided due to causes beyond the control of the liable party, and when the latter does not, despite being able to do so, communicate the termination before the 10th, or the following business day, of the month before the service was terminated.

The payment of the public price is to be made by standing bank order, and therefore, those who request this service are to provide the Madrid City Council, when applying, with the precise details to appear on this document and the standing order set up. The Council is to be informed of any changes to this information before the 10th or the business day immediately after during the month before. The Administration will jointly issue for payment any invoices which have not been paid during the period of change.

5. VAT. Value Added Tax is to be added to the corresponding charges, in accordance with current legislation.

⁽¹⁾ Approved by the Council Plenary by agreement dated 28th October, 2010, to come into effect as for 6th November, 2010 (BOCM n^o. 265 dated 5th November, 2010). Modified by agreements dated 20th July, 2011 (BOCM No. 177 dated 28th July, 2011) and 20th December, 2013 (BOCM No. 308 dated 28th December, 2013). This is the consolidated text current to 1st January, 2014.

⁽²⁾ The amount updated to 1st January, 2015 is 2.69 euros. For 2016 the 2015 public prices will not be updated, in accordance with the terms established in transitory provision of Law 2/2015, dated 30th March, on the deindexation of the Spanish economy.

**PUBLIC PRICES FOR PROVIDING SERVICES AT TRAINING
CENTRES OF THE MADRID EMPLOYMENT AGENCY
“AGENCIA PARA EL EMPLEO DE MADRID”(1)**

AGREEMENT

«One. Approve the establishment of public prices for providing services at the training centres belonging to the employment agency, “Agencia para el Empleo de Madrid”, which appear in the annexure and the conditions for the application established therein and, once published in the Comunidad de Madrid Official Bulletin, will come into effect on 1st January, 2014.

Two. With effect as of 1st January of each year, the public prices with be updated in accordance with the interannual variation of the Consumer Price Index for the month of November of the year immediately preceding.⁽²⁾

Three. The public prices established by this Agreement will be subject to the application of the terms established in articles 41 to 47 of the revised text of the Law Regulating Local Taxes, approved by Legislative Royal Decree 2/2004, dated 5th March, of the General Regulations on Collection, approved by Royal Decree 939/2005, dated 29th July, and the Ordinance regulating Public Prices for the Providing of Services or Carrying out of Activities».

ANNEXURE

1. Object. This public price consists of the amount to be paid by those benefitting from the services provided by the “Agencia para el Empleo de Madrid” at this autonomous Organism's training centres. in the training spaces of this autonomous Organism's.

In addition to the right to use the space for the authorised length of time, the following services will be provided: reception, surveillance and security; cleaning and maintenance of the centre; electricity, water and gas expenses, both in common areas and the spaces authorised for independent use.

2. Creation of the liability. The liability to pay these prices is created as soon as the authorised facilities start to be used by the beneficiary.

3. Payment obligation and prices. Natural or legal persons authorised to use the training facilities are obliged to pay the corresponding public price.

The following public prices are established ⁽²⁾:

4. Special provisions for the application of public prices. The following is to be taken into account when applying the above mentioned prices:

a) The prices established per week will grant the right to use the corresponding areas for a period of five days, from Monday to Friday, not including holidays.

b) The prices established per month will grant the right to use the corresponding areas for a period of twenty-two days, from Monday to Friday, not including holidays.

c) Where the use of one of the areas is requested for periods of less than a week, the corresponding price per day will be applied, increasing proportionally with the number of days authorised for use.

d) The use of the corresponding areas for weekly or monthly periods will be on consecutive days, except for Saturdays, Sundays and holidays, not necessarily coinciding with natural periods.

e) For the prices established per day, week or month, the times for use of the different areas will be, in general terms, will be six hour periods, between 8:00 and 20:00 hours. However, in the case of meetings rooms and of the remaining spaces authorised for use for a period equal to or in excess of eight days, the timetable may be extended by four hours, from Monday to Friday, until 24:00 hours and Saturdays from 10:00 to 14:00 horas. In these cases, the price corresponding to the days where the timetable is extended, the price will be calculated by adding to the corresponding price/day, multiplied by the number of days affected by the extended timetable, a surcharge of 60%.

f) The use of the classrooms at the Barajas centres, with capacity for ten pupils, and at Jerte, with capacity for twelve pupils, will only be authorised for use with the radio communications workshops, at the Barajas centre, and for catering and cookery at the Jerte centre, respectively.

g) The use of the institutional health care classroom at the centre in Los Cármenes may only be authorised for joint use with the home health care workshop at the same centre.

h) The use of the practice zones may only be authorised for joint use with the Incubating Centre Vivero de Vallecas, the workshops at the Áncora centre or the use of the bridge crane.

5. Authorisations. Requests for use of these training centres belonging to the "Agencia para el Empleo de Madrid" are to be processed and granted by means of the corresponding authorisation, which will be issued by decision of the relevant organism.

6. *Payment control.* The public prices are to be paid before the service is provided, and the use of the facilities will not be permitted unless proof of payment can be provided.

The "Agencia para el Empleo de Madrid" will issue the corresponding notification of the charges due, and this amount is to be paid into any of the collaborating financial entities before the day established for the use of the relevant facilities.

7. *VAT.* Value Added Tax is to be added to the corresponding charges, in accordance with current legislation.

⁽¹⁾ Approved by City Council Plenary by agreement on 20th December, 2013, to come into effect as of 1st January, 2014 (BOCM No. 308 dated 28th December, 2013).

⁽²⁾ Approved by City Council Plenary by agreement on 20th December, 2013, to come into effect as of 1st January, 2014 (BOCM No. 308 dated 28th December, 2013).

PUBLIC PRICES FOR PROVIDING SERVICES AT SPORTS CENTRES AND PUBLIC BATHING FACILITIES⁽¹⁾

AGREEMENT⁽²⁾

*«**One.** Approving the establishment of public prices for providing Services at Sports Centres and Public Bathing Facilities, figuring in the attachment and in accordance with the conditions for application established therein.*

***Two.** The public prices established in this Agreement will be subject to the application of the terms of article 41 to 47 of the revised text of the Law Regulating Local Taxes, approved by Legislative Royal Decree 2/2004, dated 5th March; in the General Collection Regulations, approved by Royal Decree 939/2005, dated 29th July, and by the Ordinance Regulating the Public Prices for Services or Carrying out of Activities.*

***Three.** This Agreement, following publication in the Comunidad de Madrid Official Bulletin, will come into effect as for 1st January, 2011. However, its validity will be conditioned to the approval, publication and coming into effect of the removal of the Tax for providing of Services at Sports Centres and Public Bathing Facilities and the repeal of the Tax Ordinance regulating the same».*

ATTACHMENT

1. Object. These public prices are the amount to be paid by the beneficiaries of the different services provided at municipal sports centres and public bathing facilities.

2. Obligation to pay. These public prices are to be paid by those who request or benefit or are affected by the providing of the different services or activities carried out at the municipal sports centres and Public Bathing facilities that the Madrid City Council is responsible for.

To apply the prices, the following categories have been established:

a) Child. Users aged 14 or under.

- b) Youth category. For users aged between 15 and 26.
- c) Seniors. Users aged 65 and over and who hold the madridmayor.es card, issued by the Madrid City Council.
- d) Disabled. Users with a level of disability of 33 per cent or more, in accordance with the revised text of the General Law on rights of disabled persons and their social inclusion, approved by Legislative Royal Decree 1/2013, dated 29th November.
- e) Unemployed. Users who hold a valid jobseekers card, issued by the State Employment Department or the Autonomous Communities.
- f) Persons at risk of social exclusion. Users who fulfil the requirements established in the Order issued by the General Director of Sports, dated 13rd May, 2015, regulating the Programmed Activities organised by the municipal sports centres.

All those obliged to pay and belonging to one of the categories defined above, are to benefit from these reductions which, in accordance with the specific provisions on application of prices, are included in the list of charges.

The reductions applicable to an age group category are compatible with those contemplated in letters d), e) and f) above.

The reductions established in letters d), e) and f) are not compatible with each other. In cases where the user is entitled to two or more reductions, the one of greater value will be applicable.

3. **Charges.** The prices applicable are those shown below:

40.	Monthly thermal zone Voucher for holders of Madrid Total, free use and Family Cards	7,40					
41.	Supplement for special reserved sporting facility place.....	15,00					

When a reduction or supplement is to be applied to the public price, whether it be for belonging to one of the categories mentioned above, or the specific regulations in place for application of the prices, figures will be rounded up to the higher number, or nearest multiple of five euro cents.

4. Specific provisions for the application of the prices. When applying each of the prices, the following specific provisions are to be taken into account:

1) Sports Madrid Card.

- This will be payable when a person registers for a Sport Madrid card, of any kind, or when registering for a sporting activity with an instructor.

- This amount will not be payable in the following cases:

- a. Registration for intensive courses.

- b. For a new season, when the fee for Sport Madrid Voucher has been paid for either June, July or August and when the fee for September has also been paid.

- c. When renewing the payment of monthly fees for Sport Madrid Voucher or activity with an instructor, after interruptions during the sports season.

- This will be valid for the whole sports season (1st September to 31st August) and there will be a single payment per person, regardless of the number of Sport Madrid Vouchers, activities with instructor and/or sports centres.

- It will be renewed at the start of each sports season, together with the first monthly charge for the Sport Madrid Voucher or guided activity, except in the case mentioned in paragraph 2.

- Disabled persons will pay the price of the Sport Madrid Card for each of the activities specifically programmed for this group, and are exempt from payment of the monthly fee.

- Persons at risk of social exclusion will be entitled to a 100% reduction on fees 2 and 4 will be entitled to a reduction of 100% on the Deporte Madrid Card.

2) Monthly guided sports activity fee.

- This fee gives the holder the right to attend one session per week of instruction in the following sports activities.

- If the sports programme had two sessions per week, the price will be calculated by multiplying the general fee by two.

- If the sports programme includes three sessions per week, the price will times 2.5 the general fee.

- The reductions contemplated in the table shown in point 3 above, for the categories of child and youth, will be 65% and 45% respectively, when the activities are held outdoors, except for tennis and paddle.

- The 100 % reduction in price for disabled persons, shown in point 3 above, for disabled persons will only be applicable to specific programmes designed for persons from this collective group.

- The 70% reduction for disabled persons shown in point 3 above will be applied provided they hold the special sports card issued by the Madrid City Council and fulfil the requirements established for the inclusion of the disabled as set out in the Order from the General Director of Sports, dated 13th May, 2015, regulating the programme of activities organised by the municipal sports centres.

- The 100% reduction for persons at risk of social exclusion contemplated for this price as shown above in point 3 will be applicable provided the requirements are fulfilled as established in the section on social exclusion included in the Order from the General Director for Sports, dated 13th May, 2015, regulating the programme of guided activities organised by the municipal sports centres.

- The 50% reduction on this price as shown above in point 2, for users with sports medicine prescription. They will be entitled to the guided sports activities included in the Programme "Hábitos saludables" (Healthy Habits) for persons with sports medicine prescription, provided the requirements are fulfilled as established in the section referring to the inclusion of these persons, as per the Order from the General Director for Sports, dated 13th May, 2015, regulating the programme of guided activities organised by the municipal sports centres.

- The large family discount established in point 6 of this agreement may be applied to this price.

- When the registration for the guided sports activity starts after the 15th of the month or ends before the 16th, a reduction of 50% on the fee for this month will be applied.

- For school activities in collaboration with sporting entities, the terms of the respective agreement will be met.

3) Personalised fee service.

- This gives the right to one hour of the personalised guided activity with a qualified sports technician, not including the fees for the sports units used during the session.

- The 70% reduction on this price for disabled persons, as shown in point 3 above, will be applied provided the former are holders of the special sports card issued by the Madrid City Council and fulfil the requirements established in the section referring to disabled persons, contained in the Order from the General Sports Director, dated 13th May, 2015, regulating the programme of guided activities organised by the municipal sports centres.

4) Special intensive course module.

- Applied to intensive courses carried out outside the general programme of classes and sports schools.

- Gives the right to attend 5 sessions of the course; the duration of each session is as follows:

- Activities in the water, 30 minutes for programmed intensive courses for children and 45 minutes for programmed intensive courses for youth and adult categories.

- Other activities, 60 minutes.

- The duration of the course will have a determined number of modules, comprising 5 sessions per module, spread out over one or several days.

- The price of the course will be calculated in accordance with the number of modules it includes.

- The reductions on this price shown in point 3 above will be applied to each module.

- The 70% reduction on the price shown in point 3 above, for disabled persons, will be applied provided they hold the special sports card issued by the Madrid City Council and fulfil the requirements established as mentioned above for the inclusion of the disabled in Order from the General Director of Sports, dated 13th May, 2015, regulating the programme of activities organised by the municipal sports centres.

- The 100% reduction on the price shown in point 3 above, for persons at risk of social exclusion, will be applicable provided the requirements are

fulfilled as established in the section on social exclusion included in the Order from the General Director for Sports, dated 13th May, 2015, regulating the programme of guided activities organised by the municipal sports centres.

- The 50% reduction on the price shown in point 3 above, for users with sports medicine prescription, will be applicable to the guided sports activities included in the Programme “Hábitos saludables” for persons with sports medicine prescription, provided the requirements are fulfilled as established in the section referring to the inclusion of these persons, as per the Order from the General Director for Sports, dated 13th May, 2015, regulating the programme of guided activities organised by the municipal sports centres.

- The large family discount established in point 6 of this agreement may be applied to this price.

5) Sports centre court (basketball, handball and similar).

- Payable by the hour on the court designated by the person in charge of the sports centre.

- For use of a basketball court for “3 against 3”, there will be a 40% reduction on the general fee.

- The use of the sports area for official Federation competition matches when the players from the local team have the season training card will be subject to a reduction of 50%.

- The use of the sports area for official individual sporting events programmed by the Federation when the sportsmen and women from the organising entity have the season training card will be subject to a discount of 50%.

- If the court is in a covered and enclosed pavilion, a supplement of 21.15 euros per hour of use will be applicable.

- For covered open air courts, there will be supplement of 8.50 euros per hour of use.

- If the court is illuminated, there will be a supplement of 3.70 euros per hour of use.

- For the use of a basketball court for “3 against 3” and the use of the sports area for matches or individual competitions officially organised by the federation when the sportsmen and women from the local team or those organising the competition hold the season training card, no supplement will be charged.

- When the time of use is more than one hour, the price will be obtained by multiplying the corresponding fee by the number of full hours of use, and half the fee for each half hour or fraction. This same rule will be applied to any relevant supplements.

6) Football, rugby or baseball pitch.

- Payment is due on each hour of use of a full football, rugby or baseball team pitch assigned by the sports centre.

- When a 7-a-side football team uses either an 11-a-side pitch cross-wise or a 7-a-side pitch, a reduction of 50% will be applicable on the general fee.

- For the use of a 5-a-side pitch, there will be a 60% reduction on the general fee.

- The use of the sports area for matches programmed officially by the federation when the sportsmen and women from the local team have a season training card, there will be a 50% reduction.

- The use of the sports area for official individual sporting events programmed by the federation when the sportsmen and women from the organising entity have a season training card will be subject to a discount of 50%

- If the pitch is artificial turf there will be a supplement of 25.00 euros per hour of use. This supplement will have a reduction of 50% for 7-a-side or 5-a-side football.

- If the pitch is floodlit, there will be a supplement of 9.40 euros per hour of use.

This supplement will not be applicable to matches or individual sports competitions officially programmed by the federation when the sportsmen and women from the local team have a season training card.

- When the time of use is more than one hour, the price will be obtained by multiplying the corresponding fee by the number of full hours of use, and half the fee for each half hour or fraction. This same rule will be applied to any relevant supplement.

7) Pavilions, pools, athletics tracks, large pitches and auditoriums.

- The payment of this fee gives the right to use a sports pavilion, pool, athletics track, large pitch or auditorium with its equipment for one hour.

- Sports pavilion is to mean any covered enclosure including one or more traditional sports units with its corresponding equipment or single covered sports enclosure subdivided into several units.

- For illumination or floodlighting of the pavilion, pool, track, large pitch or auditorium, there will be a supplement of 9.40 euros per full hour of use.

- When the user is a sports federation of a sports entity with registered office within the Madrid municipal area, and is to be used to organise a sporting event included in the official calendar of a Spanish federation recognised by the High Sports Council, lasting no longer than one week, a 100% reduction on the general fee and lighting supplement, if required, will be applicable.

- When the user is a non profit organisation, such as sports federations, sporting or welfare entities and the use of the sports unit is to be for developing activities related to their social purpose (except those mentioned above), there will be a 50% reduction on the general fee. This reduction will not apply to the lighting supplement if this were required.

- When the time of use exceeds one hour, the price will be obtained by multiplying the corresponding fee by the number of full hours of use and for each additional half hour or fraction, half the fee will be added. This same rule will apply to the lighting supplement, if applicable.

8) Classrooms and meetings rooms.

- The payment of this fee gives the right to use a classroom or meeting room in the sports centre, including basic equipment.

- The price will be established for each hour or fraction.

- When the time of use exceeds one hour, the fee will be obtained by multiplying the corresponding fee by the number of full hours of use and for each additional half hour or fraction, half the fee will be added.

9) Sports area in pools or athletics tracks.

- This price will be paid in the following cases:

- Per hour of use of a 25 metre lane in a swimming pool, a teaching pool or an athletics lane or track.

- Per hour of use for a waterpolo match.

- If the waterpolo match has been officially programmed by the federation and the sportsmen and women in the local team hold the season training card, there will be a 50% reduction on the general fee.

- The use of the sports area for individual sporting competitions officially programmed by the federation, and the sportsmen and women from the organising entity hold the season training card, there will be a 50% reduction on the general fee.

- When more than four lanes are used, charge 7 will be applied, without this implying the reservation of the whole area. The number of lanes available will be fixed by the centre, depending on the sports centre programming.

- When the time of use is greater than one hour, the price will be obtained by multiplying the charge by the number of full hours of use and for each additional half hour or fraction, half the charge will be added.

10) Tennis, paddle, frontón, squash, badminton or pickleball courts.

- The payment of the fee gives the right to use the court assigned by the municipal sports centre for one hour, except for squash, when the period will be reduced to thirty minutes.

- The use of a pickleball court will be subject to a reduction of 20% on the general fee.
- The reductions contemplated for this price shown in point 3 above will apply to all the services referred to except for squash and badminton, provided the following conditions are met:
 - a. Child category: at least one player is to be under 15 and the rest should also be under 15 or over 65 years of age.
 - b. Youth category: one player is to be under 27 and over 14 and the rest also under 27 or correspond to the child or senior categories.
 - c. Senior category: all the players are to belong to this category.
- A maximum of 4 players per court except for squash where there may only be two players.
- For the use of the sports area for matches officially programmed by the federation, where the sportsmen and women have the season training card, there will be a 50% reduction on the charge. If the match lasts longer than one hour, the price will be calculated by multiplying this figure by the number of full hours of use and half the figure for each additional half hour or fraction.
- For frontón, tennis, paddle or pickleball courts, a supplement of 2 euros per hour will be charged.
- Lighting will have a supplement of 3.70 euros per hour.
- There will be no supplement for the use of covered enclosure and lighting for squash and badminton courts.
- There will be no supplement for use of the sports area for matches officially programmed for competitions by the federation, when the sportmen and women from the local team have season training cards.

11) Season training card.

- The payment of this fee gives the right to use a unit or sports zone for training during the sports season for:
 - Sports associations duly constituted and registered as such, in accordance with the terms of Law 15/1994, dated 28th December, regarding Sport in the Comunidad de Madrid, whose members are federated for the sports season in course.
 - Teams participating in the Municipal Sporting Games which can prove registration.
 - Marathon runners who prove they are federated and have undergone a sports medical exam and provide an official medical certificate or report from the Municipal Department of Sports Medicine Programmes.
- The fee will be applied to each sportsman or woman and gives the right to one hour a week for training purposes. For seasonal reservation of

training time for more than one hour a week, the proportional price for the number of hours will be applied.

- There will be a reduction of 50% when the season reservation is made on behalf of associations and teams for individual sports and for marathon runners.

- The 70% reduction on the price shown in point 3 above, for disabled persons, will be applied provided they hold the special sports card issued by the Madrid City Council. The reduction will not apply to the supplements established in the specific provisions regarding this charge.

- Season cards are to be personal and non-transferable.

- Each sportsman or woman will have to pay a supplement of 21.15 euros per season, when a covered enclosure is used, regardless of the number of hours a week available.

- For installations using artificial turf, each sportsman or women will have to pay a supplement of 12.50 euros, for 5-a-side or 7-a-side football, or of 25.00 euros for 11-a-side football, regardless of the number of hours available.

12) Special sports season cards.

- The payment of this fee gives the right to use of a sports unit or space for one hour a week, during a sports season, by non profit welfare service entities constituted and registered with the relevant Register, in accordance with Law 11/2002, dated 18th December, on the Ordering of Activity at Welfare Action Centres and Services and Improvement in Quality of the Providing of Welfare Services in the Comunidad de Madrid for the development of sports programmes.

For welfare entities described above who have furthermore been declared of public benefit in accordance with Organic Law 1/2002, dated 22nd March, regulating the Right to Association and with Royal Decree 1740/2003, dated 19th December, on procedures related to associations of public benefit, there will be a reduction of 100%.

13) Registration for Municipal Sports and Games.

- This fee gives the right to participate in a team at the Municipal Sports and Games Session and Spring Tournament. Participants are to conform to the norms and regulations of the Municipal Sports and Games.

- The sports modalities will include the following adult categories: adult (senior), youth (youth and cadet) and child (child, novice, beginner and pre-beginner).

- There will be a reduction of 50% for all-female teams.

- There will be a 75% reduction for those teams which have not participated in the Municipal Games this season and which register for the Spring Tournament of the said season.

14) Registration fee for racquet sports ranking.

- In order to participate in a tennis, paddle, frontón or badminton ranking, organised by a municipal sports centre, regardless of its duration, each player is to pay this fee.

- The providing of services related to holding matches valid for this ranking is subject to the fees and other aspects contained in this agreement.

15) Municipal sports tournament.

- This fee gives a team the right to participate in the municipal tournament organised by Madrid City Council. It does not include the referee fees.

- Participants are to conform to the conditions, rules and regulations of each competition.

- There will be a 75% reduction on the general fee for the paddle tournament.

- There will be a 85% reduction on the general fee for the tennis tournament.

- There will be a reduction of 50% for all-female teams.

- Teams participating in a competition in the Municipal Sports Games will enjoy a 100% reduction on the general fee if they register for a municipal sports tournament during the same sports season and in the same sports discipline.

16) Tournament match on covered sports centre 7-a-side football pitch.

- This fee is to be paid for each team and match to be played in a tournament organised by the sports centre, but may not be a federation competition nor be included in the municipal competitions programmed by the General Sports Council, which are subject to rates 13 and 15.

- The matches are to be played on one of the transversal courts at a sports pavilion or a 7-a-side football pitch with artificial turf.

- The fee includes all the services necessary for the match, including referee fees and organisation.

- Participants are to comply to the specific rules and regulations for each competition.

17) Tournament match indoors.

- This fee is to be paid by each team in order to participate in a tournament organised by the sports centre, and this may not be a federation competition nor be included in the municipal competitions programmed by the General Sports Council, which are subject to rates 13 and 15.

- The matches will be played on a covered, lengthwise sports centre court which occupies two or more transversal sports courts. If the pavilion does not have a transversal sports court, the charge will be the same as charge number 16.

- The payment includes the services required to play the match, including refereeing and organisation.

- Participants are to comply to the specific rules and regulations for each competition.

18) Competition match on a large pitch.

- This charge is to be paid by each team per match in order to compete in tournaments organised by a sports centre, excluding federation tournaments and municipal competitions programmed by the General Sports Council, to which charges 13 and 15 apply.

- The matches are to be played on large pitches such as those used for 11-a-side football, rugby or similar sports requiring pitches of this size.

- The payment includes the services required to play the match, including refereeing and organisation.

- Participants are to comply to the specific rules and regulations for each competition.

19) Basic medical check up.

- This charge entitles the payee to a basic medical check up which includes: medical consult, exam, basic anthropometry and specific tests indicated by specialists.

- This price will also be charged for medical assessment if physiotherapy treatment is required or for persons requiring an initial assessment before starting cardiac rehabilitation.

- The discount on this price shown in the table in part 3 above for disabled persons requires that the recipient be the holder of the special sports card issued by the Madrid City Council. The discount is compatible with the age rate discount.

20) Special sports check up.

- This entitles the payee to a special medical check up including: medical consult, exam, anthropometry, medical history, electrocardiogram, ergometry and other specific tests indicated by specialists.

21) Cardiovascular fitness.

- This is a monthly charge, per person, entitling to one session per week of physical exercises programmed individually under medical control and supervision, aimed at cardiac rehabilitation adapted to each patient's prognosis. When two or three sessions per week are prescribed, the charge will be double or triple the set charge, according to the number of sessions.
- During the sessions, heart beat and blood pressure will be controlled and there will be periodical electrocardiogram monitoring.
- These sessions will take place in the sports medicine centres inside the municipal sports centres.

22) Physiotherapy session.

- The objective of a physiotherapy session will depend on the pathology of each patient, and all the necessary physical means will be used for this treatment; this is understood to include electrical, water, mechanical, thermal means, as well as manual or therapeutic exercises, all aimed at solving and improving the state of this problem.
- The duration of the session will be determined by the type of pathology and the objectives of the treatment. The minimum duration established by the WHO is 30 minutes.

23) Physiotherapy voucher (5 sessions).

- The physiotherapy voucher entitles the bearer to 5 physiotherapy sessions in the conditions established in charge number 22.
- In those cases where the voucher is issued as a reusable card, the price will be increased by 1 euro.
- The voucher will be valid until 31st January of the year after its purchase; sessions are non-refundable even if not attended, although the voucher may be exchanged for another of the same kind for the following year, on payment of the difference in price. The deadline for exchanging the voucher is on the last day of February, and this exchange can be made at any of the municipal sports centres in service during this period and where these vouchers are available.

24) Back treatment course charge.

- This charge is to be paid by each person attending the course and the card entitles the bearer to two sessions per week of the Back Treatment Course, which is given by physiotherapists and lasts for 50 minutes.
- This activity is for small groups, with a maximum of ten.

25) Entrance fee for covered pool, body building, sauna or guided activity.

- This fee entitles to:

- a. One session at the indoor pools, for a maximum of two hours.

- b. One session at the body building room, maximum 90 minutes.

Under 18's may not use this service unless under the supervision of an instructor present in the room the whole time, and the minimum age for this service is 16.

- c. A 45-minute session in the sauna. Under 18's may not use this service.

- d. A guided sports activity in accordance with the discipline, group and time table determined by each sports centre and the number of pupils.

- The days, hours and number of pupils available for these services will be set by the municipal sports centre.

- The discount for this price as per the table shown in point 3 above for disabled persons will only include the indoor pool and body building services, and will require that the applicant holds the special sports card issued by the Madrid City Council. This discount will also be applicable to the carers accompanying them, if they require assistance in order to attend. For body building, justification will be required, in the form of a medical check up no more than 2 years old, proving that the disabled person in question can carry out this activity.

- The discount on this price for unemployed persons, as per the table shown in point 3 above, will be applicable to the services offered from Monday to Friday, not including holidays until 14:00 hours and will be compatible with the discount per age group.

- Access to the indoor pool is free for under-5's.

- This price is also entitled to the large family discount as per point 6 of this agreement.

Under 14's may not enter the indoor pool unless accompanied by an adult (over 18) with valid access card for the pool.

26) Outdoor pool ticket.

- This charge entitles to one session per day in the outdoor pool area during the times established for the same.

- Days, times and capacity available are to be set by the municipal sports centre.

- The discount on this price for disabled persons, as per the table shown in point 3 above, requires that this person be the bearer of the special sports card issued by the Madrid City Council. This discount will also be applicable to their carers, when the disabled person in question requires assistance, as per the regulations.

- The discount on this price for the unemployed as per the table shown in point 3 above will be applied to services provided from Monday to Friday except holidays, and will be compatible with the age group discount.

- Access to the pool service is free for under 5's.

- This price is also eligible for the large family discount as per point 6 of this agreement.

Under 14's may not enter the indoor pool unless accompanied by an adult (over 18) with valid access card for the pool.

27) Pleasure boats.

- The price includes hiring a boat by a maximum of 4 persons for a period of 45 minutes as from the time hired, Monday to Friday except for holidays.

- The discount as per the table shown in point 3 above is applicable from Monday to Friday, except for holidays until 14:00 hours, provided one of the occupants is over 65.

- Children under 14 are to be accompanied by an adult (over 18).

28) Pleasure boats (Saturdays, Sundays and holidays).

- The price is for hiring a boat by a maximum of 4 persons for a period of 45 minutes as from the time hired, Saturdays, Sundays and holidays.

- Children under 14 are to be accompanied by an adult.

29) Motor launch

- Charge applicable to anyone over 4 years of age, valid for a trip in the designated motor launch.

- Children under 14 are to be accompanied by an adult (over 18).

30) Use of the sports centre.

- The payment of this charge entitles one to its use or individual non-organised sport at the courts, pitches or tracks designated by the centre for this purpose (in general, athletics tracks, jogging circuits, ice rinks, table tennis facilities and mini-fronton courts).

- The payment of this charge entitles one to use of the rock wall, provided the requirements established in the regulations regarding use and functions set out by the municipal sports centres are fulfilled. Over 18's and minors with parental or guardian authorisation may use the rock wall; the latter, however, must be accompanied by an adult who has paid the corresponding charge. Indoor rock walls will be liable to a supplement of 3.20 euros.

- The hours of availability will be set by the centre in such a way as not to interrupt the programmed sports activities.

- The payment of this charge is per hour except in those rock walls where the time limit is two hours.
- This price is compatible with the large family discount, as per point 6 of this agreement.

31) Multiuse voucher (10 sessions).

- The payment of this voucher entitles one to use 10 services, whether the same or different, including the following: body building, sauna, pool or guided activity, at the times and in the manner established in charges 25 and 26.
- When the voucher is issued as a reusable card, there will be a supplement of 1 euro.
- The voucher will be valid until 31st January of the year after its purchase; sessions are non-refundable even if not attended, although the voucher may be exchanged for another of the same kind for the following year, on payment of the difference in price. Two periods of exchange are available: from 2nd January until the last day of February and from 1st to 15th July, and this exchange can be made at any of the municipal sports centres in service during these periods and which have these vouchers available.

32) Annual changing room voucher.

- For sportsmen and women over 18 years of age who are to carry out any sporting activity outside the sports centre. The voucher entitles the bearer to use the changing room, a locker and a shower, for one year as of registration for this service.
- The management of each sports centre may establish the days, times and capacity for use of the changing rooms with this voucher.
- In no case does the voucher entitle the holder to the use of the sports zones inside the sports centre, nor to warm up or stretch.
- All the lockers will be opened when the sports facilities close. In no case will the Management be responsible for objects deposited in the lockers.

33) Thermal zone.

- The payment of this charge entitles one to a session up to a maximum of 80 minutes in the zones set aside as thermal zones and indoor pools at the municipal sports centres.
- Under 18's may not have access to this service.
- The days, times and capacity for this service will be set by the municipal sports centre.
- This price will be compatible with the large family discount established in point 6 of this agreement.

34) Use of the BMX “Madrid Río” circuit (free use).

- Payment of the charge entitles one to non organised use of the BMX “Madrid Río” circuit for a period of time up to two hours.

- The days, times and capacity for this service will be fixed by the sports centre where the circuit is located, taking into account the rest of the programmed activities held there.

- The price does not include the loan of the bike or of the other equipment necessary for this sport, which is to be provided by the user.

- For the use of the BMX circuit, the provisions established by the Madrid City Council for this service and activity will be applied. In any case, the minimum age for use of the circuit is 12, and anyone under the age of 15 is to be accompanied by an adult.

The following discounts are applicable according to the age group: child 40% and youth 20%.

35) Monthly fee Madrid Deporte Total (Total Sports Voucher)

- For holders of the Madrid Deporte, entitling holders to:

- a. Free use service specified in charges 25 and 26.

- b. Services established in charge 30 (use of the sports centre).

- c. Services of tennis, paddle and frontón courts in the mornings up until 15:00 hours from Monday to Friday excluding holidays, from September to May. Where necessary, the supplements established by charge 10 will be applicable. For access, it is necessary for at least half of the players to prove they are holders of the Madrid Deporte (Madrid Voucher) (any kind).

- d. The 25% discount on tennis, paddle and frontón courts for all other days and times. Where necessary, the supplements established by charge 10 will be applicable. For access, it is necessary for at least half of the players to prove they are holders of the Madrid Deporte (Sports Voucher) (any kind).

- e. The 25% discount on basic medical check ups and physiotherapy (charges 19 and 22).

- f. Attending the guided classes and areas programmed specifically for the holders of this voucher; registration for these classes and areas is not necessary as they are for general attendance, in accordance with the terms of Order from the General Director of Sports, dated 13th May, 2015.

- g. The 75% discount on the monthly fee as per charge 2, for sports activities if registration is made for a group with specific days and times, except for those with a child's voucher, where the discount will be 100% for the first registered sports activity and 75% for the remaining ones. For the guided sports activities current till 31st August, 2016, the discount will also be 100% for voucher holders from the categories of adult, youth or senior.

- The days, times, capacity and guided activities available for these services will be set by the municipal sports centre in accordance with its planned activities and the facilities available.
- The voucher will be personal and non-transferable, and the holder identified by his/her voucher card.
- This price will also be eligible for a 25% discount when the services it entitles the holder to are used exclusively from Monday to Friday excepting holidays until 15:00 hours and Saturdays, Sundays and holidays within the full opening hours of the sports centre.
- This price will also have a 50% discount when the services are used exclusively after 15:00 hours on Friday, and on Saturdays, Sundays and holidays within the full opening hours of the sports centre.
- This price will also be eligible for the large family discount established in point 6 of this agreement.
- This price will be eligible for the following age group discounts: child 40%, youth 20% and senior 70%, and these are in turn compatible with the specific provisions applicable to this charge.
- This price will be eligible for a 20% discount for holders of the “Club de Producto de Turismo Idiomático” language student card issued to students of the Spanish language.
- Under 18's may not be allowed access to the body building service unless there is an instructor in the room, in which case the minimum age for entering will be reduced to 16.
- Under 18's may not use the sauna facilities.
- Under 14's may not use the pool facilities unless accompanied by an adult with the relevant pool access authorisation.

36) Monthly Fee for Deporte Madrid (Sports Voucher) Uso Libre (Free Use).

- Holders of the Deporte Madrid Uso Libre are entitled to free use of the services for pool, body building and sauna within the terms established in charges 25 and 26 and the services established in charge 30 (use of the sports centre).
- The days, times and capacity available for these services will be set by the municipal sports centre in accordance with its programme of activities and the facilities available.
- The voucher will be personal and non-transferable, and the holder identified by his/her voucher card.
- The large family discount is applicable to this charge, as established in point 6 of this agreement.
- This charge will have the following discounts for age groups: child 40%, youth 20% and senior 70%.

- Under 18's may not be allowed access to the body building service unless there is an instructor in the room, in which case the minimum age for entering will be reduced to 16.
- Under 18's may not use the sauna facilities.
- Under 14's may not use the pool facilities unless accompanied by an adult with the relevant pool access authorisation.

37) Monthly charge Deporte Madrid (Sports Voucher) Sala Multitrabajo (Multidiscipline).

- Holders of the Deporte Madrid Sala Multitrabajo are to pay this and it entitles them to the body building service within the terms established for charge 25.
- The days, times and capacity available for these services will be set by the municipal sports centre in accordance with its programme of activities and the facilities available.
- The voucher will be personal and non-transferable, and the holder identified by his/her voucher card.
- The large family discount is applicable to this charge, as established in point 6 of this agreement.
- This charge will have the following discounts for age groups: youth 20%.
- Under 18's may not be allowed access to the body building service unless there is an instructor in the room, in which case the minimum age for entering will be reduced to 16.

38) Monthly charge Deporte Madrid (Sports Voucher) Actividad Dirigida (Guided Activity).

- Holders of the Deporte Madrid Actividad Dirigida who have paid for this are entitled to:
 - a. Attend guided classes and groups specifically programmed for holders of this voucher, without the need to register for said classes and groups as they are open activities, in accordance with the terms established in the Order from the General Director for Sports dated 13th May, 2015.
 - b. The monthly charge corresponding to charge number 2 is free for the first guided sports activity if registration for a group with specific days and times is necessary.
 - c. There will be a 75% discount on the monthly charge corresponding to charge number 2 on the second and successive sports activities if registration for a group with specific days and times is necessary.
- The days, times and capacity available for these services will be set by the municipal sports centre in accordance with its programme of activities and the facilities available.

- The voucher will be personal and non-transferable, and the user identified by his/her voucher card.
- The large family discount is applicable to this charge, as established in point 6 of this agreement.
- This charge will have the following discounts for age groups: youth 20%.

39) Monthly charge for Deporte Madrid Familiar (Family Sport Voucher).

- The payment of this charge entitles up to three members of a family unit to use the services included in charge 35.
- The fourth and successive members of the family unit may be included in the Deporte Madrid Familiar on monthly payment of 15% of the charge.
- The days, times and capacity available for these services will be set by the municipal sports centre in accordance with its programme of activities and the facilities available.
- The voucher will be personal and non-transferable for each one of the members of the family included in the Deporte Madrid Familiar, and the user identified by his/her voucher card.
- To obtain the Deporte Madrid Familiar, the beneficiaries should provide proof that they belong to a single family unit. Spouses who are not legally separated may be included in the same voucher and any children under the age of 26 who live with them. If the parents are not married or are legally separated, either the father or the mother may be included in the voucher and any children under 26 who live with them. For the purposes of issue of this voucher, any legally recognised disabled children over 26 years of age, subject to parental rights or restored rights, will form part of this family unit.
- This price will be entitled to the large family discount established in point 6 of this agreement.
- Under 18's may not be allowed access to the body building service unless there is an instructor in the room, in which case the minimum age for entering will be reduced to 16.
- Under 18's may not use the sauna facilities.
- Under 14's may not use the pool facilities unless accompanied by an adult with the relevant pool access authorisation.

40) Monthly charge for thermal zone for holders of the Deporte Madrid Total, Uso Libre and Familiar (Total, Free Use and Family Sport Voucher).

- To access this, the monthly payments on the Deporte Madrid Total (Total Sport Voucher), Deporte Madrid de Uso Libre (Free Use Sports

Voucher) or the Deporte Madrid Familiar (Family Sport Voucher) must be up to date, respectively.

- Payment must be made jointly with the monthly fee for any of the Deporte Madrid.

- For the Deporte Madrid Familiar, each member using the thermal zone must pay this service charge.

- It entitles the holder(s) to a session of up to 80 minutes per day during the month in course in the zones dedicated to thermal zone at the municipal sports centre. The validity for users of the Deporte Madrid is to be in accordance with the days and times established by their Deporte Madrid.

- The large family discount as established in point 6 of this agreement is applicable.

41) Supplement for special reservation of sports areas.

- This charge will be applicable for reservation of a sports centre track, football, rugby or baseball pitch, classroom, pool lane or athletics track, training vessel, tennis, paddle, frontón, squash, or badminton court under the following two circumstances:

- When the reservation is made for a continual period of more than one month and for a maximum period including a whole sports season.

- When the use of the reserved space is for the carrying out of sports activities, tournaments or competitions organised with a third party but which are not federative or municipal competitions organised by the General Sports Council.

- The concession of this reservation to a third party is to be authorised in advance by the General Sports Council, and the third party will be obliged to pay the public prices corresponding to the services to be used.

- This supplement will be applied together with charges 5, 6, 8 and 9 with the following discounts:

- 40% off the use of a court at a sports centre.

- 65% off the use of a tennis, paddel, frontón, squash or badminton court.

- This charge will be applied per hour or fraction thereof.

5. Charges will not be applicable for the use of municipal sports centres mentioned in point 11 of this agreement or for the activities carried out there in the following cases:

a) Persons who at the time of application or commencement of the services or activity can prove to belong to the Madrid City Council SAMUR-Protección Civil, the Fire Brigade or the Mobility Agents Corps.

b) Persons who at the time of application or commencement of the services or activity can prove to belong to the Municipal Police Corps of the Madrid City Council.

The Governing Body of the City of Madrid is authorised to modify the list of activities and municipal sports centres referred to in point 11 of this agreement.

6. Discounts. The prices listed above are subject to the application of the following discounts:

a) Large family discounts.

Those obliged to pay who, at the time of the request or start of the service or activity, prove they are members of a large family, in accordance with the terms of Law 40/2003, dated 18th November, regarding Protection for Large Families as well as other similar regulations, will benefit from a discount on the prices shown in the table in point 3 above, for the amounts and with the conditions expressed therein.

This discount will be applicable on the general charge, shown in the table of charges, once the corresponding reductions set out in the same table have been applied.

To benefit from this discount, the payee is to present the following documentation at the time he/she requests the service or activity:

1. ID of the payee. Those who do not have this document because they do not need it are to be accompanied by a family member, guardian, foster parent, carer or other member of the family unit with legal capacity, who is to present his/her ID card.

2. Original, certificate or certified photocopy of the valid large family card, issued by the Autonomous Community of residence of the beneficiary.

The percentage of the discount will be calculated in accordance with the category of the large family:

1. General category: 50% on the general rate, once the corresponding reductions have been made, if pertinent.

2. Special category: 90% on the general rate, once the corresponding reductions have been made, if pertinent.

b) Discount for municipal sports schools.

Those entities which have signed collaboration agreements with the Madrid City Council to run sports schools at municipal sports centres and entities whose members belong to their own sports school will be entitled to a 100% discount on the prices and charges associated to the use of sports areas, including supplements, to host matches officially programmed as part of a competition held by the corresponding federation.

c) Discount for schools, either public or state assisted.

The use of open air sports units or indoor facilities by either public or state assisted schools, to carry out their physical education programmes, provided they fulfil the requirements established by article 46 of the Regulations on Use of Municipal Sports Installations, will have a 100% discount on the corresponding price.

7. Creation of the obligation. The obligation to pay these public prices is created as soon as it is requested or at the commencement of the services or activity.

8. Reasons leading to the loss of the right to services or carrying out of the activity. The condition of voucher holder of any of the types of Deporte Madrid Vouchers is granted for an indefinite period of time, whilst the conditions of the Voucher do not change and the monthly payments are made or whilst the holder does not expressly deregister as such.

Failure to pay the monthly charge for the Deporte Madrid (Sports Voucher) of any type within the period of time established will lead to deregistration as referred to above, and also to the loss of the benefits and rights granted by this voucher, and, if a new registration is requested, payment of the Deporte Madrid card (charge 1) must be made, with the exception of interruptions in payment during a sports season as explained in the terms of the above mentioned charge 1.

In any case, the deregistration of a voucher holder, when requested by the interested party, will take effect as of the month following this request, provided this is done between the 1st and 15th of each month, and as of the second month if the request is presented to the Council between the 16th and the end of the said month.

Monthly voucher payments may be suspended during the months of July and August without this leading to automatic deregistration, and merely a temporary suspension of these rights.

The condition of being a beneficiary of the right to a sports activity with instructor will be valid for a sports season, with regards to both monthly payments within the established period of time or express request for deregistration.

9. Price control. The payment of the price is to be made at the time the service is requested as otherwise, this service or activity will not be provided.

When the service is provided at a sports unit or facility at a municipal centre for use by an entity, school or association, according to the terms of the regulations, the corresponding charge will be made as per this agreement, depending on the sports facility where this is provided and the daily length of use, and full, advance payment is to be made before the 15th of the month prior to this service.

Those users who choose to pay the monthly charges for their chosen activities by bank standing order are to provide the Municipal Administration with the precise details to do so.

Standing orders will come into effect as of the month after this information has been provided, if this is done between the 1st and 15th of each month, and as of the second month after if provided between 16th and the last day of the month.

The municipal administration is to be notified of any changes to the standing order information where pertinent, or if the standing order is cancelled, and will come into effect in the same period of time described in the paragraph above.

Those users who wish to pay the monthly charge in cash or by card are to do so in the following manner:

- In advance, up until the day established by the sports centre, which is in all events to be within the second fortnight of the month before the payment is due, for sports activities with instructor (charge 2), excepting the first payment which is to be made on registration. The periods for payment are to be established at the commencement of the activity for the entire duration of the same.

- For charges related to any of the kinds of Deporte Madrid (Sports Voucher) (charges 35 to 39), in advance, up to the date established by the sports centre which is in all events to be within the second fortnight of the month before payment is due, if it is associated to any of the free or reduced fee guided sports activities conceded by virtue of the said voucher and provided the holder wishes to maintain his/her place in said activity, or until the last day of the month, if the right to registration for one of the above mentioned guided activities has been foregone.

Vouchers and cards purchased at the municipal sports centres by remote control can only be used at the centre where they were purchased.

However, those purchased by direct control at a municipal sports centre may be used at any of the municipal centres where this system is of control is in place.

In no case will amounts paid by voucher holders in concept of charges 32, 35, 36, 37, 38, 39 and 40 be reimbursed.

When, for reasons beyond the control of the beneficiary, the service cannot be provided, reimbursement of the corresponding amount will be made. For guided sports activities the suspension of more than one monthly session will be necessary for this reimbursement to be made to compensate for services not provided.

When the services at the sports centres cannot be provided due to adverse weather conditions, reimbursement will not be due. For services related to charges 5, 6 and 10, the beneficiary may request a change up to the following working day after the sports activity was to have taken place, and will dispose of thirty calendar days to confirm the new reservation.

By Order of the General Director for Sports, the calendar of guided sports activities to take place at each municipal sports centre for each sports season (from September to August) will be approved, including the start and finish dates for these activities, and for the holiday periods, coinciding with the Christmas and Easter holidays. These holidays will not produce any reduction in the price of the monthly charge.

The control regulations referred to in this paragraph will be of supplementary nature where there are collaboration agreements with entities or institutions, with the aim of simplifying the fulfilment of formal and material obligations derived from the price or processes of settlement or collection.

10. VAT. Where the municipal sports facilities are controlled by a remote system, it is understood that the charges resulting from the application in each case will include in this price the tax on the services provided.

11. *List of activities and municipal sports centres not subject to the application of the terms included in point 5.* Regarding the terms of point 5 in this agreement, the following will not be subject to the public prices for the activities and municipal sports centres mentioned below:

1. Those who can prove they belong to SAMUR-Protección Civil, to the Fire Brigade or to the Mobility Agents Corps of the Madrid City Council:

a) Athletics:

Use of the athletics tracks at the municipal sports centres of Aluche, Orcasitas, Palomeras, Concepción, Vicálvaro and Moratalaz from Monday to Friday, not including holidays.

b) Basketball:

Use of a basketball court at the municipal sports centre of Aluche on Tuesdays not including holidays from 13:00 to 14:00 hours on request.

c) Football:

Use of a football pitch at the municipal sports centre of Orcasitas on Tuesdays and Thursdays not including holidays from 10:00 to 12:00 hours on request to the sports centre in question.

d) Indoor Football:

Use of an indoor football pitch at the municipal sports centre of Aluche one day a week between Monday and Friday not including holidays from 13:00 to 15:00 hours on request to the sports centre in question.

e) Swimming:

Use of the lanes for free use at the pools in the municipal sports centres of Casa de Campo, Vicente del Bosque, Palomeras, Alfredo Goyeneche, Plata y Castañar, San Blas and Marqués de Samaranch from Monday to Friday not including holidays on request to the sports centre in question.

f) Tennis:

Use of a tennis court at the municipal Tennis sports centres of Casa de Campo and Plata y Castañar, from Monday to Friday not including holidays from 13:00 to 15:00 hours on request to the centre in question and subject to the programme of events, reservations and availability of the various sports facilities.

g) Squash:

Use of a squash court at the municipal sports centre of Puente de Vallecas, on Mondays, Wednesdays and Fridays not including holidays from 09:00 to 11:00 hours on request to the sports centre and subject to the programmed events, reservations and availability of the various sports facilities.

h) Body building:

Use of the body building room at the municipal sports centres of Arganzuela, Casa de Campo, Aluche, Orcasitas, Puente de Vallecas, Alfredo Goyeneche, Marqués de Samaranch, Alberto García, Vicente del Bosque, on request to the sports centre in question.

2. For members of the Madrid City Council Municipal Police Force:

a) Athletics:

Use of the athletics tracks at the municipal sports centres of Aluche, Orcasitas and Palomeras.

b) Basketball:

Use of a basketball court at the municipal sports centres of La Mina and Arganzuela until 15:00 hours from Monday to Friday not including holidays and on request to the sports centre in question.

c) Football.

Use of a football pitch at the municipal sports centres of Orcasitas and Aluche during two hours a week until 15:00 hours from Monday to Friday not including holidays when necessary for the training of the Municipal Police Force squad or when there are competitions with other organisms, on request to the sports centre in question.

d) Indoor Football:

Use of an indoor football pitch at a municipal sports centre from Monday to Friday not including holidays for internal competition tournaments or for competitions with other organisms, on request to the General Sports Council and in accordance with the calendar established between the Municipal Police School and the General Sports Council.

e) Swimming:

Use of the lanes at the pools for free use at the municipal sports centres of Casa de Campo, Vicente del Bosque, Plata y Castañar, José María Cagigal, Aluche, La Mina, Orcasur, Puente de Vallecas, Moratalaz, Hortaleza, Marqués de Samaranch, Cerro Almodóvar, San Blas and Alfredo Goyeneche, on request from the sports centre in question, from Monday to Friday, not including holidays up until 15:00 hours.

f) Tennis:

Use of one tennis court at the municipal sports centres of Plata y Castañar, Vicente del Bosque, Tenis de la Casa de Campo, Aluche, Orcasitas, Palomeras, Moratalaz, Concepción and Vicálvaro from Monday to Friday not including holidays until 15:00 hours, on request to the sports centre and subject to the programmes, reservations and availability of the various sports facilities.

g) Body Building:

Use of the body building room at the municipal sports centres of Arganzuela, Casa de Campo, Aluche, Orcasitas, Puente de Vallecas, Alfredo Goyeneche, Marqués de Samaranch, Alberto García, Pradillo,

Vicente del Bosque, Fernando Martín, José María Cagigal, Hortaleza, Cerro Almodóvar and Moratalaz, on request from the sports centre in question.

⁽¹⁾ Approved by the City Council Plenary by agreement dated 22nd December, 2010, to come into effect as of 1st January, 2011 (BOCM n^o. 311 dated 30th December, 2010). Modified by agreements dated 27th April, 2011 (BOCM No 106 dated 06/05/2011), 21st December, 2012 (BOCM No. 309 dated 28/12/2012), 20th December, 2013 (BOCM n^o 286 dated 28/12/2013), 19th December, 2014 (BOCM No. 310 dated 30/12/2014, ECM. BOCM No. 12 dated 15/01/2015.), 22nd December, 2015 (BOCM No 310 dated 30/12/2015), 24th February, 2016 (BOCM No. 57 dated 08/03/2016), and 23rd December, 2016 (BOCM No. 313 31/12/2016).

⁽²⁾ Current consolidated text valid to 1st January, 2017.

**PUBLIC PRICES OF THE PROGRAMME OF WINTER SPORTS
ACTIVITIES, RUN BY THE GENERAL SPORTS ADMINISTRATION⁽¹⁾**

AGREEMENT⁽²⁾

*«**One.** Approval of the establishment of public prices for the Winter Sports Activities Programme, organised by the General Sports Administration, figuring in the Annexure and in accordance with the conditions applying to the same.*

***Two.** The following are applicable to the terms established in articles 41 to 47 of the revised text of the Law Regulating Local Taxes, approved by Legislative Royal Decree 2/2004, dated 5th March, the General Regulations on Collection, approved by Royal Decree 939/2005, dated 29th July, and the Ordinance regulating public prices for providing of services or carrying out of activities.*

***Three.** This Agreement will come into effect as of the day following its publication in the Comunidad de Madrid Official Bulletin. However, it will be conditioned to the approval, publication and coming into effect of the modification of the Ordinance regulating the public prices for the providing of services or the carrying out of activities, the initial project for which was approved by Agreement by the Government Department on 22nd September, 2011».*

ANNEXURE

1. Object. These public prices consist of the amount to be paid by those benefitting from the General Sports Administration programme, for winter sports.

2. Liability. Those benefitting from any of the winter sports included in the General Sports Administration programme.

3. Charges. The following charges are to be paid according to the winter sport each person has registered for:

PUBLIC PRICES FOR THE WINTER SPORTS PROGRAMME RUN BY THE GENERAL SPORTS
ADMINISTRATION

	<u>Euros</u>
a) Adult module with accommodation "at the pistes"	
- In Spain or Andorra, 6 nights.	584,15
b) Adult module without "at the pistes" accommodation	
- In Andorra, 6 nights	551,05
- In Granada, 6 nights	523,15
- In the Spanish Pyrenees, 6 nights	536,60
- In Spain, 5 nights (5 days skiing)	455,90
- In Andorra, 5 nights (4 days skiing).....	446,60
c) Family module with "at the pistes" accommodation	
- Adult, in Spain or Andorra, 6 nights	583,10
- Child, in Spain or Andorra, 6 nights	443,55

The prices listed above include, as well as accommodation, all other services determined for each sport in the list of conditions governing the administrative contract carried out.

4. Payment obligation. The obligation to pay these public prices is created when the service is provided or the activity carried out.

5. Payment of the charges. The charges are to be paid at the time the interested party registers for the sport, which takes place before the service is provided or the activity carried out.

Payment will, however, be reimbursed for the activities describe in part 3 above, in the following cases and amounts:

a) In reasonably justified cases, duly proven before the departure date, if the person is not able to attend the module he/she registered for, the full amount paid will be reimbursed. Reimbursement will not, however, be made unless this is notified and proven before one p.m. of the Monday before the date in question.

b) Of the partial amount paid, depending on the date the cancellation is communicated and for whatever motive, as shown below:

PUBLIC PRICES FOR THE WINTER SPORTS PROGRAMME RUN BY THE GENERAL SPORTS
ADMINISTRATION

- 75 per 100, if notice is given fifteen natural days before the departure.

- 50 per 100, if notice is given before one p.m. on the Monday before departure.

The cancellation of a component of a family group which leads to a change in the programmed conditions, regarding the said family group, will mean the compulsory cancellation by all the other members of the family.

⁽¹⁾ Approved by the City Council Plenary by agreement dated 30th November, coming into effect as of 6th December, 2011 (BOCM No. 54 dated 5th December, 2011). Modified by agreement on 26th November, 2014.

⁽²⁾ Consolidated text valid on 29th November, 2014.

PUBLIC PRICES FOR PROVIDING SERVICES AT THE CECILIO RODRÍGUEZ PAVILION⁽¹⁾

AGREEMENT

*«**One.** To approve the establishment of the public prices for providing services at the Cecilio Rodríguez Pavilion figuring in the annexure and, in accordance with the conditions for application established therein and, once the text is published in the Comunidad de Madrid Official Bulletin, will come into effect on 1st January, 2014.*

***Two.** As of 1st January of each year, the public prices established herein will be subject to updating in accordance with the interannual variation of the Consumer Price Index for the month of November of the year immediately prior to it.⁽²⁾*

***Three.** The public prices established herein are to be subject to the terms of articles 41 to 47 of the revised text of the Law Regulating Local Taxes, approved by 2/2004, dated 5th March; the General Regulations on Collection, approved by Royal Decree 939/2005, dated 29th July, and the Ordinance regulating the public prices for providing services or carrying out activities».*

ANNEXURE

1. Object. These public prices are the amounts to be paid by those benefitting from the services the Madrid City Council provides at the Cecilio Rodríguez Pavilion regarding the holding of events and ceremonies. These events and ceremonies, when organised by the private sector, are to be related to promoting tourism, business, commerce fomenting of employment, social, educational, cultural, sporting or other activities of a similar nature, of municipal interest and falling within the competence of the Municipal Area of Madrid.

In addition to the right to use the pavilion for the period of time authorised, the following services will be provided: basic surveillance, security, cleaning, maintenance, and wireless connection for electronic devices (*wi-fi*); electricity, water and climatisation; lending of the furnishing and space needed for the catering service, if this were required. No food may be prepared in the pavilion.

2. Creation of the obligation. The obligation to pay these public prices is created as soon as the authorised installations are used by the beneficiary.

3. Payment and charges. Natural and legal persons who are authorised to use the Cecilio Rodríguez Pavilion are obliged to pay the public prices contained in this agreement.

The following rates will be applied⁽²⁾:

	<u>Euros</u>
a) Use of the pavilion, including assembly and dismantelling, for a full day, from 8:00 hours on the day of the event to 8:00 hours the following day.....	6.000,00
b) Use of the pavilion, including assembly and dismantelling, for half a day, in the morning, from 8:00 to 16:00 hours of the day of the event, or in the afternoon, from 16:00 to 24:00 hours the day of the event	3.000,00
c) When the authorised occupancy is two or more consecutive days, the following reductions will be applied:	
1. For the second day, 20%.	
2. For the third to the seventh day, 40%.	
3. For the eighth and successive days, 60%.	

The price will not have to be paid in advance in the following cases:

- For the holding of institutional acts which, either ex officio or on proposal of other Administrations, foundations, associations, companies or entities, the Madrid City Council may organise or preside.

- For the holding of acts promoted by institutions or entities hosted by the Council, provided its institutional participation is linked to the providing of facilities.

4. Reductions. When the beneficiary is a non-profit making entity, the above mentioned prices will be reduced by 50%.

5. Control, settlement and payment. The public prices will be paid prior to the providing of the service; therefore the use of the facilities will not be permitted if proof of payment is not given.

Once the application has been received by the relevant services at Madrid Council, the settlement will be issued, and this amount is to be paid into any of the collaborating financial entities.

If the ceremony or event were to be suspended, the charge would be reimbursed in the amount and terms described below:

a) 50%, if the Council is given three months notice in advance of the date the ceremony or event was to take place.

b) 25%, if the Council is given two months notice in advance of the date of the ceremony or event.

However, reimbursement will not be made if the Municipal Administration is not given notice of the cancellation or when payment of the charge was made less than two months before the date authorised for the use of the pavilion.

6. Deposit. A deposit is required for possible damages which may be caused to the pavilion during the course of the ceremony or event or actions carried out before or after the same.

The deposit is to be 15% of the public price paid and will be governed by the current regulations regarding constitution, return and execution of deposits made to the Madrid City Council and its autonomous organisms.

The deposit will be returned when, after the ceremony or event has taken place, a check has been made to ensure there are no damages claims deriving from the use of the Cecilio Rodríguez Pavilion.

7. VAT. The rates mentioned above are subject to the application of Value Added Tax, in accordance with current legislation.

⁽¹⁾ Approved by the Council Plenary by agreement on 20th December, 2013, coming into effect of 1st January, 2014 (BOCM No. 308 dated 28th December, 2013).

PUBLIC PRICES FOR PROVIDING SERVICES AT THE CECILIO RODRÍGUEZ PAVILION

⁽²⁾ Charges updated to 1st January, 2015 are:

	<u>Euros</u>
a) Use of the pavilion, including assembly and dismantelling, for a full day, from 8:00 hours on the day of the event to 8:00 hours the following day	5.976,00
b) Use of the pavilion, including assembly and dismantelling, for half a day, in the morning, from 8:00 to 16:00 hours of the day of the event, or in the afternoon, from 16:00 to 24:00 hours the day of the event	2.988,00

For 2016 the public prices of 2015 were not updated, in accordance with the terms established in the transitory provision of Law 2/2015, dated 30th March, regarding the deindexing of the Spanish economy.

PUBLIC PRICE FOR CLINICAL ANALYSIS TO DETERMINE THE LEVEL OF ALCOHOL IN THE BLOOD⁽¹⁾

AGREEMENT

*«**One.** To approve, with effect on the day after the publication of the Agreement in the Comunidad de Madrid Official Bulletin, the setting of the public price for the carrying out of clinical analysis to determine the levels of alcohol in blood, as figure in the annexure and in accordance with the conditions for application established therein.*

***Two.** As of 1st January of each year, the public price established will be updated in accordance with the interannual variation of the Consumer Price Index for the month of November of the year immediately before ⁽²⁾.*

***Three.** The terms laid out in articles 41 to 47 of the revised text of the Law regulating Local Taxes, approved by Legislative Royal Decree 2/2004, dated 5th March; in the General Regulations for Collection of Taxes, approved by Royal Decree 939/2005, dated 29th July, and the Ordinance Regulating the Public Prices for the Providing of Services or the Carrying out of Activities are all to be applied to the public price established by this Agreement».*

ANNEXURE

1. Object. This public price corresponds to the amount to be paid by those who request from the relevant authority the carrying out of tests to detect possible intoxications from alcohol, by means of clinical analysis, provided the result of this test are to prove that the amount of alcohol in blood was over the maximum limits allowed whilst driving, as contained in the General Regulations on Driving, approved by Royal Decree 1428/2003, dated 21st November.

2. Payment obligations and charges. Drivers of traction vehicles and bicycles, as well as other road users involved in a road accident are obliged to pay this fee, when, on their own request, they are tested to determine the level of alcohol in the blood and the result is positive.

The public price is 120,00 ⁽²⁾ euros.

3. Creation of the obligation. The obligation to pay this public price starts as soon as the service is provided.

4. Control of payment. This charge can be paid in two ways, to be determined by the Madrid Salud Autonomous Organism, depending on the instrumental means it has to control this: or by an advance deposit made before the contrast tests are made and the cost of which will be applied to the charge if the result of the test were positive and reimbursed later if the results were negative. Once the level of alcohol in the blood has been determined as exceeding the maximum legal limits, by means of a charge issued by the relevant organ, which is to show the precise data justifying the obligation for payment, as well as the amount due, after which the corresponding invoice will be issued and sent to the interested party.

The payment of the public price will be made via the collaborating entities authorised by the Madrid City Council for this purpose, within the periods established as a general rule for tax debts and other public money by the General Tax Ordinance on Control, Collection and Inspection.

5. VAT. Value Added Tax is to be added to the corresponding charges, in accordance with current legislation.

⁽¹⁾ Approved by the City Council Plenary by means of agreement dated 29th April, 2009, coming into effect as if 1st May 2009 (BOCM No. 101 dated 30th April, 2009).

⁽²⁾ The updated amount to 1st January 2015 is that of 130.11 euros. For 2016 the 2015 public prices will not be updated, in accordance with the terms established in transitory provision of Law 2/2015, dated 30th March, on the deindexation of the Spanish economy.

PUBLIC PRICE FOR HEALTH ADVICE AND ADMINISTRATION OF VACCINATIONS FOR INTERNATIONAL PASSENGERS⁽¹⁾

AGREEMENT

«One. To accept the recommendation regarding international vaccinations in the terms established in the agreement signed between the State and the Madrid City Council.

Two. To approve, with effect of the day after the publication of this Agreement in the Comunidad de Madrid Official Bulletin, the establishment of the public price for health advice and the vaccination of international passengers, as shown in the annexure and in accordance with the conditions for application established therein.

Three. With effect as of 1st January of each year, the public price established will be updated in accordance with the interannual variation of the Consumer Price Index for the month of November of the year immediately preceding⁽²⁾.

Four. The terms established by articles 41 to 47 of the revised text of the Law regulating Local Taxes, approved by Legislative Royal Decree 2/2004, dated 5th March, will be applied to the public price established in this Agreement; also the General Regulations on Collection, approved by Royal Decree 939/2005, dated 29th July, and the Ordinance regulating the Public Prices for Providing Services or the Carrying out of Activities».

ANNEXURE

1. Object. This public price is the amount to be paid by the beneficiaries of the services provided by the Municipal Administration or its Autonomous Organisms, in those cases where, together with the corresponding health advice, the administration of any of the vaccinations recommended when travelling to certain foreign countries.

Therefore, there will be no charge for services consisting of health advice but no vaccination, or when the vaccination provided is one of those listed on the International Health List, notwithstanding the possible charge which may be made by the relevant Administration department.

⁽¹⁾ Approved by Council Plenary by agreement dated 29th April, 2009, to come into effect as of 1st May, 2009 (BOCM n°. 101 dated 30th April, 2009).

2. *Payment and charge.* Natural persons who attend the municipal international vaccination centre and who receive the vaccination will be liable to the charge as described above.

The public price is 34 euros ⁽²⁾.

3. *Creation of the obligation.* The obligation to pay this public price is created from the moment the service is provided, and advanced payment may be requested.

⁽²⁾ The updated amount on 1st January, 2015 is 36.85 euros. For 2016 the 2015 public prices will not be updated, in accordance with the terms established in transitory provision of Law 2/2015, dated 30th March, on the deindexation of the Spanish economy.
